THE LOCAL STOCK MARKET.

The feature of the week in local stock market circles has been the unprecedented demand for bonds. It is sufficient to absorb everything in the line of gilt-edged securities that is offered and is still far from satisfied. The demand reflects in an unmistakable manner the easy condition of the money market, and indicates the channel into which surplus investment funds are being directed. It is estimated that recent bond sales have amounted to not far from a half million dollars daily. The bond sales indicated on the Exchange daily sale list gives an extremely indifferent suggestion as to business being done in the investment security market. The great bulk of transactions are "counter sales" and the managers of bond departments of various banks are kept unusually busy. This is not singular, as at least a respectable minority of bond buyers know little of the Stock Exchange and less about the brokers operating in it. Almost the only bonds which are traded in the local Exchange are gas 5's. These with street railway securities and minor building bonds complete the list for the week. Gas 5's were in some little demand partly for speculation and partly for investment purposes at 92 for large blocks and a fraction higher in small transfers. Some idea of the general demand for securities may be secured from a view of the more remarkable recent transactions. The entire issue of bonds for the Young Men's Christian Association building has been placed through the First National Bank although the bonds will not be ready for delivery until well along in July. Of the new issue of city 4's $850,000 have been already placed. New issues of municipal, county and railway bonds are absorbed in a surprising manner and there is active competition for securities which in ordinary times would be sold with some little effort. The exceptional condition of the bond market and the tendency on the part of the public to buy anything and everything offered, was recently the occasion for the publication of a fairy tale regarding the securities of the Metropolitan Elevated Railroad company. The statement was made by a weekly journal that a bond issue of $9,000,000 had been floated in New York. Although the company is making satisfactory progress it has scarcely laid a suitable foundation for a superstructure of saleable bonds. In any event only preliminary work of the most superficial kind could be done in financing the road, and contracts would scarcely be made for bonds of a company whose possessions consist principally of a franchise. Michael C. McDonald whose experience with West side railroads and railroad bonds entitles him to speak from the card, made an interesting remark regarding the alleged bond sale.

"I hear that the Metropolitan people have sold their bonds in New York," said he, "All I've got to say is that things are coming mighty easy with them if they have." Possibly Mr. McDonald's notable failure at various times to sell bonds of the Lake street elevated road in New York was reflected in the sarcasm and scorn with which the latter part of this remark was uttered.

Among other bond prices determined by counter sales were City railway 4½'s at 99½ and West side 4½'s at par.

The Stock Exchange market was as active as could be expected where prices are just a little too high, and the public is not interested. The street railway stocks were heavy for no other reason than that the active support which has for some time been given them, has for some reason been removed. Early in the week there were sharp declines in West side stock, and the point at which stock opened Monday morning was not regained. The low point was registered on Tuesday at 163. Only a few sales, however, were made at that figure. North side stock sympathized in the decline and sold down to a low point of 208½. Sales of City railway stock at 400 were made on almost every day of the week. The most remarkable feature in the industrial stocks was the weakness in Street's Stable car stock. Rumors unfavorable to the company's interests were the occasion for selling it down to about 32, but the reaction promises to be prompt as the adverse rumors seem to lack consistency. Strawboard was in fair demand and was marked up to 87¾ early in the week. The brewery situation is unchanged but as further assurances are made that a satisfactory settlement of existing difficulties will be reached the brewery stocks are firm. The officers of the Masonic Temple association claim to be incensed at the action of the Exchange in placing the stock of the building among the unlisted securities and establishing bid and asked prices for the same. They claim that the figures given as 85 asked, and 75 bid mean nothing and that the latter price is ridiculous. They further claim that the stock is simply offered in the market for the purpose of registering a low price on small offerings and that sales are being made at par every day.

The Merchants' Building company has declaired a 5 per cent semi-annual dividend. The Chicago Telephone company will increase its capital stock $250,000, to provide for World's Fair extensions. Last January the directors were authorized to increase the stock of the company from $2,000,000 to $5,000,000 but this is not to be done at present.

THE REAL ESTATE MARKET.

CONTEMPLATED PURCHASES IN THE WHOLESALE DISTRICT.

A rainfall of eleven inches distributed over the month of June is sufficient excuse for an unsatisfactory month in real estate circles. In fact, the entire half year just ended has been dominated more by physical conditions than any preceding period. The financial conditions during the entire time have been most favorable to an active market. The weather conditions, however, have been almost uniformly unfavorable to the transaction of a general real estate business. The totals for the half year just ended indicate the condition of affairs by comparison with the previous years. The recorded sales are given as 89,000,000 as compared with about 99,000,000 for the six months ending June 30, 1891. The decrease, according to these figures, is about $10,000,000. These totals, however, include only sales amounting to $1,000 or over and for this reason are only approximate. The unfavorable weather prevailing during the spring has retarded actual building operations, but there is no lack of building activity or of building projects of all kinds. During the half year permits have been issued for 5259 improvements representing an outlay of $29,918,000. During the same period of 1891. a somewhat larger number of permits were issued but they only involved a prospective outlay of $22,877,000.

There seems to be no tangible reason why the market for investment property is not much more active than it is. There is no lack of surplus capital. Bond issues are being picked up as soon as they are offered, and securities of outside cities are being sold at a premium, which in ordinary times would have been well sold at par. Just why this investment capital is being directed to the purchase of securities to the exclusion of real estate investments, no one seems able to explain. The fact that the supply of conservative real estate investments is limited is probably responsible for some of the inactivity shown in the general market. It is a fact that in all the holdings offered on the market, there are few which, when investigated really pay 6 or even 5 per cent income. The scarcity of fees was illustrated only a few weeks ago by the report of the purchase of a small fee at an extraordinary square foot valuation bearing an income of but 5 per cent. Large fees which bear a fair rate of interest are exceedingly hard to find as the owners realize that they cannot place their money to any better advantage in a new investment. For this reason the heavy investors are forced to invest their surplus funds in 4 and 4½ per cent bonds and in competing for even these, carry the price up considerably above par. On the other hand, the prices which have prevailed for some time in medium class property have made it very difficult to find smaller investments that were in any degree satisfactory. For this reason, small investors, unless buying property for actual use, have been inclined to favor bonds of small denomination and unquestionable value, to renting property. The abundance of money promises a better real estate market during the next six months than during the half year just closed. The disbursement of dividends and interest in Chicago during July will be greater than during any previous month. The demand for bonds has been such that prices have been carried up past the point where they are popular and a reaction will no doubt come in favor of conservative real estate purchases.

IMPORTANT INVESTMENT PURCHASES.

One of the important investment sales of the week involves a well-known West Side block. The five-story brick over-looking Union Park and occupying a frontage of seventy-two feet on Randolph street and 172 feet on Bryan place has been sold by A. E. and W. A. Wells for $112,000. The buyer makes the purchase as an investment, as the property is leased for fifteen years to Lyon & Healy at an annual rental of $10,000. The lot, which is of irregular shape was purchased about two years ago and improved. The building is in the shape of three wings, all of mill construction faced with pressed brick. It faces Ogden avenue and is at the junction of three streets, all of which have street car lines. It is reported that the property on the east side of Michigan avenue 200 feet south of Sixteenth street improved with the St. Paul's Universalist Church is again to be transferred. The lot has a frontage of 129½x163 feet and is occupied by the Lincoln Warehouse and Van Co. This property was originally purchased from the church society by C. L. Hutchinson and Edward Foreman for $75,000. They sold it a few months afterward to George W. Henry for $100,000. He, in turn, transferred it to F. F. Spencer of Hibbard, Spencer & Bartlett at an alleged consideration of $175,000 $100,000 of this was in money and the remainder in leasehold equities of somewhat doubtful value. A sale has now been made for the Spencer estate on the basis of $130,000. The purchasers are said to be the company now occupying it as lessees. The Lakeside Club, a Jewish organization, has purchased 100x150 feet at the southwest corner of Forty-second street and Grand boulevard as a club-house site. The sale was made by E. C. Huling at the rate of $325 a front foot. The club proposes to erect a $100,000 club-house and to remove from its present quarters on Indiana avenue between Thirty-first and Thirty-third streets.

CONTEMPLATED PURCHASES IN THE WHOLESALE DISTRICT.

Negotiations are said to be under way which will result in placing the old Farwell block under one ownership. This five story stone front building covers all of the half block bounded by Market, Monroe and Franklin streets and the alley between Monroe and Madison streets, with the exception of 80x90 feet at the corner of the alley on the Market street front. Some years ago the block was divided, J. V. Farwell taking the east portion with a Monroe street frontage of 140 feet and C. B. Farwell, the west portion with a frontage of 180 feet. Henry Botsford purchased J. V. Farwell's interest last year for a total of $505,000. The property is what is termed by brokers "old fashioned property" but notwithstanding this, Mr. Botsford's investment was considered a good one. Now it is said that he is about to buy the remaining half of the property for $600,000. A total of $1,100,000 for the entire block is equivalent to about $20 a foot for every square foot of ground space including the building. Two of the pieces of property which were taken by Judge Altgelt from W. C. Seipp in the sale of his Market street block have been disposed of. They were purchased by Jacob Rehm for a total of $91,000. One of them consists of 100 feet on the northeast corner of Cottage Grove avenue and Thirtieth street and the other of 166 feet on State street near Forty-sixth street. The Cottage Grove avenue corner is improved with three houses.

LAND SOLD AT $2,000 PER ACRE FOURTEEN MILES FROM THE COURT HOUSE.

The transfer of 159¼ acres in the southeast quarter of Sec. 32 39 12, from the owners to the Chicago Title & Trust company for the consideration of $324,165, has been made by the owners, Jacob C. Pratt, Henry N. Cooper and Geo. I. Talbot, for the basis of formation of the La Grange Land Association with the Chicago Title & Trust company as trustee.

The land is deeded at the low average valuation of about $2,000 per acre, which is a less price than the owners would take for the property. Except in consideration of the benefits to accrue to the share in the Association.

The land has a large brick sewer running across the center of the entire tract, emptying into the little Desplaines river, and has branch sewers which drain the entire tract.

Many large improvements have already been begun by the La Grange Land Association which will hold the property and improve the streets with the same high class improvements as those now on the Kensington addition, La Grange, which adjoins this property on the east.

La Grange Park forms a part of this property and a beautiful portion of it will be dedicated for Park purposes.

The La Grange Land Association through its trustee will hold this land with other land which may be purchased, under the Articles of Agreement and Association, for improvement and subdivision, and has a capital of $2,000,000, and full paid shares of $100 each have been issued for the land deeded: the remaining shares are to be held by the trustee and issued only upon full payment therefor and the proceeds are to be held by the trustee for the improvement of the property and construction of buildings for income; and no land will be placed in the Trust Estate except at actual value.

The property will be held by the Trust Estate thus created for the purpose of reaping the full benefit of the future sure growth of La Grange, and the owners by placing the property in the Association avoid the difficulties which attend the joint ownership of land, by death and otherwise, and are able to improve one portion handsomely and reap the benefit of holding the adjoing land. While an individual owner cannot afford to carry property and improve and hold the adjoining property upon a large scale long enough to reap the same benefit.

The trustee is authorized to hold the property for a term not exceeding 20 years beyond the life of the last survivor of 12 children named in the Articles of Association and Agreement, and to re-invest the proceeds or sales in property to be held and improved, having in view the improvement of property for income and revenue.

Messrs. Pratt & Ely, and Messrs. Henry N. Cooper & Co. have been the agents who have actively represented the owners in the organization of the La Grange Land Association, and the Executive committee chosen by those who are going to take the treasury shares, from which buildings for renting and income are to be constructed, have elected E. Huntington Pratt, Jacob C. Pratt, Edward S. Ely, Henry N. Cooper and Geo. I. Talbot as the Executive committee to direct the trustee in the management and execution of the Trust, and E. Huntington Pratt to be the Secretary.

Messrs. Pratt & Ely add H. N. Cooper & Co. will be the active agents for the Association, and their conservative and successful improvement and management of the Kensington Addition in La Grange has attracted the attention of investors to the town and caused the capitalists to recognize its genuine merits.

MORE ABOUT HOBBIES IN THE REAL ESTATE MARKET.

In last week's issue of the JOURNAL under the head of the Real Estate Market there appeared a mild criticism on the so-called Heights in the suburbs. The article has attracted a great deal of attention in Chicago and among non-resident owners who have been reading the flood stories in the daily papers. It was not intended to hit anybody nor to flatter any particular suburb. The foolish representations or rather misrepresentations of some dealers in characterizing their towns as Heights when in fact they but stick out like holes in the ground, prompted the writer to thus mildly allude to them as mere figures of speech rather then physical facts. It is about time that buyers begin to learn where to look for reliable information about property before making purchases. Their efforts in learing this kind of wisdom will be greatly facilitated by carefully purusing the newspapers and omitting the circulars and organs issued by interested parties.

Why! down in the State of Ohio and out in the State of Nebraska can be found pamphlets, circulars and "things" which contain vivid discriptions of "new towns," new subdivisions with new names and pretty names, situated at and near Chicago, and the names of some unknown real estate agents attached to them. There ought to be some way of stopping these scamps from mixing up their business with the legitimate business of well-known and reputable dealers. Their transactions bring discredit upon men who have labored for years to build up Chicago as well as their business. Every day one or more persons call at the office of the JOURNAL to learn who the responsible agents are and sometime refuse to be put off with anything less than positive information about some particular dealer or dealers. On Thursday of this week, a gentleman of means called and remained over an hour, and during his presence two prominent real estate houses sent their representative to transact some business with the JOURNAL. They were introduced to the visitor and if they sell him anything he can rest assured that he will not be swindled.

The JOURNAL can do no more than show people the way. If they listen to real estate tricksters they can not hope to make money in Chicago real estate. There is a way to find out whether a town is high or low and a man who buys "lots" without seeing them is liable to buy water with the "fee" under it.

NEED OF ROAD IMPROVEMENT.

It has been estimated that the farmers of the United States pay the enormous sum of $660,000,000 every year for the transportation of produce and grain from the farm to the nearest market place. Under the most favorable conditions wagon transportation over the average road costs from 15 to 20 cents per ton for each mile. During part of winter and early spring the roads are usually impassable, field work is out of the question, and nearly 18,000,000 draft animals have to be kept in idleness, causing a loss of at least $57,000,000. From figures recently prepared by Mr. John M. Stahl an authority on highway improvement, it is learned that the establishment of good roads would save the farmers of the United States $500,000,000 a year—a sum which would extingush the national debt in three years.

A system of gravel and macadamized roads built by competent men, is needed in every State in the Union. The legislatures of a number of States have shown a disposition to aid the advocates of good high ways. Soon we may expect the passage of bills pro-

viding for the inauguration of the work. But before the movement receives the hearty support of the farmers they must be convinced that the actual distance from farm to market is not to be measured by miles but by the character of the roads, and that poor dirt roads are a tax exceeding in volume every other burden borne by the rural population.

At the same time a crusade against narrow wagon tires should begin. No matter how well made a road may be, the tires now in general use would ruin it in a month. In France, where road building has attained a high state of perfection, no tire less than six inches in width is countenanced. A tire twelve inches wide—and such tires are not uncommon in Europe—enable one horse to do the work of two, and at the same time is a perfect roadmaker. It crushes the macadam into a compact mass and solidfies a gravel roadbed.

The cost of building a mile of macadamized road is said to be from $3,500 to $5,000, and of gravel road from $1,500 to $2,000 according to grade. Either of these amounts could be saved in one year in actual dollars and cents, to say nothing of the appreciation in value of farm lands, which is estimated at 20 per cent.

As soon as farmers will take the trouble of keeping regular accounts of the cost of hauling products they will demand better roads. Until then the agitation must be kept up by the press and that growing class of bright young men and women commonly called "bicycle cranks." The latter, under the able leadership of Mr. Isaac B. Potter have already accomplished a great deal. If they continue the good work substantial results are bound to reward their labors.—The Graphic.

BIG GLASS ROOFED HALL.

A scheme for an extended series of improvements outside the present shore line east of the Lake Front Park has been formulated by a syndicate which includes a number of local theatrical men It is of most generous dimensions and liberal outlines, but the adverse parties are so numerous that the projectors will have a rather difficult road to travel. The scheme, in short, provides for filling up the lake outside of the Illinos Central railroad tracks opposite Van Buren street. This space would be a sort of annex to the park, and is to extend out squarely into the lake, with a dock for pleasure and excursion craft along the outer line. In the center of the block of land to be created is to be built an immense auditorium capable of seating 15,000 people.

This building is, of course, the feature of the enterprise. It is to furnish a home for everything of unusual size coming to Chicago homeless. There will be no need of another wigwam to be derided by New York Democrats. The proposed building will be of sufficient size to accommodate any and all political conventions. When the circus comes to town it will not be compelled to camp out on damp lots in the outskirts of the city nor be in constant danger of being termed a common nuisance by aristocrats The Barnum & Bailey company, it is said, has promised to take stock, and is interested in securing a place where exhibitions can be given without canvas shelter. In short, the proposed building is to take the place of the Exposition with the addition of a number of kindred functions. The building itself will belargely of iron and glass and will be directly opposite Van Buren street. An under ground passage lined with obsidian brick will run beneath the Auditorium and connect the railway station of the Illinois Central with the boat landing.

The property owners in interest are numerous and include the city, state, government, railroad company and possibly property owners who figure as the watch dogs of the Lake Front.—Chicago Tribune.

ANNUITIES.

It has been observed that persons who have a fixed income, without any bother or worry about making provision for its coming, live longer than anybody else on the average. To know that for certain, what ever happens to the rest of the world you will have bread and a roof over you, conduces particularly to peace of mind and health of body. Under circumstances like those the poet, artist, preacher, philosopher or man of science ought to do his best and noblest work. During all of the last third or quarter of one's life to get away from the wild worry and suspense of money making and quietly allow all that best and most beautiful in one's nature to come uppermost, to pursue the music, the art, the studies one loved in youth, but had to abandon for money grubbing, this is the ideal existence.

Annual annuities are what fit the case exactly. They have long been popular in Great Britain, where the government itself superintends the distribution of the semi-annual dividend. The person who desires to lay by an annuity for his old age begins to skimp and save from his wages in youth. The process does not hurt him any—on the contrary. By and by, after long years, when he has reached the age of from fifty to sixty, he has a sum sufficient, put out at interest, to guaranteee him a modest income the rest of his life. He then "buys an annuity," as it is called from the government. That is to say, the government takes his money and pays him the highest rate of interest that is considered profitable to itself, usually 6 per cent. Every half year as long as he lives thereafter the annuitant calls on the British empire for his dividends. At his death, however, the government becomes sole owner of the principal, and here is where the profit comes in.

In Great Britain the annuitants are largely old maids and bachelors. Particularly is this an excellent investment for women, such as teachers and others who work in youth. Why would it not be well to have something of the kind in the United States? Though it is not at all certain that the government should sell the annuities, some organization of co-operative workers might do it. There are such in existence now on a small scale, but some plan should be devised that would put the system upon an absolutely sure basis, as fixed as the government itself.

AGENTS' BUDGET.

Recent sales, however small, not yet recorded, will be reported in this column. All matter must apply to the real estate business and real estate men.

Walter Thomas Mills & Co., report business good in spite of the wet weather and the watered condition of real estate. Their land is all high and dry in their Harvey and Oak Park subdivisions. They sold 16 lots in the Academy addition to Harvey to a New Jersey party for $7,000. Also on Monday they made a sale of four lots in their Woodbine addition to Oak Park. The convention had very little effect on this firm as they took from 20 to 50 people out to their property every day.

Bogue & Co., who have charge of the old Storey mansion have been at work during the past two weeks tearing down the building and will subdivide the property and sell it in lots. The material from the house will be used in building ten or twelve residences on the same property. The houses will be built by four different parties. Bogne & Co., will also have charge of the erection of these residences, which will cost from $10,000 to $12,000 each. The block has a frontage on Grand boulevard of about 300 feet and 600 feet on 43d street and is considered one of the most valuable boulevard frontages not yet improved. It is probable that the entire block will be improved with attractive houses soon, as the property is too valuable to remain idle long.

Ground has been secured for the erection of a building at Austin to be used for stores, flats and offices and an opera house. The Opera house will be hailed with delight by the citizens of Austin, who have hitherto been obliged to content themselves with amusements furnished by Chicago and other places.

Subdividers and town builders are just now interested in having a high elevation printed on the maps so as to fall directly under the gaze of intending purchasers. It might as well be understood now as at any time that altitude alone does not prevent water from accumulating on real estate. In some localities notably high, ponds of water and mud holes disgrace the land scape and prevent the use of horses as thoroughly as can be. The clay on or near the surface holds the water more effectually and causes more damage sometimes than is caused in lower places where the soil is composed of sand and vegetable mould. In the absence of sewers the very best thing to do is to provide surface ditches and drains that will carry the water away from localities that are inhabited. These and good roads can be made in the suburbs long before the Drainage Commissioners will give us relief. They have spent over a million dollars already and are not yet through with the preliminaries of the scheme.

Tinley Park, a suburb on the Chicago & Rock Island rail road, just south of Blue Island has been incorporated as a village. The election took place June 27th, and was conducted under the Australian system. As in most instances incorporation had its enemies, but the enemy was defeated by a majority of twenty-five votes. The total vote cast being ninety. The election for a president and board of trustees is called for July 19th, when another lively time is expected. Within a short time the residents will see the benefit of incorporation. The Railroad owning some 200 feet on each side of their tracks have transformed this space into a beautiful park by setting out trees and shrubery. Streets will be paved and new sidewalks will take the place of the old one now in use. Tinley Park contains about 500 inhabitants with good stores, churches and schools, one large hotel and two more in course of erection. Capitalists see the advantage of investing at Tinley Park and have lost no time in getting lands in both large and small quantities. Some 2000 acres are now held for immediate and future uses. About one year ago Whitney & Bishop opened a subdivision at Tinley Park and about 275 lots have been disposed of. The greater part being sold through the office of Charles Moak, who reports the sale of ten lots to Jane Castilick of Iowa, during the past week.

Negotiations are practically completed between Henry Botsford, the packer, and C. B. Farwell for the transfer of the west half of the old Farwell Block on Monroe street, between Franklin and Market streets. Mr. Farwell has held the properly at $640,000 but it is understood that $600,000 will be the figures in case this sale is made. Mr. Botsford became the possessor of the east half of the block through two transfers last year for a total consideration of $505,000, which was considered far too low by a great many real estate agents. The old Farwell building covered the entire half block with the exception of 80x90 feet in the northwest corner. The land has a Monroe street frontage of 320 feet, a frontage of 190 feet on Franklin street and 110 feet on Market street. The total cost of $1,100,000 for the entire half block will be a trifle over $20 a square foot including the high grade building improvements. The block is rented and occupied by a number of firms of wholesale dealers and jobbers. The principal tenant being Selz Schwab & Co., who occupy the entire Market street frontage for which they pay an annual rental of $16,000 for a term of five years.

Wm. A. Merigold & Co., report the following leases made this week; For the Dexter Safety Deposit Co., to Smith & Stoughton of Boston, the store No. 80 Adams street, for ten years at term rental of $53,333. For Thomas and Peter Hand the second floor No. 75-77 Randolph street to Henry Rhines for ten years at a term rental of $30,000. For Barr and Bauer the store 221 Dearborn street to Henry Block, for four years, at a term rental of $7,200.

The readers of the JOURNAL will remember that about six months ago we predicted that Chicago Heights would soon blossom into a manufacturing town of great importance. They will have 20 miles of streets macadamized and 40 miles of stone sidewalks constructed this fall. In addition to this they have just awarded a contract for 25 miles of plank sidewalk. The company have thus far succeeded in locating a sufficient number of factories, to warrant a population of 10,000 people, and they will continue this policy until such time as they have located a sufficient number to warrant the building up of a large city. They have published a free book entitled "Chicago's Beaten Path," which they will mail free upon application. Get the rating of the Chicago Heights Land Association. See who they are and what they are doing. It will pay you well to make an investment on a macademized street at Chicago Heights which is 140 feet above the lake.

Ingalls & Kimbell, 175 Dearborn street, report renewed activity at their Hinsdale property, having sold the past week 96 lots to Buel O. Crane for $30,000, and thirty-five lots to E. R. Baker for $10,000.

At the auction sale of lots in the R. D. Johnson addition to Elgin, Tuesday evening, eighteen lots were disposed of at an average price of $305 each. There will be another auction sale in Elgin on the 4th of July.

Once more the old Universalist church property on Michigan avenue, south of Sixteenth street, is to be transfered this time from the estate of F. F. Spencer to the Lincoln Warehouse and Van Co. for $130,000. The lot is 129½x163 feet in dimention and is improved with a substantial brown stone church. Among others P. D. Armour has been negotiating for the church property.

Real estate men are inclined to the belief that the scheme for erecting a "great big glass roofed hall" out on the lake opposite Van Buren street, is a newspaper story gotten up for the purpose of keeping things lively in the real estate columns. Although such a scheme may have been thought of by some wild schemer for notoriety, it is not probable that anything ever will be carried out while there is still as much vacant territory in and around Chicago as there is at present.

PLANS BY CHICAGO ARCHITECTS.

Architects Ostling Bros. have completed drawings for store, factory and flats to be erected on Milton avenue near Oak street, for Mr. C. Olsen. The building will consist of four stories and basement, and cover a ground area of 25x100 feet. The front will be of St. Louis pressed brick with cut Bedford stone dressings, with galvanized iron cornice and gravel roof, plate and ornamental glass. The store will have a handsome front with iron columns and bressummers; cost, $17,000. Also cottage residence on George street near Halsted street, for Mr. Charles Oslrand, 22x56 feet, two stories and basement. The first story will be of rock-faced stone with square bay of same, the superstructure of pressed brick with Bedford stone trimmings and high-pitched slate roof. The building will be improved

with circular flanking tower, with conical roof ending in finial; cost, $4,500.

Architect Arthur F. Hussander has completed designs for store and flats to be put up on North Clark street near Wellington avenue, for Mr. Peterson, 24x90 feet, and three stories with basement. The front will be of selected pressed brick with cut stone trimmings; cost, $10,000. Also flat building to improve Wabash avenue near fifty-fifth street, for Mrs. Sibley, 22x68 feet two stories and basement. The front will be of Bedford stone with bays of same. The interior will be finished partly in hardwood, and with all modern improvements; cost, $8,000.

Architect Jules de Howath has completed designs in the French Renaissance style of architecture for spacious apartment building to be erected at the corner of Indiana avenue and Forty-first street. This imposing building will consist of four stories and basement, 100x125 feet. Two stories will be of stone, the superstructure being of selected pressed brick with terra-cotta panels and enrichments. The approach will be by a broad flight of stone steps leading to handsome hall laid with mosaics, and with fancy marble wainscoting. The building will contain thirty-two suites of apartments of varying accommodation, and fronting as it does upon two thoroughfares all the principal rooms will have the advantage of direct light. There will be attached a fine cafe, also conversation and billiard rooms for the general accommodation of tenants. The interior will be handsomely finished in choice hardwood. A portion of the basement will be fitted up as safety deposit vaults. Plate, ornamental and art glass, and all the latest improvements will be heated by steam and lighted by electricity, throughout; cost, $125,000. Also apartment building at the corner of Loomis and Arthington streets, for Mr. J. Powers. The facades will be of pressed brick and stone. The interior will be finely finished in hardwood; cost, $18,500. Also apartment building on Marshfield avenue between Polk and Taylor streets for Mr. Harris. The building will be of handsome design in pressed brick and stone; cost, $15,000.

Architect Julius Speyer has completed arrangements for block of stores and flats to be erected at the corner of South Halsted and Forty-eighth streets, for Mr. W. English. The improvement will cover a ground area of 50x65 feet, and consist of three stories and basement. The facades will be of pressed brick with cut Bedford stone trimmings, galvanized iron cornice and gravel roof. The stores will be provided with modern fronts with iron columns and girders. Plate glass, hardwood finish; cost, $20,000. Also store and flat building on Division street near Western avenue for Mr. J. Brown, 50x68 feet, four stories and basement. The front will be of St. Louis pressed brick with cut stone dressings; cost, $18,000. Also spacious flat building to be erected on Drexel avenue near South Chicago avenue. The improvement will be three stories and basement high, and cover a ground area of 100x100 feet; cost, $35,000. Also fine block of stores and flats to improve the corner of Center avenue and Thirteenth street, for Mr. Considine, 74x100 feet. four stories with basement. The facades will be of St. Louis pressed brick with cut Bedford stone trimmings; cost, the block, $40,000. Also store and flat building on Kedzie avenue near Thirteenth street, for Mr. George Nolan, 20x70 feet, three stories and basement erection. Pressed brick and stone trimmings. All the usual provisions; cost, $15,000.

Architect D. S. Pentecost has completed designs for flat building to be erected on West Monroe street between Kedzie and Spaulding avenues, for Mr. J. A. Richards, 25x55 feet, three stories with basement. The front will be of Bedford stone with bay of same. The elevation will be improved with handsome tower with slate roof ending in finial. Plate and art glass, will be finished in hardwood and heated by furnace; cost, $10,000.

Architect Louis Martens has prepared drawings for apartment building to be erected on Berkley avenue, for Mr. J. Simpson, 25x60 feet, three stories and basement erection. The facades will be of stone with bays of same, and composition roof, hardwood finish, sanitary plumbing and modern accessories. Cost, $9,500. Also stores and flats to go up on West Taylor street and Centre avenue, 25x85 feet, three stories with basement. The facades will be of Indiana pressed brick with cut Bedford stone trimmings, galvanized iron bays and cornice and gravel roof. Sanitary arrangements and latest devices; cost, $12,500. Also fine residence to improve Forty-ninth street near Grand boulevard, for Mr. H. Hibbard. The front will be of stone with slate mansard roof. The approach will be by a flight of stone steps leading to pressed brick and tile paved vestibule. Plate, ornamental and art glass; wood mantels,and tile fireplaces, hot water heat. Cost, $8,500.

Also flat building at 4349 Berkley avenue, for Mr. Hartmann, 25x65 feet, three stories and basement. The facade will be of Bedford stone with handsome entrance. All modimprovements; cost, $10,000.

Architects Patton & Fisher have completed plans for spacious warehouse structure to go up at the corner of North Market and Ontario streets, for Mr. Lowther. The building will comprise four stories with cellar, and cover a ground area of 50x76 feet. The front will be of Indiana pressed brick with cut stone trimmings, and composition roof. The interior will be of substantial mill construction. Cost, $12,500.

Architects Crowen & Richards have completed designs for three fine apartment buildings to be erected on the South Side, for Dr. A. Strickland. The block will have a frontage of 80 feet by a depth of 110 feet, and consist of three stories with basement. The houses will vary exteriorly in design, as also in accommodation. The facades will be an agreeably diversified arrangement of pressed brick with stone, with bays of same and slate roof. The approaches will be by flights of stone steps leading to recessed and tile paved vestibules. The halls will have Mexican onyx wainscoting, etc. The interiors will be handsomely finished in choice hardwood, with wood mantles, tile fireplaces, etc. Steam heat throughout, and wires will be put in for electric lighting; cost, $50,000.

Architect Charles Sorensen has prepared plans for flat building to be erected on West Huron street near Armour street, for Mrs. Nieland. Size 22x78 feet, three stories and basement. The front will be of Indiana pressed brick with cut Bedford stone trimmings. Cost, $7,000. Also flat building on Rockwell street near North avenue, for Mr. A. Petersen, 22x60 feet, three stories with cellar. The facade will be of pressed brick with stone dressings, galvanized iron bays and cornice, and gravel roof. Cost, $6,000. Also pair of residences to improve Bosworth street near Grace street, for Mr. A. Holson. The houses will each have a ground area of 30x45 feet, and consist of two stories. The facades will be a graceful arrangement of brick and stone. Cost, $9,000.

Architect W. L. Carroll has completed arrangements for fine apartment building to improve Dearborn avenue near Goethe street, for Mr. Gienfenhagen. The building will cover a ground area of 70x80 feet, and consist of four stories with basement. The front will be of Bedford stone, and improved with copper bays and slate mansard roof. The interior will be finely finished and have all the latest devices, steam heat throughout. Cost, $50,000.

Architect Theodore Lewandowski has prepared plans for block of stores and flats to improve Milwaukee avenue near Division street, for Mr. W. Nowaozewski, 25x100 feet, four stories and basement erection. The front will be of Bedford stone, with composition roof. The stores will be provided with modern fronts. Plate glass and all the latest appliances. The building will be heated by steam. Cost, $12,500.

Architect A. F. Hussander is making plans for a four-story store and flat building, 140x100 feet in size; to cost about $50,000; it will have two fronts of stone with galvanized iron bays and cornice, slate tower and gravel roof, gas fireplaces and ranges, and all the modern sanitary improvements.

Architects Wilson & Marble: For J. G. Wilden,at 6330 Cottage Grove avenue, a four story store, flat and hall building; to have a stone front, galvanized iron bays, electric light, steam heat, etc. For John Agar, on Oakdale avenue near Evanston avenue, a three-story residence; to have a handsome stone front, hardwood interior, electric wiring, modern heating apparatus; also a two-story stable; cost $20,000. For Thomas Sennott, on Harrison street, two two-story residences, of pressed brick and stone fronts with galvanized iron bay windows, electric light, steam heating, all improvements; cost about $12,000. For Antoine Delfosse, to be erected corner Vincennes avenue and Boulevard place, a four-story apartment house 100x143 feet in size; to cost about $100,000; it will have two fronts of buff pressed brick, with buff Bedford stone trimmings, hardwood interior finish, steam heat, eletric light, and the best of sanitary and modern conveniences.

Architect W. L. Carroll: For James Keys a three-story flat building, 24x70 feet in size; to be of pressed brick and stone front, with slate mansard, hardwood finish, etc; to be erected on Laflin street near Taylor. For V. C. Vosburgh he is making plans for addition and remodeling building on Leavitt near Van Buren,

Architect H. M. Hansen: For A. Chytraus, on Arlington place near Clark street; a three-story residence; 30x57 feet in size; to cost $12,000. To have a stone front, slate and gravel roof, hardwood finish throughout, hot-water heating, etc.

Architect Julius H. Huber: For Henry Niemann, on Oakdale avenue, a three-story and basement building, 25x70 feet in size; to cost about $15,000. The interior will be finished in hardwood, and have steam heating, electric light, the sanitary and modern conveniences. For Mrs. Mary O'Neill, on Newport avenue; a two-story basement and attic residence; 38x59 feet in size; to cost about $15,000. To be of frame with stone basement, all hardwood finish for interior, electric light, steam heat, etc.

A company has been organized to build an opera house, lodge halls and store building in the town of Austin, Ill. The commissioners are David Oliphant, Henry W. Schmitt, Fred L. Phillipps and Wm. E. Ryder. They have been granted a license and held a meeting Tuesday evening at which they selected their site and sold nearly all their stock. Architects Marshall & Ryder have prepared the plans which show a three-story brick structure with stone trimmings, 80 feet front by 135 feet deep. It will contain a theater, lodge halls, dancing and banquet halls and quarters for a social club. The front of the ground floor will be four stores. The building will cost about $25,000.

Architect W. K. Johnston, 611 The Temple, has completed plans for an Auditorium for the popular summer resort of Macatawa Park, Holland, Michigan. The building will be of frame structure throughout with a seating capacity of 2,500, cost $5,500.

He has also on the boards plans for a fine fireproof library for the same place to be built of Waverly stone with red brick and red sandstone. Without considering the seating, heating and shelving, the cost will be $30,000.

The work on the Art Institute building on the lake front is being rushed for all it is worth. Although three weeks were lost by the injunction proceedings still Superintendent Wallers thinks that with the aid of a night force working under the electric light plant which is being put in, the time will be soon made up and he will finish the structure in ample time. Mr. Wallers had a force of 250 men at work Wednesday morning and part of the foundations were already laid.

Architects Reeves, Davis & Co. are preparing plans for a residence for William Alspaugh at Normal, Ill. The building will be a two-story frame and basement with steam-heating, plumbing and electric lighting; cost $8,000. Also one for Geo. J. Foster of the same place of the same style without the electric lighting; cost $5,000.

Architect I. C. Zaroett, 55 Reaper Block, has just completed the plans of a fine residence for Adolph Arnold on Surf street near the lake. The building will be two stories basement and attic, built of pressed brick in the rear, faced with Bedford stone, topped with copper cornice slate roofing; hot water heating and electrical lighting; cost $30,000.

The same plans will be used in constructing a residence for Herman Arnold on Wellington street near the lake; cost $30,000.

Architects Treat & Foltz: For O. Benson on Belden avenue, west of Clark street, a four story and basement apartment house, 109x100 feet, to cost $90,000. For Joseph Stockton on Taylor and De Koven streets, a two and three story and basement stable, 216x50; cost $25,000.

Architect C. S. Corwin: For George Blossom and Warren McArthur, two 2-story and attic residences of pressed brick and frame to be erected on 49th street and Kenwood avenue. They will have all the improvements and cost $16,000.

Architect Fred Ahlschlarger: For M. D. Carl, at 73 Reese street, a three story flat building of pressed brick and stone front, galvanized iron bays, etc.

Architect J. N. Tilton: For J. L. Cochran, two 3-story basement and attic residences to be erected at Edgewater. For C. H. Crosby at Riverside, a two story residence of frame, with stone basement, plumbing, furnace, etc. For G. B. Lyman at La Grange, two 2-story frame houses. For W. R. Burleigh, at La Grange a two story basement and attic frame residence to have stone basement, sanitary improvements, electric lights, etc.

Architects Willet & Pashley: For the Berlin Machine Works at Beloit, Wisconsin; a three story factory, 200x66 to be of brick, mill construction, cost $31,000. For David Bradley Manufacturing Company at 55 to 59 Jefferson street, a six story warehouse 60x150, to be of pressed brick and stone front, elevators, electric light, steam heat, etc. For E. F. Burton at Oak Park, five two-story and basement residences of buff pressed brick, stone and terra cotta fronts of very attractive design.

Architect Franklin P. Burnham: For Joseph Levesey on Warren avenue between Kedzie and Homan avenues, a 3-story residence 25x63 to have a rock-faced stone front, hardwood finish, hot-water heating, etc.

PLANS FOR NEW ENTERPRISES AND INDUSTRIES.

A flour mill will be built by Thos. L. Gwyn at Elkin, N. C.

A canning factory will be established at Waynesville, N. C.

Allen Brothers will erect a flour mill at Sistersville, W. Va.

W. L. Sloan & Son will establish a sawmill at Marshall, Texas.

The erection of a shingle mill is spoken of at Waterburg, Tenn.

The Knoxville (Tenn.) Woolen Mills will put in new machinery.

New machinery for a canning plant is needed for Winston, N. C.

The Maysville (Ky.) Fuel and Gas Company will improve its works.

A sawmill will be constructed at Houma, La. Address H. C. Minor.

A canning factory will be erected by J. C. Shannon at Sharon, Tenn.

Columbia, Tenn., will have new sawmills. Address Frank H. Smith.

Additional machinery is needed for the Newberry Cotton Mills, N. C.

A sawmill near Clarkdale, Miss., will be erected by F. H. Mattson & Co.

A. P. Ford, Dyersburg, Tenn., will establish a sawmill at Tennemo, Tenn.

Write to C. M. Baker, of Shelby, N. C., about the erection of a cotton mill.

A flour mill will be built by J. W. Zaring, Shelbyville, Ky, at Richmond, Ky.

A meal and feed mill will be erected by the J. W. Zaring Company, at Richmond, Ky.

A cotton gin will be built at Bethel, Tex. Smith & Jackson can give information.

The Clifton (S. C.) Manufacturing Company will put new machinery in its cotton mill.

A tobacco factory will be erected by Allen & Ginter at Richmond, Va. Capital stock $25,000.

Huntington, Ark., intends constructing a waterworks system. Write to Geo. W. Crawford.

Machinery for a sawmill is needed at Smithton, Ark. Address the Smithton Lumber Company.

A cottonseed oil mill will be located at Terrill, Tex. Capital stock $50,000. M. W. Raley, Secretary.

HARVEY'S

INDUSTRIAL CENSUS.

The census returns contain no more startling figures than those of HARVEY, Illinois, the Greatest Temperance Manufacturing town in America.

In August, 1890;

A few prairie chickens, and one man shooting them.

In July, 1892;

748 Buildings completed,
71 Buildings under construction,
2,090 Employees at work,
9 Factories in operation,
4 Factories building,
Many others in sight.

It has taken millions of money and unmeasured effort to accomplish so much in so little time, and the work is still going on, gaining impetus with every month on the calendar.

If you want a home in Harvey; if you care to invest in its rapidly rising real estate, drop a line, mentioning this paper to

The Harvey Land Association.

819 to 825 The Rookery,
Corner La Salle and Adams Sts., Chicago.

Asking for their literature.

P. S. –Outside parties are advertising outside prairie land as Harvey property. The difference is enormous. Deal directly with the founders of the town, the men who have spent millions in its promotion, and no mistake is possible.

WARRANTY DEEDS.

The following is a Summary of the Warranty Deeds filed for record during the six days ending Thursday evening, June 30, 1892.

	Sales.	Amount.
City, over $1,000	399	$2,645,556

Western Springs

The Queen Suburb of Chicago

26 MINUTES FROM UNION DEPOT!

ON THE CHICAGO, BURLINGTON & QUINCY R. R.

56 TRAINS DAILY.

WATER, from the CELEBRATED MINERAL SPRINGS will be conveyed to all portions of the village.

A system of Drainage has also been adopted by the Village Board of Trustees, both water and sewer systems have been developed by Engineer Benezette Williams, and will be completed as speedily as possible.

These improvments make this suburb in all particulars, the most desirable about Chicago, as a place for Homes with schools and churches.

The train service is complete.

Rapid transit is a fact.

This location is 96 feet above level of Lake Michigan. The ground high and rolling. The streets are shaded by trees of more than 20 years growth, In fact the entire village is a beautiful Park. Lots can now be secured at prices that insures purchasers large returns for their money in the Near Future. All desiring Homes for their families, should look this property over before purchasing elsewhere.

Call and go out with us any day, and we promise to surprise you with the advantages and beauty of this place.

C. C. COLLINS,

Telephone 2868.

Rooms 60-61, 175 Dearborn Street.

Same to same lt 7 and 8, Guyer's add Rock Grove, $900.

SUMMER RESORT RHYMES.

List to the rhyme of St. Paul, Papa,
Chippewa, Chickasaw, Minnehaha:
Mani-to-ba—which used to be Manitobah.
Chaska, Anoka, Decorah, Dakota,
Delavan, Elkhart, Monango, Mendota.
Placid Luana and tragic Mankota.
Lakes by the hundred, so trippling they go,
Michigan big and flat Winnebago—
Itasca, Kegonso, Monona, Nashotah,
Nagowicka, the reedy and tiny Leota;
Pewaukee, Waubesa, Okoboji, the finny,
And Pepin, the peerless, Nemahbin, the twinny,
"Minne's" galore over shallow and rock,
River or lake like Oconomowoc.
Menomence, sinuous; Minnesota, the clouded;
Minneiska, the clear; Minnetonka, the crowded:
"Waus" by the dozen and "Kaus" by the score,
Waucauta, Waubena, Waukon and Waukau;
Wausau, Wauwatosa, Waucoma, Waupun,
Oshkosh and Okauchee, and wide Koshkonong;
Winneconne, Wausaukee, Mazomanie, Pukwana,
Maquoketa, Mosinee, Omaha Tomah,
Ontonagon, Okoboji, Owatonna. Viroqua;
And latest of all, the old chieftain, Minocqua;
Wahpe ton, Sisse-ton, Wyocena, Waubay,
(Muscoda, we find is pronounced Musco-day;)
Sabula, Savanna, Shakopee and Sioux,
Tama, Taopi and Tomahawk too,
We've made the grand tour and tackled eni all,
Via Creamy Milwaukee to busy St. Paul.
We puzzle at Wa-ba-sha—Ke-no-sha no more,
And at Wauk-esh-a—walk ashore—All on the lines of the Chicago, Milwaukee & St. Paul and Milwaukee & Northern Railroads.

Chicago City Tkt Office 207 Clark St.

Public Notice.

FOR COMPUTERS AND DRAFTSMAN.

The Civil Service Commission will hold examinations on the 28th of June, continuing through the 29th, to fill two vacancies in the position of computer in the Coast and Geodetic survey at $1,000 a year, and one in the position of Draftsman at $900. Arrangements may be made to hold the examinations in some of the large cities outside of Washington, if there should be applicants. The subjects of the Computer's examination will be orthography, penmanship, letter-writing, algebra, trigonometry, geometry, geodesy and practical astronomy and differential and integral calculus. The subjects of the drafting examinations will be letter-writing, geography, arithmetic, algebra, geometry, descriptive geometry, plane and spherical trigonometry, shades and shadows, and drawing. Application blanks may be had of the Civil Service Commission. Residents of the District of Columbia are ineligible. Applicants will be required to furnish the necessary implements for drawing. JOHN T. DOYLE
Sec'y U. S. C. S. C

CASINO.

Haverly's Mastodon Minstrels are, without question, the most complete organization that has ever appeared in Chicago, and their performances at the Casino (Eden Musee) have been endorsed in most thorough manner by all classes of amusement seekers. Particularly attractive are the entertainments to out-town visitors, who after an inspection of the various objects of interest in the Musee department, attend the minstrel concerts. The program of the past week has been very pleasing, but the coming week will be a gala week, commemorative of Ireland's patron saint, St. Patrick, the great and good, whose birthday is celebrated throughout the entire civilized world. The program will include all the members of the company, and Irish ballads will predominate. The theater will be decorated and draped with the national colors and flags, and our beautiful wax figure of Robert Emmett will be exhibited free. A new singer will be heard in the person of Mr. Albert Yale, well known to all Canadians as a vocalist of much merit. Banks Winter the celebrated tenor, will have a new song. The comedians Rice, Hall, Denton, Rudworth, Bogert, and O'Brien will have new specialties. Ellwood, the wonderful male soprano, will display new feminine toilets. Constantine, the dancer, will execute new solos, and Harry Budworth will repeat his new repertoire. The latter's song, "Come to Baltimore," has "caught the town" and is encored three and four times every perfo mance. Altogether, the week will be one long to be remembered, and all desirous of hearty, wholesome pleasure should not fail to attend. "Excelsior" is Mr. Haverly's motto. Much has been done by this gentleman "but more remains behind."

THE
CHICAGO,
MILWAUKEE
AND ST. PAUL
RAILWAY CO.

Owns and operates 5,650 miles of thoroughly equipped road in Illinois, Wisconsin, Iowa, Missouri, Minnesota and Dakota.

It is the Best Direct Route between all principal points in the Northwest, Southwest and Far West.

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory, rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,
Industrial Commissioner,
C, M.. & St. Paul R'y, 160 Adams St., Chicago, Ill.

Any Sunday or Any Weekday

And write your Name upon

THE SCROLL OF FORTUNE'S FAVORED ONES.

FRANKLIN PARK is the Growth of less than two Years. It is the suburban Terminus of the Chicago & Northern Pacific R. R., and is situated at the Intersection of the Wisconsin Central R. R. with the Chicago, Milwaukee & St. Paul R. R. It is 90 feet above Lake Michigan, 11 miles from the City's centre, 2 1-2 miles west of the City limits and is accommodated by 54 passenger trains daily. It has the two finest suburban depots west of the City, costing over $5,000 each, a spacious hotel, a fine block of stores, scores of attractive residences, miles of side-walk, sewers and shade trees and an abundance of wholesome water.

On its western border is MANHEIM, the nucleus of extensive manufacturing concerns and destined to be a busy centre of diversified industries.

In FRANKLIN PARK are thus combined

All the Essentials of an Ideal Home-Site.

DO NOT FAIL TO SEE IT.

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

DOLESE & SHEPARD, 162 Washington Street, Chicago,

HAVE BEEN AWARDED A CONTRACT AMOUNTING TO

ONE HUNDRED AND SEVENTY THOUSAND DOLLARS

($170,000) for the purpose of macadamizing 17 miles of streets and building stone sidewalks.

NO ASSESSMENT will be made for the improvements, the Association assuming the entire expense. The wise and prudent people who invest a small amount of money in CHICAGO HEIGHTS property will in a comparatively short time reap large benefits. No sane person can question the wisdom of making an investment in Chicago property.

Four large factories are in full operation and contracts closed with several others. A large number of residences and business houses in course of construction, also an extensive factory building for Roth & Englehardt, Piano Manufacturers of New York.

STABILITY OF THE ENTERPRISE

The following well-known gentlemen are among the promoters of Chicago Heights:

GENERAL OFFICERS OF THE CHICAGO HEIGHTS LAND ASSOCIATION:

C. H. WACKER, President. **E. S. DREYER, Treasurer.** **GEORGE BURRY, Secretary.** **M. H. KILGALLEN, Manager.**

—EXECUTIVE COMMITTEE:—

C. H. WACKER. A. T. OTTO. JAMES E. McELROY.

—DIRECTORS:—

C. H. WACKER. E. S. DREYER. JAMES E. McELROY. GEORGE BURRY. FRANCIS LACKNER.

—STOCKHOLDERS:—

E. S. DREYER, of E. S. Dreyer & Co., Bankers, cor. Washington and Dearborn sts
ADOLPH LOEB, Banker, 120 La Salle st.
WASMANSDORF & HEINEMAN, Bankers, 145 Randolph st.
JOHN BUEHLER, Banker, La Salle and Randoph sts.
C. H WACKER, of Wacker & Birk, Brewers.
JOSEPH THEURER, of The P. Schoenhofen Brewering Co.
LEIGHT & BARTHOLOMAE, Brewers.
RUDOLPH BRAND, President of the United States Brewing Co.
H. GRUSENDORF, Lumber Dealer.
GEO. W. KELLNER, Schmidt Brewing Co.
GEO. W. WEISS, President American Brewing Co,
JOHN CUDAHY, Packer.
MICHEAL CUDAHY, Packer.
JOSEPH AUSTRIAN, of Leopold & Austrian, Transportation Co.
D V. PURINGTON, Brick Manufacturer.
JAMES E. McELROY, Real Estate, Chamber of Commerce Building.
RUDOLPH E. RHODE, Wholesale Druggist.
C. D. OTIS, Capitalist.
FRANCIS LACKNER, of Lackner & Butz, Attorneys.
GEORGE BURRY, Attorney.
WILLIAM VOCKE, Attorney.
PETERSON BROTHERS & CO., Grain and Commission Merchants.
A. T. OTTO, Capitalist.
D B. LYMAM, Capitalist
THOMAS B. MARSTON, Capitalist.

You will kindly observe that this Association comprises a body of the most successful, wealthy and influential citizens of Chicago. The great experience of these gentlemen in their several walks of life, whether professional commercial or financial, is readily at the disposal of the Association. The numerous founders of the Association are one and all eager to promote its welfare and to protect and shield it by their watchfulness and experience.

TRADE AND FINANCE.

After making due allowance for the holiday of the week and the labor disturbances in Pennsylvania the first thing that strikes the minds of business men is the underlying strength everywhere existing, and which spreads over the three millions and more square miles of the United States. It is true gold has been leaving the country in a continuous stream; that the senate has passed a crude and inconsiderate measure for the free coinage of silver, and a fierce struggle between capital and labor has suddenly disturbed the peace of Pennsylvania. But these matters, though grave in themselves, are more than counterbalanced by the growing assurance that the country is once more to be favored by bountiful crops, bringing wealth to millions of farmers. From the standpoint of the agriculturist, the last week has been favorable in an unusual degree to all growing crops, and the forthcoming monthly report of Statistician Dodge may be expected to make this clear. The bulk of the winter wheat may now be regarded as assured. From Kansas, but one cry is now heard. It is for thousands of additional hands for harvesting work. Such is the size of the crop and the dearth of men to secure it that, farmers are offering $3 a day and board to as many hands as they can find with a guaranty of six weeks steady work to applicants. This they can afford to do, for besides the reaping and threshing of the wheat, there is much to be accomplished in the way of cultivating corn. From all sections of the winter wheat country good reports are received. There are some complaints of blight and of smut, but these are few. In the northwest, Nebraska has obtained the rain so much desired, and farmers express themselves as hopeful. Traders in corn are still to be found who believe in a short yield of that cereal, but the number is decreasing daily. The West is selling and the East is buying, and that tells the story.

Owing to the improved prospects, all grains have sold off. Pork has shared the decline. The September option for No. 2 wheat touched 76⅝ on the Chicago Board of Trade Thursday, though the close was fractionally higher, viz.: 76⅝. The cables as to European crops continued to indicate a generally good condition, a heavy failure at Liverpool, for over three-quarters of a million of dollars, assisted in weakening prices. It is true that the firm going under was engaged in cotton speculations, but this fact was either overlooked or treated as immaterial. The feeling among room traders was that this was not quite the right time to be caught long on anything.

The Judiciary committee of the Senate have been unable to agree as to the anti option bill to which the name "Hatch" has been applied. Opinions differ as to what this might imply. The general impression is that the Senate will follow the example of its committee, and shelve the matter by default. The exigencies of the existing political situation would seem to indicate some such line of action. A mere threat of the Hatch bill is against any revival in prices of grains and provisions. As a significant commentary as to how traders regard the action of Hatch and his friends, the following fact is worth recording. The members of the St. Louis Exchange recently purchased the premises in which they conduct their business, with a view of replacing it with a finer and more convenient structure. The members are now petitioning the directors to delay action, on the ground that if the anti-option bill passes their business will be ruined, and so there will be no need for any Exchange for them to meet in.

It is difficult to arrive even approximately, at the probable amount of gold that will be exported this week. For some unexplained reason, the shippers of the yellow metal are chary about giving their intentions away. Thus, on the concluding day of the preceding week, they hurried out over $3,000,000 at the very last moment, upsetting all previous records and calculations. The fact that sterling exchange has further advanced, and to a point that admits of gold being sent out at a profit, would seem to indicate the probability of large movements. The net exports of gold for the first six months of the current year have been $37,275,000. Several attempts have been made to satisfactorily explain this continuous drain, in face of the heavy balance of trade favoring this side. The real explanation is probably to be found in the persistency with which unwise silver legislation is being forced forward in the United States. Only the present week witnessed the passing by the Senate of Senator Stewart's free coinage of Silver bill, including a clause for the repeal of the law of 1890, which authorized the monthly purchase of 4,500,000 ounces of silver, and the issuance of bills against the same. The two measures are now held by lawyers to conflict in a highly important point that would imperil the validity of no less than $80,000,000 of legal tender notes.

The week on Wall street has been marked by some bold raiding by bears, who have thereby succeeded in bringing about a generally lower range of prices. Everything favored such tactics. Business is limited. Gold is leaving the country. The bank statement was regarded as unsatisfactory. London is dull, owing to the elections in part. Considering the extraordinary combination of bearish elements, prices did not recede as much as might have been expected, and the tendency Thursday, was toward better things, induced in part, no doubt by sellers securing profits. Another thing that discouraged the bulls was the unsatisfactory earnings of several of the railways, which failed to secure the large gains anticipated from the moving of the big crops of last year. This feeling is reflected in the reduced mileage of new railways built during the first six months of the current year, viz: 1,190 miles, as against 1,700 miles for the corresponding period of the preceding year. But this is not altogether a bad sign, inasmuch as rate-cutting bas been one of the greatest difficulties in the way of existing railways securing fair profits.

A glance back over the past six months is by no means as satisfactory as one might be inclined to suppose. Thus the total bank clearings for fifty one cities available for purposes of comparison, and for the six months just concluded, were $30,744,000,000 as compared with $26,715,000,000 for the corresponding period of the preceding year, a gain of 15 per cent. New York City gained—excluding the clearings in in connection with the New York Stock Exchange recently introduced—$2,854,000,000 or 19 per cent. Chicago gained $335,000,000, or 16 per cent.

Regarded from the standpoint of the number of failures in business and of their amount, the review of the past six months is equally gratifying. Thus, the total number of failures was 5,351 as compared with 6,037 for the first six months of 1891, a decline of 686 or 11.3 per cent. The reduction in the amount of total liabilities was even greater, falling from $72,370,000 to $56,535,000, a decline of over 21.7 per cent. The returns if examined in detail are equally satisfactory. All the leading groups of States show an improved condition of solvency. Thus the Middle States decline from $31,562,000 to $15,285,000, or over one-half. The Western States decline from $21,398,000 to $12,415,000 or 42 per cent, and the Southern States decline from $17,185,000 to $9,263,000, or 46 per cent. These are the most favorable instances it is true. but there has been a substantial improvement all round, with the doubtful exception of the Pacific Coast States, which may be regarded as about as they were the first half of 1891. The amount of liabilities and the number of failures there have decreased somewhat, but a against this must be placed a reduction in the amount of available assets. Canada has, for the same comparative periods, reduced the number of its business failures 4.5 per cent, and total liabilities some 17 per cent.

The Bank of England retains the official rate for money at 2 per cent, but in the open market good commercial paper can be discounted at 1¼ per cent, with time loans as low as ½ and ¾ per cent. During the week, gold bullion at the Bank of England has increased £667,000 ($3,256,000), and the proportion of assets to liabilities now stands at 44.22 per cent, as compared with 44.45 per cent. the preceding week. Money at all Eastern points is in abundant supply, but call loans, though generally ruling low, rose temporarily to 8 per cent, upon announcement of the heavy gold shipments, with prospects of more to follow. Money at Chicago rules about last week's rates, though banks are seeking to charge more for loans.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of 67 leading cities for the week ending July 1, 1892, as compared with those of the corresponding week last year, with percentages of increase and decrease.

†Not included in totals.

Of the sixty-one cities avilable for purposes of comparison, thirty show gains, while thirty-one send declining returns. Of the first twenty cities upon the list there are gains in eleven and losses in nine, and among the latter number the two leading cities are included. This is in marked contrast with recent statements.

As compared with the corresponding week of last year, the total bank clearings for fifty-nine available cities of the United States show an aggregate decline of $53,067,000 or 4.9 percent. New York City shows a decline of $70,976,000, or 10.9 percent, upon its seperate returns. This shrinkage is, however, more apparent than real, owing to the system of the clearing cheques at the New York Stock Exchange which more than accounts for the difference. Outside of the Empire city there was a gain of $17,909,000, or more than 4.1 percent.

Boston once more spurts spasmodically ahead of Chicago, but between the two cities there is a broad distinction, which this temporary eclipse of the city on the lakes only serves to emphasize. For though securing second place, Boston declines 5.2 percent while Chicago gains 20.4 percent. It is this steady and recurring gain that gives Chicago its character of being the most progressive city of the continent.

The centres of the iron industry once again establish gains, in a measure traceable to the forcing forward of orders in view of the troublous outlook for labor in that branch of trade. Thus, Philadelphia gains 3.4 percent, Pittsburg 7.2 percent and Cleveland 6.8 percent. St. Louis makes a material advance equal to 18.3 percent. General trade at this point has for some time been highly satisfactory, and has been greatly assisted by confidence in the agricultural products of Missouri and the adjacent states, where the wheat crop is now being harvested in excellent condition. The gain at Kansas city is even greater, viz.: 23.9 percent, and is due to much the same causes. Another factor in the growth of these cities is the tendency with certain railways to make them distributing centers for traffic moving to Southern points. In this way they are figuring upon securing a good deal of the trade in grain and other farm products at present travelling through other points. Some of the big packers are also helping by extending their stockyards at these cities with the view of meeting the growing demands of the West and South. Omaha gains 43.8 percent and Wichita 12.2 percent. The following cities also establish increased bank clearings: Cincinnati 11 percent, Detroit 8 percent, and St. Paul 19 7 percent.

The returns show a decline at several important points, beside New York and Boston, already referred to. San Francisco shrinks 11.8 percent, Baltimore 19.8 percent, and Buffalo, Minneapolis, Louisville and Milwaukee, 14.6, 9.7, 8.4 and 7.8 percent respectively. New Orleans must be added to this list, with a decline equal to 15.5 percent. At this last point, the bank clearings are not quite five and a half million dollars for the week. This is an extremely small total, but may be accounted for by the vicissitudes of its chief staple, cotton, and the recent floods which have temporarily paralyzed trade.

Canada, which has for some weeks been on the decline, establishes the handsome gain of 42 percent.

Continuing our analysis, but by groups of states, we have.

	WEEK ENDING JULY 1, 1892.	WEEK ENDING JULY 2, 1891.	PERCENTAGE.
New Engl'd States.	$104,526,748	$111,219,405	Dec 6.1
Middle "	673,884,563	742,935,222	" 9.3
Southern "	31,991,701	36,968,455	" 13.4
Western "	44,085,232	38,780,071	Inc 13.7
Northwestern "	116,477,787	100,677,405	" 15.7
Southwestern "	37,463,597	31,197,593	" 16.9
Far Western "	25,571,388	27,349,479	Dec 6.0
Totals,.....	$ 1,034,001,017	$1,(37,127,630	

This table presents decling returns from four groups and increased returns from three.

The reason for the shrinkage—more apparent than real—in the middle group has already been given. That in the New England States can be traced to lack of speculative activity. Apart from this, business has been above average. The woolen and cotton mills have been employed to their full capacity, and a better demand has been noted for dry goods for the summer season. The loss of 13.4 percent for the entire Southern group is substantial but can be assigned to special causes. An early change for the better in this section may be looked forward to with considerable confidence, for a variety of reasons which space does not admit of our alluding to here. As to the Farwestern states, what was said last week still holds true. The decline can be referred almost wholly to California and Washington. A letter recently received by the writer says: "The cities along the Pacific coast are just now suffering from a series of exploded booms. Business in all lines is extremely dull, and the prospects of an early recovery are slight. Nothing, however, can keep this section of the continent from entering upon its inheritance of prosperity. The men are full of enterprise and the country is one of boundless resources."

The gains of the Western, Northwestern and Southwestern groups are pretty uniform, being 13.7 per cent, 15.7 percent and 16.9 percent respectively. It is specially gratifying to note that the contributing cities present an almost uniform tale of prosperity, showing clearly that those groups are advancing with a solid front. Another fact worth observing is that these groups indicate in a particular manner the agricultural situation at the present moment. In other words, here the harvesting is in progress, and the harvesters are prospering. Such is the first word from the farmers to the country, as a whole.

ARGUMENTS AGAINST GOLD.

In his speech before the United States Senate, Mr. Stewart maintained that the competition for gold in the world had doubled its purchasing power, and that as the price of gold went up the price of wheat and cotton went down. He combatted bitterly against the gold advocates, whom he characterized as a money trust, and stated that from 1810 to 1850 this country went through a serious depression for lack of precious metals, and that since 1850 there had been a sufficiency of precious metals, but that they have been tampered with, and that the passage of the act of 1873 has kept the country from having good times. Alluding to Mr. Sherman's reference to Mexico as a silver basis country, he said that country had a good financial system, was prospering and could manufacture goods 25 per cent cheaper there than in this country, all because they had plenty of good money. He attributed the financial troubles of 1890, in South America, to the attempt made by Englishmen to put that country on a gold basis, which had failed, as he had expected. As to India, he said, the discussion before the Royal Commission showed that though the depreciation of silver was damaging to the Indian government, which had to pay its debts in London in gold and to the Indian office-holder who was paid in silver; to England at large it was a benefit, as it enabled them to buy Indian produce cheap when silver was cheap. He claimed that a bushel of wheat had been worth for some time relatively as much as an ounce of silver, and the price of wheat has declined with the price of silver; that where the American farmer got 88 cents a bushel for wheat in gold, the ounce of silver for a bushel of Indian wheat would be coined into $1.50 of silver coin, and that amount of silver would buy as much as ever in India, so that the production of wheat there had increased from nothing, with silver at par, to 50 or 60 millions of bushels a year at present. He claimed that if silver were worth $1.29 an ounce in London, a bushel of wheat would bring there $1.29 instead of 88c. Referring to India Council bills, he charged that they were used by the English government to manipulate the silver market and depress its value. The speech contained much more of interest, which we have not further space to present here.

Mr. Morgan began his speech by stating that the silver plank adopted by the Minneapolis convention was a step forward in the direction of a restoration of silver, although it was timid and irresolute, and dealt in equivocal phrases. He said further, that the people had a right to expect that the convention at Chicago would go to the length of declaring for free silver, and that if that movement were suppressed at any man's bidding, that man would be suppressed by the people. He did not attach any importance to an international conference, as these had failed before, and the conference would not relieve the present financial distress of the country. He summed up the events leading to the demonitzation of silver in 1873, particularly Mr. Sherman's connection with it, quoting from speeches of Messrs. Beck and Jones of Nevada on this subject. He referred to Mr. Sherman's suggestion as to a new ratio, as "sending silver to the poorhouse," at the rate of 23 to 1, which would give the gold men more than $1,300,000,000, and serve as a means of postponiug the evil day when the gold men would have to answer to the people. He argued that the present market ratio was the creature of abuse, and this abuse would only be cured by free coinage, and claimed that whoever took away from silver its use as a money metal, violated the constitution. Referring to Mr. Sherman's suggestion, that the overproduction of cotton and wheat was the cause of their low prices, he said that the increased production of those great staples in India was due to the abundant supply of money of an unchanging value. He referred to the various candidates for the Presidency in slighting terms, and feared that the political conventions would twist and turn in order to impress the country with the idea that they were in favor of the rights of the people.

On the 16th inst. Mr. Morrill addressed the Senate, opening by saying that Mr. Morgan had pushed his resolution with the hope that the Senatorial Democratic candidate for the Presidency would stay and have their votes counted, but that these had sought the safety of the bomb-proof smoking rooms. He had supposed all the Senators had been agreed that an international conference was the strongest hope for bi-metalism, but Mr. Stewart had now announced that this movement was no longer to be tolerated, and should be dismissed with contumely. He claimed that with the President in favor of bi-metallism, reliance could be placed upon his appointing men to represent the United States in the conference with fidelity and efficiency, but that if the Free coinage bill were passed the invited nations would give the matter no further consideration. The Government was now paying for silver all it was worth, but that the silver men wanted a dollar for what was worth only 67 cents. There was no cure for large overproduction but increased consumption, and that was nowhere in sight. He argued that no man who reviewed Jefferson's and Hamilton's monetary views would favor a measure which would seriously threaten with harm all business relations and offer the farmer and laborer depreciated money. At the conclusion of Mr. Morrill's speech Mr. Stewart replied that the speech consisted largely of ridicule for silver men, and that the proposition for a conference was only to bridge over the pending election. He said he was opposed to the conference because he knew the intention was not to arrange for universal free coinage, but to adopt a ratio of 25 to 1.

On the 13th of June Mr. Peffer called up his bill "to increase the currency and provide for its circulation to reduce the rates of interest and to establish a bureau of loans. He stated that it provided for a loan agency at the capital of every State and territory and other convenient places where loans could be obtained by the people in sums of $100 to $2,500 for any person or family on the security of real estate but no provision was made as to a rate of interest; the money for the loans to be provided by Treasury notes to the amount of $1.50 for every dollar's worth of gold and silver belonging to the Government, silver bullion to be estimated at its coining value. No bank or company was to be allowed to charge over 4 or 5 per cent per annum for long or short time loans respectively. The bill provides for loans on personal property at ½ of one per cent per month for periods of less than one year on cotton, wheat, tobacco, etc.

LOCAL STOCK MARKET.

As a matter of fact there is no local market to be described The week opened with a National holiday and closed after a series of doll and nninteresting sessions of the Exchange. The entire business done at the morning call on Monday, for example, amonnted to only 385 shares. This divided among the membership of the Exchange or even among the active membership, would provide only for an infinitesimal per capita commission. There were no forces at work either to support or depress the market and consequently prices remained about where they were left last week. The prediction that a break in prices will soon be experienced and of its occurrence dnring the snmmer months is not entirely warranted by the facts in the case. It is trne that during the holiday dullness the market might respond to an attempt at depression, bnt the existing conditions of the money market at present are snch as would preclnde the possibility of a bear raid being soccessfnlly managed. The street railway stocks which are recognized as leaders in any movement of importance are either in the hands of investors or of strong operators who will see that there is no decline in prices. In fact the success of the parties who managed the recent steady advances in the North and West sides stocks depends on the firm maintenance of prices for some time at least. The generally accepted theory in regard to these advances is that strong holders assnmed the boldest bnll measnres and on a rise increased their holdings. They did not expect to, immediately on the advance, bnt hope to feed ont these secnrities in a good investment market at the top notch prices. If snch tactics have been employed prices will have to be kept np firmly for some months to come at least.

Streets Stable Car stock continues heavy under a most favorable showing as regards earnings. After paying a qnarterly dividend of 1 percent a snrplus of about $42,000 was left. The gross earnings for the three months of April, May and Jnne are placed at $183,000 with expenses of all kinds including interest and preferred stock dividends eqnivalent to $103,000. The stock although fairly continues firm at low prices and in light demand. American Strawboard stock was bid for at 87 and common stock of the Brewing and Malting company was in light demand at 37. The bonds of the International Packing and Provision company were listed on the Stock Exchange Thursday. The issne is $2,500 and bids have been made at 98. The bonds rnn for twenty years at 6 percent interest bnt are redeemable at 110. It is said that the stock of this corporation will be listed in a short time. The annnal meeting of the Stock Yards company was held in Jersey City this week and the regular ticket was elected. John Q. Adams was made President to socceed F. H. Winston. The agreement with the packers ontside of the "Big Three" and the Internacional company by which they receive a certain snbsidy in cash and bonds was ratified. The demand for bonds in the local market continnes to attract attention. The connter trade is something phenomenal. Any good bond, which will bear secnrity, is in good demand. An instance of the demand for snch secnrities is seen in the case of the Chicago Packing and Provision company. The directors of this company anthorized the pnrchase and retirement of $100,000 bonds. The advertisement bronght ont so small an offering and at prices so far above par that the idea of retiring the issoe had to be abandoned as impracticable.

NEW HIGH SCHOOL TO COST $100,000.

The board of Education of Lincoln, Neb., called an election on July 2, to vote on the proposition to issue bonds to the amount of one hundred thousand dollars, ($100,000) for the purpose of building a high school building, said building to be located on a portion of the same block where the present Central building is located. This action of the board was made necessary by the large increase in the number of pupils in all grades in that section of the city adjacent to and surrounding the central building. By the time the new building can be finished there will be more pupils in that portion of the district that can be accommodated in both the new building and the present one. The board is renting from six to eight rooms outside of the central building besides using three rooms in the basement of that building which should not be used for school rooms. By September 1894, the board will be compelled to pay nearly as much rent for outside roooms as the interest on the $100,000 would amount to. The extra cost of heating and caring for the rooms rented would swell the expense to fully as much as the amount of interest on the bonds.

THE REAL ESTATE MARKET.

IMPORTANT REVALUATIONS UNDER NINETY-NINE YEAR LEASES.

A week ushered in by a holiday which is celebrated as generally and enthusiastically as our Fourth of July seldom is marked by an active real estate market. The transfers show the usual list of minor transactions, involving residences and lots for improvement but fail to indicate any completed transactions of great import. The absence of records of investment operations consummated, is no evidence however, that important negotiations are not underway. The unusually large dividend and interest returns during this month will certainly find their way into realty investments. Negotiations involving the Dore property at the northwest corner of State and Madison streets, the Equitable building at the southwest corner of Dearborn and Washington streets and two or three valuable properties in the wholesale district are well underway. It is generally believed that the two properties first named will pass into the hands of syndicates represented by Owen F. Aldis, George A. Fuller and others. In fact the terms under which the Equitable block was purchased by Andrew J. Cooper are almost an assurance that another transfer will soon follow and that preliminary arrangements have really been made for such disposal.

PENDING REVALUATION MATTERS.

It is altogether probable that the southwest corner of Washington and La Salle streets will be the site of a new office building of more than ordinary proportions. The revaluation of the land which is now being made promises to wipe out the equity of the lessees in the present Western Union building. As in the case of the Grand Pacific hotel the rental will be so high for the ground, that it will absorb the building. The corner which is about 100 feet square was leased soon after the fire, to Messrs. Grannis and Coolbaugh at a rental equivalent to 6 per cent on a valuation determined every five years. The fee is owned by the Peck estate, and the Peck homestead formerly occupied the corner. The building was erected at the time the lease was made and was considered a fine building in its time. The present revaluation negotiations are being watched with more than ordinary interest and illustrate a half dozen phases in real estate movement. The lease provides that at each five year period a valuation be determined by three appraisers, one to be chosen by the Peck estate, one by the lessees and one to be selected by the two first named. In case these two can not agree on a third, the matter is to be left to some judge to act as referee. Ten years ago the land was valued at $225,000. Five years ago the Peck estate waived its right to a new valuation, but early this year named H. H. Kohlsaat as its representative on a board of arbitration to make the valuation necessary on May 1. Melville W. Fuller who represents the lessees and owners of the building selected C. B. Farwell. Mr. Kohlsaat's estimate was $800,000, while Mr. Farwell's was $400,000. The Pecks claim that the land is worth $900,000 and are supported by a few real estate experts. If the lessees, as it is claimed can realize little above the ground rent at a basis of $225,000, it is plain that even the most favorable figure which can be secured between $400,000 and $900,000 will prove disastrous. The two arbitrators failed entirely to decide on a third and in default the matter went before Judge Gary of the Appellate court. A preliminary meeting was held at his office on last Wednesday and another was held on Friday. Almost every prominent real estate man has been asked to submit his estimate to the Judge. It is probable that some decision will be reached soon, but everyone expects that it will result in the lessees retiring from the field and the reversion of the building to the owners of the land. That the Pecks anticipate such a result is evidenced by the fact that they have already opened negotiations with the Stock Exchange for a ninety-nine year lease and the erection of a new building.

Negotiations for a number of revaluations are underway at the present time but few of them approximate that of the Washington street corner in general interest. A valuation of $4,200 a front foot has been determined by Judge Tuley on forty-six feet of Wabash avenue frontage at Nos 207 and 209, adjoining the James H. Walker building. This is the property which was leased by the Ely estate to Z. S. Holbrook for ninety-nine years at an annual rental of 5 per cent on $260,000. The ninety-nine year lease was made subject to a short term ground lease to the parties now occupying the building on the lot. To determine the rental under this lease the bill for an appraisement was filed with Judge Tuley.

In the matter of appraisements the Real Estate Board has been especially active this year. During the first five months property to the extent of $4,053,000 was valued through its Valuation Committee. This amount becomes more significant when compared with the total of property valued during preceding entire years which are as follows:

1888	$4,001,000
1889	2,933,000
1890	1,620,000
1891	2,659,000

The average for the first months of 1892 if continued to the end of the year would produce a total of between $10,000,000 to $12,000,000. Besides all this in the month of July alone the committee returned certificates of valuation on $50,000,000 worth of property. This represents work done for the Terminal Commission in its study of the practicability of elevating railway terminal lines. The report of this committee which is being prepared by its Prseident, E. S. Dreyer, will contain some interesting theories and suggestions based on the valuation figures.

CHICAGO REAL ESTATE BOARD.

Editor REAL ESTATE AND BUILDING JOURNAL:

The Tribune this morning contains an article on valuations made by the Valuation Committee of our Board, in which it says the valuations for June amount to five million dollars. They were ten times that amount.

Valuations up to 1892 have been $11,215,640.22.
First five months 1892 they were $4,053,707 00.
June 1892 they were $50,271,326.00.

The advantage of having valuations in long time leases made by this Committee from time to time over the former plan are so apparent as to scarcely need mention. Yours Res'p'y

C. L. HAMMOND, Sect'y.

A NEW REAL ESTATE METHOD.

In the organization of the Chicago Auburn Park Land Trust with 200,000 shares capital and the application for listing of the Boston Stock Exchange is seen one of the numerous projects for transferring land as personal rather than real property. The tract of land known as West Auburn lying between Centre avenue and Halsted street and Seventy fifth and Seventy-ninth streets is the property held by the newly formed Trust. It was purchased two years ago from Ogden Sheldon & Co., and one quarter of it or forty acres have been improved. 150,000 shares of stock were subscribed here principally by the men who negotiated the original purchase, and 50,000 shares of treasury stock were sold in Boston by a prominent banking firm at minimum price of $2 a share. This treasury stock goes to provide for improvement and development of the land. The feature which is most commented upon is the fact that the stock of the company should be marketed in Boston instead of Chicago. The fact is that practically no stock of land companies outside of that of the Chicago and Calumet Canal and Dock company is listed on the local exchange and such stock is not particularly popular. In Boston, however, the laws being more favorable to land companies and corporations their stocks are listed and dealt in largely.

PERMANENT EFFECTS OF A DULL MARKET.

The reaction that set in a year ago, in the real estate market caused the better grade of suburban property to advance and the cheap, speculative kind to drop out of sight. The principle or doctrine of "the survival of the fittest" is here illustrated. Instead of eligible building sites near railways depreciating permanently, they have advanced. Subdivisions a mile and a half from a railway station, and christened by some high sounding or beautiful name are not exactly "out of sight" but they have dropped out of the line of investments. The lull in the market and the continuous heavy rains during the last three months have caused the people to reflect, and lose confidence in schemes on paper. It now occurs to most people that a new town must actually have one or two railroads improved streets, sewers or drains and some kind of protection from fire and disease. These do not exist in any of the so-called cheap subdivisions or towns and to get them in a reasonably short time will cost a large amount of money and a good deal of energy. The wonderful strides made in some of our best suburbs have made them the synosure of all eyes and lifted them up above a dull market. The fact that one real estate dealer near a town offers lots at $200 or $300 each while another dealer sells them for twice that sum means that there is just that much difference in their values. People buy with their eyes open for use and occupancy rather than speculation. The market may therefore be said to be returning to its normal condition. The value of a piece of ground is determined by its usefulness for a certain purpose, when put to that use. But there is a certain amount of buying by people of means with a view of reaping the increase but as soon as this kind of buying predominates over the other kind the market becomes unstable and feverish. There is already a brisk inquiry for good suburban lots, and the coming fall bids fair to be a season of prosperous trading.

SOUTHERN FARM LANDS.

[Special Correspondence]

CHATTANOOGA, Tenn., July 5, 1892.

Editor REAL ESTATE AND BUILDING JOURNAL:—At the meeting of the Tennessee Association of real estate agents and owners at Chattanooga, June 28th and 29th, many valuable suggestions were made with reference to the development of the varied resources of the State. The short address of Mr. W. R. Crabtree of Chattanooga, on the subject of the farm lands of the South, deserves more than a passing notice.

"The farm lands of the South are her neglected resources. Without exception they offer the most attractive field for investment and development. Particularly is this true of the State of Tennessee which combines all the attractive features of climate, soil and products of the North and South, without the disadvantages of either, yielding a greater variety of products than probably any State in the Union, including cotton, and the early fruits of the South, and all the cereals of the North. The table lands are especially adapted to fruits and vegetables; while the valleys produce corn, wheat and the grasses in great luxuriance.

"When we consider that these rich farm lands are in the midst of a great mineral and manufacturing section, together with the low prices at which they are offered for sale, we are convinced that they are the bonanza of the future in the South.

"Farm lands have not received the consideration to which their importance, in the development of the South entitles them. The attention of the real estate agent has been diverted from advertising our agricultural resources by the dazzling prospect of enormous profits to be made in mineral development, manufacturing and town building; and while much good has been accomplished through their efforts in that direction, great injury has been wrought by inducing the investment of capital from other sections in unworthy and unprofitable enterprises, and by over-production in certain lines of manufacture.

"The progress of the South has therefore been one-sided. Agriculture has been neglected and manufacturing and town building have been overdone.

"An equal development of all the resources of a country is essential to its highest prosperity. Particularly is this true of the Central South. with its variety of products and diversity of mineral and timber resources. The numerous industrial plants, employing thousands of mechanics and laborers, furnish a home market for every article of farm production; but it is a sad commentary that almost every necessary of life is imported from other sections.

"These conditions should not exist, despite the neglect of those engaged in the great work of the South's industrial development, and the question naturally presents itself, why is not farming more profitable, and lands more valuable than when agriculture was the sole industry?

"Prior to the Civil War the slaves were practically the only tillers of the soil, Under the direction of capable overseers, their work was well done, and the

plantations were kept in the highest state of cultivation. Farm lands were the basis of value, and paid larger returns than any other class of investments. the planters lived in ease and luxury; and his children were given the most liberal and thorough education, but were entirely without the training or experience necessary to successfully manage the plantation.

"As a rule this was the condition of the prosperous Agricultural south at the commencement of the war.

The negro showed his appreciation of freedom by leaving the farm and becoming an agency in the industrial development of the South, by congregating in the cities and towns, securing employment on public works and railroad construction. Under the changed and more favorable conditions, the overseers, a small minority of the white population, with the practical experience gained in the management of large properties, frequently bought land at insignificent prices, and are to-day as a rule, the wealthy and prosperous farmers of the South. The planter and his sons, deserted by their former slaves and overseers, without knowledge or practical experience in the business of farming, turned their attention to other vocations, frequently allowing their rich and productive lands to lie uncultivated, sometimes renting to shiftless tenants for a mere pittance, and sometimes selling to equally shiftless purchasers. Under this order of things the methods of cultivation are naturally inferior. The products that will bring most money are raised from year to year without regard to the intelligent rotation of crops. Cultivation by indivlduals of larger tracts of land than they have the help or means to properly cultivate, is largely responsible for the erroneous impression prevailing even among our own people, that our farms are all poor and unproductive. The chief cause, however, of these conditions is the failure of the native farmer to appreciate and utilize the advantages nature has lavashed upon this favored section. He is lacking in thrift and economy. I do not say that this is the universal condition in the South; there are many exceptions—farmers who take advantage of their opportunities, and demonstrate the wonderful possibilities of our agricultural resources.

"These conditions must be overcome before the South can reach the highest prosperity. The surplus and waste lands must be put in cultivation; the methods of farming must be improved, and the large farms subdivided into smaller ones.

"The only way to accomplish this is by letting the world know of our agricultural advantages and by inducing the location among us of intelligent and industrious farmers from other sections.

"The great railroads of the West have made known its resources and In the last few years have settled its vast wilderness with the most enterprising people in the Union.

The agricultural resources of the South are comparatively unknown north of the Ohio river. A majority of the farmers of the North think we live beneath a torrid sun, under whose scorching rays the white man cannot work; that we raise nothing but cotton and watermelons, the labor being done exclusively by negroes. They also have exaggerated ideas of our social and political conditions through the misrepresentations of partisan newspapers and malicious politicians. The greatest ignorance of our soil, climate products, people and institutions prevails among the farmers—the class we need most of all others.

"The farmers of the extreme Northwest, with its blizzards, cyclones and long winters, have only to be convinced that they can live comfortably among us, and we will in a few years draw from that section its most desirable citizens.

"While other sections have been for years announcing their attractions for the immigrant in the most effective manner, the south has neglected her opportunities Scattered individual effort can accomplish little, and it is to be hoped that steps will be taken by this meeting and by local real estate exchange to awaken an interest on the subject commensurate with its importance."

PRICES OF REAL ESTATE IN IOWA AND MISSOURI.

In a speech before the Missouri Bankers' Association Mr. Frank P. Hays gave the following facts about prices and real estate in Missouri and Iowa: "In prices of real estate there has been a steady and substantial increase; our lands have not fluctuated in price, like those of other States. Six years ago, when making some loans over the line in Davis county, Iowa, the farmers asked $40 per acre for lands, while lands in Missouri, of the same quality, ten to fifteen miles south were rated at $25 to $30 per acre. Two years ago I sold an Iowa farm of eighty acres, which cost the owner $2,750; it brought, under favorable circumstances, $1,600. One of the reasons for the steady demand for our lands and the steady increase in prices is the fact that our own people are just finding out the merits of our State and are not hoodwinked by dazzling pictures and boomed accounts of lands elsewhere. For the past few years the young men who have attained the age in which they have the right to exercise their prerogatives have, with the aid of their sturdy parents, bought farms near their homes. They have heard too many tales of the hardships of those who have come back from the boomed States, to be tempted to settle elsewhere, and are instructed by those who have had experience that Missouri lands are cheaper at $25 per acre than lands that have been entered the past five years and are now subject to entry. Missouri lands are, in fact, the cheapest lands in the world, when all things are taken into account."

NEW SCHOOL HOUSE AT ELGIN.

Scaled proposals have been received by the board of education of school district No. 1, Elgin, for the furnishing of all the materials and the construction of a school building according to plans and specifications which may be seen at the secretary's office, Elgin, or at the office of Stiles & Stone, No. 115 Dearbern street, Chicago.

The building must be completed and ready for school purposes on or before the 10th day of October A. D. 1892.

SPORTSMEN BUY 104,000 ACRES OF LAND.

A number of wealthy New York sportsmen have acquired 104,0 0 acres of land by purchase and 75,000 by lease for the purpose of enclosing the same as a game preserve. While this state of affairs points out the rapid accumulation of wealth in the East, it accentuates at the same time the contrast in the conditions of American capitalists and American producers.

In the far West the farmers are fighting a perennial struggle with mortgages. In the East the interest paid on these same mortgages is used in fencing in nearly two hundred thousand acres of fertile soil and rich forests for purposes of pleasure. In New Jersey, Maine, and other New England States, capitalists addicted to the brutal sport of hunting tame game have for some time vied to outdo each other in the extent of their preserves, The rich men of Chicago have of late displayed a weakness for buying farm lands for sporting purposes; and even in the cities of the far West the English idea of private hunting grounds has taken a deep hold. A few years hence we may have our statute books filled with laws against poaching and similar old-world offenses against the prerogatives of a privileged class.

American newspaper and campaign orators are in the habit of speaking of the soil as the common heritage of the people. They forget that slowly but surely a system of land ownership has grown up in this country which embodies all that is bad in European land laws. Much is said against trusts of various sorts, but very little attention has thus far been paid to the land monopoly which threatens to denationalize the United States.

Purchases like that made by the New York pot hunters are, at the present stage of events, not an unmixed evil. They open the eyes of the producers and tillers of the soil, and aid them in the proper study of economic problems upon whose solution depends the salvation of the country. One need not be a calamity croaker to deplore the puerile aggressiveness of our would-be aristocracy. A disinterested observer of the misery to be found in all of our large cities and the brazen effrontary of our plutocrats can find much to discourage him without conjuring up pictures of the horrors which must inevitably follow the day of reckoning between the arrogant spendthrifts and their victims. It is not yet too late to avoid a catastrophe. The protests of the laborer and farmer are beginning to be heard in New York as well as on the plains of Kansas. But unless they are heeded the anise-seed fox-hunters and snipe-shooting dudes of American birth may live to regret their present enjoyment of privilcges filched from a patient nation.—The Graphic.

AGENTS' BUDGET.

Recent sales, however small, not yet recorded, will be reported in this column. All matter must apply to the real estate business and real estate men.

The southeast corner of Dearborn and Jackson streets has been leased to eastern parties. A dispatch was received Tuesday from the lessees accepting the property at $35,000 a year. Different opinions are expressed by brokers about this rental, some refusing to believe the accuracy of this figure until it went on record, while others profess not to be surprised at anything that may be said about realty values in Chicago. The general opinion is that the rental would not be exhorbitant for certain interests. Jackson street is virtually the gateway to South Dearborn street and it would prove of value to all property on this street to have this corner properly improved.

The Alley "L" road has bought the southwest corner of 63d street and Stony Island avenue for $80,000 for depot purposes. The lot was owned by Henry Haines and has a frontage of 90 feet on 63d street by 100 feet on Stony Island avenue. The price paid is therefore at the rate of $800 per foot for Stony Island frontage, or about $900 per foot for 63d street frontage. The lot is directly opposite the main entrance to the fair grounds, and the "L" road will now be able to carry its passengers right to the gates of the exposition. The road will improve the property with a handsome depot to cost about $25,000, and it is understood the work on the structure is to begin at once.

The South Park Hotel Company will erect a large hotel in the World's Fair district to cost about $50,000. The exact location is not given, but it is understood to be at the north end of Jackson Park. The company has been incorporated with a capital of $600,000. Prussing & Prussing are the lawyers for the company. The Cambridge Hotel company also proposes to erect a building to cost about $200,000. Negotiations are now under way for a site, and as soon as the latter is secured work on the building is to begin. J. B. Luck, Jr., H. L. Dietz and E. B. Prescott are the incorporators of the enterprise.

The Metropolitan "L" Road people have begun to secure a right of way on the West side and the work of construction will be under way in less than a year. The company has already bought some property in the vicinity of Western avenue and Van Buren street, and will work its way toward the business center. The easter terminus of the road will be Fifth avenue. It is understood that the entire main line, running due west between Congress and Harrison streets to the city limits, will be constructed before work on either of the branch roads is begun.

The Cleveland Linseed Oil company has purchased 10 acres on the east side of the Calumet River and will locate and build an extensive factory on which they will spend over $100,000. They will employ about 100 men which is an unusually large number for a factory of this kind. $35,000 or $3,500 per acre was the consideration for the property, which was sold by E. A. Cummings & Co.

Chas. S. Smith reports the sale of 200 feet of frontage at Kenilworth to James S. Culbertson, but the price is not given out. He will erect a $20,000 residence upon it at once.

The Fourth of July has come and gone again and with it came some dry weather but no one dares to speak of it for fear of breaking the charm. The effects of the recent rains taken with the Fourth have combined to depress the the sale of suburban property, but if this clear weather continues it will not take long to bring the flooded districts into the market again, as well as bringing the buying public out in search of good investments.

The Metropolitan "L" Road has purchased Nos. 268, 270 and 272 Claremont avenue and is negotiating for other property in this vicinity. The houses named are just south of the alley between Van Buren and Congress streets. This alley does dot run straight but will no doubt be used by the company as there are no long straight alleys on the West side that extend over two or three blocks.

The special assessment "idea" seems to be taking possession of the Common Council and the newspapers, but property owners are not in love with that method of getting taxes. The proportion of drainage tax that is to be raised by special assessments has not yet been fully determined, but it is believed that a considerable portion of the cost of completing the work will be derived from that source. Under the laws of the State and the ordinances of the city sewers, sidewalks, paving and all street and road improvements are to be made by special assessments to which, it is urged, should be added the cost of draining the streets and alleys and sprinkling. The Special Assessment Bureau is already groaning under the burden of its duties, and if these are to be doubled or quadrubled there will be no end to the confusion of assessments. Scarcely an assessment for sewers is ever levied and collected without litigation and delay and in many instances much injustice is done to property owners.

Mr. Andrew Dunning has sold this week a bunch of 48 lots to an Iowa party who will retail them and make improvements. They are situated in S. D. Anderson's addition to Jefferson Park in the old town of Jefferson. The particulars of the transaction are withheld for the present.

The last of the contracts in the recent sale of 3,860 acres 25 miles south of the city, made by Allen Opdyke &

Allen has just been closed by them. The sale includes 26 farms and is said to be the largest sale ever made in Cook county, the total price paid being $1,739,000. The buyers who call themselves the Chicago Associates are at work laying out a manufacturing town on part of the property.

Sixty-seven lots were sold during the week at Chicago Heights and contracts awarded for the construction of 32 houses. In addition to this, a contract has been awarded to Mr. James A. Fuller for the construction of 17 miles of plank sidewalk and another contract for 15 miles of plank sidewalk has been awarded to Mr. John Shaller. Dolese & Shepard have put on 150 extra men and are urging the work of macadamizing the streets and sidewalks forward as rapidly as possible. They will have 18 miles of streets completed Saturday of this week.

A local syndicate will build a business building on the northwest corner of State and Madison streets. Otto Young is about to transfer his ninety-nine year lease of this ground to five trustees for $80,000. These trustees are Owen F. Aldis, W. F. Dummer, Cyrus Bentley, Bryan Lathrop and Carter H. Fitzhugh; other members of the syndicate for whom the trustees will act are Wm. Waller, Otto Young, George A. Fuller, John A. Davidson and Holabird & Roche. The ground fronts 66 feet on State street and 106 on Madison, and its present annual rental of $32,000, on a 5 percent basis, makes it worth about $10,000 a foot for the State street frontage. The leases of the tenants of the present building run out next May, and it is now almost certain that a new structure will be built upon the ground; in fact a permit for a 16 story building is held by Mr. Young. The new building, whatever the number of its stories may be, will be built almost entirely of steel and glass, and will be a revelation in business and architecture. It is to be planned from top to bottom for retail stores and will cost, when completed, about $600,000.

NEW PUBLIC LIBRARY BUILDING.

In a previous issue of the JOURNAL was published an account of the proceedings of a meeting at Elgin called for the purpose of raising a fund to build a public library building. On last Saturday evening at a special meeting of the library board the Scofield property on Spring street was tendered by Alfred B. and Samuel M. Church to the board. The gift is a splendid one, coming as opportunely as it does, before any necessary change of location has been made or plans completed for library rooms in the new city building.

The only condition attaching to the transfer of the property contract is that the library be called the Gail Borden Public library. The property may be sold or deeded by the library board if it sees fit. There is no probability of this, however.

The location gives a frontage of eight rods on Spring street and four rods on Milwaukee street. It is one short block from two lines of street cars, is on high ground in a neighborhood compartively quiet for one so central, and is an ideal place for a public library.

The building with some remodelling will make a suitable library. It is practically fire-proof, being of brick with a metallic roof. The place is worth $12,000 to $14,000.

It will be about six months before the library can move into its new home. Possession will be given sometime in September, and the refitting will take some little time thereafter.

The remodelling of the present building will be thorough that it will practically amount to a new building when completed. The donors have been very generous in this matter and the citizens of Elgin are to be congratulated on the progress their city is making.

THE ARCHITECTURE OF THE LAKE DWELLINGS OF EUROPE.

The Lake Dwellings of Great Britain form a class far more numerous than at first might be supposed, and now that attention has been drawn to their existence, it is probable that a few more years will add materially to the lengthening list. The Crannoges of Ireland have been noted by Sir W.R. Wilde, Mr. Shirley and others, and later, these and many examples in Scotland, by Dr. Monro, whose monogram published in 1882, renders an extended list. They were frequently formed on shallow islands, but not unfrequently built up with boughs and deposited materi a upon the bed of a shallow lake, the area being first enclosed by a framework of piles to keep the structure in position. The examples given by Dr. Monro render full details, and also of the manner in which several of the sites indicate continuance of occupation and many structural alterations. Nevertheless, the objects found, up to the present time at least, do not possess very high antiquity, and there are records of their occupation to quite recent times.

Various sites in England and Wales have been partially investigated, and among these certain sites in Holderness, now on dry, or at most on marshy land, but once covered with water, appear to be counterparts of the pile dwellings of Switzerland, so far as the meagre investigations have been followed. They have been met with so late only as 1881 during some extended drainags works, and piles and relics of apparently great age were discovered. It is greatly to be hoped that some one or other of these promising sites may be systematically explored. In 1886 General Pitt Rivers described a remarkable area in London wall, which, on being laid bare by excavations for a new warehouse, was found to be the site of a timbered structure having many piles and planks. Its existence within the city is subject for comment, and the more so since the objects found were not older than Roman times, possibly later.

London antiquaries have not to be reminded that the entire course of the Walbrook, which enters the city close to this site, is bounded by piles, but which have no reference, so far as has yet been pointed out, to timbered dwellings. But at Southwark, on the shallow banks of the River Thames, a discovery was made which seems to point to a construction very analogous to the Swiss dwellings, In 1866, the late Mr. Wimble reported to the British Archæological Association that a site on the south side of Southwark street, between the Square and Winchester street was covered with piles seven feet to eleven feet long and their heads about twelve feet beneath the modern level. Masses of Kentish rag had been used to steady them. Wherever the excavations were carried for a new building these piles were found. Mr. Syer Cuming testified at the same time to their existence in what had been the marshy ground of Moorfields, and elsewhere in the north of London.

The articles of the Stone age are in many cases wrought with very great mechanical skill and neatly finished, while there are many curious evidences of straight sawing through and the perforation of hard material, most probably by friction caused by rapidly moving a board or a stick for the latter purpose, with sharp sand and water for the cutting material. The labor with which so many thousands of trees were felled, and their trunks pointed to form the piles for the platforms, all indicate a considerable amount of skill of to mean order—certainly not the work of savages.—Architecture and Building.

FACTS WORTH REMEMBERING.

About a month ago the JOURNAL contained an article which described the new town of Franklin Park, at the junction of the Chicago, Milwaukee & St. Paul and Northern Pacific Railways. It was stated in that article that eighty-five houses had been built costing from $3,000 to $20,000 each and that this beautiful new city extended all the way from River Grove to Manheim and from Grand avenue north to a point a half mile north of the C. M. & St. P. Railway tracks. The article was considered a little too strong by persons who knew nothing at all about the place but as too modest by many good judges who have visited the site. Since the first article was written the publisher has made a personal visit to Franklin Park and spent several hours in viewing the grounds and the improvements. The JOURNAL is now prepared to vouch for the correctness of its first statements and further emphasize them by the statement that Franklin Park is the most promising, most beautiful, most accessible and most desirable site for a residence and business point between Elgin and Chicago. It is the western terminus of the Northern Pacific suburban line and has practically three railroads instead of two. It possesses two first-class depots, one on the Milwaukee line and one on the Wisconsin Central road, and still another depot further east on the former road. Besides these depot facilities it should be known that all through trains going both ways come to a standstill about 400 feet from the crossing in Franklin Park. The railway facilities, therefore, are ample and splendid being adequate to a city of fully 25,000 inhabitants. Mr. ranklin's residence now occupied by him and his family, is receiving the finishing touches. The JOURNAL ventures the assertion that nothing finer can be found anywhere on the Milwaukee line between Chicago and Elgin and nothing more complete and elegant in any suburb west of Chicago. The residence, barn and grounds occupy twenty lots, and all will be in harmony with the handsome interior of the residence. Lesser Franklin deserves great credit for his splendid work, and if any of the readers of the JOURNAL doubt it, a visit to the place will satisfy them of their mistaken views. The land for three miles west of the Desplaines river rises abruptly at first but at a distance of a half mile or less rises uniformly until an elevation of ninety feet above Lake Michigan is reached. Its superior drainage facilities and ample train service together with its beautiful surroundings make it the finest site for a suburban city within a radius of twelve miles from the Court House. The people residing there are first-class in all respects and it requires people of some means to place themselves within the requirements of building restrictions. But few lots are sold to mechanics as men of larger means are coming in every week and are making purchases of from two to ten lots for the purpose of building elegant homes.

PENALTIES UNDER MORTGAGE.

It has been the custom when money has been loaned upon real estate to give a first mortgage secured by principal notes drawing 7 per cent interest and a second mortgage with notes drawing 2 per cent interest. The first mortgage and notes were for the benefit of the parties loaning the money, while the second mortgage and notes were for the enterprising agent who had made the loan, to which sometimes was added a handsome cash commission. In the first mortgage, securing the principal bond and interest coupons, is usually a clause providing that if there be default in the payment of principal or any interest coupon when due, then the entire amount shall pay 12 per cent from date. This fine type clause is generally overlooked by the anxious borrower, and possibly he would pay no attention to it if by chance he did see it.

It apppears from the case now brought to the Supreme Court of Kansas, that the sum of $1,500 had been borrowed, for which such a mortgage had been given. The interest had been promptly met when due for four years and six months. For some reason the tenth semi-annual interest coupon was not paid when due, and suit was brought to recover a penalty of 5 per cent from the date of the loan.

This was resisted, but in the absence of any ruling by the Supreme Court the case was decided against the defendant. His attorney took an appeal and will secure advancement of the case, as there are so many thousand similar cases in the State, or nearly so, that the decision will affect them all. The State laws against usury have not been invoked, as the notes and mortgages have not been prepared with a view of defeating any such suits. The borrower claims that he cannot be forced to pay the additional interest as a penalty, as a portion of the notes represented by the paid coupons have been settled, and that much of the debt is canceled.

IMPORTANT REAL ESTATE DECISIONS.

In a suit before the Supreme Court of Illinois, Mendell vs. Whiting; opinion filed June 20, 1892, for ejectment the court ruled as follows: This is ejectment brought by Edward Mendell, the appellant, against the appellee, for the recovery of a strip of land three and one tenth feet in width by one hundred and sixty-five and ninety-seven one hundredths feet in depth.

The common source of title is one Mary P. Moody. By deed dated June 1, 1889, said Moody quit claimed said strip of ground to appellant, who is the owner of the premises adjoining it on the north; and such conveyance prima facie establishes her title.

Appllees are in possession of the premises in controversy, John F. Whiting, as surviving husband, and the other appellees as children and heirs at law of Mary T. Whiting, deceased. Said Mary T. Whiting was the remote grantee, through various mesne conveyances of Mary P. Moody, and her chain of title from the common source commenced with a deed from said Moody to Ellen Mullier, bearing date September 7, 1868, and all the deeds through which she claimed title described the property conveyed as lot twenty-two in block one in Moody's subdivision of the north half of the southwest quarter of the northeast quarter of the southwest quarter of section 34, township 39 north, range 14, east of the third principal meridian, situate in the city of Chicago, county of Cook and State of Illinois. The material question at issue seems to be whether or not the strip of ground in contention is a part of said lot 22, block 1.

On August 1, 1867, Chester G. Russell and wife conveyed by warranty deed to Mary P. Moody certain real estate and described the same by metes and bounds. The acknowledged and recorded plat of the subdivision of the land which was recorded August 28, 1868, is entitled: "Plat of Moody's subdivision of part of the east half (½) of southwest quarter (¼) of section 34, T. 39, R. 14."

The conveyance of Russell to Moody was by metes and bounds of a piece of land 330 feet from north to south, by 660 feet from east to west, the north line of which was 660 feet south of the north line of the quarter section. The subdivision, as seems to be indicated by the plat and the certificate of the surveyor, was of an aliquot part of the quarter section, i. e., of the north half of the southeast quarter of the northeast quarter of the southwest quarter. Now, if the southwest quarter section contained just 160 acres, no more and no less, then the lines of the land described by metes and bounds in the deed would coincide with the lines of the aliquot part of the quarter section that the surveyor certifies that he surveyed and subdivided; but according to the uncontradicted testimony of Mr. Greeley, a surveyor of some thirty-seven years' experience in Chicago, and of Mr. Carlson, a surveyor, the extent of whose experience is not shown, the southwest quarter of section 34 contains a surplus of land, and the north line of the aliquot part of the quarter section that the certificate of the surveyor states was surveyed and subdivided is 663 1-10 feet south instead of 660 feet south of the quarter section line.

The question involved is simply a question of legal title. Mary T. Whiting and the several grantees, subsequent to the subdivision, took title by deed which conveyed lot 22 in block 1 in Moody's subdivision of the north half of S. E. ¼ of N. E. ¼ of S. W. ¼ of section 34, etc. Where land is purchased and conveyed as a designated lot in a designated block and subdivision, and no other description is given of it, then the authentic plat of such subdivision is as much a part of the deed as if set out in it, and the purchaser will be restricted to the boundaries of the lot as shown by the plat: McClintock v. Roger, 11 Ill, 279; McCormack v. Huse, 78 Id. 363; L. & N. R. R. Co. v. Koelle, 104 Id. 455; Piper v. Connelly, 108 Id. 646; Trustees of Schools v. Schroll, 120 Id. 509.

The certificate of the surveyor, as well as the plat, was required by law to be recorded, and both were in fact recorded; and the plat so certified and purporting to be a plat of a subdivision of an aliquot part of the quarter section, i. e., of the north half, etc., as above stated, affords presumptive evidence, when considered in connection with the unimpeached evidence of Greeley and Carlson, that the north line of the subdivision which was actually surveyed and made was 663 1-10 feet south of the quarter section line and not 660 feet south of said line. And the plat shows that the north line of lot 22 is coincident with the north line of the subdivision.

We do not wish to be understood as holding that if the occupancy by the purchase of lots in the subdivision and the improvements by them on their several lots were in conformity with lot lines, based on the theory that in the subdivision into lots the north lines of the north tier of lots coincided with the north line of the land that was conveyed by Russell to heirs of Moody, that then the presumption arising from the plat and the certificate of the surveyor would be sufficient to overcome the probative force of such actual occupancy under deeds for lots, and such recognition by the parties interested in the title, of the fact that the actual location of the lots by the subdivision had reference to and was in accordance with the north line of the land that was bought from Russell. But such is not the case disclosed by the record. All the evidence introduced at the trial is directly to the contrary, and is strongly corroborative of the claim that a strip of ground 3 1-10 feet in width along the north line of the land so purchased was not included in the survey and subdivision. The land was divided from north to south into four tiers of lots, each tier containing eleven lots, and each lot thirty feet wide. The effect of such a subdivision, if the north line of the subdivision was in coincidence with an east and west line 663 1-10 feet south of the quarter section line, would be to throw the north lines of the south tiers of lots as platted over on the premises of the adjoining land owner on the south, a distance of 3 1-10 feet. Such, as appears in evidence, is the actual state of the case here, for although lot 12, the south lot in block 1, is platted as being 30 feet in width, yet the occupancy of such lot covers a width of only 26 9-10 feet and runs merely to the south line of the property conveyed by the Russell deed; and the occupancy and building of the property owners on the south come north to the same line. The evidence shows that lots from 1 to 11 inclusive, of block 1, constituting the easterly tier, from north to south, have been taken for the Grand Boulevard.

And the contradicted evidence is, that the occupancy, houses, fences and improvements on lots 21, 20, 17, 16, etc., and the occupancy of the lots generally fronting on Forrest avenue, and on the Grand Boulevard, and of the lots in Moody's subdivision are all in accordance with the lines of the lots, assuming that the north lots of the subdivision do not include any portion of a strip of land 3 1-10 feet in width along the north line of the land deeded by Russell; and that such occupancy, houses, fences and improvements are three feet south of where they would be, assigning the north line of the subdivision to coincide with the north line of the land conveyed by the Russell deed. Moreover, the evidence is that the north line of the building of appellees on lot 22 is 3 1-10 feet south of the north line of the land deeded by Russell to Moody; and that at the time of the conveyance of said lot 22 to Mrs. Whiting, her husband and agent, who is one of the appellees herein, was informed by a surveyor that there was a strip of land 3 1-10 feet wide lying north of and adjoining the north line of said lot 22, the title of which was still in Mrs. Moody.

It is contended by appellees that appellant can not prevail because no stake or monument of the original subdivision is located or identical by the evidence. The record of the subdivision was destroyed in the great fire, and the ante-fire abstract introduced in evidence does not disclose what was the permanent monument of the subdivision or where it was located or placed, or even that any such monument was planted or referred to. If there was satisfactory evidence in regard to such a monument, it would probably dispose of this controversy, and settle the rights of the parties beyond any cavil. The evidence seems to indicate that in twenty-two years intervening the making of the subdivision and the trial of the cause great changes took place in this portion of the city of Chicago, and it is improbable that any of the stakes placed by the surveyor of the plat are still in existence. It is probable that stakes or monuments of some sort were placed by the surveyor and that the purchasers of lots, or some of them, occupied the lots purchased and built their houses and fences in conformity with the line and course indicated by such stakes, and this being so, it is significant that the uniform occupancy and rule of improvement that has prevailed for more than twenty years are predicated upon the theory that it was an aliquot part of the quarter section that was subdivided, and not the tract of land that was deeded to Mrs. Moody by metes and bounds that was subdivided. The case of appellees themselves is not just an exception to this uniformity, for lot 22 was not sold and conveyed to Mrs. Whiting until 1886, and she had actual notice that said lot did not include the strip of land in controversy; she bought the lot knowing that it was plotted as a lot 30 feet wide, and appellees, claiming as surviving husband and heir under her title, are in possession not only of a lot 30 feet wide but also of a strip of land adjoining which is 3 1-10 feet in width, which was not included in the conveyance to her. The case of appellant would be stronger if it was fortified by proof of the location of monument or stakes of the original survey of the subdivision, but without such proof it, in our opinion, establishes a prima facie case for appellant. Appellees introduced no testimony at the trial, but relied upon the supposed weakness of the case made by appellant. It may be that at another trial evidence can be introduced which will materially change the aspect of the case as disclosed by this record.

We think that the Superior Court erred in finding the issues for appellees, in over-ruling the motion of appellant for a new trial, and in rendering judgment in favor of appellees and against appellant. The judgment is reversed and the cause remanded.

Reversed and remanded.

DISPUTED COMMISSIONS.

In the case of Mears vs. Stone et al, appealed from the Superior court of Cook county, Nathan Mears being the owner of a valuable piece of Dock property at the South fork of the Chicago river, went to the office of H. O. Stone & Co. real estate agents and authorized them to sell it for $150,000, agreeing to pay them 2½% commission for selling it

Stone & Co. got an offer from Mr. F. S. Peabody, of $115,000; this Mr. Mears refused.

Mr. Bellows, one of the plaintiff's in the suit, testified that Mr. Peabody asked Mr. Mears if he would take $135,000; this Mr. Mears denies. The court found that on or about the 4th of April, 1890, H. O. Stone & Co. introduced F. S. Peabody to the defendant, and negotiations were had which resulted in the defendant's giving a written option of purchase to F. S. Peabody for the property, concerning the sale of which the controversy in this case arises, for the sum of $150,000, said option being limited to ten day's time, being the essence of the contract, and that prior to the expiration of the ten days said Peabody surrendered said option to the defendant and informed him that he could not buy the property or do anything with it; that said defendant believed the representations of the said Peabody to be true.

Soon after the expiration of the ten days mentioned in the option paper, Mr. Walker, a member of the real estate firm of Walker, Larned & Moss, came to appellant and told him that he could find a purchaser for the property at the sum of $135,000, but that if he did so, he should expect to be paid a commission of $5,000.

The court upon questions of fact submitted to it found that the said Walker did not disclose the name of the purchaser to said Mears, and said Mears took the said Walker to E. B. McCagg, the appellant's attorney, and placed the whole matter in his hands, authorizing him to make a sale for $135,000 if he found the purchaser satisfactory.

That thereupon the said McCagg declined to make any contract of sale unless the purchaser's name was disclosed, and unless he was a man of responsibility; that thereupon Mr. Walter C. Larned was introduced as the purchaser, and said McCagg, being satisfied as to the responsibility of the said Larned, prepared a contract of sale from the said defendant to the said Walter C. Larned for the sum of $135,000, which was executed by the said defendant and by said Larned; that at the time of the execution of said contract and the payment of the cash purchase money thereof, on May 16, 1890, both the said defendant and the said McCagg believed that the said Larned was the real purchaser and had no suspicion that F. S. Peabody or anybody connected with him had any interest in the purchase.

The contract was made April 17, 1890, upon the same day $10,000 was deposited by Larned as earnest money.

The title was examined by Mr. Herrick, between whom and Mr. McCagg there were frequent consultations as to it. On May 16, $25,000 additional money was paid making the $35,000 cash payment stipulated in the contract; and at this time Mr. Mears agreed to at any time within thirty-five days, execute to such person as Larned or his assigns might designate a good and sufficient deed of the property; and certain modifications in the agreement as to the payment of the remainder of the purchase price were made.

Mr Larned testifies that he purchased the property in good faith from Mr. Mears; that he never heard of the Peabody Coal Co. before the contract was signed, and not until a long time afterwards; teat when he purchased it he did not know whether he would own it individually, or would subsequently transfer it to somebody else. The later the consideration for the contract was paid by the Peabody Coal Co.

Mr. Mears testified that after the option was surrendered he had a long talk with Mr. Peabody, who said that he could not do anything more; that he might have succeeded if the price had been $120,000 or $125,000.

Larned assigned his contract to the Peabody Coal Co. The assignment is dated June 3, 1890, and on the same day a deed was made by Mears to the coal company.

A jury having been waived, the court held, upon propositions of law submitted, that although Mears might have in good faith sold the property to Larned and made a contract with him, believing him to be the real purchaser, and might have been bound under his contract to convey to said Larned or his assigns, yet if he (Mears), before the consummation of the contract, was notified that the Peabody Coal Co. was the party to whom plaintiffs had attempted to sell the property, then the plaintiffs were entitled to recover commissions for the sale made; and found the issues for the plaintiffs, assessing their damages at $3,375.

Opinion by Waterman, presiding justice: Appellant having placed his property in the hands of appellee to sell at a fixed price, and for agreed commission, he, and appellees were bound to exercise the utmost good faith toward each other. Appellees were employed to sell at the price of $150,000; they were not engaged to sell for $135,000, and if any efforts were by them made to find a purchaser at the last named price, they can hardly be considered as work done in pursuance of the authority given to them.

They did not and do not claim to have found a purchaser at $150,000, and no sale was made for that sum. The position of appellees is that they introduced appellant to Mr. Peabody and endeavored to sell the property to him; that appellant sold to Larned for $135,000, knowing, or having reason to know, that he was purchasing for Peabody.

Appellees were not employed to merely introduce to appellant somebody who might upon some terms become a purchaser.

It was not for such service that a commission was to be paid them.

If, having introduced appellant to Mr. Peabody, appellant had himself negotiated a sale to that gentleman at $150,000, it might well be found that appellees were the moving cause of such sale; or if, being introduced, Mr. Peabody had purchased of appellant upon terms substantially like those given to appellees; or if were shown that appellant in himself negotiating and closing a sale upon terms substantially like those given to appellees; or if were shown that appellant in himself negotiating and closing a sale upon terms variant from those given to appellees, had been guilty of bad faith toward them, appellees might, as the moving cause of the sale, been held to be entitled to the commissions agreed upon, or to a reasonable sum for the work and labor by them done.

Appellees were employed to do a certain thing, viz: sell the property for $150,000; they were to be paid for this a certain sum, viz: 2½ per cent; if they had in five minutes accomplished the undertaking, they would have been entitled to the sum of $3,750; if they did not succeed, they are not entitled to anything, unless the defendant by some act of his prevented their success.

There is no evidence that appellees were the procuring cause of the sale to Mr Peabody on the contrary, appellees having procured for him an option, the court specially found that Mr. Peabody surrendered his option and informed appellant that he, Peabody, could not buy the property or have anything to do with it.

There is no evidence that appellees induced him to change his mind. They were not, therefore, entitled to the stipulated commissions.

The Court in effect found that appellant acted in perfect good faith. Its finding that in making the contract

with Larned, appellant believed Larned to be the real purchaser and had no suspicion that Peabody or anybody connected with him, had any interest in the purchase, relieves appellant of all imputation of bad faith. Finding as the court did as to the facts, that appellees did not make the sale, and that appellant sold to Larned supposing him to be the purchaser, appellants were not entitled to be paid the agreed commission.

The judgment of the Circuit court will therefore be reversed and the cause remanded. Reversed and Remanded.

PLANS FOR NEW BUILDINGS.

Architects Flanders & Zimmerman have completed designs for a block of stores and flats to be erected on Lake avenue near Fifty-eighth street for Mr. J. W. Reddy, 86x100 feet, four stories and basement. The facade will be of St. Louis pressed brick with cut Bedford stone trimmings with terra-cotta panels and enrichments, copper bays and cornice and composition roof. The first floor will be divided up into four stores with handsome fronts with iron columns and bressummers. The upper floors will be conveniently arranged into flats with separate entrances. The interior will be finished in hardwood and heated by steam. Plate and ornamental glass, sanitary plumbing, etc.; cost $75,000. Also a block of five stores with flats above to improve Seventy-first street near cottage Grove avenue, for Mr. J. W. Reddy. The block will consist of four stories and basements and cover a ground area of 60x139 feet. The front will be of pressed brick with cut stone trimmings with terra-cotta enrichments, etc.; cost $40,000. Also addition to premises on Paulina street near Polk street, for Mr. E. J. Waters. An extra story will be added, 15x60 feet. The addition will be of pressed brick with stone trimmings and terra-cotta frieze: cost $2,000. Also fine block of six stores with flats above to go up on Morgan street, for Mr. J. U. Borden. The improvement will cover an area of 50x129 feet and be four stories in height. The facades will be of Indiana pressed brick with cut Bedford stone trimmings, copper bays and cornice and gravel roof. The interiors will be finished in hardwood. Plate glass, sanitary appliances, and all modern accessions. The stores will be fitted with iron columns and bressummers, and modern fronts; cost, the block, $50,000.

Architect J. A, Thain has prepared plans for handsome store and flats to be erected on Cottage Grove avenue near Sixty-third street, 25x95 feet, three story and basement. The facade will be of cut Bedford stone with copper bays, etc., hardwood finish, furnace heat; cost, $15,000. Also block of six pallatial dwellings to improve Woodlawn avenue near Sixty-second street for Mr. J. A. Thain. The block will have a frontage on Woodlawn avenue of 100 feet by a depth of 75 feet, two stories and basement. The facade will be of Bedford stone. The approaches will be by flights of stone steps. The interiors will be finely finished in hardwood, with all the latest improvements. Wires will be laid in for electric lighting, and the houses will be heated by furnaces; cost, the block, $42000. Also fine residence on Drexel boulevard near Forty-fifth street. The house will cover an area of 31x85 feet and rise three stories with basement. The principal facade will be of red brownstone with octagon bay of same, crowned with lofty tower projection, covered with slate and ending with fancy finial. A flight of stone steps will give access to spacious tile paved vestibule The interior will be handsomely finished in oak and cherry. Wood mantels and tile fireplaces. The house will be heated with hot water, and wire laid in for electric lighting; cost, $28,000.

Architect Oscar Cobb has plans for store and flats on Sherman street, for Mr. Cobb. Size 21x60 feet, three stories and basement. The front will be of Indiana pressed brick with stone trimmings, plate glass, etc.; cost, $5,000.

Architects Faber & Pagels have completed designs for imposing block of stores and flats to be erected at the intersection of West Huron and Noble streets, for G. F. Jarnecker. The improvement will face 51 feet on West Huron street with a return frontage on Noble street of 85 feet, and consist of four stories and basement. The stores will be a handsome arrangement of iron and plate glass. The superior stores will be a combination of St. Louis pressed brick and blue Bedford stone. At the corner will rise a circular tower with conical tower projection, ending in terminal, ornamental and bevelled glass, and modern sanitary appliances; cost, $22,500. Also residence on Western avenue near Humboldt Park, for Mr Albert Schubert, 22x50 feet, two stories and basement. The first story will be of rock-faced stone, the superstructure of selected pressed brick with cut stone dressings with bay to match, and tower projection, copper cornice and red slate roof. The approach will be by a flight of stone steps, access being under a porch with turned columns on either side, and laid with tiles. The interior will be finished in oak and cherry, plate and colored glass and steam heat; cost, $8,000.

Architect Fred Alschlager has completed plans for block of stores and flats to be erected on Halsted street near Sixty-first street for Mr. Henry Benjamin. The block will have a frontage of 50 feet by a depth of 86 feet, and comprise four stories with cellar. The facade will be of Indiana pressed brick with buff Bedford stone dressings, galvanized iron cornice and bays and composition roof. The stores will be a combination of iron and plate glass, with separate entrances to the flats above; cost, $22,000. Also fine business block at the corner of Halsted street and Englewood avenue, for the German Illinois State Bank, 28x125 feet, four story erection, Bedford stone, and composition roof, plate glass and steam heat; cost $30,000.

Architect Fred Fohringer has prepared drawings for residence to be erected at 263 Dayton street, for Mr. John F. Norton, size 22x60 feet, three stories and basement. The front will be of St. Louis pressed brick with cut stone trimmings, plate glass and gravel roof, etc.; cost, $8,000. Also stores and flats on Delameter place near Armitage avenue, 24x72 feet, two story and attic. The stores will be fitted with plate glass fronts. The superstructure will be of frame work with shingle roof; cost, $6,500.

Architect H. P. Harned has completed drawings for block of stores and flats to improve the corner of Ashland avenue and Fifty-fifth street, for Mr. W. L. DeWolf. The improvement will consist of three stories and basement structure covering an area of 65x58 feet. The stores will have modern fronts with iron columns and bressummers. The superstructure will be of St. Louis pressed brick with cut Bedford stone dressings, galvanized iron cornice and composition roof, plate and bevelled glass and hardwood finish; cost, $18,500.

Architects William Strippelman & Co. have prepared plans for residence to be erected on Ellis avenue north of Forty-fifth street, for Mr. C. Shefler, 25x70 feet, three story with basement. The facade will be of red brownstone with bays of same. Cost, $10,000. Also spacious stables to go up at the rear of Jackson boulevard, for Mr John Smyth, 100x100 feet, three storied structure. The exterior will be of selected brick. The interior will be fitted up with stalls and loose boxes, with harness room, etc.; cost, $28,500. Also residence on Humboldt avenue for Mr. J. Klicka, 25x75 feet, three story and basement. The main facade will be of rock-faced blue Bedford stone with bays of same. Approach will be under recessed entrance laid with tiles. Plate, art and ornamental glass, choice hardwood interior, tile fire-places, wood mantels, etc. The house will be heated by hot water; cost $15,000. Also spacious factory building with show rooms attached, on Twenty-sixth street, for the W. W. Kimball Piano company. These premises will cover a ground area of 180x80 feet, and consist of five stories with basement. The front will be of selected brick, freight elevator and other conveniences; cost, $50,000.

Architects Ostling Bros. have designs for residence to improve 178 Jay street near Belden avenue, for Mr. M. L. Pauly, 25x56 feet, three stories and basement. The basement will be of rock-faced stone, the superstructure of St. Louis pressed brick with cut Bedford stone dressings. The entrance will be improved with a timber porch; cost, $9,000. Also cottage for Mr. Charles Ostrand, to be erected on George street near Halsted street, 25x56 feet, one and a half story and cellar. The first story will be of stone, the superstructure of pressed brick with cut stone trimmings; cost, $4,000.

Architect L. J. Schaub has prepared drawings for store and flat building on Crystal street near Robey street, for Mr. Eichnor, 40x80 feet, two story and attic. The stores will be provided with modern plate glass fronts, the superstructure will be of rock-faced stone, sanitary plumbing and the latest devices. Cost $12,000. Also flat building on Lincoln street near North avenue for Mr Arens, 23x83 feet, two story and basement; cost $17,000.

Architect W. D Cowles has completed designs for a pair of suburban cottages to be erected at Sonth Evanston for Messrs. Biggs, 30x45 feet, with basement. The first floor will be of rock-faced stone, the superstructure of frame work with shingle roof. The cottages will be improved with verandahs and gables. All modern conveniences. The houses will be heated by furnaces; cost $4,000.

DO YOU WANT MORE BUSINESS?

If you do get an experienced man to write your advertisements, circulars, folders and pamphlets. Blacksmiths can't make watches, nor can book keepers or typewriter girls write advertisements.

I CAN BRING YOU More Business.
"X" Room 5, 163 Washington Street.

HARVEY'S
INDUSTRIAL CENSUS.

The census returns contain no more startling figures than those of HARVEY, Illinois, the Greatest Temperance Manufacturing town in America.

In August, 1890;
A few prairie chickens, and one man shooting them.

In July, 1892;
748 Buildings completed,
71 Buildings under construction,
2,090 Employees at work,
9 Factories in operation,
4 Factories building,
Many others in sight.

It has taken millions of money and unmeasured effort to accomplish so much in so little time, and the work is still going on, gaining impetus with every month on the calendar.

If you want a home in Harvey; if you care to invest in its rapidly rising real estate, drop a line, mentioning this paper to

The Harvey Land Association.
819 to 825 The Rookery,
Corner La Salle and Adams Sts., Chicago.
Asking for their literature.

P. S. –Outside parties are advertising outside prairie land as Harvey property. The difference is enormous. Deal directly with the founders of the town, the men who have spent millions in its promotion, and no mistake is possible.

I own and wish to sell or lease the North West Corner of 31st Street and Lake Park Avenue. This lot has about 7,000 square feet in it. It has a clean and unobstructed view of the Lake, as the acre tracts are depressed here below the street level. It fronts South on 31st Street and East on the Lake. The 31st Street cross town cars stop in front of it. The Illinois Central R. R. Depot is at 31st Street. The Cottage Grove Avenue Cable Cars are about a block away. All parts of the city can be easily reached by cross town cars and elevated road. The whole 7,000 feet can be built upon and still leave the building 30 feet from the street line, as there is a 30 foot park in front of it. The lot can be improved with fountains, lawn, floral decorations, etc., etc.

This property can be reached from the business centre by the Illinois Central Road in about 10 minutes.

For a first-class Hotel or Apartment Building this property is especially desirable.

For Prices, Terms, Etc, address

CHARLES P. MITCHELL, Room 103, 12 Pacific Avenue, Chicago.

A CHOICE LIST OF SUMMER RESORTS.

In the Lake regions of Wisconsin, Northern Michigan, Minnesota, Iowa, and the two Dakotas, there are hundreds of charming localities pre-eminently fitted for summer homes. Among the following selected list are names familiar to many of our readers as the perfection of Northern summer resorts. Nearly all of the Wisconsin points of interest are within a short distance from Chicago or Milwaukee and none of them are so far away from the "busy marts of civilization" that they can not be reached in a few hours of travel by frequent trains over the finest roads in the northwest—the Chicago, Milwaukee & St. Paul Railway, and Milwaukee & Northern Railroad:

Oconomowoc, Wis,	Clear Lake, Ia.
Minocqua, Wis.	Lakes Okoboji, Ia.
Waukesha, Wis.	Spirit Lake, Ia.
Palmyra, Wis	Frontenac, Minn.
Tomahawk Lakes, Wis.	Lake Minnetonka. Minn.
Lakeside, Wis.	Ortonville, Minn.
Kilbourn City, Wis. (Dells of the Wisconsin)	Prior Lake, Minn White Bear Lake, Minn.
Beaver Dam, Wis.	Lake Madison, So Dakota.
Madison, Wis.	Big Stone Lake, So. Dakota.
Delavan, Wis.	Elhart Lake, Wis.
Sparta, Wis.	Ontonagon, Mich.
Pewaukee, Wis.	Mackinaw, Mich.
Wausaukee, Wis.	
Marquette, Mich.	

For detailed information apply to any coupon ticket agent, or send stamp for a free illustrated tourist folder to Geo. H. Heafford, General Passenger Agent, Chicago, Ill.

Public Notice.

FOR COMPUTERS AND DRAFTSMAN.

The Civil Service Commission will hold examinations on the 28th of June, continuing through the 29th, to fill two vacancies in the position of computer in the Coast and Geodetic survey at $1,000 a year, and one in the position of Draftsman at $900. Arrangements may be made to hold the examinations in some of the large cities outside of Washington, if there should be applicants. The subjects of the Computer's examination will be orthography, penmanship, letter-writing, algebra, trigonometry, geometry, geodesy and practical astronomy and differential and integral calculus. The subjects of the drafting examinations will be letter-writing, geography, arithmetic, algebra, geometry, descriptive geometry, plane and spherical trigonometry, shades and shadows, and drawing. Application blanks may be had of the Civil Service Commission. Residents of the District of Columbia are ineligible. Applicants will be required to furnish the necessary implements for drawing. JOHN T. DOYLE
Sec'y U. S. C. S. C

CASINO.

Haverly's Mastodon Minstrels are, without question, the most complete organization that has ever appeared in Chicago, and their performances at the Casino (Eden Musee) have been endorsed in most thorough manner by all classes of amusement seekers. Particularly attractive are the entertainments to out-town visitors, who after an inspection of the various objects of interest in the Musee department, attend the minstrel concerts. The program of the past week has been very pleasing, but the coming week will be a gala week, commemorative of Ireland's patron saint, St. Patrick, the great and good, whose birthday is celebrated throughout the entire civilized world. The program will include all the members of the company, and Irish ballads will predominate. The theater will be decorated and draped with the national colors and flags, and our beautiful wax figure of Robert Emmett will be exhibited free. A new singer will be heard in the person of Mr. Albert Yale, well known to all Canadians as a vocalist of much merit. Banks Winter the celebrated tenor, will have a new song. The comedians Rice, Hall, Denton, Rudworth, Bogert, and O'Brien will have new specialties. Ellwood, the wonderful male soprano, will display new feminine toilets. Constantine, the dancer, will execute new solos, and Harry Budworth will repeat his new repertoire. The latter's song, "Come to Baltimore," has "caught the town" and is encored three and four times every perfo mance. Altogether, the week will be one long to be remembered, and all desirous of hearty, wholesome pleasure should not fail to attend. "Excelsior" is Mr. Haverly's motto. Much has been done by this gentleman "but more remains behind."

THE
CHICAGO,
MILWAUKEE
AND ST. PAUL
RAILWAY CO.

Owns and operates 5,650 miles of thoroughly equipped road in Illinois, Wisconsin, Iowa, Missouri, Minnesota and Dakota.

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory, rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,
Industrial Commissioner,
C., M., & St. Paul R'y, 160 Adams St., Chicago, Ill.

FRANKLIN PARK is the Growth of less than two Years. It is the suburban Terminus of the Chicago & Northern Pacific R. R., and is situated at the Intersection of the Wisconsin Central R. R. with the Chicago, Milwaukee & St. Paul R. R. It is 90 feet above Lake Michigan, 11 miles from the City's centre, 2 1-2 miles west of the City limits and is accommodated by 54 passenger trains daily. It has the two finest suburban depots west of the City, costing over $5,000 each, a spacious hotel, a fine block of stores, scores of attractive residences, miles of side-walk, sewers and shade trees and an abundance of wholesome water.

On its western border is MANHEIM, the nucleus of extensive manufacturing concerns and destined to be a busy centre of diversified industries.

In **FRANKLIN PARK** are thus combined

All the Essentials of an Ideal Home-Site.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

DOLESE & SHEPARD, 162 Washington Street, Chicago,

HAVE BEEN AWARDED A CONTRACT AMOUNTING TO

ONE HUNDRED AND SEVENTY THOUSAND DOLLARS

($170,000) for the purpose of macadamizing 17 miles of streets and building stone sidewalks.

NO ASSESSMENT will be made for the improvements, the Association assuming the entire expense. The wise and prudent people who invest a small amount of money in CHICAGO HEIGHTS property will in a comparatively short time reap large benefits. No sane person can question the wisdom of making an investment in Chicago property.

Four large factories are in full operation and contracts closed with several others. A large number of residences and business houses in course of construction, also an extensive factory building for Roth & Englehardt, Piano Manufacturers of New York.

STABILITY OF THE ENTERPRISE

The following well-known gentlemen are among the promoters of Chicago Heights:

FINANCE AND TRADE.

While recognizing the essentially sound condition of the situation, the JOURNAL has never followed the tactics of the ostrich, which thinks it can escape pursuit by thrusting its head under the desert sand. What is required by business men is clear exposition which serves to guide, and not concealment of the obstructions in the way. Given the facts as they are, shrewd men can be depended upon to strike a balance and draw their own conclusions. This is the only course worthy of true journalism when addressing itself to an intelligent class of readers.

We are still in that season of the year when the harvest prospects are the chief influence. Every additional bushel of grain secured in good condition, and every extra load of hay or feed gathered, is so much directly added to the wealth of the country. Further, these gifts of nature are practically all gain, and, when yielded by countless acres of land, make a vast aggregate, representing as they do, hundreds of millions of dollars. In virtue of the season of the year, as also of its importance, agriculture is entitled to precedence. The government's monthly report as to crop conditions shows a substantial gain in winter wheat which is raised to 89.9 per cent, but spring wheat has, on the other hand, displayed some deterioration. The net balance is, however, on the right side. This is unusual at this time of year, and judging from the weather chart it would not surprise us if the position still further improved. Thursday witnessed some rumors of hot winds prevailing in Kansas, but wheat is out of the milk in that section of the country, so the crop-killers had better try elsewhere. Some reports have also been diligently circulated as to the prospects being less bright in the Dakotas, but particulars are not vouchsafed. Meanwhile, wheat has been advanced one cent. To that there can be no objection, especially if the difference goes into the pocket of the farmer. But that does not affect in the slightest the subtantial promise of a great crop, which is just here all we are concerned about. A conservative estimate is 535,000,000 bushels of wheat. It will, in all probability, be exceeded. The government per centage for corn is 81.1, and for oats 87 2. In both cases, this is better than anticipated by the trade; and since the report was published everything has progressed favorably. It is satisfactory to note that quite a considerable average in the South and Southwestern states, formerly planted in cotton, has been diverted to the purpose of raising corn. Texas, which heretofore has been a heavy buyer of that cereal, will this year raise all the corn she requires, with some thing over to ship. This movement toward diversity of crops in the South was recommended by the JOURNAL, when treating of the depression in cotton some months ago.

Congress has, temporarily at least, broken loose from the faddists, and done some really good work. The absurd Free Coinage bill of the Senate has been put to sleep in the House of Representatives, The platforms of both the great parties pronounced in favor of an honest dollar, and nominated for President of the United States men favoring sound currency views. Such being the facts, it whould have been anomalous, to say the least, for the representatives of either party to force upon the country a 67 cents silver dollar, in exchange for the 100 cents gold dollar now in use. Senator Palmer assisted the good work by some pertinent questions put to Mr. Leech, the director of the mint. By aid of the answers returned, we know (1) that whereas, upon July 1, there were but 56,779,484 standard silver dollars in circulation, there were as many as 357,189,251 in the treasury. So that for every silver dollar in use no less then six were stored away. (2) That there were, July 1, in the treasury vaults 78,933,000 troy ounces of fine silver, purchased under the Sherman act, which, if converted into dollars, would represent $102,055,000. (3) That it would consume two and a half years for the mints of the country to convert these vast accumulations into coins. No wonder the friends of Free Coinage objected to such facts going upon the Record, and so rendering them and their cause ridiculous. Nor has the good work ended here. Senator Sherman introduced, Thursday, a bill to repeal the famous act of 1890, which required the purchase of 4,500,000 ounces of silver per month and the issuance of treasury notes against the same. He asks at the same time, that the silver certificates already so issued shall remain unimpaired. It was referred to the committee of finance. Senator Peffer desired that the coinage of gold in the mints of the United States should be prohibited. Unfortunately for the ease of the steatesman from Kansas, gold circulates upon its own merit, exclusively, and is in no need of being coined in order to find acceptance. If anything, the mints of the world prefer gold bullion to gold coin, and will sometimes pay even a trifle more for it. This disposition of Congress to return to honest money principles may be expected to have far-reaching results. It will certainly strengthen the confidence of foreign investors, and in many other ways act beneficially.

The demand from the other side for gold continues, but is apparently less urgent. The indications are that before the week is out something like $3,000,000 will leave these shores. France and Germany still allow shippers of the yellow metal interest during transit. It is but a trifle, but it helps, especially with sterling exchange where it is. The Bank of France has added enormously to its reserves of gold during the last two years. In the summer of 1890 these reserves stood at about $220,000,000, to-day they are nearer $320,000,000; a gain of $100,000,000, or well nigh 50 per cent. The motive for these accomodations is two-fold. Firstly, the Bank of France is a great national institution. It is largely under governmental control, and France, ever eyeing Germany, is preparing for all contingencies, regardless of cost. Secondly: the Bank of France has a special reason for displaying its resources and its patriotism. The fact is, the charter under which it at present exists will soon expire, and it wants a renewal. This it hopes to obtain by an extra display of strength and of willingness to act the part of a patriotic and great institution. Elsewhere, there have been no accumulations to speak of. The Bank of England parts with what she receives quite readily, merely maintaining her usual reserves. She acts but as a conduit, but the calls upon her have been persistent and now Russia is once more adding to the drain.

The labor question at Homestead continues to be a disturbing element, and the strike is rapidly extending to all the works in which Mr. Carnegie is interested. Should non-union labor be introduced the situation might once again become perilous. In this connection, it has been rumored that it was the intention of Andrew Carnegie and partners to dispose of their Homestead works and remove further west. But this is impracticable, seeing that something between $5,000,000 and $6,000,000 have been sunk in the entensive works near Pittsburg. It is probable, however, that in the event of future extensions the big firm might find its interest in coming nearer to Chicago. A Congressional Committee is now examining into the late riot. In his evidence, Mr. Frick, chairman of the Carnegie Steel Company repeatedly refused to give particulars as to the cost of production, but stated that only 40 per cent of the workmen were affected by the contested sliding scale. It transpired that the firm produce but 12 per cent of the steel billets of the United States. Mr. Frick gave an account of the handsome earnings of some of the men, and argued that no substantial reduction of wages was asked, the difference being made up by the enlarged output rendered possible by the improved machinery and facilities recently introduced on the other side, a workman, himself a roller, averred that under the proposed new schedule wages would in some instances be reduced 40 per cent. The same witness gave the cost of producing a ton of steel as about $1.25. That is only for skilled labor. Some of the investigating committee appear disposed to introduce the tariff question, upon the ground that Congress conceded protection to the manufactures upon the expressed, or at least implied, understanding that the workman were to have their full share of the benefit. Altogether, great interests are involved. Meanwhile, the iron trade is somewhat off, though structual iron work is in good demand. There have also been some labor troubles among the Idaho miners, and the troops have been called out to restore order.

Wall street has been depressed by the troubles of the labor world, though not to any marked extent. Perhaps, it would be more accurate to say that the tendency to buoyancy has been arrested only. Some troubles among western railways have also acted the same way. The general disposition is, however, to look forward to higher prices, and now that the silver question is out of the way a return to confidence may be looked for. Another bull item is the set-back given to the anti-option bill. The satisfaction of speculators was quickly reflected in a substantial advance in cotton, and an improved feeling in the other produce markets.

The money lately disbursed in dividends has been practically absorbed. At Chicago, as much as 5 per cent is being paid for accomodation. The borrowers are the packers. Banks are pretty uniform in trying to maintain rates. They are ready with plenty of reasons for so doing, but it is doubtful whether the situation is really with them.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of 67 leading cities for the week ending July 8, 1892, as compared with those of the corresponding week last year, with percentages of increase and decrease.

CITY.	WEEK ENDING JULY 8, 1892.	WEEK END NG JULY 9, 1891.	PER-CENTAGES.

†Not included in totals.

Business, in the broad sense of the word, cannot be as unsatisfactory as many have represented it. Owing to the unsettling of confidence, by the financial reverses of 1890-1891 in high places, trade is still somewhat fearful of launching out in new directions or even in fully developing ground already covered, but it is broad based and thoroughly well anchored. As matters are now developing, the innate strength of the situation is coming to be realized, and must result ere long in a general renewal of confidence. When that stage is reached, a rapid change for the better will be experienced. We are now in the transition period leading up to times of remarkable activity.

The total gain for the United States, upon the comparative statement herewith presented, is $162,637,000 or nearly 16 6 per cent. Of this amount, New York city must be credited with $77,091,000, or 13.7 per cent of its separate returns. This leaves the gain for outside points at $85,546,000, or 24.3 per cent.

The statement improves even further upon detailed examination. Thus, of the fifty-nine cities available for purposes of comparison no less than forty-five show advancing returns, while the cities sending in declines are limited to fourteen. Some of the gains are quite remarkable. This holds specially true of the representative cities. Of the first twenty cities on the list, all but two establish gains. Of the exceptions, San Francisco is the only substantial departure from the rule. The decline at that point is equal to 12.6. The other exception, St. Paul, holds its own.

Despite the prevailing dullness at New York City, the great monetary center establishes the substantial gain of 13.7. Foreign trade continues to be satisfactory and there has been a good demand in several important manufacturing lines in which the Empire city is interested. In the New England States, the mills are running to their full capacity, and all the leading eastern cities send uniformly good reports as to the general condition of trade, and observe a marked increase in the number and size of orders. Boston, which yields a gain of 27.5 per cent in bank clearings, notes a brisk demand for textile and woolen goods, as also a freer inquiry from manufacturers that cluster about this center have had as much as they could do to fill orders, and the year, so far, has been for them a record breaker. Eastern shipments in this line total, to date, 1.827,000 cases, against 1,733,000 cases for the corresponding period of last year, a gain of nearly 5.5 per cent.

Philadelphia, St. Louis and Baltimore advance 18.6 per cent, 15.7 per cent and 25 6 per cent respectively, and report business as good in most lines. Chicago's gain of 29.8 per cent but reflects the steady growth of its many industries. As compared with last year, its receipts of corn have increased one-third, and of the other leading cereals nearly fourfold. Receipts of cattle and hogs have increased about 25 per cent, and of minor provision stocks, such as cheese, lard, etc., 50 per cent, this last being also about the percentage of gain in wool and hides. In various manufacturing lines there has also been a steady and substantial growth.

The cities most closely dependent upon agricultural property are well to the front. Minneapolis, which reports an output of 197,000 barrels of flour as against 104,000 barrels for the corresponding period of last year, establishes an advance of 35.3 per cent. The same story is reflected by the following list of gains: Kansas City, 24.2 per cent. Buffalo 5 per cent, Omaha 86.3 per cent, and Detroit 44.5 per cent. Among other gains may be enumerated: New Orleans, Cincinnati and Louisville, those at the last two cities being 29.5 per cent and 21.1 per cent respectively.

The losses are, as already stated, few. They are also, apart from that at San Francisco which reflects the general conditions along the Pacific coast, unimportant.

Canada declines—two points only being available for purposes of comparison—$633,000, or 4 5 per cent.

Continuing our analysis for the same weeks, but by groups of states, we have.

Dividing the United States into seven great groups, the above table enables us to see at a glance the comparative condition of the various sections of the country. In the present instance, the record is one of advancement all along the line, but this advance has not been by any means uniform. The Southern and the Southwestern groups, though making substantial progress, have just now some adverse local conditions to contend against. The check thus expereinced is, however, essentially temporary. In the Farwest, particularly as to California, no such early improvement can be expected.

In an editorial on "The Ease in the Money Market," the American Banker has the following:

The bank clearings of the two weeks ending June 8, amounted throughout the United States to $2,166 millions against $1,937 millions last year and the volume of interior trade for the coming season bids fair to surpass the business and financial movements of the previous six months, which are computed to average 9 percent in excess of last year in legitimate mercantile and productive industry, although in certain speculative aspects at the Stock Exchange and elsewhere considerable depression has been developed and prevalls. From this point of view the money market offers some new and important indications. In the first place the rates show some irregular tendencies, which are interpreted by leading capitalists as likely to bring higher rates before the usual season of fall activity is fully developed. Other authorities point to the excess in supply; and the small, though increasing, demand of the loan market for call and time loans on good collateral, and deduce the practical inference that the suggested advance towards a closer money market will be developed later rather than ealier than usual. The arbitrage bankers agree in part that this view will prove sound, except some spasmodic activities in the monetary situation should be developed by the currency agitation which they regard as touching the most sensitive side of the money market. Hence if it should soon cease to produce tension in the sphere of practical finance, there would result a sudden revival of prosperity so many of the chief conditions of which are abundantly operative in the actual situation of the productive industry, domestic exchanges and foreign trade, the growing wealth, power and resources of the nation. To these suggestions some of our more conservative bankers in the larger cities, especially in the West, add the caution that as the greet strength and practical safeguards of the money situation have their foundations not only on the reserves and capital and good management of the banking system, but also on the basis of growing financial confidence of a firm stability in public and private credit, and a judicious union and cordial co-operation of the banks with the Treasury, the continuance of this policy which Secretary Foster and the banks have adopted with so much success, offers the best guaranties and assurances of the easy movement and quiet future operation of the loan market.

LOCAL STOCK MARKET.

Street railway stocks and their meteoric movements have again absorbed all the interest of the week. Outside of these securities the market has been almost featureless. It is this inactivity in the general range of securities which accentuates the phenomenal advances scored in North and West Side railway stocks.

On Monday the high point was scored in West Side at 174. Late last week the stock netted a small advance and closed at 169. Monday's manipulation of the market showed a clear advance of 5 points. The record up to that time was broken, and 174 was clearly the high point in the history of the stock. Tuesday furnished a high point which discounted that established on the previous day by a comfortable margin. West Side moved up from 174 to 176 without any apparent effort. It was scarcely sustained at that pitch, however, and free offerings were made at the close of the day at 174. The record breaking was kept up on Wednesday. On the morning call, there was bad manipulation of the market and it did not seem that prices of the previous day could be maintained With the opening of the second call all weakness vanished like magic, and prices slid up from 1½ to 2 points, and steadily advanced to 177½.

The record for three days of a series of high points, 174, 176 and 177½ excited more than the ordinary degree of interest, and the market was not confined to room traders alone, but attracted the public. The situation is peculiar. There is no satisfactory explanation of the movement in the stock given, or rather the only explanation which is generally accepted is the one which has been advanced from time to time since the general advance began. It is certain that owners of stock have combined to use decided bull tactics in putting up prices, and that ultimately they will unload on the public at neat advances. This explanation however, is by no means conclusive and satisfactory when the subject is viewed from all sides. No one can determine what portions of the advance should be credited respectively to prospects of increased earning capacity in the West Side road, and to manipulation of the market. Some idea of the situation can be gleaned from the advance given by a well known financial man.

"The stock will go to 200" said he, "but don't buy it unless you margin it down one half. If you must dabble with the stock buy it outright, and have it sent to Hong Kong, to be returned to you some time in the future."

The prospects that lateral lines will be equipped with some better motive power than horses, contains much of promise to stock holders, and it is entirely possible that certain combinations may be formed which will bring the stock up to the 200 mark. It is entirely improbable, however, that advances will be made steadily to such a point without intermittent attacks of weakness, or that prices can be easily sustained. North Side stock which has been the running mate of the securities of the other Yerkes line acquitted itself with credit this week. Monday's advance in itself was nearly four points.

The feature of the week became more remarkable when after three days of registering high points, Thursday added another uniform chapter to the rise. The man who had insisted that the stock has been going at unwarranted prices ever since it was quoted at 130, takes off his hat to the man who says it is going straight to 200. That each was warranted in his opinion can be demonstrated on one hand by figuring the dividend rate paid in the past on investments, and on the other by watching the steadily rising quotations.

The second method has some pleasant features which the first entirely lacks.

While feverish advances were being made in the West and North Side stocks, there was no special activity in South Side. In fact, there is not much desire to speculate in stocks ranging near the 400 point. Sales at the middle of the week were made squarely at this figure.

The Industrial stocks evince an unmistakable tendency to sag, and are dull and heavy. The investing and speculative public does not seem to take kindly to the stocks of this class which are offered. There is an undefinable lack of confidence that precludes the possibility of activity and interest in these securities. The formation of industrial corporations has proved a fruitful field for promotors, and the public does not appreciate promotion, as popularly understood to be an intermediate realization by promoters of the greater amount of prospective stock earnings and dividends. The abundant supply and small demand in Street's Stable Car line started prices as low as 32¾. For the same reason Strawboard sold down to 83⅜. In many of the other Industrials no prices were established by actual sales. National Railway advanced on a favorable statement of earnings. For the first half of the year the earnings of the roads controlled by this company were $684,817 an increase of $66,000 over the corresponding item last year. The counter sales of bonds and strictly investment securities continue to be phenomenal. Lobdell, Farwell & Co, J D. Harvey & Co., and other financial houses handling this class of securities claim that the demand for anything gilt edged is more than equal to the supply.

THE REAL ESTATE MARKET.

IMPORTANT TRANSFERS OF THE WEEK.

Brokers whose market thermometer is invariably the transfer list, will derive considerable satisfaction from its improved proportions this week. It is true that some of the more important items, such as those which mark the last transfer closing up the Packers combination, have no significance from a real estate standpoint, but on the other hand, a number of transactions of more than ordinary importance have found their way to the records with a celerity which gives evidence of some degree of activity. Two important transfers were filed, each for nearly a third of a million dollars, which involve a well-known holding in the wholesale district. About two years ago, Henry Botsford purchased a portion of the John V. Farwell interest in the old Farwell block on Monroe street. The property consisted of the west ninety feet of John V. Farwell's half of the block. It is 90x190 feet, located fifty feet west of the Franklin street corner. The purchase was made at a consideration of $280,000. This week the same property was transferred to Jacob Weil, who acted as agent in the original purchase, for $300,000. Another deed filed at the same time transfers the block of stores and flats on State street between Forty-seventh and Forty-eighth streets, recently built by Jacob Weil, to Henry Botsford at a consideration of $340,000. This property has an east frontage of 504 feet and is 100 feet in depth. The building which is now almost entirely rented is a structure of handsome appearance. The central portion, which is occupied for hotel purposes, is four stories high while the remainder of the building is three stories is height. It contains twenty-one stores, thirty-six flats and three small hotels, and produces an annual income of about $22,000. No explanation is given of Mr. Botsford's action in selling a portion of the Farwell block, inasmuch as he still controls the fifty foot corner on Franklin street, which he bought last year from J. V. Farwell for $225,000. No change will be made, at least for the present, in the building secured by Mr. Weil.

TO SECURE A BOND ISSUE

A trust deed has been filed by the Young Men's Christian Asssociation securing the payment of their bond issue to provide for the new building. It covers the Andrews' property at the northeast corner of Arcade Court and La Salle street with the property in the rear of this and in the rear of the Farwell Hall building. The bonds are made payable June 1, 1892 and bear interest at 5 cent per annum. A notable fact in regard to this bond issue and one which emphasizes the demand for conservative investments is that the entire issue was subscribed before it was ready for delivery. A syndicate headed by H. N. Cooper has taken title to a number of pieces of property along the North Shore, where the work of extending the outer lake shore drive is being carried on. Several syndicates have been formed but the movement is uniform and is simply the massing of holdings in the submerged area between the present shore line and the line of the outer drive, for the purposes of filling and reclaiming the same. The transfers to this syndicate recorded on one day this week amounted to $1,126,000.

AN OLD TIME LAND MARK DOOMED.

One of the most interesting operations of the week was the purchase by Walter H. Wilson of the old Ogden House at the northwest corner of Franklin and Washington streets, The corner is 80x80 feet and the building an old style four-story structure. The consideration is given at about $200,000, or $2,500 a front foot for either street frontage. The actual consideration is not made public as the transfer from the mortgage company owning the property to Walter H. Wilson, will be made in the form of a quit claim with a consideration of $1. The old Ogden House is one of the land-marks of the city, and the sale is one of interest as it will involve the removal of the structure or its entire rebuilding. The building in the ordinary consideration of old-time down town buildings, is worth very little. In this case, its value depends entirely on the use to which it can be put. The purchaser believes that two or three stories can be added to it and that by so doing, a building can be secured

which will pay an income on the purchase price. At present, the building is occupied by stores and a hotel which only pay a rental of about $8,000 a year. The corner is one of three eighty foot corners in the same general district which have recently been sold or leased. The southwest corner of LaSalle and Lake streets where the Northern office building now stands was purchased by Walter H. Wilson in much the same manner and for the same purpose as the Ogden House purchase was made. The corresponding corner of Clark and Lake streets was leased to Hulbard Dunlevy. Each of these corners is eighty feet square, and the square foot valuation established for the Ogden House corner is low in comparison with that placed on the other two.

ANOTHER CONSIDERATION OF $1.

Another transaction, the real significance of which is disguised under a $1 consideration is the sale of an eighty acre tract on the Belt Line railroad near Stickney. The sale was made by Dunlap Smith & Co. for John B. Brown to C. A. Beardsley. In May, eighty acres at the corner of Sixty-third street and the Belt Line railway were sold to Mr. Beardsley by the same parties for $200,000. The eighty acre tract just sold adjoins the first tract on the south. Mr. Beardsley in the purchases represents a Detroit manufacturing syndicate

FINAL DISPOSAL OF THE EQUITABLE BLOCK.

The announcement was made early in the week that the Equitable building had been sold to the Real Estate Trustees by Andrew J. Cooper for $500,000. The rumor, though containing some elements of truth, erred in the matter of the purchasers and the amount paid. The Real Estate Trustees have not considered the property and are said to be out of the market, for the present at least. As stated by the JOURNAL last week, there has been an understanding between A. J. Cooper and Owen F. Aldis to the effect that Mr. Aldis would place the property in the East in case a better understanding could not be made by Mr. Cooper. The price, however, will be considerably less than $500,000, as Mr. Aldis has stated a number of times that he would not offer it to eastern clients at a price higher than $400,000. Satisfactory arrangements have, however, been made and the transfer of the Dearborn street corner may be expected within a few days. The transfer will not, as in the case of most recent down town sales be followed by the removal of the building. In fact, the attitude assumed by one of the tenants who has a ten-year lease practically precludes the possibility of the building being removed. Architects have been at work on plans for three addditional stories to be added to the building and it is probable that such improvement of the building will be made at once.

WESTERN UNION TO SECURE QUARTERS.

Brokers have been considerably exercised of late over the situation at the corner of LaSalle and Washington streets. Some sort of a triangular arrangement between the Peck estate, the members of the Union Building company and the Western Union Telegraph company will probably be reached in a few days. The building will undoubtedly revert to the Peck estate by some method but this does not necessarily involve the removal of the Western Union Telegraph company from its present quarters. This company has been in the market in a general way for a building site for some time. The Chicago representatives of the Company have realized that some golden opportunities have been lost and that prices asked for down town corners are reasonable enough under the circumstances. The new York officers, however, have an idea that values here are unwarranted and have delayed purchases. The fact that the New York building occupies ground valued much higher than corners in this city does not seem to appeal to them. It is quite probable that with the World's Fair here next year, some arrangement will be made by which the Western Union will remain where it is. It is, on the one hand, a very satisfactory tenant, as it can afford to pay a high rental rather than stand the loss and inconvenience entailed by a removal to a new site. On the other hand, the ownership of the corner is such that the erection of a new building is not absolutely necessary to produce a satisfactory income.

MICHIGAN AVENUE SALE AND IMPROVEMENT.

The property known as 2124 Michigan avenue, about 50 feet front running back 120 feet to an alley, has been sold under date of June 1, to Mr. C. H. Deere, Plow manufacturer of Moline, Illinois.

Mr. Deere has leased this property under date of June 2, for ninety-nine years, to James Ingram, at an annual rental of $6,000, in gold. Mr. Ingram has plans prepared and is about ready to begin work on a seven-story and basement apartment building, which will probably cost $125,000. It is the intention to have this building ready for occupancy by March 1st. 1893. Plans for this building have been prepared by Charles S. Frost, Architect, Pullman building. This sale was negotiated by Chas. A. Whitacre of the firm of Lobdell, Farwell & Co., financial agent, southeast corner Dearborn and Adams streets.

A $200,000 PURCHASE FOR A MARKET.

The Inter Ocean of Friday reports the following: "The Great Soo Market Company has been incorporated by J. M. Moan, John Pierce and E. P. Greeley, the capital stock being placed at $600,000. It is proposed to establish a general market on property at Clinton and DeKoven streets. Efforts are now being made to secure an entire block of property, and several options have been obtained. The land will cost about $200,000, it is estimated, while as much more will be expended on the building, which is to be a two-story brick, surrounding a great central court. The entire frontage on DeKoven between Clinton and Jefferson streets, will be occupied by the structure. The deal has not yet been advanced beyond the stage of promotion, but those interested hope for success. The patronage of the market will be largely local. remoteness from main lines of transit making this inevitable.

THE CALUMET TERMIAL EXTENSION.

As far back as December 20, 1890, the JOURNAL published a map of the old town of Jefferson including portions of Leyden and Proviso, and on it showed the proposed line of the Calumet Terminal from La Grange to Franklin Park and thence to Forest Glen. It is now believed by persons in a position to know something about the intentions of the Northern Pacific railroad company, that they will use a portion of the proceeds of the sale of the $2,000,000 bonds to make the extension. The talk is to connect it with the Chicago & Southwestern, which has its present terminus at Twenty-second street and Harlem avenue. If this connection should be made it will make available for town purposes a large amount of land near and south of Riverside, and it is possible that a new manufacturing center will be established at that point. If the Northern Pacific has control of this new line it is certain that something will be done but it is doubtful whether the original plans of the company owning the franchise will be carried out.

IMPORTANT BUILDING OPERATIONS.

The new plant of the American Biscuit Company to be erected on the block bounded by Washington boulevard, Randolph, Morgan and Carpenter streets is underway. The building will cover the entire north half of the block. The main building will front on Randolph street, running back 170 feet on Morgan and Carpenter streets. The total street frontage used will be 1,260 feet. The buildings will be four stories high, of pressed brick construction, trimmed with terra cotta. The total cost is estimated at $275,000. Work on the foundations has been begun, and the buildings are to be completed as soon as possible.

A 12-story office building will be erected at 331 and 333 Dearborn street for P. F. Gillespie. It will have a street frontage of 50 feet and will run back to Plymouth place. It will be of steel construction and will be thoroughly fireproof. The exterior walls will be of light-colored pressed brick, the first and second stories being of stone. The halls and main entrance will be finished in marble and have mosaic floors. The building will contain two stores and about seventy offices. It will cost about $160,000. It is intended to erect about three or four stories at present and to add additional stories from time to time as the growth of the street warrants such additions. Construction will be commenced in about two weeks. The property is in the block between Van Buren and Harrison streets and this building will be an important addition to the numerous tall structures already located in this block.

Two fine residences are to be built at Twenty-fifth street and South Park avenue for C. P. McAvoy, to cost $30,000. Also three houses in the Lake street addition to Buena Park, for C. U. Gordon at a cost of $10,000 each.

A hotel will be built at Hope avenue and Sixty-fifth street for George K. Jones. It will have a frontage of seventy feet on Sixty-fifth street by 125 feet on Hope avenue. It will be three stories and basement high. The exterior will be of corrugated iron and fire-proof. There will be a large cafe in the basement and the hotel will contain 300 rooms. The facades will be improved with metal bay windows and wires will be laid for electric lighting. The cost is estimated at $75,000. A hotel of similar construction and for the same owner but on a little larger lot will be built on Sixty-sixth place near Stony Island avenue. It will cost $80,000.

Six four-story and basement flat buildings will be erected on Morgan street, near Harrison, for J. U. Borden, at a cost of $50,000. They will be constructed of pressed brick and stone, and have ground dimensions of 129 by 50 feet. They have designed three three story flat buildings for B. F. Dradburn, to be built on Maryland avenue, near Sixty-fourth street. They will cover an area of 50 by 65 feet and will be constructed of pressed brick and stone to cost $22,000.

NON-RESIDENT OWNERS AND SPECIAL ASSESSMENTS.

It is a well-known fact that wealthy non-residents own much valuable property in Chicago and Cook county and that they almost invariably oppose public improvement by special assessment. This fact is not admitted by our leading real estate agents because they represent them, pay their taxes and manage their property. The JOURNAL aims to reflect public sentiment and to serve the greatest number in its line, and will therefore only use the facts and allow its readers to form their own conclusions. Not until a grievance becomes notorious and serious is a trade paper justified in characterizing it in such a way as to reflect unfavorably on any class of property owners. The self same faults laid at the door of non-residents can justly be charged against some resident owners. Any wealthy resident owner may be opposed to special assessments and not incur censure. This being a free country and Chicago a cosmopolitan city we must allow all men equal rights. It is charged that one or two wealthy land owners on Milwankee avenue out in the old town of Jefferson are to blame for the impassible condition of the roads there; that they have always opposed sewers, sidewalks and street improvements of all kinds, and still do so. The same trouble exists elsewhere where the land owners are not non-residents. People who do not drive horses will not favor an expense for some thing that does not benefit them. And human nature is the same the world over. Under the laws and ordinances of our State and city the large land owners can not defeat a special assessment for improvements where they are needed if the majority favor it. The council will pass an ordinance at any time a petition is presented for an improvement. A little more life and co-operation among the people are the thing most to be desired. All improvements of the kind referred to must be made by special assessments.

Special assessments are now in order. They are the only means left to our city fathers to make improvements. They are as a rule favored by non-tax-payers and opposed by heavy land owners who refuse to sell or improve their property. But they are open to many abuses and objections. They lead to lawsuits and difficulties between neighbors. This is what Mayor Washburne says on the subject:

"The recklessness of an ignorant and indifferent assembly of aldermen has increased the city's requirement of money beyond its taxing power. The only way to get more money out of people that own property is by special assessment."

Commissioner Aldrich has the same opinion and boldly advocates as a necessary measure that,

"After contiguous property has been specially taxed to pay the total cost of improving the public highways, it shall be specially taxed every year to clean, care for and maintain such public improvements. The chief of the bureau of streets seconds the motion; indeed, the whole grand army of city officials, with an even more numerous grand army of "disinterested" contractors at their back, are crying, whining and yelling, like Oliver Twist, for "more!" "more!" and yet "more!" taking of private property for public use by the arbitrary and "dangerous power" called special assessment."

The mayor said these things; they must be true or else he would not make the statements. Law writers as well as the majority of property owners admit the usefulness and indispensibleness of special assessments in all cities where the taxing power is limited

by the State constitution, but they deprecate abuses that almost always creep in when an assessment is made. Chief Justice Elliott of Indiana, says in his treatise on roads and streets,

"The power of levy'ng special assessments is a dangerous one to intrust to municipalities."

A writer for a well known law Journal says:

"No power that has been intrusted to municipaiities in Illinois has been so grossly and wickedly abused, or admits of such monstrous abuses. It has been habitually exerted to make public improvements where no necessity or need of them has appeared. Though the statute says that no assessment shall ever exceed the "actual benefit" made to the property assessed, such assessments have been levied for a greater sum than the property could be sold for. In other words, under the pretense and form of special assessment for a public improvement, the corpor ation has issued a degree of confiscation against private property. Though the law says expressly that the cost of improvement shall be apportioned between the private property and the public corporation in the proportion of the benefits to each, the practice has been and is to levy the total cost on the private property and no part of it on the corporation. And though the commissioners are solemnly sworn to make such app ortionment, they in fact do nothing whatever in the proceeding, everything being done by officials of the corporation who conceal themselves behind the signatures of commissioners whose regard for the obligation of their oaths is insufficient to hinder them from serving as the tools of official malfeasance."

The same writer continues, "And now, in the face of these monstrous abuses of the "dangerous power" of special assessment, comes unscrupulous officialism proposing to levy more special assessments, not to make "local improvements," but to pay for the care and maintainance of them. Neither the constitution nor the statute confers on the corporation power to levy special assessments for any purpose but "local improvements," and for this purpose only to the extent of "actual benefit" made to the property by such improvement. But if the law of the commonwealth may be disregarded and annulled by the city corporation, as it has been, in these provisions, why may it not be disregarded and annulled by the corporate officialism in an exercise of this dangerous power wholly outside of any authority conferred by law on the corporation?"

The JOURNAL is in receipt of several letters requesting information concerning rebates, excessive assessments and the privileges allowed property owners to make their own improvements and avoid the tax. A prominent business man engaged in business on Wabash avenue, showed a tax bill of nearly $50 for a sidewalk on a 25-foot lot, down at 48th street in the Town of Lake. He said he could build it for about half that sum. The privilege of making your own improvement does not extend to all improvements by special assessments, but only as a rule to sidewalks. A short time ago the JOURNAL contained an article in which the statement was made that investors were being driven away by this special assessment howl. The JOURNAL aimed to awaken an interest among the people in time so that they could quietly oppose anything like confiscation of private property, but it seems that Chicago cannot undertake any reform without making a confession of its utter helplessness or its dire distress, so that rival cities with an enterprising press can take it up and flaunt it before our eyes and before the world. Is any man in Chicago fool enough to say that this way of doing business does not injure the real estate market? The JOURNAL has shown that it does. A business man or a newspaper publisher may be wronged and swindled and imposed upon by dead beats, hypocrites, corrupt officials and lying, deceptive, crooked employees, who make themselves solid by giving away the publisher's rights and his property, but he can not afford to say anything about it because it is none of the public's business. It would be a good idea for Chicago's leading citizens to take hold and help to run the city government. Our own confession of our own rottenness enabled the editor of the New York Sun to tell intending visitors of the World's Fair to clap one hand on their pocketbooks and the other on their noses when they arrived. He got his information straight because one or two of the dailies have been full of accounts of the raids of the West side thieves and the helplessness of women and childred, while the mayor talks to newspapers about recklessness and lawlessness of officialism. No wonder non-residents are writing to the JOURNAL for a list of delinquent tax sales and the truth about the sewers flooding the city. They are afraid their lots will be confiscated and also, they are afraid if they come here to see about it that the stenches and the thieves will prevent them from getting away alive.

FEATURES THAT INVITE OR REPEL BUYERS.

The first thing a man will do when he seriously contemplates living in the suburbs is to decide on the direction. If he has not had time to visit all of the suburbs and study the matter, he will be governed by what he hears and reads oftener than by what he knows personally. After deciding on the direction he will look to the social character of the place in view and next to the surroundings, unless he is forced to sacrifice those things for convenience to his business. Fortunately for real estate owners and subdividers, there are people of all classes and denominations in the city of Chicago and what would be a paradise to some would be repulsive to others. As a general rule the quiet law abiding people seek the suburbs; the vicious classes never. Among the former class are many rich people or people with ample means to live well and the majority of them keep horses and carriages. The JOURNAL ventures the statement that bad roads is the very feature that influence or deter the men of means more than anything else in the selection of a home outside of the city. No other feature except railways can account for the rapid development of the South Side. Hyde Park or the north half of it has always been noted for good roads and street improvement; so also the North Side; but transportation facilities have until recently been meager over there. The boulevards leading south gave the South Side the lead and equally good drive ways, though limited in numbers, attracted a fine class of people along the north shore. Now it is patent to everyone with any knowledge of the snbject, that although the West Side did not possess the same advantages of transportation, if good roads and drive ways had been made from the city westward to the Desplaines river the West Side and western suburbs would to-day be superior to the South Side for high class residence purposes, for two reasons, viz: It possesses a more equable temperature and is in clo er proximity to the business centre. The cry has been "give us more trains and better accommodation and we will build up a suburb" but never once has a good loud yell or whoop been given about the horribly bad roads leading westward. Much of the property now within the city upon the west and northwest sides is practically worthless for residence purposes because as the farmer previously quoted in another issue, said "it is worth a man's life, and a pair of good horses to go into the city." And this has been the case for six months in the year for the past three years at least, and this year for eight months. The West Side is preferable to the lake shore to reside in because the lake winds affect many people. Had the people built good roads twenty or thirty years ago the 20,000 acres of unoccupied territory west of West Fortieth street would be in a high state of improvement and be worth from $200 to $1,000 per front foot for first-class residence purposes, whereas it is now in some places a howling wilderness during six months of the year.

WHO THE BEARS ARE IN THE MARKET.

Now since the clouds have rolled by and the floods have passed away some real estate owners have discovered other causes of a dull real estate market. The Baring failure and its train of disasters, the McKinley bill and its evil effects, the recurring quadrenial disturbance of presidential elections and a host of other aggravating evils have been used up or worn out by the croakers, and still the boom is not forthcoming. If the above bugbears are out of the way, then what is the matter? Or is there really anything at all the matter? The owner of many broad acres and lots, who expected to sell them at a handsome figure, seems non-plussed at the slow dull methods of buyers and the apparent scarcity of money. He looks around over his broad domain with mixed feelings of pride and chagrin and lays the blame upon the railroads, the newspapers and the banks. The first should put on more trains, and provide better accommodations. The second should begin again to boom acres, and the third should encourage real estate speculation by loaning money freely on suburban property. Two grangers found their way into the JOURNAL office and insisted that their land was right on the new line of the Illinois Central but the map-makers, every one of them had done them an injustice by laying out the line a mile and a half from their farms. This they wanted fixed and said they would buy a paper and pay ten cents for it if we would fix it. They said it was our duty to stir up the danged old railroad to the importance of building up the country.

The next in the category of recreant servants was the banks, who discriminated against borrowers offering real estate security for money; and when told that it was a well known fact that the same bankers had long discriminated against local stocks as security for loans and that national banks were not intended to supply money to real estate speculators, they said that there was a large surplus of money in all of the banks and that there was a conspiracy among the banks to make money tight so that a few rich men could buy up all of the desirable acres at a low figure and then get the newspapers which they owned body, soul and breeches to boom everything from a slough to a sandhill. Some of the agents talk differently. Several knowing ones advance the theory that the World's Fair caused the dullness by booming prices and scaring buyers away who are waiting for a slump in prices when the great show is over.

The JOURNAL will in a future issue analyze some of these alleged causes of a dull market from a disinterested standpoint.

THE NEWSPAPERS AND THE SUBURBS.

Through all of the distress and trying circumstances brought about by the floods the JOURNAL has studiously avoided exaggeration of the damage done to our city and its real estate owners. Two of the greatest newspapers in the West have not only published the particulars of the city's distress under flaming head-lines, but used illustrations representing mud holes, bursted sewers and inundated districts, thereby placing a damper on real estate operations. The Herald, it is said, completely squlched a "boom town" down in Indiana by showing it up in a bad light; the Tribune covered two of its pages with pictures and descriptions of flood scens in Cicero, and all of the newspapers described the bad roads, laying the blame on corrupt officialism and the stinginess of land owners for not making improvements. Through all this trouble and distress occasioned by the heavy rains the JOURNAL refrained from aggravating the difficulties by spreading the news and exaggerating the facts. A millionaire real estate owner who founded and built a thriving town asked a JOURNAL reporter why we had not tried to injure the city by publishing the flood stories and the stenches, and was told that things were bad enough and that the JOURNAL did not believe in trying to make a bad matter worse. The same question has been asked by other real estate men who are not millionaires, and all rightly disposed people have given the JOURNAL credit for its course.

But it must be admitted that the only way to cure an evil is to expose it. The only way to get good roads is to describe the bad ones and the damage they do. The newspapers are expected to do this. The JOURNAL has a perfect right, and it is its duty to comment on a public nuisance or a public disgrace, and knows of no way of doing so without mentioning the facts and places connected, The files of the JOURNAL will show that it has always taken a conservative course and that it has never aimed to do anything but to improve the field in which it labors. Clipping bureaus are engaged in clipping items and articles from all newspapers on various topics including real estate news, and it is a well known fact that the JOURNAL is quoted by the press throughout the country as much as any trade paper in the West, and that its columns are clean and reliable.

If every thing wrong and disgraceful were published by the newspapers it would require the remainder of some men's lives to explain what they have done as well as what they have not done up to the present time. Why people should expect the REAL ESTATE AND BUILDING JOURNAL to show up public nuisances, dangerous buildings, stenches mud holes and tax-fighters, is not understandable. It's sphere is that of usefulness not reform in municipal government which is utterly impossible. This is all that can be said now relative to "Sore Needs of the Suburbs," signed,

LOT OWNERS.

A MOVE TO BOOM INDUSTRIALS.

A great amount of guessing has been indulged in by investors as to the value of the so-called Industrial Stocks, and a great many people including financial writers are beginning to wonder where the line is to be drawn between these and the other kind. A railroad company, a gas company or a bridge company, serves the public and are generally watched and understood, but the so-called industrials will bear watching and will never be understood by outsiders. There are thousands of incorporated companies operating or existing—if NOTHING can be said to exist—but no body but the promoters and organizers can tell anything about them. It is supposed that the stock of these industrials on paper is at par but no one ever sold or bought any. It has been a good deal the same way with some of the bank stock and the safeguards thrown around banks are decidly rigid. The only connection in which this subject can receive proper attention is under the head of "The Local Stock market," and our readers can look for something new under that head every Saturday. The Industrial Stocks must be frail as well as numerous if we are to judge from the fact that out of the thousands advertised only about a baker's dozen are quoted.

The movement to boom industrials is not new but it is a new thing for Wall street to advertise industrials "galore" and the St. Louis papers to pick them out and show them up. Here are some of the titles of industrials. We give them so that all of our readers may understand what is meant:

Fruit Preserves Trust, Am. Biscuit Trust, Electric Consolidation, Cotton Trust, Snath Trust, Cordage Trust, Milk Condensing combine, Radiator Trust, the Quarry Pool, the Sand Trust, the Logging Trust, Cotton Compress combine, the Stock Yards Trust, the Brewers' Trust, Jewish Butchers' combine, Rice Pool, Insurance Trust, Oil Mills Trust, Flouring Mill combine, Cut Nails' Trust (in Canada), Oalitia Stone Trust, Coal Trusts, Iron Trusts, Ribbon Trust, Type Foundry combine, Gas Fixture Trust, Safe & Lock Trust, Wall Paper Trust, the wheel Trust, Tobacco Trusts, Whiskey Trust, Beer Trust and Newspaper Trusts, but no body is fool enough to buy stock in organizations and combines organized simply to serve the selfish ends of one or two men. The people should be careful what they buy.

The Daily Indicator of New York in an editorial on this subject, has the following:

"Almost every kind of business has been worked into corporate shape, and individual promoters in some cases have got as much as $200,000 for their share of the profits in a single deal, and are looking for more.".

The JOURNAL promises something newsy under this head and our readers are requested to look at the article on the Local Stock Market.

AGENTS' BUDGET.

Recent sales, however small, not yet recorded, will be reported in this column. All matter must apply to the real estate business and real estate men.

Calvin Durand has transferred a lot 50x188 feet on Lake avenue near Forty-fifth street, to Edward Goodridge for $10,000.

C. Schwartz, Jr., has sold, through Rexford & Bellamy, 27½ acres in section 7, Thornton, to W. C. Denison for $3[illegible],250.

The Bradford Manufacturing company will locate its plant at Milwaukee. It will be the largest plant in the country devoted entirely to steam fitter's specialties.

William Merigold & Co. have sold forty nine feet on Grand boulevard facing west 200 feet south of Forty-fourth street for $16,500.

D. B. Hutchinson has sold 12 lots lying between Harrison and Lexington streets and Albany and Spaulding avennes in a new subdivision of 20 acres owned by the Schonberger estate and on the proposed route of the Metropolitan L road. The price paid was $24,000. An offer of $10,000 an acre was refused before it was subdivided.

No. 296, Forty-sixth street was sold Monday at the judicial sale at the Real Estate Board rooms, to Ella Cassell for $20,000. The lot has a frontage of 28 feet and is improved.

The corner of Washington avenue and Fiftieth street has been leased to Louis I. Epstean, the dime museum man, for ninety-nine years without revaluation at an annual rental of $3,600. The property is 200x150 feet and is owned by Franklin C. Orton of Lincoln, Ill. Mr. Epstean expects to erect an apartment building to cost $100,000. The rental indicates a valuation of $60,000, on a 6 per cent basis.

The expectations are that No. 35 Adams street will be remodeled and improved at an expense of $20,000. The leasehold has been secured by William Fitzgerald, and has three years yet to run at an annual rental of $[illegible]0, and was transferred for $[illegible]0 0.

Another twelve-story office building in the business district will be built next year on the southwest corner of La Salle and Washington streets on the lot owned by the Peck estate. The estate has bought the building that occupies the property at present and will remove it and put up a modern Chicago office building. This means a change of location for the Western Union Telegraph company and may bring them to some decision about purchasing a site for themselves, although they do not seem to be inclined to buy at presen .

The corner of Grand boulevard and Fifty first street will be improved by an elegant ten-story hotel to cost in the neighborhood of $450,000. The building will be of steel construction with a facade of dressed brick trimmed with cut stone, and will be one of the most attractive as well as one of the largest buildings in the city. The Fifty-first street frontage is 150 feet and the boulevard is 200 feet. It will contain over four hundred rooms besides offices and parlors on the first floors, and will be finished by the first of May.

Walter H. Wilson has sold the old Ogden House, situated on the lot 80x80 feet, at the northwest corner of Franklin and Washington streets, for $200,000, to several Toledo capitalists. The four-story building on the property will be improved in the near future; it pays an annual rental of $8,000 at present.

ECHOES FROM HOMESTEAD.

A dispatch sent from Philadelphia to New York last Saturday is suggestive of a problem that the Governor of Pennsylvania may not care to solve, and is also indicative of a blessing in disguise for the locked out firm. The dispatch says: "It is said here that the Carnagie folk have decided to abandon their works at Homestead. They have met with union trouble there from the beginning, and this last attack has determined them to leave Homestead, where the union practically runs the town. Their main contracts are with the Government, and they have long contemplated establsihing a large plant on tidewater here. They can deliver material to several navy yards without trans-shipments. This project they will carry out at some point, probably on the Chesapeake Bay, where they can bring together a model colony of non-union workmen. Under an old law, it is said, they can surrender their property to the State and can claim the assessed value thereof, after being forcibly dispossessed during a period of twenty-one consecutive days. If the plan is pursued, Governor Pattison may yet have the Homestead plant to pay for."

A NEW KIND OF PAVEMENT.

A new material for paving is now being introduced into London. It is composed of granulated cork and bitumen pressed into blocks, which are laid like bricks or wood paving. The special advantage of the material lies in its elasticity. When used for pavement it gives a soft tread which is exceedingly pleasant, recalling the feel of a carpet. In roadways it furnishes a splendid foothold for horses, and at the same time almost abolishes the noise which is such an unpleasant feature of city traffic. A short piece of pavement is to be seen in Liverpool Street, E. C.; while the outlet to Pickford's yard in Gresham Street is laid with this material. It yet remains to be seen how it will bear the ordinary traffic of a London street, but there is evidence to show that in Australia short pieces of roadway have given good results.

LAKE PARK AVENUE AND THIRTY-FIRST STREET.

Lake Park avenue is the continuation of the lake frontage from Michigan avenue and Twelfth street south. Lake avenue and Thirty-first street has the advantage of the suburban service of the Illinois Central railroad, which is ahead of every other line in the city in point of a superior suburban service.

The northwest corner of Thirty-first street and Lake Park avenue is a convenient and desirable location for first class improvements. It has the advantage of an unobstructed view of Lake Michigan, with no possibility of having this view obstructed. The Illinois Central tracks are depressed in front of the property, and the line of their right of way marked by a solid stone wall, a little above the level of the street. The property on the corner has a frontage of eighty-six feet on Lake Park avenue, fronting the lake, ninety-eight feet on Thirty-first street and fifty-eight feet on the alley. There is a thirty-foot park in front of the lot, which is capable of artistic development by way of fountains, floral decoration and shrubbery. It is an exceptionally advantageous corner for a first class hotel or apartment house, which should compare in point of cost with the new Michigan avenue improvements. Those who are familiar with the location state that a hotel of high character of the Virginia Hotel of the North side, should be built upon the property. It is an attractive piece of land and is receiving favorable attention from several capitalists. In a description of this property the Economist says:

"The property can be secured under a ninety-nine year lease or bought at a reasonable figure and on easy terms. The advantages of this corner may be summarized as follows: The possession of an unobstructed view of the lake, accessibility to the heart of the city by a ten minutes' ride, a south and east exposure, its location within one block of the Cottage Grove avenue cable, the Illinois Central depot across the street, the Thirty-first line on one frontage, and accessibility by this line to the elevated road, and other cars running north and south, and its special adaptation to a high class improvement. It may also be noted that, unlike Michigan avenue north of Twelfth street, a clear and unobstructed view may be obtained from the first to the top floor of any building that may be put up, as there is no obstruction on the level from the Illinois Central cars, as the tracks are depressed at this point, as has been stated. There are seven thousand square feet in this piece of property, all of which may be used for building purposes."

FORECLOSURE PROCEEDINGS.

COURT HOLDS IN FAVOR OF DEFENDANT.

In the case of F. F. Ayer et al administrator, etc. vs. Philadelphia and Boston Face Brick Co. Holmes J. Superior Judicial court of Mass. This is a writ of entry to foreclose a mortgage. The case on the agreed facts so far as it needs to be stated, is this: One Waterman made a first mortgage and after a second mortgage. The first was foreclosed and the land subsequently was reconveyed to him. Then the holder of the second mortgage conveyed to a third person, who conveyed to the demandant. The tenant is a grantee under Waterman. The demandant argues that when the premises came back to Waterman his title inured to the holders of the second mortgage by force of his covenant of warranty therein. Knight v Thayer, 125 Mass. 25,27.

Our decision will turn on the construction of the second mortgage deed. In the granting part of this deed the land is stated to be "conveyed subject to" a certain right of drainage, a certain easement, "and the mortgage hereinafter named." The covenants are as follows: "And I, the said grantor, for myself and my heirs, executors and administrators, do covenant with the said grantees and their heirs and assigns, that I am lawfully seized in fee simple of the aforegranted premises; that they are free from all incumbrances except a certain mortgage given by me to the Boston Five Cents Savings Bank, dated March 1, 1872, to secure the sum of $40,000, the right of drainage and the easement aforesaid, that I have good right to sell and convey the same to the said grantees and their heirs and assigns forever as aforesaid; and that I will and my heirs, executors and administrators shall warrant and defend the same to the said grantees and their heirs and assigns forever against the lawful claims and demands of all persons except the right of drainage and the easement aforesaid."

The arguments on the one side and the other are very evenly balanced. If the granting part of the deed stood as now and was followed by general covenants, with no exceptions, the warranty would be held to be limited to what purported to be conveyed, that is to the land subject to the mortgage, etc., and would not extend to the mortgage. Brown vs. South Boston Savings Bank, 148 Mass. 300, 304. Freeman vs. Foster, 55 Maine, 508. Jackson vs. Hoffman, 9 Cow, 271, 273. On the other hand, if the granting part simply described the land, not mentioning the mortgage, and the covenants were in their present form, the warranty would extend to the mortgage and the demandants would be entitled to prevail. Estabrook vs. Smith, 6 Gray 572. It is argued that in the present case the words "the sums" in the covenant of warranty cannot be taken to mean only the land subject to the mortgage but must mean the land, in view of the exceptions in the covenant incumbrances. This argument standing alone would not impress us. The words "the same" refer to "the aforegranted premises" and the construction of that phrase as used in the covenants is to well settled to be shaken by the fact that out of excessive caution the grantor has repeated the limitations to his liability in a covenant collateral to the one under consideration. In Leonard vs. Adams, 119 Mass. 366, the public road, subject to which the fee was granted, was mentioned in the covenant against incumbrances, but not in the covenant of warranty, and the same is true of the mortgage in Brown vs South Boston Savings Bank, and Lively vs. Rice, 150 Mass. 171, 172. See also Linton vs. Allen, 154 Mass. 432, 436, 438. But beside the exceptions in the covenant against incumbrances we have the exceptions in the covenant of warranty and the fact that having men-

tioned the morlgage three lines before, and undertaking the superogatory work of stating what he does not warrant against the grantor now omits the mortgage from his enumeration. Coupled with this is the further fact that the present instrument is a mortgage, and it may be thought natural that a debtor should covenant to keep his security good even against paramount liens. Rawle, Covenants for Title, sect 26. It may be replied that the argument from the exceptions in the covenant of warranty is the same in kind as that from the covenant against incumbrances which standing alone we have rejected; that as to the likelihood of a debtor's covenanting to keep his security good it is to be remembered that so far as personal undertakings go he has promised to pay the debt, and that the covenant to warrant against a prior mortgage adds little except the possibility of some unforseen, undesirable and unjust complication of title like the present; so far as it would tend to prevent a collusive foreclosure of the prior mortgage and a subsequent conveyance to the debtor, the personal liability of the debtor would be enough to prevent his attempting to work out a fraudulent scheme, if he had one, in that way. Also it may be thought undesirable to make refined distinctions in the settled construction of "aforegranted premises" in the covenants. And our attention is called to the fact that in the power to sell the "granted premises" the words quoted can only mean the land subject to the first mortgage. Donahue vs. Chase, 130 Mass. 137. Dearnaley vs. Chase, 136 Mass. 288. If there were no exceptions in the covenant of warranty the latter considerations might prevail. But when the grantor says that he will warrant and defend "against the lawful claims and demands of all persons, except the right of drainage and the easement aforesaid," a majority of the court feel bound to take his words as binding him to warrant against the prior mortgage and to say that in the covenants of this deed at least the phase "aforegranted premises" manifestly is not used in an artificial sense, but means the land. The only question for us is what the parties saw fit to say in the particular case, and on the whole we are of opinion that their words require the interpretation which we have given to them. Judgment for defendant.

THE BURNT RECORD ACT.

George F. Harding v. Henry H. Fuller et al. Ottawa, May 12, 1892.

The law known as the burnt record act is not unconstitutional as depriving the parties of a trial by jury, but is a valid law.

It matters not what may be the motive of a party.

On bill to confirm title under burnt record act, a decree in a prior suit between the parties under whom the present parties claim, settling the question of the title, will estop the parties to the last suit from questioning the title as found in the prior decree

A decree of court on bill to remove a cloud on complainant's title dismissing the bill and finding the title in one of the defendants, is binding and conclusive on all persons claiming title under the parties to that suit, and estops them from disputing the title thereby established, or going behind such decree and questioning the title as it was then found.

The destruction of the original deeds and proceedings and the record thereof which showed the title of the petitioners prior to the fire of October, 1871, is sufficient to authorize them to proceed under the burnt record act for the purpose of having their title established and confirmed thereunder. The fact which authorizes a court of chancery to inquire into the condition of the title, is the destruction of the records.

The fact that one of the defendents admits the petitioner's title at the time of the destruction of the records, and also as it existed thereafter, will not deprive the court of jurisdiction to confirm the title. when there are other adverse claimants who are made defendants; and the statute does not require the court to remit the case to a court of law after restoring the evidences of title, but authorizes it to inquire into and establish the title.

In a proceeding under the burnt record act the petitoner should set out fully the chain of title in his petition. He should specify what the evidences of title are which he seeks to have recorded. But when the only defendant appealing from the decree admits the allegations of the petition to be true, and that the petitioners obtained title to their lots from the government through mesne conveyances and that the records of such conveyances were destroyed, a failure to specify such deeds, etc., will not call for a reversal.

The right to file a petition under the act is not affected by the fact that the defendant may be in possession of the premises. It is not necessary, as in case of a bill for the sole purpose of removing a cloud, to aver and prove that the premises are in the possession of the petitioner or that they are vacant and unoccupied.

A court of equity on finding and establishing the petitioner's title under the burnt record act has ample power to award writs of assistance to put him in possession of the premises, when it is refused on proper demand. In such case it will not remit the petitioner to the remedy by ejectment.

One in whose behalf or under whose direction a suit is prosecuted or defended, will be bound by the judgment or decree rendered.

When the holder of the beneficial title to land consents to the filing of a petition in the name of the holder of the legal title, to restore lost records, etc., and confirm the title, and consents to the entry of the decree in the name of the petitioner, he will be bound by the decree, and it will not be reversed because the equitable owner is not made a formal party.

PLANS FOR NEW BUILDINGS.

Thomas Wing has prepared plans for residence on Diversey avenue near Park avenue for Mr. Wing, 24x50 feet, two story, basement and attic. The front will be of Bedford stone, with slate mansard roof, wood mantels and tile fire places, plate and bevelled glass, steam heat etc.; cost $10,000.

Architects Crowen & Richards have completed plans for fine store and flats to be built on Milwaukee avenue for Mr Stobieski, four stories with basement. The store will have handsome iron front with bressnmmers of same material. The superstructure will be of pressed St. Louis brick with cut stone trimmings, with fancy metal cornice and gravel roof. Plate and ornamental glass, modern sanitary arrangements, etc. The finish of interior will be in hardwoods. Cost $25,000.

Architects Kley & Lang have completed degigns for store and flats to be erected on Wentworth avenue near Fifty-ninth street for Mr. Reilly, 25x80 feet, three stories and basement, modern iron front, the superior stories being faced with stone and improved with galvanized iron bays, plate glass, etc.; cost $16,500. Also block of flats for Mr. Barke, 55x52 feet, three stories with basement. The front will be of Indiana pressed brick with cut stone trimmings, galvanized iron bays and cornice, and gravel roof. All modern improvements provided. Cost, the block, $12,000.

Architects Hetherington & Warner have prepared designs for handsome residence to be erected on Ashland avenue near Polk street, for Mr Jones, 25x70 feet, two story and basement. The front will be of stone with bays of same. The approach will be by flight of stone steps leading to recessed and tile paved vestibule. Plate, ornamental and art glass, and all the modern improvements. The interior will be finely finished in hardwood. Cost, $10,500. Also spacious premises to be erected on Van Buren street near Sacramento avenue, for a society, 75x80 feet, to contain a spacious hall with offices adjoining. The front will be a handsome arrangement of pressed brick and stone, galvanized iron cornice and composition roof; cost $20,000.

Architects Jaffray & Ohrenstein have prepared designs for residence to be put up on Ellis avenue near Sixty-sixth street, for Mr. C. E. Phillips, 25x62 feet, two story and basement. The facade will be of pressed brick with cut stone trimmings, copper bays and cornice and slate roof. Plate glass, sanitary plumbing, etc. The house to be heated by furnace; cost, $6,000. Also residence at Osceola, for Mr. Frank Haskins, 32x64 feet, two stories and basement. The first story will be of rock-faced stone. The superstructure of framed work with shingle roof. The exterior will be improved with porch and veranda, plate glass; cost, $5,000. Also two dwellings at Berwyn, Ill., for Mr. F. V. Humphrey. The houses will be detached, each covering 25x40 feet, and consisting of two stories, basement and attic. The basements will be of brick, the superstructure of frame work with shingle roofs, modern sanitary arrangements; cost, the pair, $5,000.

Architect William G. Ruehl has prepared designs for store and flats at the corner of Wood and Division streets, for Mr. W. Kruegar, 24x85 feet, three stories and basement. The store will be provided with a handsome iron front, the superstructure of St. Louis pressed brick with cut Bedford stone dressings, galvanized iron bays and cornice and gravel roof. Plate and ornamental glass, and modern sanitary appliances, hardwood finish and the latest arrangements; cost, $15,000.

Architects Stiles & Stone have prepared designs for fine block to be erected on Jefferson avenue for Mr. Soherer, 42x76 feet, four stories and basement erection. The principal facade will be a handsome arrangement of cut stone. Plate and art glass, and the best sanitary arrangements, hardwood interior finish, wood mantels and tile fire-places, steam heat, etc.; cost, $25,000. Also pair of residences on Ridge avenue, for Mr. Geo. W. Hoard, 40x85 feet, three stories and basement. The fronts will be of St. Louis pressed brick, with cut Bedford stone trimmings. Modern sanitary equipments; cost, $10,500. Also imposing apartment building to be erected on St. James place facing Lincoln Park, 175x140 feet, ten stories. The first story will be of stone, the superstructure being of specially selected brick with cut stone trimmings and with terra-cotta panels and enrichments. The approach will be by a broad flight of steps leading to spacious inner hall laid with mosaics and with Mexican onyx wainscoting. Quick service elevators will give access to all the floors. The building will be divided into apartments of varying accommodation, and all the principal rooms will be abundantly supplied with direct light. A fine dining-room and cafe will be attached, also commodious reception rooms. Steam heat and electric light; cost, $300,000. Also fine apartment building on corner of Hope avenue and Sixty-sixth street, for Mr. C. F. White, 125x80 feet, four stories and basement. The first story will be of stone, the superstructure of selected pressed brick with cut stone trimmings, and composition roof. The interior will be finished in hardwood, and the hall laid with mosaics and have marble wainscoting. The house will be heated by steam and lighted by electricity throughout. The intention is to use the building during the Columbian Exposition as hotel, and then divide it for an apartment house; cost, $70,000.

Architect W. L. Carroll has prepared plans for apartment building to be erected on Dearborn avenue, 38x102 feet, four stories and basement. The facade will be of stone with bays of same, and slate roof. The approach will be by a flight of stone steps leading to recessed and tile-paved vestibule. The interior will be provided with wood mantles, tile fireplaces, and handsomely finished in hardwood, plate and bevelled glass, steam heat; cost, $36,000.

Architect Edward Krause has completed arrangements for additions and alterations to premises at the corner of North Clark and Kinzie streets, for Mr. Louis Gerlinger. An additional story, covering 60x80 feet, will be put on, and the premises rearranged as flats to meet modern requirements. The addition will be of pressed brick with cut stone trimmings. The premises will at the same time be entirely renovated and redecorated. Cost, $20,000.

Architect D. A La Ponte has completed designs for a block of flats to improve Washington boulevard near Francisco street for Mr. A. J. Lewis, 50x75 feet, three stories with basement. The facade will be of stone with bays of same. Plate glass, hardwood finish, sanitary plumbing, etc, furnace heat; cost, $35,000. Also flats on Fulton street, for Mr. O. M. Brady, 25x70 feet, two stories and basement. The front will be of stone, and improved with copper bays. Plate glass and sanitary arrangements; cost, $10,500. Also fine block of flats to be erected at the intersection of West Adams and Francisco streets, for Mrs. Thornton. The improvement will have a frontage on West Adams street of 125 feet and on Francisco street of 50 feet, and consist of four stories with basement. The facades will be of pressed brick and stone, and the roof will be of gravel. Plate and ornamental glass, and all modern improvements, including steam heat; cost, $60,000. Also residence to be erected on Washington boulevard near Rockwell street, for Mrs. E. O'Brien, 24x75 feet, two stories and basement. The principal front will be of stone with bay of same. Access will be by recessed and tile-paved vestibule, approach by stone steps. Superior interior finish with tile fireplaces, wood mantles, etc. Plate glass and the best sanitary equipment; cost $10,500.

Architect J. E. O. Pridmore has completed plans for residences on Kenwood place, for Messrs. Martins & Co., 50 60 feet, two stories and basement. The facade is of ston and varied in design, with bold bay surmounted by tower projection in center, and square tower projections. Cost, the block, $20,000.

OUTSIDE BUILDING NEWS.

MICHIGAN.

Detroit.—A. C. Varney & Co., have prepared plans for a block of six three story brick residences for Charles Heinricke, Jr., to be built on the southwest corner of Congress and Hastings streets, 108x60 feet; cost $22,000. Also for a two story brick double residence for E. L. Wood, to be built on the northeast corner of Jay and Fifth streets.

Mortimer L. Smith & Son have prepared plans for a two and one half story brick residence for Chas. H. Chandler to be built on the northeast corner of Canfield and John R. streets; cost $12,000.

Henry Egelbert is preparing plans for a cathedral of brick and stone for the Monastery of the Servite Brothers, Chicago to be built on the west side of Jackson street at the corner of the boulevard. It will be 100 feet in width and with a depth of 224 feet; cost $125,000.

E. A. Walsh and Son are preparing plans for a two and one-half story pressed brick residence, brownstone trimmings for Wilson & Farley to be built on the southside of Hancock avenue, west of John R. street; cost $10,000.

Spire and Rohns are preparing plans for a passenger depot with observatory to be built at Falls View, near Niagara Falls; cost $8,000.

Geo. W. Myers is preparing plans for a two-story brick residence for Miss Alice G. Phelps to be built on the west side of Hasting streets between Congress and Fort streets; cost, $55,000. Also preparing plans for a two story frame residence for E. A. Davis of the Davis Boat and Oar Co., to built at Wyandotte; cost $5,000.

I own and wish to sell or lease the North West Corner of 31st Street and Lake Park Avenue. This lot has about 7,000 square feet in it. It has a clean and unobstructed view of the Lake, as the R. R. tracts are depressed here below the street level. It fronts South on 31st Street and East on the Lake. The 31st Street cross town cars stop in front of it. The Illinois Central R. R. Depot is at 31st Street. The Cottage Grove Avenue Cable Cars are about a block away. All parts of the city can be easily reached by cross town cars and elevated road. The whole 7,000 feet can be built upon and still leave the building 30 feet from the street line, as there is a 30 foot park in front of it. The lot can be improved with fountains, lawn, floral decorations, etc., etc.

This property can be reached from the business centre by the Illinois Central Road in about 10 minutes.

For a first-class Hotel or Apartment Building this property is especially desirable.

For Prices, Terms, Etc, address

CHARLES P. MITCHELL, Room 103, 12 Pacific Avenue, Chicago.

A CHOICE LIST OF SUMMER RESORTS.

In the Lake regions of Wisconsin, Northern Michigan, Minnesota, Iowa, and the two Dakotas, there are hundreds of charming localities pre-eminently fitted for summer homes. Among the following selected list are names familiar to many of our readers as the perfection of Northern summer resorts. Nearly all of the Wisconsin points of interest are within a short distance from Chicago or Milwaukee and none of them are so far away from the "busy marts of civilization" that they can not be reached in a few hours of travel by frequent trains over the finest roads in the northwest—the Chicago, Milwaukee & St. Paul Railway, and Milwaukee & Northern Railroad:

Oconomowoc, Wis,	Clear Lake, Ia.
Minocqua, Wis.	Lakes Okoboji, Ia.
Waukesha, Wis.	Spirit Lake, Ia.
Palmyra, Wis	Frontenac, Minn.
Tomahawk Lakes, Wis.	Lake Minnetonka Minn.
Lakeside, Wis.	Ortonville, Minn.
Kilbourn City, Wis. (Dells of the Wisconsin)	Prior Lake, Minn
	White Bear Lake, Minn.
Beaver Dam, Wis.	Lake Madison, So Dakota.
Madison, Wis.	
Delavan, Wis.	Big Stone Lake, So. Dakota.
Sparta, Wis.	
Pewankee, Wis.	Elhart Lake, Wis.
Wausaukee, Wis.	Ontonagon, Mich.
Marquette, Mich.	Mackinaw, Mich.

For detailed information apply to any coupon ticket agent, or send stamp for a free illustrated tourist folder to Geo. H. Heafford, General Passenger Agent, Chicago, Ill.

Public Notice.

FOR COMPUTERS AND DRAFTSMAN.

The Civil Service Commission will hold examinations on the 28th of June, continuing through the 29th, to fill two vacancies in the position of computer in the Coast and Geodetic survey at $1,000 a year, and one in the position of Draftsman at $900. Arrangements may be made to hold the examinations in some of the large cities outside of Washington, if there should be applicants. The subjects of the Computer's examination will be orthography, penmanship, letter-writing, algebra, trigonometry, geometry, geodesy and practical astronomy and differential and integral calculus. The subjects of the drafting examinations will be letter-writing, geography, arithmetic, algebra, geometry, descriptive geometry, plane and spherical trigonometry, shades and shadows, and drawing. Application blanks may be had of the Civil Service Commission. Residents of the District of Columbia are ineligible. Applicants will be required to furnish the necessary implements for drawing. JOHN T. DOYLE
Sec'y U. S. C. S. C

CASINO.

Haverly's Mastodon Minstrels are, without question, the most complete organization that has ever appeared in Chicago, and their performances at the Casino (Eden Musee) have been endorsed in most thorough manner by all classes of amusement seekers. Particularly attractive are the entertainments to out-town visitors, who after an inspection of the various objects of interest in the Musee department, attend the minstrel concerts. The program of the past week has been very pleasing, but the coming week will be a gala week, commemorative of Ireland's patron saint, St. Patrick, the great and good, whose birthday is celebrated throughout the entire civilized world. The program will include all the members of the company, and Irish ballads will predominate. The theater will be decorated and draped with the national colors and flags, and our beautiful wax figure of Robert Emmett will be exhibited free. A new singer will be heard in the person of Mr. Albert Yale, well known to all Canadians as a vocalist of much merit. Banks Winter the celebrated tenor, will have a new song. The comedians Rice, Hall, Denton, Rudworth, Bogert, and O'Brien will have new specialties. Ellwood, the wonderful male soprano, will display new feminine toilets. Constantine, the dancer, will execute new solos, and Harry Budworth will repeat his new repertoire. The latter's song, "Come to Baltimore," has "caught the town" and is encored three and four times every perfo mance. Altogether, the week will be one long to be remembered, and all desirous of hearty, wholesome pleasure should not fail to attend. "Excelsior" is Mr. Haverly's motto. Much has been done by this gentleman "bnt more remains behind."

THE
CHICAGO,
MILWAUKEE
AND ST. PAUL
RAILWAY CO.

Owns and operates 5,650 miles of thoroughly equipped road in Illinois, Wisconsin, Iowa, Missouri, Minnesota and Dakota.

It is the Best Direct Route between all principal points in the Northwest, Southwest and Far West.

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory, rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while indueements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,
Industrial Commissioner,
C, M., & St. Paul R'y, 160 Adams St., Chicago, Ill.

And write your Name upon

THE SCROLL OF FORTUNE'S FAVORED ONES.

FRANKLIN PARK is the Growth of less than two Years. It is the suburban Terminus of the Chicago & Northern Pacific R. R., and is situated at the Intersection of the Wisconsin Central R. R. with the Chicago, Milwaukee & St. Paul R. R. It is 90 feet above Lake Michigan, 11 miles from the City's centre, 2 1-2 miles west of the City limits and is accommodated by 54 passenger trains daily. It has the two finest suburban depots west of the City, costing over $5,000 each, a spacious hotel, a fine block of stores, scores of attractive residences, miles of side-walk, sewers and shade trees and an abundance of wholesome water.

On its western border is MANHEIM, the nucleus of extensive manufacturing concerns and destined to be a busy centre of diversified industries.

In **FRANKLIN PARK** are thus combined

All the Essentials of an Ideal Home-Site.

DO NOT FAIL TO SEE IT.

Lake Front

I own and wish to sell or lease the North West Corner of 31st Street and Lake Park Avenue. This lot has about 7,000 square feet in it. It has a clean and unobstructed view of the Lake, as the R. R. tracts are depressed here below the street level. It fronts South on 31st Street and East on the Lake. The 31st Street cross town cars stop in front of it. The Illinois Central R. R. Depot is at 31st Street. The Cottage Grove Avenue Cable Cars are about a block away. All parts of the city can be easily reached by cross town cars and elevated road. The whole 7,000 feet can be built upon and still leave the building 30 feet from the street line as there is a 30 foot park in front of it. The lot can be improved with fountains, lawn, floral decorations, etc., etc.

This property can be reached from the business centre by the Illinois Central Road in about 10 minutes.

For a first-class Hotel or Apartment Building this property is especially desirable.

For Prices, Terms, Etc. address

CHARLES P. MITCHELL, Room 103, 12 Pacific Avenue, Chicago.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

DOLESE & SHEPARD, 162 Washington Street, Chicago,

HAVE BEEN AWARDED A CONTRACT AMOUNTING TO

ONE HUNDRED AND SEVENTY THOUSAND DOLLARS

($170,000) for the purpose of macadamizing 17 miles of streets and building stone sidewalks.

NO ASSESSMENT will be made for the improvements, the Association assuming the entire expense. The wise and prudent people who invest a small amount of money in CHICAGO HEIGHTS property will in a comparatively short time reap large benefits. No sane person can question the wisdom of making an investment in Chicago property.

Four large factories are in full operation and contracts closed with several others. A large number of residences and business houses in course of construction, also an extensive factory building for Roth & Englehardt, Piano Manufacturers of New York.

STABILITY OF THE ENTERPRISE

The following well-known gentlemen are among the promoters of Chicago Heights:

GENERAL OFFICERS OF THE CHICAGO HEIGHTS LAND ASSOCIATION:

C. H. WACKER, President. **E. S. DREYER, Treasurer.** **GEORGE BURRY, Secretary.** **M. H. KILGALLEN, Manager.**

—— EXECUTIVE COMMITTEE:——

C. H. WACKER. A. T. OTTO. JAMES E. McELROY.

——DIRECTORS:——

TRADE AND FINANCE.

The feeling, in leading financial circles, is that with with the danger of depreciating the currency practically removed the time has come to bull almost everything that has merit. Apart from the unforeseen, the next four years should be years of growiug confidence and steady expansion.

The chagrin of the silver men over the defeat of Senator Stewart's free coinage measure is quite amusing. Senator Stewart's own action under defeat is full of significance, and his proposal that all governmental salaries, above $600 per annum, be reduced twenty-five per cent gives away the case of the Silverites with most ingenious frankness. The fact is there is only one logical explanation for this action of the Senator from Nevada, and it deserves the consideration of every thinking individual, and not least of the wage earning classes. The Senator, having failed to foist a 67 cent silver dollar upon the conntry, now comes frankly forward with the proposition that all salaries, so far as government can influence them, be cut down twenty-five per cent. As will be seen, this is a retraction of the doctrine that the silver dollar is intrinsically equal to the gold dollar. The way is now open for honest bimettalists to suggest some feasible plan for the rehabilitation of silver. The occasion is specially opportune, and the decision rests, practically, with the United States and Great Britain, friendly notions, both speaking the same language and having many interests in common. Now both these countries are upon record, and their interests, if not exactly identical, are really not conflicting. The United States is a silver producing country and naturally favors silver money, yet wants that money to be absolutely honest. Great Britain is not a producer of silver, and her money has long rested upon an exclusively gold basis. Her commerce is world-wide and she cannot afford to upset the accepted basis of values. France and the powers forming the Latin Union have to a certain extent acted upon principles differing from their own, but of late years they have modified their position essentially, and the result is a scramble for gold which we admit is not wholly desirable, that metal being precious and limited. In India, with a population of three hundred and fifty millions Great Britain has large interests, and the country is a user of silver. With China and the East she also has a large trade, and there silver is the accepted basis of values; her interests therefore are not adverse to establishing a stable equilibrium between the two precious metals, gold and silver. All she asks is that the metals exchange upon something like an honest basis, as represented by the facilities, extent and cost of production. Such being the situation, the forthcoming International Conference experts should experience no insurmountable difficulty in agreeing upon a standard. And what the United States and Great Britain say, goes. It is a great opportunity. May it be used.

With the silver question goes all fear of a depressed currency. Thus, the greatest of all dangers is removed. Another matter threatening trade still remains: We refer to the Hatch or anti-option Bill. This measure threatens in particular the interests of Chicago, though all the great centers of trade are, more or less, involved. The importance of the interests concerned will be better appreciated when we state that the Chicago Board of Trade, is, alone, involved to the extent of $10,000,000. What action will be taken in this matter is uncertain. The general impression is that the measure will pass. It is a question whether it is constitutional, and Senator Vest, in his recent speech in opposition before the Senate, elucidated certain facts that must have their influence upon all thinking men. The proposed measure will stop speculation inasmuch as the buyer will have to accept delivery before he can re-sell. To the ordinary speculator, there is no sort of inducement in this sort of thing. Action will be entirely too slow, and the cash will have to be always up or costly expedients of financiering will have to be resorted to, with the result, of course, of reducing the price to the producer. The fact is the passing of the Hatch bill would be to the advantage of the big millers, exclusively, as Senator Washburne fully understands. The exclusion of the speculator would bring back the halcyon times of the Miller's Association when the big Minneapolis men used to buy up all they wanted pretty much at their own prices. In this construction, it is a significant fact that the articles in which trades in futures are not customary, such as rye and beef, are heavy to sell while the speculative commodities—such as wheat, corn and pork—are always in active request, and subject to spurts of considerable buoyancy.

During the impendency of the Hatch bill, all cereals are depressed, despite influences that would upon other occasions conduce to a lively upturn. Conservatively considered, the agricultural situation remains unchanged. Some talk of rust and of disappointing yield upon threshing have advanced wheat about one cent. The weather, generally, is reported as favorable to harvesting operations, but corn is in need of rain in certain sections. Taking the average for the country as a whole, wheat has held its own and corn has distinctly improved. This may in measure account for the comparative firmness of railroad stocks.

There has been a marked falling off in the exports of gold, despite the fact that sterling exchange continues at a high figure. There can be no doubt but that the rejection of the Free-Coinage measure by the Senate has had an appreciable effect in bringing about this desirable result. Under the persistent drain, the gold balance in the Sub-Treasury was last week but a trifle over $10,000,000 above the $100,000,000 required for the protection of the bills out, while the reserves of the yellow metal at the banks were but $63,000,000. This was a source of considerable alarm, prudently concealed, to leading financiers and banks An agreement was quietly made that the banks should hold fast to their attenuated gold reserves The Sub-Treasury announced that henceforth it would require shippers of gold to deposit certificates before making arrangements to meet demands. The indications are, however, that with the recognition of sounder financial views the danger has passed away, at least for the present. How near the country has been to a grave currency crisis is known to insiders alone. But if the lesson is taken to heart that should be a source of satisfaction rather than of regret. It indicates that the saturnalia of the faddist is approaching its end. London is once more placing buying orders upon Wall street. The United States will soon pass through a somewhat similar experience, only to throw itself with renewed ardor into all kinds of enterprises

According to the statement just put forth by the Bureau of Statistics, the foreign commerce of the United States for the fiscal year ending June 30, 1892, is the largest upon record The aggregate value of the country's imports and exports amounted to $1,857,726,910, as against $1,729,397,006 during the fiscal year 1891 This is an increase of $128,329,904, and an increase of $370,193,883 since 1889. These bold figures do not reflect, however, the real inwardness of the year's trading, and we shall return to them upon an early occasion

Money continues easy. At New York and other Eastern centers, call money has been available as low as 1½ per cent, with time loans at from 3 to 4 per cent At Chicago, 4½ to 5½ per has chiefly ruled; the packers continuing to figure in the character of chief borrowers According to the last statement of the Associated Bankers. deposits decreased $6,868,000 and loans decreased $9,751,000. The directors of the Bank of England at their last meeting resolved to maintain the official rate of discount at 2 per cent At Paris and Berlin the volume of money is in excess of demand, but held firmly by banks for prudential reasons. In Europe, a growing tendency toward conservative investments is declining, the amount of capital seeking remuneration being excessive.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of 68 leading cities for the week ending July 15, 1892, as compared with those of the corresponding week last year, with percentages of increase and decrease.

†Not included in totals.

The volume of the bank clearings continues to make a fair showing nor is the statement less attractive when examined in detail. The total for the week under consideration is within a small fraction of one per cent of that of the preceding week when bank clearings were swollen by a variety of checks for interest and dividend, and exceeds that of the corresponding date of last year by $133,473,000 or 13 3 per cent. Of this amount $70,295,000 must be allotted to the Empire city, being equal to 12.4 per cent of its separate returns. This leaves the gain at outside points at $63,178,000, or 14.1 per cent. Of the fifty-eight cities of the United States available for purposes of comparison, forty-eight show gains and ten losses. The satisfactory condition is even more well defined upon examining the returns of the first thirty-two cities, the record of gains being broken only in two instances viz: San Francisco which declines 11.2 per cent and Galveston 16.5 per cent. The exceptions are, each in its way, significant. The lesson they teach is that the country is not booming so much at its extremities as growing in solid strength throughout.

The special movement of money at this season of the year being over, Boston returns once more to the third place. Its gain is, however, as compared with last year, none the less creditable, being 8.6 per cent. The advance at Chicago is, as one might anticipate, heavier, viz: 23.1 per cent. Both cities report general trade as excellent. In Boston and neighboring cities the mills are kept running full time in order to catch up with orders, and manufactures of boots and shoes, and in kindred lines, are exceptionally active. The season, so far, being regarded by many conservative traders, as the best upon record. At Chicago, all leading industries are well maintained, and bankers are finding a greater disposition among general traders to borrow money, which is always one of the signs of quickening enterprise. Dry goods are in special request at this point, and indeed wholesalers in this line throughout the country are well supplied with orders. There has also been some improvement in the matter of collections, which naturally assists the growth of confidence, which is every day becoming more apparent.

Philadelphia is experiencing a brisk demand in manufactured iron work, also in hardware. The gain at this point continues, and must be regarded as reflecting somewhat the general condition of business throughout the country, Philadelphia being a city of many and varied industries. Its gain is equal to 16.7 per cent. The labor troubles have, at this writing, attained further developments at Pittsburgh. Most of the iron works are close,and manufactures of glass always heavy at this point, are exceptionally active. Despite its temporary vicissitudes, Pittsburgh advances 12.2 per cent in the matter of bank clearings. Among other notable gains we have: St. Louis, 11 per cent; Milwaukee, 36.6 per cent; and Cleveland, 8.8 per cent. The heaviest percentage of gain is made at Omaha, viz: 96.3. In the South, Baltimore improves 8.7 per cent; and New Orleans, 10.7 per cent; which, considering the special circumstances of the times and of the locality, must be regarded as favorable.

The prosperity of the agricultural community is in part reflected by gains at the following points: Cincinnati, 8.4 per cent; Kansas City, 25.2 per cent; Minneapolis, 21.7 per cent; and St. Paul, 6.9 per cent. The gain at Buffalo is, however, but 1.3 per cent, while Duluth figures are on the wrong side.

Though ten of the fifty-eight cities available yield declining returns, the only reference necessary thereto has been already made, when speaking of San Francisco and Galveston, the other affected points being of minor importance.

Canada is once more on the upgrade, its advance being equal to 15.3 per cent.

Continuing our analysis for the same weeks, but by groups of states, we have.

	WEEK ENDING JULY 15, 1892.	WEEK ENDING JULY 16, 1891.	PERCENTAGE.
New Engl'd States.	$118,960,458	$109,448,216	Inc 8.7
Middle "	730,463,223	648,022,341	" 12.7
Southern "	38,335,253	35,730,019	" 7 3
Western "	46,039,142	37,238,706	" 23.5
Northwestern "	137,774,426	111,571,078	" 23.4
Southwestern "	42,064,371	37,332,823	" 12.6
Far Western "	29,294,586	30,115,067	Dec 2.7
Totals,.....	$ 1,142,931,459	$1,(09,458,249	

In the roll of states, cited by groups, only the Farwestern appear on the wrong side. And here the decline is but 2.7 per cent, due wholly to the shrinkage at San Francisco. Elsewhere, the record, considered by groups, is one of substantial improvement.

OFFSET TO THE OUTFLOW OF GOLD.

The statement of the Chief of the Bureau of Statistics showing the imports and exports for the fiscal year ending June 30, was commented on in last week's issue of the JOURNAL.

The following tables showing the excess of exports over imports for the last twelve years, was published by the New York Daily Indicator of Tuesday.

Year ended June 30.	Exports.	Imports.	Excess of exports.
1881.....	$902,377,346	$642,664,628	$259,712,718
1882.....	750,542,257	724,639.574	25,992,683
1883.....	823,839.402	723,180,914	100,658,488
1884.....	740,513,609	667,697,693	72,815,916
1885.....	742,189,755	577,527,329	164,662,426
1886.....	679,524,830	635,436,136	44,088.694
1887.....	716,183,211	692,319,768	23,863.443
1888.....	695,954,507	723,957,114	*28,002,607
1889.....	742,401,375	745,131,652	*2,730,277
1890.....	857,828,684	789,310,409	68,518,275
1891.....	884,480,810	844,916,196	39,564,614
1892.....	1,030,335,626	827,391,284	202,944,342

* Excess of imports.

During each of the years from 1879 to 1887 inclusive there was an excess of exports over imports of merchandise, the yearly average for that period being $134,388,313, and amounting in 1881 to $259,712,718. During the fiscal year 1888 the value of imports of merchandise exceeded that of exports $28,002,607, and in 1889 $2,730,277, but the fiscal year 1890 showed an excess of exports of $68,518,275, the year 1891 of $39,-564,614, and last year the large excess of $202,944,342, or more than in any previous year since 1881.

An interesting table is published by the Chief of the Bureau of Statistics, which shows the exports of leading products arranged in classes. It shows the exports of raw cotton, breadstuffs, provisions, cattle, sheep and hogs, mineral oils and "all other articles." The value of exports of raw cotton in the fiscal year 1892 was $258,447,741, which was $32,265,157 less than during the year 1891, in which was the largest value of annual exports of cotton in the history of our commerce. The decrease is due entirely to the fall in price, for we exported 2,934,719,811 pounds of cotton during the year, which is the largest quantity ever exported in any year in the history of the country.

The value of exports of breadstuffs was $301,828,-601, an increase over the previous year of $173,706,945, and the largest reported in the past thirteen years. The exports of provisions were valued at $137,411,-386, against $139,017,421 last year. With the exception of 1891, the exports in the past year were the largest for any year since 1881. The exports of cattle, sheep and hogs were larger in value than ever before reported, the total being $35,654,384, against $31,852,-988 in 1891.

The value of the imports of merchandise admitted free of duty during the year 1892 was $458,001,145, against $366,241,352 in 1891, an increase of $91,759,793, while the value of imports paying duty was $369,390,-139, as compared with $478,674,844 for the year 1891. The following table shows the percentage of total imports admittedfree of duty in each of the past thirteen years:

	Per cent.		Per cent.
1880.....	31.19	1887.....	33.83
1881.....	31.51	1888.....	33.71
1882.....	29.06	1889.....	34.42
1883.....	28.69	1890.....	33.66
1884.....	31,43	1891.....	43.35
1885.....	33.46	1892.....	55.36
1886.....	33.39		

The total movement of gold during the fiscal year resulted in a net loss of $496,985. In June we exported $16,636,589 of gold, the largest amount for any month in the year, Up to June 1 there was a balance in favor of this country of over $16,100,000, which was entirely wiped out. Still our loss of gold, less than $500,000, for the year compares very favorably with the three preceding years, for in 1891 we lost $68,130,-087; in 1890, $4,331,149, and in 1889, $49,667,427. The following table shows the net movement of gold and silver in each year since 1879:

		Gold.		Silver.
1880.....	Imp	$77,119,371	Exp	$ 1,227,980
1881.....	Imp	97,466,127	Exp	6,297,477
1882.....	Imp	1,789,174	Exp	8,734,263
1883.....	Imp	6,133,261	Exp	9,464,203
1884.....	Exp	18,250,640	Exp	11,456,481
1885.....	Imp	18,213,804	Exp	17,203,006
1886.....	Exp	22,208,842	Exp	11,660,912
1887.....	Imp	33,209,414	Exp	9,036,313
1888.....	Imp	25,558,083	Exp	12,634,280
1889.....	Exp	49,667,427	Exp	18,011,033
1890.....	Exp	4,334,149	Exp	13,840,945
1891.....	Exp	68,130,087	Exp	4,564.108
1892.....	Exp	496,985	Exp	12,855,473

The exports of silver have begun to increase again, although they have never been as much since 1878 as they were before. In 1872 they were $25,302,543 and in 1873 $26,953,369, or double what they were in 1892. It will be interesting to know how large a balance has been piled up to the credit of the United States on account of foreign trade operations in the past three years. We give the figures, as follows:

	1890.	1891.	1892.
Exp. of merchan'se.	$68,518 275	$39,564,614	$202,944,342
Exp. of gold.....	4,331,149	68,130,(87	496,985
Exp of silver.....	13,840,945	4,564,108	12,855,473
Total.....	$86,690,369	$112,258,809	$216,296,800

Last year we shipped away of merchandise, coin and bullion $216,296,800 more than we received; in 1891 we shipped $112,258,809, and in 1890 we shipped $86,690,369. In the three years we have exported net $415,000,000, or an average of more than $138,000,000 per annum. We can hardly owe much abroad after such an outpouring of our wealth

LOCAL STOCK MARKET.

The Stock market of this week was a repetition of that of last with all the features of the street railway situation emphasized. These securities undoubtedly monopolized the attention of traders on the floor of the Exchange. Last week a series of surprisingly high points in West and North side stocks was developed each day, marking sharp advances in prices. On Monday the market for the railway securities was firm but showed no tendency to advance. On Tuesday it struck a more rapid gait, and in West side stock prices were marked up from 183¼ to 185 at the end of the morning call, and to 186½ at the close of the day. North side stock moved up from 223 to 224½ and later to 226. On Wednesday these advances were liberally discounted. The market for West side opened at 186 and went to 191½. One sale for the account was made at 192. The North side prices ranged from 226 up to 229, and a fraction better for account sales. The advances were still continued at following sessions of the Exchange. On Thursday alone, a net advance was made in North side stock from 230¾ at the opening to 233½. For the first time in some days the advance in North side was more rapid than in West side stock. West side opened at 193 and went up a point higher.

With the market handled as it is at present and practically controlled by a few insiders, no positive predictions can be made in regard to the movement of the stock. It is at least possible that the two stocks will rise to 200 and 250, without any set-back. While this may be true, it does not take a prophet or a son of a prophet to predict that high points cannot be registered each day for an indefinite length of time without the inevitable break coming. It would appear from the selling that some of the manipulators of the advance have reached the conclusion that prices have gone about as high as they can with safety, and are consequently beginning to realize to a certain extent on their profits.

The market has been broader during the week than it has been for a number of weeks back. Besides the interest in the Railway securities, there was quite a little activity in Western Stone and Calumet Dock. It is claimed among the brokers that there are plenty of bull points on Western Stone, but no satisfactory explanation is given regarding their nature. Some time ago the company issued a large amount of treasury stock, which was not sold because sufficiently high prices could not be realized. It is now claimed that arrangements have been made for placing this treasury stock and that the advance was occasioned by this act. The company has certainly good prospects of a satisfactory year and has been earning a high per cent on its capital stock. In fact, for an 8 per cent security it has been somewhat neglected on the open market. About the middle of the week the upward turn began and prices went up 3 points to 98¼. The sales of the Calumet Dock were active, by reports of land sales. One of these sales was made of a small acre tract to the Calumet Electric railroad company. As the weather improves and the property of the company again becomes marketable, the prospects for an advance in stock are brighter. Street Stable Car stock has been quite heavy and scaled down as low as 28½, the lowest price which has been reached for months. A recovery, however, was made from that point, and prices got back to about 31. The earnings for the company during the month of June are reported as $38,085.

The market for Arc Light and Power stock has been much firmer recently. The firmness has not been shown so much in sales as in the higher prices asked by holders. The company has at last gotten fairly established in its new building and expects soon that expenses, which have been unusually heavy, will be reduced to a normal level. The fire which caused the company so much loss, has actually put it back of the point at which it was a year ago. The officers of the company state that no dividend will be paid until the impairment of the capital stock, caused by the fire is made up, but within two or three months it will be ready to resume dividend payments.

In the unlisted securities, Alley L sold at 105 and Lake street, at 25. The sale of Alley L was the first made in some time, and was five points lower than the highest point which was reached at 110. The bond sales of the week have not been more than usually heavy and are not as extensive as might be expected from the amount of money seeking investment, and in comparison with the number of sales of securities made over the counters of the various banks.

A number of irrigation schemes are now under consideration in London which involve large tracts in Arizona and Mexico. Several American companies which have already been operated with a certain degree of success are offering bonds on their properties to complete their systems of irrigation canals or to make further extensions. It is estimated that these companies now seeking purchasers for bonds on the London market, are offering an aggregate of from $15,000,000 to $20,000,000 worth of securities. One of the late census bulletins issued by the Department of the Interior gives some interesting statistics regarding irrigation in the state of Washington. Out of the total of 111,237 farms in thirteen counties where irrigation is practiced 1046 farms are irrigated. In the census ending May 31, 1890 a total acreage of land on which crops were raised by irrigation was 48,799. The average size of the irrigated farms is forty-seven acres. The average value of the irrigated lands of the state is given as $50 an acre. Deducting from this the original cost of the land and the annual cost of water leaves an average profit return of something like $30 an acre

THE REAL ESTATE MARKET.

NEGOTIATIONS IN PROGRESS FOR CENTRAL PROPERTY.

For some time real estate men have been considerably exercised over two subjects. One of these is the prospect of the Western Union Telegraph company purchasing a building site and the other the disposal of the Equitable building at the southwest corner of Dearborn and Washington streets. The Western Union people are no nearer a decision in regard to a site than they were three months ago. The general opinion expressed among real estate men is that the Western Union officials have shown the worst possible management in their negotiations for a suitable piece of property. In the first place, they figured with too many owners and agents, and caused the impression that they were in the market for property. In the second place, they have not been decided in their own minds as to what they were willing to pay for a suitable corner. Properties were offered them two or three months ago and refused at prices much lower than the Western Union company is now willing to pay for the same holdings. It is safe to say that almost every piece of property in the down town district, available for the company's uses has been submitted to it. It is now claimed that negotiations are being carried on directly with the New York office of the Phoenix Life Insurance company, for the purchase outright of the Phoenix building, at the corner of Clark and Jackson streets. This building is a nine-story modern structure in first-class condition. The lot has a frontage of 200 feet on Jackson street and fifty feet on Clark street running through to a third frontage on Pacific avenue. It consequently has an area of 10,000 square feet, or just the amount in the lot on which the Union building stands at the corner of Washington and La Salle streets. It is claimed that negotiations are being carried on on a basis of $1 500,000. The ground space is not quite as large as the Western Union company would like. It could use 15,000 square feet to advantage. It is claimed by agents familiar with the property that the holdings immediately to the south of the Phoenix building cannot be secured in fee simple to be combined with it. The price too, is considered rather high considering the present income and the views of the prospective purchasers as to valuations in Chicago.

While no disposal has been made of the Western Union company. as to a site, the sale of the Equitable building has been arranged. When this building on 40x90 feet at the southwest corner of Washington and Dearborn streets was bought, the purchaser gave in payment a leasehold and buildings at Nos. 21 to 25 Plymouth place at a consideration of $100,000, and gave a mortgage back for the remaining $375,000. The total consideration in the transfer from Marx Wineman to Andrew Cooper was $475,000 and the mortgage for the major part of this was made for only ninety days. This feature of the purchase has been the occasion of a great many theories and predictions as to the outcome of the matter. There were those who believed that Cooper would arrange for a resale of the property in plenty of time to take eare of the mortgage and intimated that in all probabilities some provisional sale had already been agreed upon. Others believed that in this instance he had overreached himself and would not be able to meet his payment. Still others believed that he would let the mortgage be foreclosed and avail himself later on of the benefits of the fifteen months' redemption law. The first theory seems to have been the eorreet one, as a resale of the property has been arranged to Owen F. Aldis. A deed has been drawn with him as grantee with a consideration of $450,000. Mr. Aldis aets as an agent for the real purehaser but not in the interest of the organization known as the Real Estate Trustees. As Cooper took the property at a consideration of $475,000 and sells it at a consideration of $450,000, his profit, it any, must have been in the property which was traded in to Marx Wineman. The Plymouth place building is a seven-story structure on a lot 70x93 feet which is leased from the Buekingham & Jennings esta e. Mr. Cooper's inter-

est in this building probably cost him less than half of the amount at which it was turned in to Mr. Wineman.

ALLEY "L" TERMINAL SECURED BY LEASE.

Probably the most interesting event of the week was the lease made by the South Side Rapid Transit company of a site for a down town terminal depot. The company, so far, has had very limited facilities for handling passengers at the Congress street terminal. A lease was arranged with the McCormick estate for quarters in the two-story building to the east of the elevated track. This, however, allowed only one approach to the tracks and but one depot platform for handling passengers. The company was better equipped to handle passengers at any of the South side depots than at the terminal where naturally the greatest volume would be. The property on the west adjoining the alley in which the elevated road is situated is owned by Ellen Williams and has a frontage of fifty-one feet on Congress street and a depth of forty feet. This lot has been leased for ninety-nine years at an annual rental of $10,000. This rental establishes a capitalized valuation of $200,000 for the lot. This is equivalent to a trifle over $98 a square foot. The recent transfer of the lease of the Dore property at the northwest corner of State and Madison streets, which is considered one of the most valuable retail corners in the city, established a valuation of $104, a square foot, or only $6 more than that of the lot leased by the Alley "L" road. The company was simply forced to secure the property at the best terms it could make. It realized that the traffic of next year could not be handled without better terminal facilities. There is a three-story building now on the lot which is vacant. This will either be remodeled for depot purposes or will be torn down to be replaced by a new structure. It is probable that the terminus of the Alley "L" road will be at Congress street for some time. A depot there is as near the heart of the city as any of the railway depots and it is an utter impossibility to entend the road further north unless public sentiment is strong enough to give the road a right of way on the down town streets for a terminal loop.

FINEST RETAIL BAKERY IN THE WORLD.

The store and basement at Nos. 221 and 223 State street are to be remodelled and fitted up as the finest retail bakery headquarters in the world. This store is occupied by the Hildreth Furniture company. It is 50x144 feet. The new lessees are H. H. Kohlsaat & Co. They have leased the property from Giles Bros. & Co., for five years at an annual rental of $18,000. At the end of the five-year term they have the option of renewing the lease for five years at an annual rental of $20,000 a year. The building is on the east side of State street, opposite Quincy street. About a year ago the entire building was leased by Van Vlissingen & Ismond to Giles Bros. & Co., for twenty years at a graded annual rental of from $21,000 to $25,000.

A $200,000 HOTEL AT MIDWAY PLAISANCE.

J. B. Frick and others have, it is reported, furnished 188 feet on Woodlawn avenue at Midway Plaisance for the Cambridge Hotel and Apartment Company, who propose to erect a $200,000 hotel to cover the entire ground space, to be four stories high and contain 300 rooms. The structure will have a very handsome pressed brick front trimmed with cut stone and relieved by a number of bays. The interior will be finished in hardwood.

PROSPECTS OF A NEW CLUB HOUSE ON THE NORTH SHORE.

Architects are submitting plans for a new club house to cost $150,000, which will probably be built on the North Shore of the lake near Argyle Park and on property adjoining the Sheridan Road. The promoters of the building are some of the prominent North side society and business men, but who do not care to give out their names for publication until the plans become more definitely arranged, but expect to commence work by the middle of August. The building will be fitted up in a style becoming the wealth and social standing of the club, and will be so designed as to be used as a summer resort for the members and their families.

CHICAGO MEN IN SIOUX CITY.

The 700 acre park adjoining the Big Souix River on the west side of the city was sold last Saturday, the 16th, together with eight miles of electric railroad for $600,000. A Chicago man named Lee, representing the Canadian Pacific, made the deal but refuses to disclose the details of the purpose of the purchase. Some of the former property owners are inclined to the belief that the Chicago & Northwestern road is behind the scenes, which conclusion is drawn from the fact that two new lines are being surveyed in this direction by this company's line, one from Sioux City to Centreville, S. D., and the other to Moville Iowa, and it is understood that the construction of both will be well under way before the end of the car.

C. H. Eulette & Co. have made the following sales during the past ten days: No. 5547 Halsted street, store and flats for $14,000; No. 6334 Emerald avenue for $3,000; No. 5646 Green street, two-story flat, for $7,600; 100 feet on Webster avenue, between 73d and 74th streets, for $4,500; southwest corner of 72d and Emerald avenue, 50x154 feet, for $2,400; southeast corner of 72d and Emerald avenue, 98¼x154 feet, $4,300; fifty feet on Aberdeen street, near 65th street, for $1,400; 100 feet on Emerald avenue for $3,500; twelve lots on W. 48th and Augusta streets for $4,800, and twenty-five lots in West Pullman for $12,500.

INCREASE IN SPECIAL ASSESSMENTS.

RATIO TO GENERAL TAX CHANGED FROM 1 : 13.23 TO 1 : 1.2 IN 30 YEARS.

Thirty years ago special assessments were few in numbers and limited in use. While they possess the advantage of the legal requirements of the tax to be applied to the specific improvement they cause an endless amount of details and red tape, and are the most expensive way of making an improvement. The South Park assessment, collected in the seventies was very unpopular and was fought by non-resident as well as resident owners. That tax was paid in seven installments with interest. The advantages were not seen and appreciated by abutting property owners till a lapse of more than ten years when land on Grand boulevard began to advance. Owners as far west as Halsted street were taxed but never benefitted. This same scheme was employed in making special assessments for side walks and led to endless trouble in the Town of Lake when Rev. Zenas Coleman was the Supervisor and Treasurer. This feature of scattering the assessment far beyond the abutting property was condemned by the Supreme Court in the Belmont avenue sewer case and is now generally avoided by confining the tax to the property along and on the improved street. To show the great increase in special assessments in Chicago it is only necessary to note that in 1862 the special tax was less than $47,000 and the general taxes $564,000. Ten years later, in 1871—the special tax was almost equal to the general tax. Since 1880 the increase has been rapid and now even before the inauguration of the new system of making all improvements by special assessment the tax is nearly equal to the state, county, city and school taxes combined. It will be seen at a glance that the ratio between the two has been decreasing for thirty years until nearly as much money is collected by special assessments as under the general tax law. From this time when all sewers above twelve inches in diameter and a large proportion of the canal and drainage tax together with assessments for roads, sidewalks and repairs are done by special tax, the ratio of special to general taxes will increase still more and perhaps double. If the rapid increase in special assessments would but diminish the general taxes for city purposes, property owners would accept the situation with greater satisfaction but if the two continue to increase, agents for the care and management of property will find enough to do to pay the taxes and keep a record of the specials. The following is a comparative statement of the city's special and general taxes for thirty years.

Year.	Special tax.	General tax.
1862	$ 42,635.49	$ 564,038.05
1863	46,493.67	853,346.00
1864	389 169.31	974,665.64
1865	103,576.35	1,294,183.50
1866	802,574 56	1,719,054.65

1889	4,220,896.93	6,326,561.21
1890	6,897,156,48	9,558,334,80
1891	8,790,443.29	10,453,270.41

THE TAX ON CIRCULATION.

The following address was delivered by Hon. Michael D Harter, member of Congress from Ohio, at a recent monthly meeting of the Boston Bank Presidents' Association:

"Gentlemen: That there is financial disease abroad in the land, and that it affects every fiber of the business of the nation, is patent. With railroads, telegraphs, express and mail facilities reaching every corner of the country, we nevertheless see money lending in the East at from 1 to 3 per cent per annum, while in the West and Southwest it can not be had, in many instances, for 12 to 15 per cent. With the greatest crops we have ever produced, and a large and steady demand for them from abroad, instead of receiving great quantities of gold from Europe, we are shipping gold in that direction. Although the crop prospects for 1892 are at least normal here, with the promise for European crops far below the average, instead of buoyancy, briskness and confidence characterizing our markets, everywhere depression in prices, doubts and hesitation have sway. Instead of Europe investing what surplus she has in American securities, backed as they are by every naturally favorable condition, each ship arriving from across the ocean for twelve months past has poured in upon our market a returning stream of American stocks, bonds and shares, some of which have been held in Europe for a quarter of a century undisturbed. You are all men of affairs, familiar not only with the business of Boston and New England, but with that of the entire nation, and you can determine whether I have faithfully and accurately diagnozed the condition of business as it exists to-day. Whether the cause I shall lay the unfavorable condition of the patient to, is correct, and whether the remedy or remedies I will suggest are safe and likely to be effective, remains for you to determine.

"I place the sole responsibility for the general situation of which we complain upon the currency condition of the country. I think the unrest, uncertainty, the doubts and fears as to what will be done with the standard of value in the United States, the sole influence which stands between us and the highest condition of prosperity, and the largest measure of material development the country has had in a generation. The fear that we shall change from the gold standard to a silver one, is the direct cause of our present commercial and financial disorder. The probability that every piece of property, of whatever nature, that the representative of credit, in whatever form it exists in the United States, is ultimately to be measured by silver worth 60 to 67 cents instead of, as now, by gold worth 100 cents, would check the rising tide of prosperity in a nation made up exclusively of enthusiastic, optimists and boomers. That it has had a similar effect here, where our business community is made of every class, ranging from the most conservative investor and most cautious business man to the wildest speculator, is surely not surprising, and we need make no further inquiry for other depressing influences or potent factors in accounting for the existing deplorable condition of the country. Fortunately, I believe the remedy lies very close at hand, and that the cure has the merit of being safe, certain and permanent. It consists in availing ourselves of our past experience, and our present opportunity in connection with the bank note circulation of the country. The wide discussion of general financial questions brought on by the free silver craze which has raged through the United States for several years past has enabled us, I think, to reach sound conclusions on many points, and I shall now make a number of statements which few men will care to dispute, and which none can successfully contradict.

"The continued general use of gold and silver money under free coinage, with legal tender qualities, of both metals, is an impossibility, no matter what ratio may be adopted. It would be as easy to combine oil and water as to continue for any length of time the unlimited coinage of gold and silver at any fixed ratio, for, if you were to be fortunate enough to select a perfect ratio to-day, you have no assurance whatever that it would remain so for even twenty-four hours and a moderate change in the maket value of either metal with present business facilities, controlled by current commercial methods would drive the undervalued metal out of circulation. It is easy to see that this statement, therefore is indisputable. The conclusion which naturally follows, is that the way in which two legal tender metals can be kept side by side in general circulation is by the limiting of the coinage of the cheaper. The experience of the world, so far as we have it in recorded history, without exception, proves this position to be correct, and I will not occupy your time to enlarge on it.

"The next statement in connection with coinage is that when the limit in amount which the people and business of the country will take in the shape of money coined from any metal is reached, coinage of that metal should cease. We have now in circula-

tion about 57,000,000 of silver dollars, and the government has been absolutely unable to force more into circulation, or to inject a larger quantity into the arteries of trade. It is perfectly clear that when this point was reached, government purchases of silver bullion should have ceased. Instead of this we have gone on buying until we have on hand in the treasury in the shape of silver, coined and uncoined, between $400,000,000 and $500,000,000 ($443,428,502 on June 1, 189). Over $350,000,000 of this is in the shape of standard dollars, which has entailed a coinage outlay, expense and waste of over $5,000,000 and all the storage capacity of every mint, and of some of the postoffice buildings of the country, is strained to the utmost to accommodate this rapidly swelling bulk of useless and unsalable metal. It follows that the government purchases of silver bullion should be stopped instantly, and it requires no prophet not even the son of a prophet, to declare that every month's purchases infallibly add to the dangers which surround the financial position of the government, and that they are a most alarming menace to the welfare of every individual inhabitant of the United States. I have no hesitation in saying, therefore, that it is the duty of Congress to stop absolutely, peremptorily and without delay, the purchase of silver. I do not wish to say very much upon this silver question, as once fairly entered upon, it would occupy all the time you have at your hand today.

"The next proposition I make is that the government should not be allowed to issue paper money under any circumstances. Its sole power in this direction should be the taxing and regulating of the paper money issued by banks. Every nation which has undertaken govermental issues of paper "promises to pay" has had cause to regret it bitterly. Historical examples are as numerous as the nations themselves. The printing of greenbacks made the last war cost the people directly and indirectly, at least $3,000,000,000 more than if this course had not been taken and our present evil plight in connection with the silver question is all due to the pernicious issuing of paper certificates representing coin. If the government had insisted, as it should have done, in paying for all silver bullion bought with silver dollars, the craze would have subsided by the time 60,000,000 of these coins had been forced into circulation and the purchase of silver bullion would have ceased long ago. The government instead of being loaded up as it now is, with enormous burdens of 'promises to pay' under which it staggers instead of having a stock of silver bullion on hand, the property of the government, and yet to be paid for as it has all been bought on credit and which is almost worthless for every legitimate purpose certain to involve upon the people a loss ultimately of at least from one hundred to one hundred and fifty millions of dollars, we should be free not only from this enormous pecuniary loss, but we would not now be surrounded by the difficulties of dangers that crowd our financial horizon. Undoubtedly, the most unfortunate single decision ever made by the Supreme Court of the United States was that which affirmed the legality of the legal tender act. Looking ahead, it is safe to say that no constitutional amendment is more needed than one which will distinctly and forever take away from the general government the right to issue any 'promise to pay' intended for circulation as money.

"Free coinage and bi-metallism may or may not be desirable, but certainly they can be justly maintained only in one way, and that is by depriving coined metal of its legal tender quality. This done, it would be perfectly safe to open our mints to the free and unlimited coinage of both gold and silver at the present ratio of 16 to 1. The result would be, of course, that both silver and gold would circulate at their true market value, side by side and the inconvenience resulting from their being taken at their market, instead of legal tender value, would not be a fraction of what we are apt to apprehend.

"The fact is that, in connection with the coinage the government has but one duty to perform. It should by its stamp, fix the weight and fineness of every coin leaving its value to be fixed by commerce. The only excuse any government in this enlightened age can have for maintaining mints at all is to insure the weight and fineness of coin, in this way protecting its people against swindling; and whenever any government undertakes, through and by way of a mint to give 88 cents' worth of any man's property a general purchasing power of 129 cents, that government becomes a robber and a swindler. No human intelligence is extensive enough—in fact, human understanding will never reach a point where it can determine the amount of money any given number of people require for business purposes, and it is this very fact which should at all times and forever withhold the power to control the volume of money in circulation from legislatures, State or National.

"We have now reached a point where the suggestion of a remedy or remedies, of a cure or cures, for our present unsatisfactory financial situation can be presented. The complete solution, the perfect remedy lies in our State and National banking systems. The best money is not that made of gold or silver, nor that issued dollar for dollar upon the deposit of bullion. On the contrary, from this time on to the end of human history the highest and best form of money intended for general circulation will be paper promises of banks promptly redeemable in gold or its equivalent and secured amply by the deposit of interest bearing bonds of recognized value and of the highest grade. I hold that the right to issue notes designed to circulate from hand to hand, based upon individual or corporate credit, is a natural one and the sole power of either State or National government is one of taxation and regulation. This power should be exercised, first to produce revenue. and second to protect the people from abuses, imposition and fraud. The government of the United States has an undoubted right to tax the bank note issues of the States but such taxation must be for the purpose of producing internal revenue, and it must be just and equitable. The present federal law taxing State bank circulation 10 per cent every time it is paid out was a war measure justified only by the extraordinary conditions then prevailing; was not intended to raise revenue; but directly to create a market for United States bonds, and to-day any ordinary lawyer could go before the Supreme Court and successfully resist the collection of any money from a State bank of issue under this law. But as this would require time it is clearly the duty of Congress to pass a law relieving the State bank circulation from the present constitutional tax placed upon it, and if any other is substituted, it should be for the production of revenue alone. A Supreme Court decision,or if the passage of such a law as I say should be enacted, would result in the appearance, locally of a large amount of circulating money, in form of notes issued by State banks and banking associations, authorized by the laws of the various commonwealths making up the American Union. This would forever set at rest the demand for what is called free coinage, and stop the periodic cry for government flat paper money as the people of the West and South would have it in their power, through their own State legislatures, to increase the supply of money available for local purposes. Immediately upon the repeal of the law referred to by Congress, all parties excepting those directly interested in the production and sale of silver bullion would gladly consent to the cessation of government purchases of silver, and we would never again meet with the insane but disturbing cry for free coinage from any popular or numerous body.

"I may as well anticipate here the objections that can be made to State bank note circulation. It will be urged that it increases the risk of counterfeiting. This is true, but is not a serious practical matter. The improvements constantly making in the art of engraving are reducing this danger, and it would affect State bank circulation less than National bank notes.

First. Because from their variety they will invite and compel closer scrutiny, and possible counterfeits would be discovered and exposed almost instantly.

Second. Because the circulation of State bank notes would be limited to smaller sections of the country and watchfulness against the art of the counterfeiter would be concentrated, which would increase the vigilance of local government and result in quick exposure and prompt punishment.

Third. Because every State bank would be pecuniarly, directly and deeply interested in throwing every safeguard around its notes for the prevention of counterfeiting in order to facilitate their circulation. On the whole, therefore, it may be safely assumed that this objection would be found to be more imaginery than real. The next objection made would be that this circulation would be inferior in quality, and this class of objectors would naturally have much to say about "wild cat" "red dog" money, and the like. There is no force whatever in this objection for such notes not having any legal tender qualities whatever could not get into circulation any where unless they were kept fully equal in quality to the four kinds of money now in universal circulation, which are gold, silver, National bank notes and United States legal tender paper. The reflecting banker will see that this must be so, and his conclusion will be that the reinstatement of State bank issues will not produce any uncurrent money, for it would be impossible now in 1892 or at any time hereafter, to restore the situation that existed prior to 1860.

The next objection which might be urged is very likely the last and is based on the fear that exchange in various parts of the United States would go back to the old ante-bellum rates. There is no force in this objection, because, as already stated State bank notes in the localities in which they circulated at all would have to maintain an absolute parity with the other four forms of money in common use everywhere, and therefore the rate of exchange on drafts purchased at one point in the country for remittance to another would in no way be changed by the restoration to the State banking institutions of the power to issue circulating notes. The positive advantages of State bank circulation are numerous, and will suggest themselves at once to those who believe an abundant supply of good circulating money or notes is desirable, and those who in the West and South have been advocating free coinage will see that State bank notes will provide them with a local circulation which will be perfectly safe, and which will have a tendency to remain close to the banks using it, which will cheat nobody and which will meet every actual want or need. Instead of having, as we would under free coinage (after driving out all gold), an exclusive silver circulation supplemented by government notes, the whole worth, say 60 per cent of the nominal face value, we would retain under this system in circulation all the gold, silver and paper money now in use with the addition of all the new State bank issues,and every representative of a dollar would be worth 100 cents. We may safely leave State banks and State bank circulation solely to the care, control and restrictions which the various States would find absolutely necessary in order to have such notes circulate at all, and turn our attention to the changes which ought to be made in the National banking system.

"Our National banking system is to-day the best in existence in the world; it represents all that is best and most worthy of survival in the various State banking systems existing before the war and it has been greatly improved from time to time since, and it is probable that nearly all its good features will be copied in the various States of the Union and applied to the creation, control and maintenance of State banks. It is manifestly to the advantage of the whole country that the National banking system should be perpetuated, and that State banking and National banking should run along side by side, competitors for the business and confidence of the people. The result would be beneficial to both systems, and tend to bring each of them to and maintain them at the highest point of efficiency, usefulness and safety. Comparatively few changes need be made in the National banking system, most of them in fact, being changes in matters of detail. The great change required is a substitute for, or rather a proper addition to, the class of securities now accepted by the government for the circulating notes issued to the banks. I believe, with the fewest possible changes, and with perhaps no change whatever for the present a bill now in the hands of the proper committee of the House of Representatives at Washington would insure a continuation and development of the National banking system, and I will therefore quote it here commencing with the enacting clause and ending with the last section, merely saying that if it is decided that the taxation of State and National bank note currency for purposes of revenue is not needed, then the rate of taxation mentioned in section 4 is much too great and should be cut down very materially on National bank circulation leaving it however, ample to reimburse the government for its expenses in connection with the conducting of its control and management of the system. In such an event no tax whatever for the federal government should be placed on State bank notes. The tax of 10 per cent upon all circulation of National banks in excess of 180 per centum of the paid in capital. I would not alter however, as the circulation beyond that limit is intended for emergency purposes; to provide an instant remedy for panicky conditions, and the tax on it should be kept very large in order to insure the prompt withdrawal from circulation of notes issued under such conditions as soon as the emergency passed away. With this explanation, I proceed to read the bill. A bill which would produce an ideal national banking system.

VALUE OF GOOD ROADS.

BY A. D. THOMPSON.

The benefits to the farmer would be in increased prices for his products through greater facility in reaching the markets, greater social privileges and enjoyments, reduced cost of haulage, increased value of land and increased work from horses.

Last November the price of corn in this community was 10 cents per bushel more when the roads were impassable than later when the load could be hauled. 235,000,000 bushels at 10 cents make a loss of $23,500,000. This is but one instance of many which occur during the year with hay, grain and other farm products at a high price when the roads are impassable. If, then, the farmer can get 10 per cent. more for his products, the farmers of Illinois would have a clear gain of $22,000,000 a year, or $200 a year for every mile of road. This capitalized at 5 per cent. gives $4,000 as the amount per mile that could be spent from this single benefit on every mile of road in the state.

One writer estimates that good dirt roads reduce the cost of haulage one-half, and that good permanent roads reduce it to less than one-fourth. The number of tons per annum moved by wagon in Illinois is about $40,000,000. Taking one-fourth of this, or 10,000,000 tons, as that which costs 10 cents a ton more than it should because of poor roads, we have $1,000,000, or $10 per mile, lost per year. This sum capitalized at 5 per cent. gives $200 per mile as the allowable expenditure from this cause Besides these facts, when we consider the increased value of land

and increased earnings from horses, together with their longer life, we have benefits so large as to be easily discredited.

The social value to the farmers can not be expressed in dollars, but it is the wedge which will finally cause a separation from the old methods. The Illinois farmer has passed the period when all his time and energy were necessary to gain a bare subsistence. With this increase in prosperity, he finds more time to satisfy the strong desires of his intellectual and social nature. Such enjoyment involves frequent use of the roads in the vicinity of those leading to the neighboring cities or villages. But when the farmer has most time, the wretched condition of the highways places an insurmountable barrier to the gratification of his desires. Hence, to secure educational and social advantages for himself and his children, the farmer, even at a great sacrifice of money and convenience, moves to the city or village, where the procurement of these advantages does not depend on the condition of the weather. With good roads, travel would be a pleasure and city advantages would be added to the charm of country life.

Good roads would be advantageous to railroads in two ways. The necessity for many short spurs of railroads would not arise and the railroad traffic would be more uniform throughout the year. That the railroad companies realize these resulting material benefits is shown by their offer in many cases to furnish gravel and rock for building good roads at the cost of quarrying or at the cost of freight.

Towns would be benefitted by the increased market. It has been found that the surrounding market of a town increases as the square of the distance to which goods can be hauled. If then, the roads should be improved so goods could be hauled twice the distance, the market of the town would be increased four times. Since the towns thus received a benefit, they should pay a portion of the cost of construction.

WILL BENEFIT REAL ESTATE INVESTMENT.

It has generally been accepted by those who deal in a variety of securities that investors go from one line to another just as fast as circumstances and conditions make it profitable to quit the old and seek new fields. One thing is certain; if the Hatch bill ever becomes a law it will kill, in a great measure, option trading on the various Exchanges and Boards of Trade. Speculation in grain and provisions will be stopped in a great measure as elucidated in the leading article in the JOURNAL, under the head of "Trade and Finance." As the country grows older and population becomes denser, real estate becomes more and more valuable and when judiciously handled yields the greatest profits. Both real estate and grain are subject to spurts and depressions, but if the Hatch bill goes into effect it will deprive the latter of all of its fascinating features by requiring actual delivery of grain bought and settlement of transactions as fast as made. More capital will therefore be required to operate, and fictitious margins will not exist. Dealers will buy what they can pay for and sellers will sell what they can deliver. This will knock out about 50 per cent. of speculators and drive many monied men to other fields. The effect of this anti-option influence is already noticeable in the numerous instances of brokers in stocks, grain and provisions entering the field of real estate. Besides, there is a growing distrust in all forms of option trading, and it applies to real estate as well as to everything else. The real estate market was never more satisfactory than when it was devoid of wildcat features, which are always engendered by speculation in options. The class who benefit real estate the most is not the millionaire, the scalper, or the dealer in options. People of moderate means who buy for use and occupancy are the back bone of the market, and without them a boom soon dies, leaving the mere speculator without any visible means of support. It has always been recognized in Chicago that investors as well as operators vaccillate between the board of trade and real estate, and when the Hatch bill becomes the law not less than $10,000,000 of capital will sink other and more satisfactory employment.

CURRENT COMMENT.

It is stated that less than 50 per cent of the projected Hotel buildings in the World's Fair district will be built. So seriously is this regarded by certain patriotic gentlemen that a syndicate to be composed of wealthy Chicago men is proposed to erect a sufficient number of suitable hotel buildings to accommodate all who visit the World's Fair.

***

Probably the largest mortgage ever filed in this country has been filed with the registrar of deeds at Worcester, Mass. It is for $25,000,000, and is made by the New York and New England Railroad Company to the Farmers' Loan and Trust Company. It is dated June 1, 1892, and is what is known as a consolidated mortgage. It is for fifty years, payable in gold, with interest at 5 per cent.

***

More than 100,000 cabinet specimens have been secured for the mineral exhibit which the state of Colorado will make at the World's Fair. Besides these, the different producing mines in the state have agreed to furnish specimens of their ores in unlimited quantities. One of the Aspen mines has offered several thousand dollars worth of silver for a statue of pure metal symbolical of the state's mineral resources. The various counties of the state have added over $40,000 to the state's appropriation of $100,000.

***

On July 1st our exports of gold since January 1st were about $40,000,000, against $68,000,000 same time last year; imports about $1,800,000 against $6,262,233 same time last year; our net loss about $14,000,000 more as compared with last year. Europe continues sending our securities back and taking most of their pay in our edibles, their crops having been poor, and their financial schemes largely a failure. Naturally, confidence is lacking, while banks are calling in loans and money grows cheaper at the expense of increased interest.

***

Each year has seen large areas of apparently worthless land brought into profitable cultivation by the adoption of irrigation. Lands in California, Utah, Colorado, and other western states and territories, which were a barren waste, are made the most fruitful by a liberal use of water. The streams in these sections have been utilized to such an extent that during the growing season their beds are dry. The storage system is being adopted, and by this method millions of acres of worthless land will be reclaimed and furnish homes for a dense population. The Agricultural Department reports 9,000,000 acres of land now under irrigation.

***

H. M. Flagler, of Ponce de Leon fame has 1,000 men at work building a line of railroad from St. Augustine to Boquian, on the eastern coast of Florida He will extend this beyond Boquian to deep water, with the ultimate idea of building an immense iron pier, which will carry trains safely to the outer water of Biscayne bay, where they can meet vessels of the largest tonnage and of the greatest draft. This means that it will be the most direct route between the Atlantic seaboard cities and the West Indies and South America. It will put New York 180 miles nearer Havana than it is now via Tampa. This will probably be completed by August 1st.

***

The national building and loan business offers as additional safeguards in the distribution of its risks the constant reduction of principal, the limitation of margins, and the sinking fund mortgage. More than this, it takes the cream of the loans in the towns and villages, where the local building society is conspicuous by its absence and where orthodox capital is not looking for homestead loans. The loans, of the financial associations are small loans, carefully examined and fully approved by more than one responsible inquiry. They will average less than $1,000; in some associations less than $500. Many national associations have never had a foreclosure.

***

A recent damage suit brought against one of the street railway corporations of New York is cited as illustrating the genuineness of many of the damage claims which are brought against similar corporations. The owner of the property adjoining one of the Manhattan elevated railway stations brought suit against the road for damages. The jury brought in a verdict for the plaintiff and required the company to pay heavy damages or move the station, the claim being made that the station obstructed the light and depreciated the value of the saloon located on the ground floor. The company decided on the second alternative and moved its station. Now the tenant occupying the saloon is sueing his landlord for $10,000 damages caused by loss of business occasioned by the removal of the station.

***

The Reading railroad company has practically concluded arrangements for establishing in nearly all important cities during the coming winter, branch agencies through which hard coal will be sold to small consumers at rates which will protect the poor people from extortion. Through the recent extensive combination the middleman is one of the elements which is eliminated from the coal trade. The scheme for establishing agencies through the various cities is said to have originated with President McLeod. He is of the opinion that the public antagonism to the coal combination can be offset by this plan for providing cheap coal for the masses. The public, which has had some experience with the gas trust, Standard Oil Trust and a dressed beef trust or two, will withhold its opinion of the philanthropy of the new project until some of its beneficent results are experienced.

***

Of the 63,000 hotels in this country nearly ten per cent are those classed as summer resort hotels and winter resort hotels. Of the summer resort class a boniface tells me that for ten years the average of the aggregate earnings would not amount to two per cent on the capital invested. If this assertion is good for nothing else it is at least valuable for the proprietor to exhibit to the guest when he claims that he is overcharged. Of course there are notable exceptions like the United States Hotel at Saratoga, the West End at Long Branch, and a number of the White Mountain hotels, which are well-known and recognized as solid, substantial and money-making establishments. As against these there are a great number whose names it would be more than cruel to mention, where money not only is not made, but where the grocer, the butcher, the baker and the candlestickmaker are held up from season to season in the hope that a brighter fortune may dawn for them.

***

The wreck of a small building down on Dearborn street early this week has again aroused inquiry in regard to the committee which was given charge of revising the building ordinances some months ago. Judging from appearances, it would seem that the committee has not distinguished itself by any great activity. Great zeal was shown by a few people in regard to limiting the hight of office buildings, which resulted in the issue of a dozen or more provisional permits for sixteen story buildings which are now being built. The public begins to realize that the danger is not altogether as much from the hight of buildings as from the method of construction. The only accidents to buildings, so far, have been among cheap improvements or remodeled old structures. When the sixteen-story building is erected there is so much at stake that a safe foundation and superstructure are insured. It is in the building of temporary structures and cheap tenement houses that the good name and reputation of owners, builders and architects is not sufficient to guarantee honest work.

***

The people who are impatiently waiting for the Metropolitan Elevated Railway Company to make some move, do not realize how much work the company has before it. The work of selecting a right-of-way on the South Side with all the advantages to be gained in that quarter was a tedious operation. There the company had a north and south alley to use as a sort of base of operations. For the first mile and a half or two miles of the West Side road there is no alley which can be followed by the Metropolitan people. Their choice is limited to routes through two tiers of blocks. The average Chicago subdivision has been laid out with lots fronting east and west and alleys running north and south. This is the case along the proposed route of the Metropolitan road. A line has to be selected which is practically straight and which will avoid as much as possible valuable building improvements. Many of the building improvements west of the river are worth as much as the land occupied by them. Even the question of tearing down buildings is one that has to be considered with care. In some cases where partition walls are well-built a section can be cut out leaving the remaining portion intact. In other cases, such partition walls do not exist and the entire building has to go down. To lay out a line which will be the most practicable and least expensive is considerable of a problem.

WORLD'S FAIR NOTES.

The World's Fair Directory has expended up to date approximately seven and a quarter million dollars.

An effort is being made to show by an exhibit in the Woman's building at the World's Fair the relics and data of the past and present literature, musical, dramatic, industrial and philanthropic work of women. The Irish portion of this exhibit promises to be particularly complete and interesting.

Foreign governments participating in the World's Fair have been requested to furnish, before September 1, the plans of the buildings, if any, which they propose to erect at the Exposition. It is not the intention to reserve space for buildings for them beyond that date unless there should be special reasons for doing so.

The Washington state building at the World's Fair will show to some extent the forest resources of the state. The foundation alone will contain 171 logs, some of them 120 feet long and 42 inches in diameter at the small end. The superstructure of the building will contain besides heavy timber, fine finished woods, showing the grain and structure of the woods, and a complete exhibit of shipbuilding material.

It is next to certain that the date of dedication of the World's Fair buildings will be changed from October 12 to October 21, the latter being really the

400th anniversary of the landing of Columbus, allowance being made for the correction in the calendar made in the time of Pope Gregory. The Senate has passed a bill making the change referred to, and it is not doubted that the House of Representatives will take like action. The change was requested by the World's Fair commissioners of New York, the legislature of which state had provided for a Columbus celebration on October 12. It was thought that the two celebrations if held simultaneously, would detract from each other.

ASSESSMENTS FOR DRAINAGE.

Henry E. Badger et al v. Inlet Drainage District. Filed at Ottawa. May 12, 1892.

Although a drainage district is olassed as a municipal oorporation, it is organized merely for a special and limited purpose, and its powers are restricted to such aots as are dsemed essential for the accomplishment of such purpose. It is only authorizsd to receive fnuds for the specifie object for which it is formed, and it oan do that in no other mode than by special taxation upon the property benefited and can, in no case, exceed the benefits to the land assessed.

Special assessments, how made.—By Seo. 9 of the drainage Act of 1879, the commissioners are required to determine the probable cost of the proposed work, including all incidental expenses and the cost of the proceeding; and by Sec. 11 it if provided that if they shall find that the proposed work, or such part of the same as will be satisfaoory to the petitioners, oan be done at a cost and expense not exceeding such benefits, they shall have the proper surveys, profiles, plans and specifications thereof made, and report their oonclusions, and a copy of surveys, etc.,to the court which appointed them.

By Seo. 13 notice is required to be given to those interested of the filing of the report, and on application for confirmation of such report they are authorized to appear and contest the oonfirmation thereof, or to show that the same ought to be modified in any particular, and may offer any competent evidenoe in support thereof. Under this seotion every property owner is entitled to be heard on every material qnestion affeoting the oharacter of the improvement and its oost.

By Seo. 18 it is provided that the jury in assessing damages and benefits to result from the proposed work shall award and assess the damages and benefits in favor of and against each tract separately, in the proportion in which snoh tract of land will be damaged or benefitted, and that in no case shall any tract be assessed more than its proportionate share of the estimated oost of the work and expenses of the proceeding, nor in a greater amonnt than it will be benefitted. And the action of the jury in this respeot may be contested by the land owner affeoted and an appeal is allowed therefrom.

It is indispensable to the determination of the question of damages and benefits to different traots of land and proportioning them upon the diffsrent tracts in the distriot, that every fact materially affecting the extent and oharacter of the improvement and a reasonable approximation of the oost of the same, shall be then before the jury.

The statute nowhere gives the oommissioners any authority to do any aot matsrially affecting the character or extent or cost of the improvement, as to whioh there is not provided there shall be notice to the land owner affected and opportunity to him to be heard.

The general power given by Seo. 28 of the aot to the oommissioners to contraot and be oontracted with eto. and to perform all snch acts and things as may be necessary to be done to carry ont the purpose of the act, is to be construed in oonnection with the prsoeding seotions, and is not a modifioation of the preoeding restriotions upon the power to oontract. It is but a grant of power to contract in snbordination to the preoeding limitations.

Sec. 36 of the aot provides that the oommissioners may do any and all acts that may become necessary in and about the surveying. laying out, oonstruoting, repairing, altering, enlarging, oleaning, proteoting and maintaining any drain eto., including all neoessary bridges, orossings, eto., cleaning out and removing of obstructions from natural or artificial ohannels or streams within or beyond the limits of the distriot, procuring riparian rights and water powers by agreement with the owners thereof, and "may use any money in their hands arising from assessments for that purpose." Held, that as all things named in this section may be done under the general power to oontract, it oan not be held as an enlargement of the powers granted by Seo. 28, bnt must be held to be an additional limitation or restriotion in those powers.

Power to borrow money limited—The power given the commissioners by Sec. 38 to borrow money, is expressly limited, not to exceed the amount of the assessment unpaid at the time of borrowing, and its payment is secured only by making it a lien upon the assessment.

After the oommissioners of a drainage distriot had made an assessment of benefits for a certain improvement for the purpose of drainage, and had collected and used the same, they made a oontract with B & Son, whereby they agreed to remove dams and abntments on a certain oreek for $1,700. On the completion of the work the oommissioners gave the contractors seventeen orders of $100 eaoh, whioh were not paid for want of funds, and made an assessment on the lands of the distriot for $1,700, the oolleotion of whioh was enjoined, and suit was brought on the orders by the contractors. Held, that before the commissioners could make any contract, they were required to present to the court appointing them their report recommending the enlargement of the improvement for which they were previously appointed, accompanied by plans, profiles and an estimate of the costs, including the removal of the dam etc. and thus afford to land owners an opportunity to be heard upon the question of confirmation of such report, and that the contract being void, no recovery could be had on it,

When the commissioners make a void contract for the removal of a dam, abutments, etc., in a creek or water course, the fact that they may after the completion of the work avail themselves of the removal and enjoy the benefit to be derived therefrom, will not estop them from denying the validity of the contract.

To entitle a party to judgment against a drainage district, it must appear that he has a legal claim, not merely against the commissioners, but as against the real estate within the district to be benefited by the improvement, for the reason that the judgment can only be satisfied by a special assessment upon that property.

The commissioners of a drainage district can not by their acts and conduct enlarge their powers over the property within the district, without the knowledge and consent, express or implied, of the owners of that property. Therefore, although the property owners are not parties to a suit against the district, yet because there can be no judgment unless it can be enforced against their property, it must follow that unless they are estopped to deny right to a judgment, the commissioners can not, in a suit against the district, be estopped to do so.

MORTGAGE.

A note secured by mortgage on lots was put in the hands of real estate brokers for collection, and the mortgagor also employed them to sell the lots. A private sale was made which fell through, for the reason the title did not appear good, whereupon the mortgagor ceased to rely on the brokers and looked elsewhere for advice. The brokers then had the property sold under the power of sale in the mortgage, without personal notice to the mortgagor,and it was bought by one having no privity or connection with the brokers. Held, that the brokers were not guilty of a betrayal of trust.

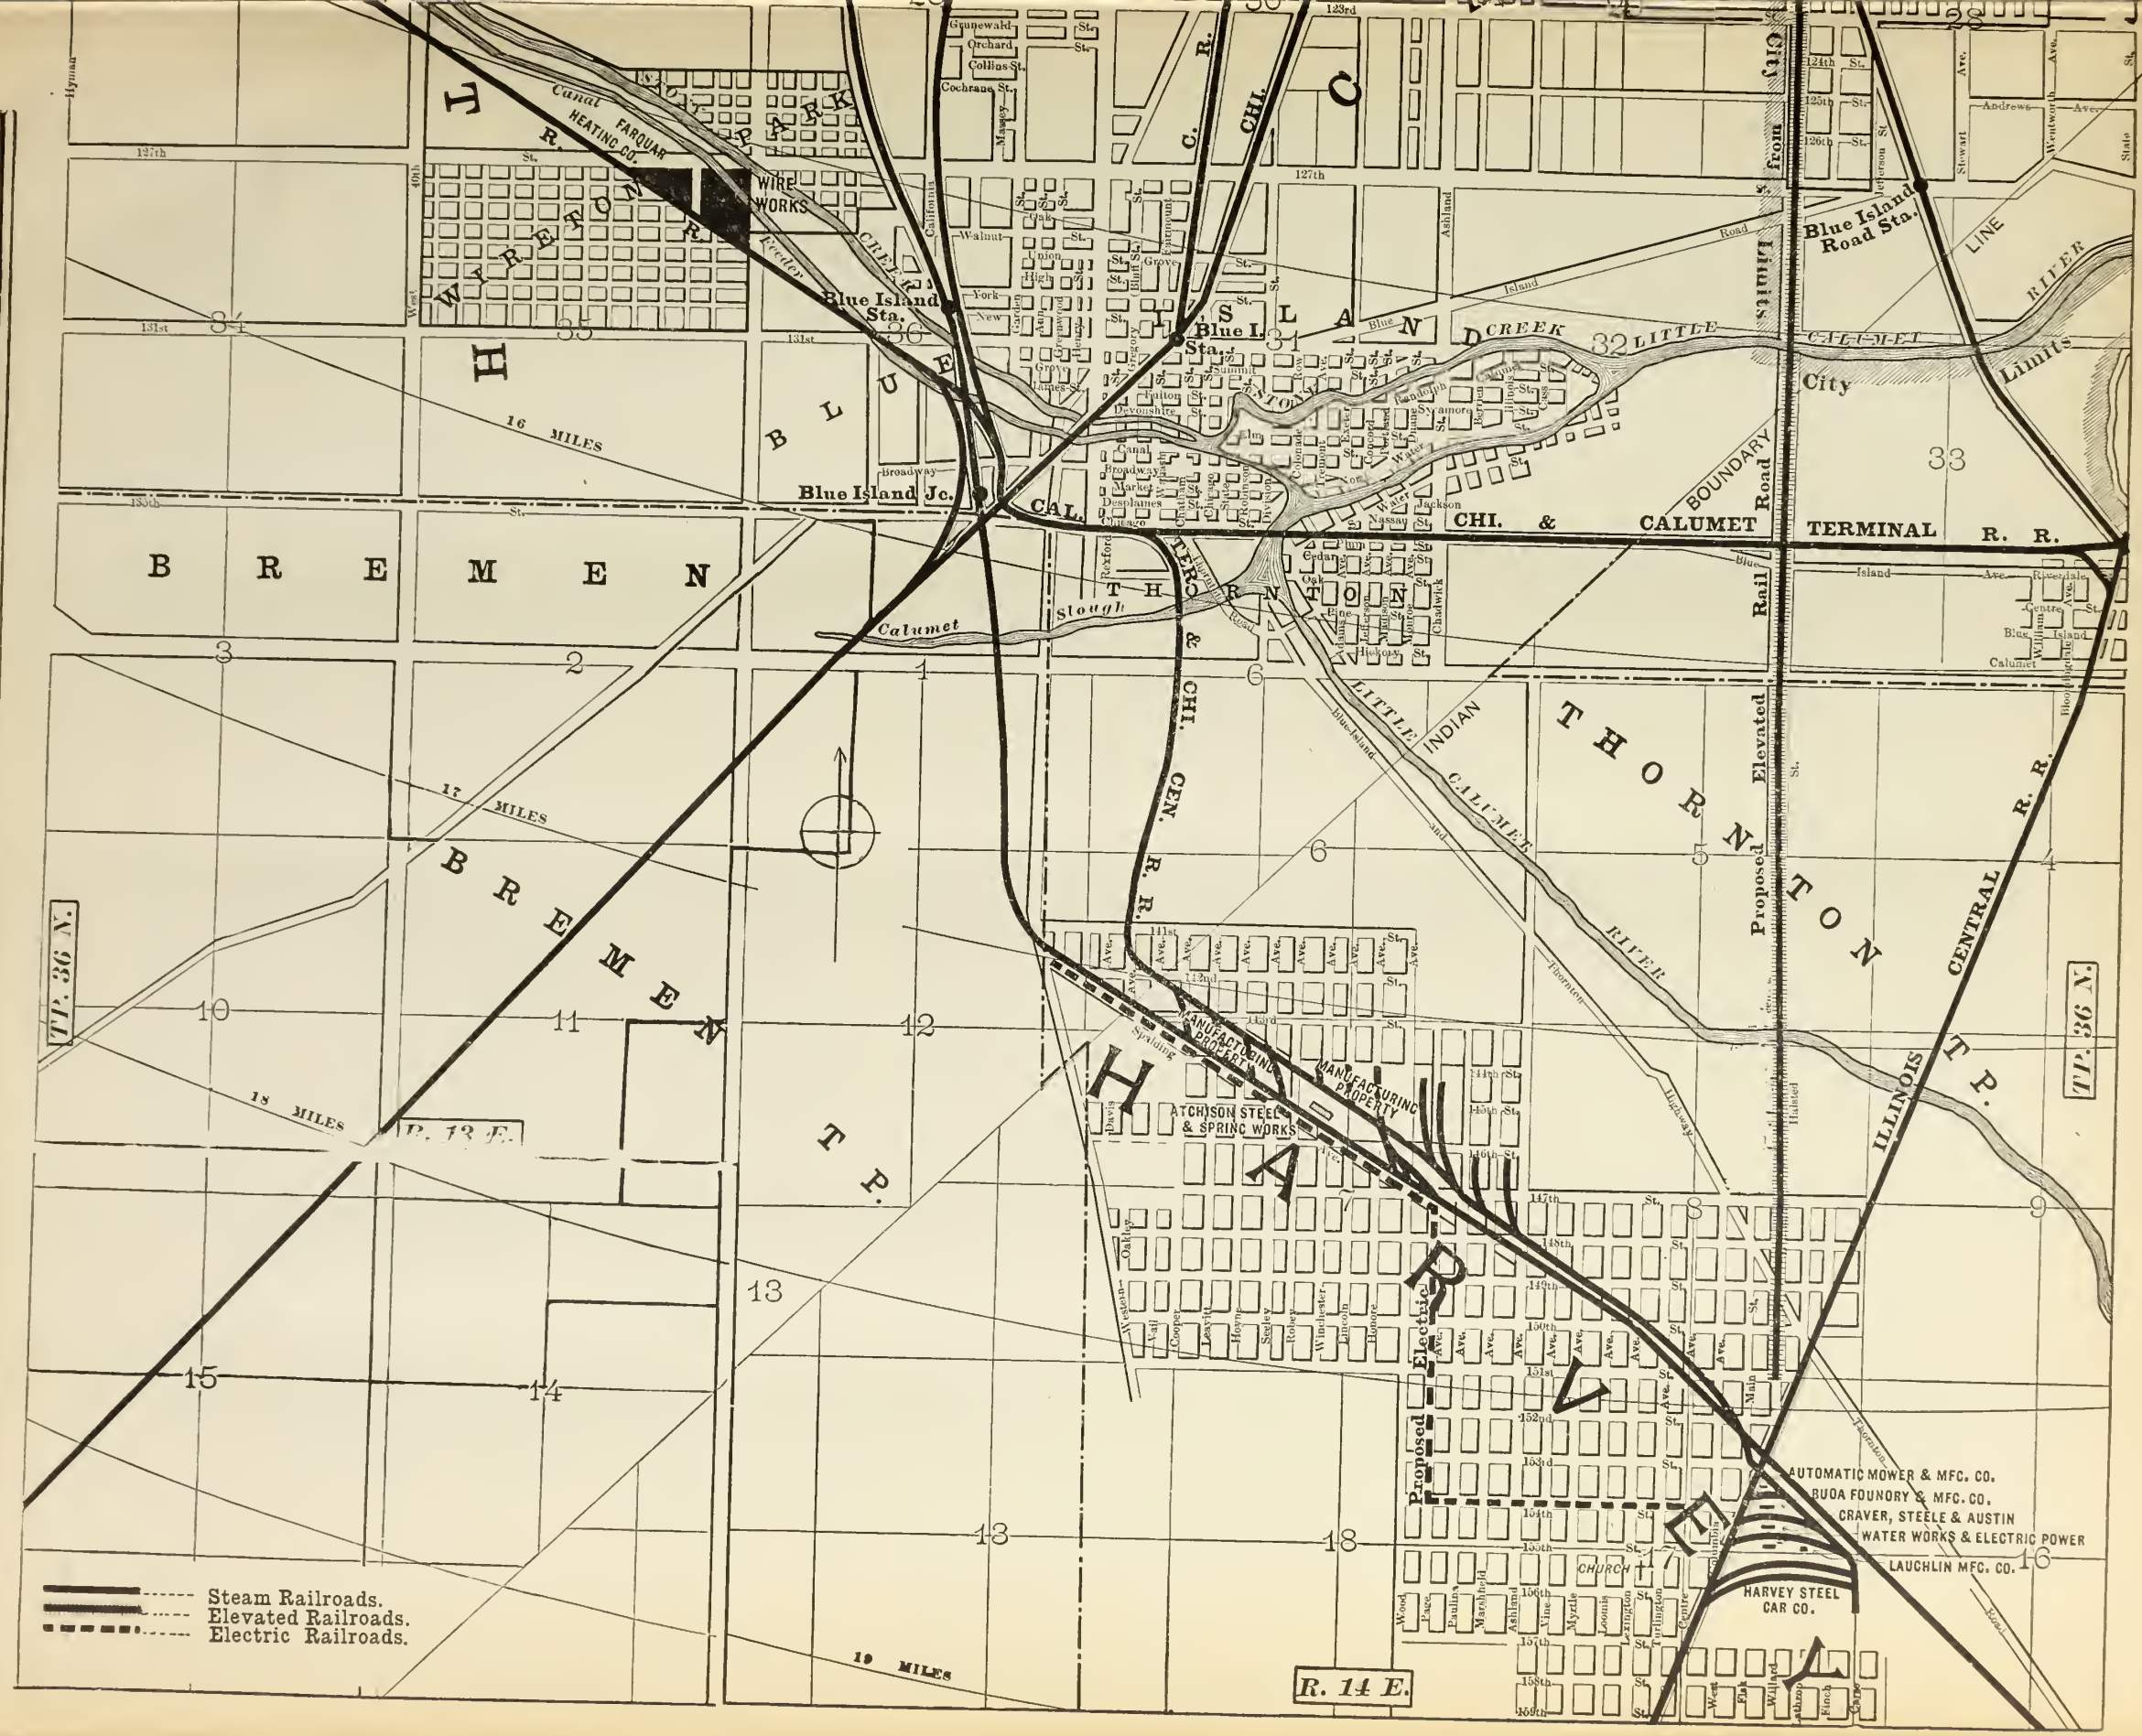
The failure to give the mortgagor personal notice of a sale under a power in a mortgage will not invalidate the sale, where the purchaser has no notice that the mortgagee purposely concealed the sale from the mortgagor. The parties may stipulate for personal notice to the mortgagor, of the time and place of the sale, but if they do not, the failure to give such notice will not effect the power to sell.

Where the purchaser at a sale under a power in a mortgage is neither party nor privy to any arrangement to prevent the mortgagor from having notice of the sale, it will be sufficient if all the notice of the sale was given which the mortgage requires.

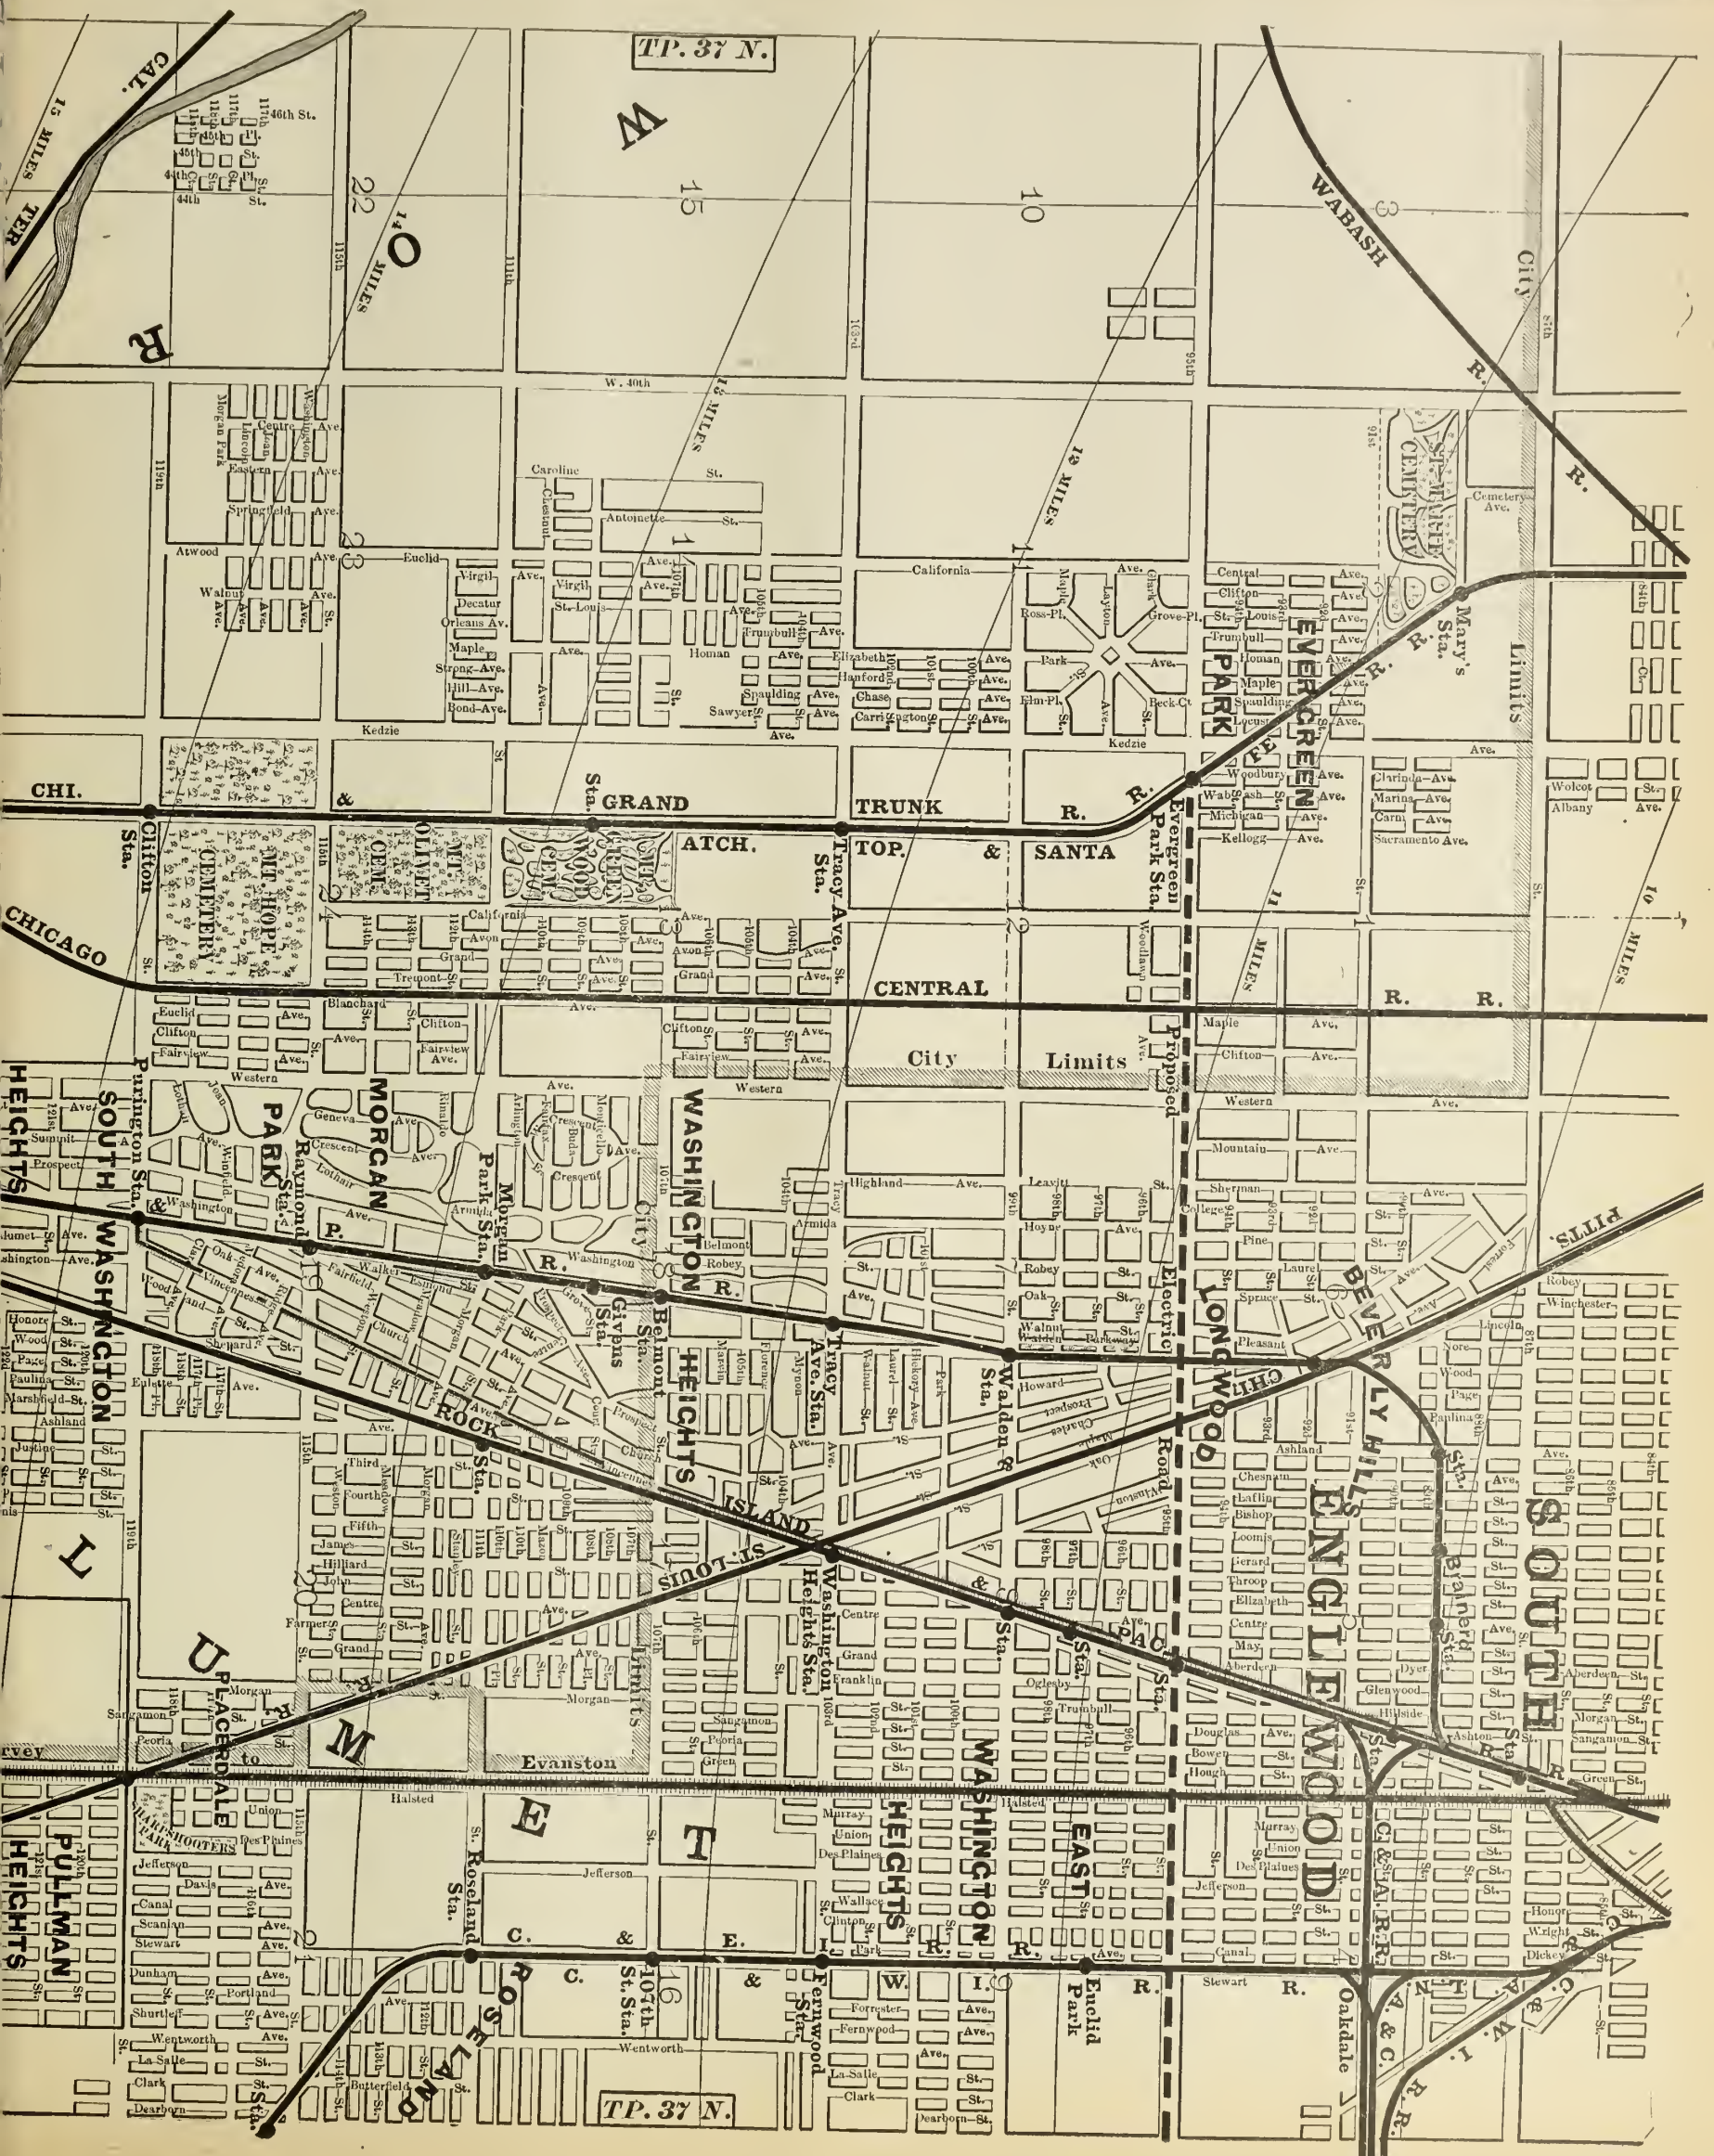
Where a sale is made under a power in a mortgage upon due and proper notice, the power will be exhausted, and a second sale under the fear of some defect in the first will be a nullity, and the purchaser under both sales will not be estopped from relying upon the validity of the first sale.

A sale under a power in a mortgage will not be set aside, on the bill of the mortgagor, from the fact that the sale was twice advertised, when the second notice was made necessary to obviate a defect in the first, and the sale was made under the last notice, and no injury was shown to have resulted from having the two notices published.

Where agreement to bid at the sale and preparation of notices—whether fraudulent—An agreement between the holder of a mortgage containing a power of sale and one expecting to buy the land, that the latter shall bid at the foreclosure sale under the power the full sum due on the mortgage, and buy up some adverse claims, which agreement contains no provision that the premises shall be sold to him unless he is the highest bidder, is not fraudulent as to the mortgagor, there being nothing in it to prevent competition in bidding.



If a party, in the expectation of becoming the purchaser of property at the sale thereof under a power of sale, supervises the notices of the sale, so that they are in accordance with the terms of the deed of trust or mortgage, this will not authorize the mortgagor to have the sale to such party set aside, when it does not appear that the mortgagor has sustained any injury thereby.



A person expecting to bid at the sale of land under a power in a mortgage may assist or advise as to the notices of the sale, and if such notices are prepared under his supervision, that fact can not be held to prove that he had himself purchased the mortgage debt and was himself foreclosing, over positive evidence to the contrary. (Ritchie v Judd. Ill Sup Ct, May 13,'91. 137 Ill, 453.)

EPITOME OF NEW INDUSTRIES.

The South Atlanta Construction Company, Atlanta, Ga., has been chartered with a capital stock of $30,000. The incorporators are Messrs. M. Haralson, A. S. Talley, W. I. Zachry, E. A. Doane and C. W. Smith. The objects of the new corporation are to buy, sell, own and deal in real estate, stocks, bonds and other property, real and personal. Also to build and equip railroads, operated by steam, electricity or horse power.—Chattanooga's Chamber of Commerce will petition the County Court to allow the people of Hamilton to vote $200,000 to the proposed new line of road from Chattanooga to Bristol, Tenn.—At West Pineville, Ky., engineers have already commenced locating an incline road about 2,300 feet long, leading to the cannel coal vein near the top of the mountain, and active development will soon commence.—A charter has been granted the South Carolina Land and Lumber Company, of Charleston. Of the authorized capital stock of $300,000, $200,000 has been subscribed. Directors: Stephen Jennings, Albert E. Turner, A. S. Emerson, T. W. Boardman and H. O. Andrews. Officers: President, A. S. Emerson; vice-President, Stephen Jennings; Secretary and Treasurer, J. R. Smith.—The Brnestar Ship Building Company, of Baltimore, Md., has been incorporated as a stock company for the construction of iron and wooden ships, with a paid up capital of $75,000, and a further sum of $50,000 in bonds subscribed.—The Harriman (Tenn.) Rolling Mill will begin the erection of a new furnace at an early date. —A market has been created for persimmon wood, which is shipped to Liverpool and used for shoe lasts.—The erection of a flour mill is in contemplation at Hot Springs, Ark. For information apply to John D. Ware.—New machinery will be added to the cotton mill at Gainesville, Fla., by the Georgia Manufacturing Company.—A roller flour mill will be built at Salisbury, N. C. J. S. McBubbins, Sr., R. J. Holmes and D. R. Julian, organizers.—The merchants and other citizens of Elberton, Ga., contemplate erecting a cotton mill. Address W. B. Adams & Bro.—The citizens of Magnolia, Ark., contemplate the erection of a cotton compress and canning factory. Address the mayor. —A heading a stave factory will be established at Cookeville, Tenn. —hinery for waterworks.—The city of Atlanta (Tex.) wants system of waterworks. Apply to R. R. Lockett, Mayor. —A circular saw mill will be added to the Clinton (Tenn.) Planing Mills. Write to J. W. Norcross.—A sash, door and blind factory and flour mill will be built at Unicoi, Tenn., by Stone & McDaniel.—A lumber mill will be constructed at Jasper, Tenn. L. W. Gabel, Manager. Capital stock $25,000.—A cotton factory will be operated by George S. Hamburger at Columbus, Ga. Capital stock $30,000.—A new mill will be built at Crooked Fork, Tenn., by the S. K. Page Lumber Company, of Harriman, Tenn.

PLANS BY ARCHITECTS.

Architect W. K. Johnson is working on plans for a bank building at Belding, Mich., to be two stories high 38 by 80 feet, fitted up with tile floor, vaults, electric lights, hot water heating and all modern bank fixtures, to cost about $16,000.

Architects Marshall & Ryder have completed designs for a frame residence for G. H. Sheppard of St. Joseph, Michigan, to be built on the bluff overlooking the bay, to have all the modern conveniences. Mantels, bathrooms, stained glass, concrete basement floor and to be finished in hardwood; cost $5,000. Also a cottage for Mr. Cutter of Lombard, with stone basement and the usual accompaniments, to cost $3,000. The same architects are planning a fine stone residence to be built at Waukegan, for Henry C. Soakes, the first story to be built up with stone with a frame superstructure, to be finished in hardwood with steam heat, plumbing and other modern arrangements; cost $10,000. They also are preparing plans for a barn for the same man, to be built of pressed brick; cost $2,000.

Architect Francis J. Norton is taking estimates on the following buildings: A double two story apartment building 50x75 feet, to be erected at Seventy-second street and Wentworth avenue for Mr. Fletcher of Indianapolis. The exterior will be of Ohio red stone, plate glass and cornices; the interior will be hardwood oil finish, electric wiring and all sanitary improvements; cost $16,000. Also a handsome passenger station to be erected at Gladstone Park; cost $12,000. Also a double store and apartment building 50x70 feet to be erected at Seventy first street and Vincennes road for Mr. Ryan. It will be built of stone and iron with one massive arch in front and two Moorish projecting towers. The interior will be finished with hardwood, stationary mirrors and all sanitary, electric and modern improvements; cost, $16,000. Also handsome six-story hotel 75x182 feet to be erected at Midway plaisance and Woodlawn avenue for J. B. Turk, the banker. It will be divided up into 200 rooms and fitted up with electric lights throughout, hardwood oil finish and all modern hotel improvements including one electric elevator. The exterior will be of Bedford stone and iron; cost, $85,000. Also a large four-story hotel 160x200 feet to be erected at Sixty-ninth and Midway plaisance for Mr. Blakey and others, it will be known as the Albion Hotel. It will be divided up into 500 rooms and contain all modern hotel improvements; cost estimated at $100,000.

Architect A. F. Hussander is at work on plans for a four-story store and flat building to be put up at the corner of North Halsted and Waveland avenues, to be 100x140 feet in dimensions, with stone front, plate and stained glass and finished in Georgia pine and oak, with gas light and gas ranges, mantels and other modern equipments. Cost, $75,000. The same architect has just let contract for a residence on Surf street near Evanston avenue for Mr. Nels Johnson. The building is to be a two-story attic and basement house with slate and gravel roof, and is to be finished in hardwood, with stained glass windows, marble mantels, and sanitary plumbing, and is to be heated with hot water. Cost, $15,000.

J. L. Sillsbee has planned an addition to the palm house at Lincoln Park, at a cost of $25,000. It will be devoted to the cultivation of ferns. It will be of glass and iron, on a stone base, to correspond with the palm house, and will extend over a space of 90x60 feet.

R. C. Berlin has completed drawings for a handsome three-story residence on Surf street near the lake, for W. A. Wieboldt. It will be of buff pressed brick, trimmed with red sand stone, and have slate roof, with copper trimmings. The interior will be elaborately finished in hardwoods, with beam ceilings, marble wainscoting, mosaic floors, hot water heating, electric lighting, and the finest of plumbing fitted in Mexican and Spanish marble and onyx; cost, about $40,000.

Architects Flanders & Zimmerman, block of stores and flats to be erected on Morgan street near West Harrison street, for Mr. J. V. Borden, 50x129 feet, four stories and basement. The stores will have iron fronts with bressumners of same material. The superstructure will be of St. Louis pressed brick with cut Bedford stone trimmings, copper cornice and bays and gravel roof. Plate and ornamental glass, finished in hardwood; cost $50,000. Also addition to dwelling house located on Paulina street near Polk street, for Mr. T. J Waters. The materials, pressed brick and cut stone, and galvanized ironwork; cost $2,000. Also schoolhouse on northwest corner of Lincoln and Moore streets, 101x139 feet, three stories. The exterior will be built of pressed brick with cut stone trimmings and terra-cotta trimmings relieved with copper cornice. The roof will be composition; cost, $70,000. Also four other school buildings of same size and construction on southwest corner of Evanston avenue and School street, Grace street near Sheldon street, Stanwood street near Michigan avenue and on Lincoln avenue near Diversey street. These five schools will cost $70,000 each, making their aggregate cost $350,000. Also school on Fifty-fifth street, near Western avenue, 50x80 feet, two stories, framed work with shingle roof; cost, $10,000. Also school same size and construction to be erected on Sixty-third street near Houston avenue. Cost $10,000. Also one-story addition to school on Ashland avenue, between Thirteenth and Hastings street, 70x80 feet pressed brick with cut stone dressings; cost, $25,000.

Architects Bishop & Colcord, spacious clubhouse for the Englewood Cycling club to be erected on Sixty-fifth street between Yale and Wentworth avenues, 50x85 feet, three stories, framed construction with shingle roof, hardwood finish, furnace heat. There will be reading and reception rooms attached, with special accommodation for ladies, also a banquetting hall adapted for purposes of social meets. A bowling alley will be one of the features of the institute. Plate and art glass; cost $12,500.

Architect E. Hill Sarnock, residence at La Grange for Mr. C. M. Mears, 35x60 feet, two stories, basement and attic. The first story will be of rock-faced stone, the superstructure of framed work, with shingle roof. The elevation will be improved with bays, veranda and porch. Plate glass and hardwood finish; cost $5,000. Also fine apartment building on Leavitt street, for Mr. Rush, 32x95 feet, six stories. The first story will be of selected stone, the superstructure of St. Louis pressed brick with cut stone dressings, copper cornice and bays and composition roof. The approach will be by a flight of stone steps leading to recessed and tile paved vestibule. Plate, ornamental and art glass, hardwood finish; cost $30,000.

Architects Dahlgren & Lerendahl, flat building to be erected on Champlain avenue and Sixty-third street, for Mr. Tielden, 24x52 feet, three stories. The exterior will be of pressed brick with cut stone trimmings, gravel roof and furnace heat; cost $5,000. Also apartment building at Ravenswood, for Mrs. Miles, three stories and basement, and have a fine stone front with bay of same. The interior will be fitted in hardwood with wood mantels, tile fire places, etc. Plate, ornamental and art glass; cost, $15,000.

Architect A. J. Ferree, apartment building to be erected at Lake View, 20x70 feet, three stories and basement. The first story will be of rock-faced stone, the superstructure of cut stone with porch and bays of same. On either side of porch will be turned granite column with carved caps and moulded bases, the approach being by stone steps entering upon tile paved vestibule. Plate and colored glass, hard wood finish, steam heat. Cost $12,500.

Architects Treat and Foltz, imposing apartment building to be erected on Belden avenue near Flank street, for W Benson. Five stories including basement, and will form an important improvement to the neighborhood. The first story will be of cut stone, the superstructure of St. Louis pressed brick with terra cotta panels and enrichments. The approach will be by stone steps leading to spacious vestibule. Plate and art glass, wood mantels, and choice hard wood finish, Porcelain baths. The building will be provided with elevator service, and will be heated by steam. Cost, $100,000.

Architect Robert S. Smith, flat structure to be erected at the intersection of Indiana and Ross avenues for Mr. Burns, 25x90 feet, three stories with basement. The principal facade will be of stone. Plate, ornamental and art glass. Cost $15,000.

Architects Ostling Bros., attractive flat building on Berry avenue near Evanston avenue, for Mrs. Evald, 50x66 feet, three stories and basement. The first story will be of rock-faced stone and the superstructure of St. Louis pressed brick with cut stone trimmings, and composition roof. The approaches will be by flights of stone steps leading to handsome porches with semi-circular arches in massive rock-faced material. Plate and art glass, finished in hard woods. Cost $15,000.

Architect Fred Ahlschlager, apartment block at the junction of Sixty-first street and Princeton avenue, for Mr. C. W. Lane, 84x65 feet, three story and basement. The principal facade will be of stone with metal bays, and composition roof, steam heat. Cost $20,000.

Architects Holabird and Roche, imposing office structure to be erected south of the existing Monadnock and extending to Van Buren street. The proposed structure will be of dark Tiffany brick to accord with the adjacent block, the framework of interior will be of steel and iron, the construction being strictly fire proof throughout. The improvement will rise to a heighth of sixteen stories, and complete in every detail. Quick service elevators will give access to all the floors. The hall will be laid with mosaic and have marble wainscoting. Provision will be made for electric lighting and steam heat throughout. $1,000,000 will be invested. Previously reported in the JOURNAL.

Architect L. Justan Halberg, pair of residences to be erected on Forty-fifth street near Grand boulevard for Mr. H. Lorreth, 25x54 feet, two stories, basement and attic. The fronts will be of stone with galvanized bays and slate roof. Plate glass, hard wood finish. Cost $12,000.

Architects Farth and Rudolph, store and flats to be erected on Halsted street near Eighteenth street, for Mr. York, 50x110 feet, five stories and basement. The main front will be of brown-stone, with composition roof. The approach will be by stone steps leading to finely proportioned hall. The interior will be provided with all the latest arrangements, including electric lighting and elevator service. The house will be heated by steam. Plate, ornamental and art glass, hardwood finish. Also a five-story addition to the adjoining premises. The exterior will be of pressed brick with stone trimmings. Total cost $60,000. Also warehouse on West Twelfth street between Desplaines and Union streets, 25x76 feet, four stories and basement. The front will be of pressed brick with cut stone trimmings, columns and girders will be introduced to insure stability. Freight elevator, etc. Cost $10,500.

Architect J L Silsbee, residence to be erected on Michigan boulevard near Fifty-third street for Mrs. Bowen, 30x65 feet, three stories and basement. The front will be an ornate arrangement of stone. Plate glass and all sanitary requirements. The interior will be finished in hard wood with wood mantels, etc, hot water heat. Cost $15,000. Also residence at Evanston for Mr. H. H. Hettler, 37x65 feet, two stories, basement and attic. The basement will be of rock-faced stone, the superstructure of framed work with shingle roof. The house will be improved with bays, veranda, etc. Wires will be put in for electric lighting, and the house will be heated by hot water. Plate, ornamental and art glass and sanitary appurtenances of the best. The interior will be finely finished in choice work. Cost $18,000.

Architect L. G. Quackenboss, block of stores and flats on Ogden avenue for Mr. H Botsford, 100x70 feet, four stories with basement. The principal facade will be of pressed brick with cut Bedford stone dressing, copper corners and bays and composition roof. Cost $40,000.

DO YOU WANT MORE BUSINESS ?
If you do get an experienced man to write your advertisements, circulars, folders and pamphlets. Blacksmiths can't make watches, nor can book keepers or typewriter girls write advertisements.
I CAN BRING YOU More Business.
"X" Room 5, 163 Washington Street.

A CHOICE LIST OF SUMMER RESORTS.

In the Lake regions of Wisoonsin, Northern Michigan, Minnesota, Iowa, and the two Dakotas, there are hundreds of charming localities pre-eminently fitted for summer homes. Among the following selected list are names familiar to many of our readers as the perfection of Northern summer resorts. Nearly all of the Wisconsin points of interest are within a short distance from Chicago or Milwaukee and none of them are so far away from the "busy marts of civilization" that they can not be reached in a few hours of travel by frequent trains over the finest roads in the northwest—the Chicago, Milwaukee & St. Paul Railway, and Milwaukee & Northern Railroad:

Oconomowoo, Wis,	Clear Lake, Ia.
Minocqua, Wis.	Lakes Okoboji, Ia.
Waukesha, Wis.	Spirit Lake, Ia.
Palmyra, Wis	Frontenac, Minn.
Tomahawk Lakes, Wis.	Lake Minnetonka Minn.
Lakeside, Wis.	Ortonville, Minn.
Kilbourn City, Wis. (Dells of the Wisconsin)	Prior Lake, Minn White Bear Lake, Minn.
Beaver Dam, Wis.	Lake Madison, So Dakota.
Madison, Wis.	Big Stone Lake, So. Dakota.
Delavan, Wis.	Elhart Lake, Wis.
Sparta, Wis.	Ontonagon, Mich.
Pewaukee, Wis.	Mackinaw, Mich.
Wausaukee, Wis.	
Marquette, Mich.	

For detailed information apply to any coupon ticket agent, or send stamp for a free illustrated tourist folder to Geo. H. Heafford, General Passenger Agent, Chicago, Ill.

Public Notice.

FOR COMPUTERS AND DRAFTSMAN.

The Civil Service Commission will hold examinations on the 28th of June, continuing through the 29th, to fill two vacancies in the position of computer in the Coast and Geodetic survey at $1,000 a year, and one in the position of Draftsman at $900. Arrangements may be made to hold the examinations in some of the large cities outside of Washington, if there should be applicants. The subjects of the Computer's examination will be orthography, penmanship, letter-writing, algebra, trigonometry, geometry, geodesy and practical astronomy and differential and integral calculus. The subjects of the drafting examinations will be letter-writing, geography, arithmetic, algebra, geometry, descriptive geometry, plane and spherical trigonometry, shades and shadows, and drawing. Application blanks may be had of the Civil Service Commission. Residents of the District of Columbia are ineligible. Applicants will be required to furnish the necessary implements for drawing. JOHN T. DOYLE
Sec'y U. S. C. S. C

CASINO.

Haverly's Mastodon Minstrels are, without question, the most complete organization that has ever appeared in Chicago, and their performances at the Casino (Eden Musee) have been endorsed in most thorough manner by all classes of amusement seekers. Particularly attractive are the entertainments to out-town visitors, who after an inspection of the various objects of interest in the Musee department, attend the minstrel concerts. The program of the past week has been very pleasing, but the coming week will be a gala week, commemorative of Ireland's patron saint, St. Patrick, the great and good, whose birthday is celebrated throughout the entire civilized world. The program will include all the members of the company, and Irish ballads will predominate. The theater will be decorated and draped with the national colors and flags, and our beautiful wax figure of Robert Emmett will be exhibited free. A new singer will be heard in the person of Mr. Albert Yale, well known to all Canadians as a vocalist of much merit. Banks Winter the celebrated tenor, will have a new song. The comedians Rice, Hall, Denton, Rudworth, Bogert, and O'Brien will have new specialties. Ellwood, the wonderful male soprano, will display new feminine toilets. Constantine, the dancer, will execute new solos, and Harry Budworth will repeat his new repertoire. The latter's song, "Come to Baltimore," has "caught the town" and is encored three and four times every performance. Altogether, the week will be one long to be remembered, and all desirous of hearty, wholesome pleasure should not fail to attend. "Excelsior" is Mr. Haverly's motto. Much has been done by this gentleman "but more remains behind."

THE
CHICAGO,
MILWAUKEE
AND ST. PAUL
RAILWAY CO.

Owns and operates 5,650 miles of thoroughly equipped road in Illinois, Wisconsin, Iowa, Missouri, Minnesota and Dakota.

It is the Best Direct Route between all principal points in the Northwest, Southwest and Far West.

CHICAGO, MILWAUKEE & St PAUL R'Y., CO.

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory, rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,
Industrial Commissioner,
C, M., & St. Paul R'y, 160 Adams St., Chicago, Ill.

Washington Park	10 "		

FRANKLIN PARK 90 feet above Lake Michigan. "EXCELSIOR" Is Its Motto.

What a Word of Significance in these simple Figures for the safe Guidance of the prudent Man who, in locating a Home for his Family, would put high above all minor Considerations,

The Priceless Boon of Health.

FRANKLIN PARK is the Growth of less than two Years. It is the suburban Terminus of the Chicago & Northern Pacific R. R., and is situated at the Intersection of the Wisconsin Central R. R. with the Chicago, Milwaukee & St. Paul R. R. It is 90 feet above Lake Michigan, 11 miles from the City's centre, 2 1-2 miles west of the City limits and is accommodated by 54 passenger trains daily. It has the two finest suburban depots west of the City, costing over $5,000 each, a spacious hotel, a fine block of stores, scores of attractive residences, miles of side-walk, sewers and shade trees and an abundance of wholesome water.

On its western border is MANHEIM, the nucleus of extensive manufacturing concerns and destined to be a busy centre of diversified industries.

You are Welcome any Sunday or any Weekday, to a free Ticket for the Inspection of this

The Highest Suburb of Chicago.

My Sunday Trains leave on { Chicago and Northern Pacific R. R.
Chicago, Milwaukee and St. Paul R. R.
At one o'clock P, M

Besides the Sanitary Excellence of this Richly-Favored Locality, FRANKLIN PARK Lacks not a single Element

OF A PERFECT SITE FOR A HOME.

Call at my Office for Free Ticket.

L. FRANKLIN,

130 LA SALLE STREET:

5 GOOD INVESTMENTS.

No. 1—Is 96 lots at Crawford Station on the "Q" road; 73 daily trains lots are worth $500 each. I can now sell them for $325 each, 15 per cent cash, balance easy terms with release clause. There is 50 per cent in this for a quick buyer.

No. 2—Is 5 acres near Milwaukee and Crawford Aves.; cable close at hand; lots will sell for $700 to $900 each. Can sell the 5 acres for $12,500, $2,500 cash, easy terms and release clause. This is a big thing for the buyer.

FOR SALE BY

No. 3—Is 96 lots on Forty-seventh Street, South; sidewalks laid, streets made; trees before each lot. This bunch of lots can be bought at the rate of $250. Will retail readily for $500. Very easy terms to the right man.

W.W. HUTCHINSON

Suite 407 and 411,

225 Dearborn St.

No. 4—Is 15 acres just North of Twenty-second Street and East of Ridgeland Ave. Wisconsin Central on the North side. This is a big trade. Can be bought very low.

No. 5—Is Ten 50 foot lots at Riverside worth and now selling at $30 per foot. Can be bought for $20. Call quick.

FULL COMMISSION TO AGENTS.

I own and wish to sell or lease the North West Corner of 31st Street and Lake Park Avenue. This lot has about 7,000 square feet in it. It has a clean and unobstructed view of the Lake, as the R. R. tracts are depressed here below the street level. It fronts South on 31st Street and East on the Lake. The 31st Street cross town cars stop in front of it. The Illinois Central R. R. Depot is at 31st Street. The Cottage Grove Avenue Cable Cars are about a block away. All parts of the city can be easily reached by cross town cars and elevated road. The whole 7,000 feet can be built upon and still leave the building 30 feet from the street line as there is a 30 foot park in front of it. The lot can be improved with fountains, lawn, floral decorations, etc., etc.

This property can be reached from the business centre by the Illinois Central Road in about 10 minutes.

For a first-class Hotel or Apartment Building this property is especially desirable.

For Prices, Terms, Etc. address

CHARLES P. MITCHELL, Room 103, 12 Pacific Avenue, Chicago.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

DOLESE & SHEPARD, 162 Washington Street, Chicago,
HAVE BEEN AWARDED A CONTRACT AMOUNTING TO

ONE HUNDRED AND SEVENTY THOUSAND DOLLARS

($170,000) for the purpose of macadamizing 17 miles of streets and building stone sidewalks.

NO ASSESSMENT will be made for the improvements, the Association assuming the entire expense. The wise and prudent people who invest a small amount of money in CHICAGO HEIGHTS property will in a comparatively short time reap large benefits. No sane person can question the wisdom of making an investment in Chicago property.

Four large factories are in full operation and contracts closed with several others. A large number of residences and business houses in course of construction, also an extensive factory building for Roth & Englehardt, Piano Manufacturers of New York.

STABILITY OF THE ENTERPRISE

The following well-known gentlemen are among the promoters of Chicago Heights:

GENERAL OFFICERS OF THE CHICAGO HEIGHTS LAND ASSOCIATION:

C. H. WACKER, President. **E. S. DREYER, Treasurer.** **GEORGE BURRY, Secretary.** **M. H. KILGALLEN, Manager.**

—EXECUTIVE COMMITTEE:—

C. H. WACKER. A. T. OTTO. JAMES E. McELROY.

—DIRECTORS:—

C. H. WACKER. E. S. DREYER. JAMES E. McELROY. GEORGE BURRY. FRANCIS LACKNER.

—STOCKHOLDERS:—

E. S. DREYER, of E. S Dreyer & Co., Bankers, cor. Washington and Dearborn sts
ADOLPH LOEB, Banker, 120 La Salle st.

FINANCE AND TRADE.

The general business situation has not shown any immediate improvement as the result of a week of excessively hot weather. Yet there are indications that the effect has been on the whole quite beneficial and that the future will prove this week to have been an important factor in the financial prosperity of the year. Business in many directions has been dull as a result of a disposition to do as little as possible during hot weather. This is especially true of retail trade and manufacturing. The stores have been comparatively deserted for the past six days. The downtown streets have presented a dull appearance to one accustomed to their usually animated and busy scene. Shoppers have preferred the quiet of home to the glare of the city pavements with the mercury among the nineties. A similar effect has been noticeable in manufacturing. Many shops have been temporarily closed during the heated term. In not a few instances the workmen have refused to continue to work on account of the excessive heat. The closing of factories has thrown thousands of operatives temporarily out of employment; but the effect will be less noticeable, as it is usual at this time of year to shut down for a few weeks.

The week has been dull but not devoid of interest. The forcing weather has been just what was needed for the development of crops which were somewhat belated by the backward spring. Corn especially has experienced a rapid growth all through the corn belt, and the effect of the weather has been favorable in all agricultural interests. Prices on the Chicago Board of Trade have correspondingly fluctuated. The prospect of a large crop always has a bear tendency, and accordingly corn has tended downward as the anticipations of a full crop have seemed more likely to be realized: but other influences have tended rather to strengthen the market. The anti-option bill is apparently hopelessly postponed, and this fact has had a stimulating effect on all option trading. This measure has been flaunted in the faces of speculators for a long time like a wet blanket to discourage and depress trade. No more pernicious and meddlesome piece of legislation could be devised. For the common good of the business interests of the country it to be hoped that our legislators will be sane enough to kill it. Its evil effect is readily seen when corn and other cereals drop at the merc prospect of the passage of the bill.

The balance of trade with foreign countries is largely in favor of the United States, yet heavy gold shipments continue and late advices from New York indicate that not less than $2,000,000 of the metal will leave for Europe by to-day's steamer. This, in the face of the existing condition of trade, is one of the financial enigmas of the day. It is doubtless partially accounted for from the fact that we are a gold producing country and that Europeans prefer our gold to our securities. The large amount of American securities held abroad enables European nations to turn back these securities on us in exchange for our gold. So long as gold shall remain in such favor among European nations this export movement may be expected to continue with greater or less regularity. This may afford some hint as to the possible advantage to this country of an international agreement touching the free coinage of silver.

Gold shipments naturally have a depressing effect on the stock market, yet it is noticeable that speculative business was the most active feature of the week. Wall street has for some weeks been in a state of almost suspended animation, but was somewhat revived this week by good news from the crop districts and the prospect of an early adjournment of the present congress. Railroad stocks are quickly affected by an improvement in the crop outlook, especially the grangers. Railroad managers now predict an immense carrying trade during the coming fall and winter, owing to the fact that crops will probably exceed all previous estimates. The result is a miniature boom in railroad securities. The coal-road stocks, too, are in good demand, though the anticipated advance in the price of coal has not yet been realized. The general public cares more for cheap coal than for dear coal-road securities, and, in fact, it is doubtful if the coal combine can possibly be anything but an unmitigated evil to the business interests of the country at large if it persists in putting up the price of coal. The average reader now recalls the fact that a few months ago the promoters of this combine were loud in their protestations that their object was primarily to reduce expenses and not to increase prices. The outlook now promises that they will maintain prices fully $1.50 a ton higher this winter than last, and that by a policy of freezing out as many local coal dealers as possible by reducing the selling profit below a living figure they expect to reap the entire income. THE JOURNAL seriously doubts the possibility of the success of such an iniquitous scheme.

It is interesting to notice the effect of the present congress on financial circles. There is joy in Wall street at the mere prospect of an early adjournment of the National body of law-makers. Such is the evident hostility of the legislative body to the most vital financial interests of the country. It would seem as though the mania among representatives for the introduction of legislation hostile to corporations and commercial exchanges had well-nigh reached its limit in this country. The average broker or commission merchant, as well as the ordinary investor, breathes a sigh of relief when congress adjourns.

The money market has taken on an improved tone, though interest rates are still moderate. The demand for money to move crops has begun, and with a large yield this demand may be expected to increase to considerable proportions. In Chicago there has been an unusual activity in local stocks, many of which are being carried from first to second account, which tends to strengthen the demand for money locally. Money is in demand also on the Board of Trade and as high as one per cent a month has been realized there recently for a six months' loan. The indications favor a revival of the hitherto depressed money market during the coming fall in common with an improved condition of business throughout the entire country.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of 68 leading cities for the week ending July 22, 1892, as compared with those of the corresponding week last year, with percentages of increase and decrease.

The bank clearings are a trustworthy index to the business prosperity of the country. At no time could this be more clearly demonstrated than during the week represented by the figures preceding. An almost unbroken column of figures showing increased percentages as compared with last year indicate a week of phenomenal prosperity. This fact is substantiated by news from all parts of the country. Everywhere there is a noticeable improvement, both as compared with last year and with the earlier portion of the present season. Crop prospects, which were regarded last spring as well-nigh hopeless, are now reported to be promising. The cereals have shown an advance of from 1 to 2½ cents, with large receipts reported. Other farm products have advanced sharply. Manufactures were never more active. All kinds of cotton goods are in demand and the result is a noticeable improvement in the cotton market. Woolen mills are behind their orders and wool is correspondingly active. Boots and shoes are in demand and the leather market is firm. Iron manufacture is reported exceptionally brisk for this time of year and many of the mills are pushed beyond their capacity.

Like improvement is seen in wholesale trade of all kinds. The dry goods trade is reported satisfactory both east and west. In Chicago there is an improvement in all lines of trade over last year. The receipts here of flour for the week were double, of oats three times and of barley and rye four times those last year. Reports from all other western points are hopeful and indicate marked improvement in almost every line of trade.

The above facts mentioned in connection with the table of bank clearings show how nearly accurate that table is as indicating the business prosperity of the country. It will be noticed that this week handsome percentages of increase are shown by New York, Chicago, Boston, Philadelphia and St. Louis. Only thirteen out of sixty-eight cities show decreased percentages, while the remainder show increases amounting in one case to 72 per cent and in another to 53 per cent. The total increase is 12.6 per cent.

The decreases, with a few unimportant exceptions, are confined almost entirely to far-western and south-

ern cities. It would seem that these sections have not yet fully recovered from the stagnation of trade which has so long been upon them.

The financial situation in Canada has not shown so much improvement as in the United States. Trade in the provinces is reported moderate, but good crop prospects promise active markets during the coming fall. The table shows an increase in the clearings reported from Montreal and a decrease in those of Halifax.

It may be worthy of note that while the bank clearings total this week show an increase of 12.6 per cent over the corresponding week last year, it shows a decrease as compared the week previous. That this is due in part to a general wave of high temperature over the entire country can not be doubted. Weather which makes life unendurable even at the seaside is not conducive to large results in the commercial world.

Continuing our analysis for the same weeks, but by groups of states, we have.

	WEEK ENDING JULY 22, 1892.	WEEK ENDING JULY 23, 1891.	PERCENTAGE.
New Engl'd States.	$111,084,117	$ 98,796,349	Inc 12.4
Middle "	670,202,272	593,420,224	" 13.0
Southern "	34,984,590	33,888,246	" 3.2
Western "	42,643,188	36,332,356	" 17.3
Northwestern "	128,452,532	106,093,321	" 20.7
Southwestern "	38,735,384	35,833,549	" 8.5
Far Western "	26,203,686	28,445,493	Dec 7.1
Totals,.....	$ 1,052,306,769	$ 932,809,538	Inc 12.6

The Farwestern group is the only one showing a decrease. The Southern and Southwestern return only a slight increase, but all the other groups show handsome gains. Heavy shrinkages have for a long time been reported from San Francisco and Los Angeles. In fact no portion of the Pacific coast seems to be in as prosperous condition as it was in previous years. From some sections of the Farwest come bitter complaints of stagnation which is all the more unendurable because the anticipations of business men have naturally been of better conditions. Thus large blocks of houses built in expectation of a year of prosperity have been lying idle for lack of tenants, and in many cases the hardship entailed on builders who counted on a demand for tenants has been disastrous. The South and Southwest have suffered especially from heavy rains of late, but these sections can hardly be said to have advanced as rapidly as other more favored portions of the country. Unfavorable weather conditions undoubtedly have had much to do in retarding the commercial progress of the Southern states.

GO FROM HOME TO GET THE NEWS.

Making due allowance for exaggeration, and the rapid increase in the size of a story as it travels from one city to another there is still a grain of truth in the oft repeated saying "Go away from home to get the news." At real estate headquarters in New York City it is said by those who make it a point to get the news from all directions that Harvey is the best advertised town in Cook county, Ill., except Chicago. People in New York and elsewhere, know more about Harvey than they do about any other suburb of Chicago, having heard more about it, seen more statements about its growth, its factories, its lot sales and its owners. It is talked about more than Oak Park was twenty years ago when it was the rising suburb, Englewood and Hyde Park having been absorbed by the city, so also a portion of Austin and all of Lawndale, South Chicago, Kensington and several other thriving suburbs of former times.

Again, strangers coming into the city frequently essay to tell the Chicago people what land is worth in Cicero and elsewhere and cite transfers made 20, 10 and 2 years ago to substantiate their arguments. They say, for instance, that land sold for a higher price nineteen and twenty years ago than it does today between Chicago avenue and Grand avenue, and when told that they have been deceived by relying wholly upon the transfer lists, they reply that they have other important data to guide them.

Without multiplying instances to show that outsiders know more of what is going on in the Chicago real estate market, than residents, suffice it to say that all of the people within a radius of 100 miles and fully half of those living within a radius of 150 miles read the Chicago papers more thoroughly than do our own citizens and consequently, know more about prices and things.

CURRENT COMMENT.

The final settlement of the case of Myra Clark Gaines against the city of New Orleans brings to a close the most remarkable litigation of the century. It was in 1833 that Myra Clark, then lately married to William Wallace Whitney, and afterward to General E. P Gaines appeared in New Orleans and commenced proceedings to recover the estate of her deceased father Daniel Clark, who had died in New Orleans in 1813. Myra Clark Gaines, as she is now popularly known, was a woman of great personal attractions and accomplishments. She claimed and later succeeded in proving that she was the only daughter and heir of Daniel Clark; she further affirmed that before his death, her father had carefully prepared his will, securing to her his estate; that a business partner of her father had abstracted this will and substituted an earlier one for it, in which the entire estate was to be given to her mother, the sole executor being the aforesaid partner and an intimate friend of his. Mrs Gaines further alleged that her name had then been changed and that she had been reared in entire ignorance of her rights, and that it was only on arriving at the age of womanhood that she had discovered them. Twenty years had passed since the probate of the will. Most of the property had been sold and was now in the hands of innocent purchasers. The executors of Clark had made no report to the probate court of the bulk of their sales. A recovery under such circumstances seemed well-nigh hopeless. But with a wonderful tenacity of purpose Mrs. Gaines pursued the litigation until her death which occurred recently. On Monday of this week W. W. Whitney, administrator of her estate, received a check for $923,788 in full settlement of the claim against the city of New Orleans. Of this amount attorneys and others will receive $179,-087.

The law's delays are numerous and disheartening to the average claimant, but some measure of encouragement is to be extracted from this instance of the recovery of nearly a million dollars almost sixty years after the commencement of the original action and sometime after the death of the individual whose wrong was thus tardily righted.

***

The recent investigations into the tax rolls on the part of the Chicago City council have resulted in showing that the railroads are assessed for only $11,000,000 representing a total valuation of $44,000,000, when a careful estimate of the value of their property made by the Real Estate Board foots up $500,000,000. This is an instance of successful tax-dodging which may well merit the attention of the Council and the State Board of Equalization. The average property owner cannot shrink his real estate to less than one-tenth its real value whenever the assessor comes in sight. In this respect it is clear that the average railroad is not entitled to any more privileges than the average individual. Elsewhere in this issue are given some glaring instances of the way in which railroad property is undervalued for purposes of undertaxation. We commend that paragraph as interesting reading to the weary taxpayer of the common every-day sort. The difficulty is said to be that the railroads are practically allowed to tax themselves under the system of returns of property made by them to the State Board of Equalization, on which basis the tax is made up. There is manifestly something wrong here which needs righting.

***

The wealthy man who imagines he has done a clever thing by avoiding due and honest taxation, says Tevis & Fisher's Real Estate Journal, deludes himself but for a short time; and the reaction and evil effects upon his name and possessions are sure to come with compound interest. It is a sad reflection and deeply to be deprecated when we see the gradual fading of the purity and moral value of an oath, and with how little hesitation men make false returns of their possessions, apparently looking upon the same as a clever device to avoid justice, and so enjoy a secret pleasure in deception and falsehood. The Roman empire was a fair illustration of the evils of corruption and pride; and France followed her baneful example until the masses of the oppressed and down-trodden populace clamored for relief, and finally broke out in revolt and ungoverned revolution. Blood flowed like water, and before order and peace were restored the wealth of the oppressors and the seats of the proud usurpers were overturned and trodden in the dust. May we not take warning and prevent history from repeating itself to our humiliation and ruin?

The application of the Fiftieth street Astoria Ferry and Central Park Railroad Company for the use of a trolley electric system in New York is the occasion of a great deal of discussion before the Board of Aldermen in that city. The railroad company is asking for a franchise across the upper part of New York from East river to the North river running through Central park. Property owners on the streets which it is proposed to occupy, are opposing the movement, but the company is making all sorts of plausible promises about the benefits to be conferred by building the road. The principal feature brought up by the opposition is the danger to life and property. In fact, about the same situation has developed there as in the north portion of the city where the North Shore Railway Company is seeking franchises. The property owners are objecting to the road on account of the trolley system which has always been unpopular here The railroad company on the other hand bring forward the testimony of electric engineers and experts to prove that any other system of motive power is impracticable at the present time.

The commerce of the great lakes has assumed such importance that it merits the strictest attention on the part of Congress. Nothing in the way of interference can be permitted to cripple for a moment the further development of the lake industry. The members of the House of Representatives were alive to this fact when they recently passed a retaliatory bill against Canadian canal tolls. The bill provides that whenever the President shall be satisfied that the passage through any canal or lock connected with the navigation of the St. Lawrence river, the great lakes or the waterways connecting the same of any vessels of the United States, or of cargoes and passengers in transit to any port of the United States, is prohibited or is made difficult or burdensome by the imposition of tolls or otherwise, which he shall deem to be reciprocally unjust and unreasonable, he shall have the power to suspend the right of free passage through the St Mary Falls Canal, so far as it relates to vessels owned by the subjects of the government discriminating against the United States. The bill was passed by the House without division. Evidently there is no disposition among our legislators to curry favor with any foreign power.

An improvement is noticeable in Southern and Southwestern business, and it is maintained by leading Southern financial journals that the South never before had brighter prospects than it has now. The discouraging experience of the past year or two was due especially to overproduction of cotton, iron and lumber. Yet this misfortune is more than counterbalanced by the progress made in manufactures and agriculture during the past decade. The advance in comforts and luxuries in the South has been remarkable, and that section can now be said to be in prime condition to make the race of the next ten years. The raw materials of the South have been not half explored as yet. Their development has only been begun. From this time on these resources are bound to be developed with increased rapidity. Money is in good supply. Crops are better than ever before and harvested more economically. The industries of the South are becoming more and more diversified, and every day new enterprises are springing up in every direction.

***

A few weeks ago loud complaints were heard on every side against the wet weather then prevailing. It was predicted that crops would suffer and that hard times for the farmers and the country generally would be the result. Now the weather has radically changed; but there is little diminution of the complaints. The excessively hot season is as obnoxious as the unusually wet season was. Men swelter and swear now just as they soaked and swore then. They do not stop to consider that it takes all kinds of weather to make a summer, and that the very heat which causes so much inconvenience to them now is enriching the country by millions of dollars in crop prospects which otherwise would be dismal indeed.

Hon. Isaac B Potter, chairman of the Committee on Improvement of Highways, Potter Building, New York, offers a series of three prizes for the best three essays by European engineers on the practical construction and maintenance of country roads." The prizes are—420 marks for the best essay, 294 marks for the second, and 126 marks for the third. The articles may be written in English, German or French and may contain not more than 20,000 nor less than 8,000 words. Good illustrations, either drawings, engravings or photographs will be important. It is expected that this competition will have important results.

***

The fire department of Chicago employs a unique wooden map for fire alarm purposes. It represents the principal streets and parks of the city and locates sixty-eight engine-houses of the department. When an alarm of fire comes in wooden plugs which represent the companies out, are withdrawn from their holders. In case of a big fire, plugs are transferred to the unprotected districts. An operator can tell at a glance the exact force available at any moment. In case of an order for additional engines, the map will show just where they can be spared without leaving other portions of the city without any protection.

LOCAL STOCK MARKET.

A $500,000 BOND PURCHASE.

The course of the market for Industrials as compared with other securities illustrates the popular feeling regarding such property. Investors do not favor them even though the reports made from time to time of earnings are of the most roseate hue. While the Industrial stocks are earning a fair per cent of profit on their capital, investors pass them by without attention and scramble for street railway stocks which are not paying much over government bond rates. In some cases, such as the Western Stone, the Diamond Match and similar companies, a prejudice exists on account of their nature as trusts. In other Industrials, the belief prevails that there has been far too much promotion, that all the profit has been taken out in the capitalization, and that there is no assurance of security to warrant a continuance of dividends. Western Stone stock was fairly strong at the beginning of the week on account of developments of the preceding week. An attempt is being made to again bring this stock into favor as a speculative security. Along about the middle of the week it got up as high as 100⅜ for the second account $50,000 in 5 per cent bonds have been canceled by the Stone company. The entire amount outstanding was $447,000. A settlement has been made with the Drainage Commission for a right of way through the company's property on favorable terms. Street Stable Car stock was one of the heaviest securities on the entire list. It is a stock which is easily raided by the bears and it is rumored that preparations are being made for an assault of some kind which will carry prices down lower than they are even at present. This security is one of the most pat illustrations of the popular feeling against Industrials. Here is a stock which is earning a high dividend rate and of which the most favorable reports have been made from time to time. With all these things in its favor, it is almost impossible to advance it beyond the 30's and it has a tendency to sag into the 20's.

Arc Light and Power stock continues quite firm considering the fact that it is not on a dividend paying basis and probably will not be for some time. Brewing and Malting stock was in light demand and showed a tendency toward lower prices rather than toward any demand. Strawboard has been heavy ever since the slight flurry last week, and broke to 83⅜ on Monday. The New York Biscuit company met with a severe fire loss during the week. Its New York factory which is the largest in the country and which was only recently completed was burned out. The insurance, however, was ample and the officers of the company claim that the loss will not be as serious as reported, inasmuch as the company will be able to supply its trade and hold its custom.

Notwithstanding the exceedingly hot weather and the high range of prices which have prevailed for some time, the market for street railway securities was quite active. There seems to be no accounting for movemen s in the North and West side stock. An announcement of the success of the Metropolitan Elevated railroad in disposing of its bond issue only gave the West side stock a down turn of the most temporary character. On Monday the market broke sharply and on little trading prices were marked down five points on each stock. West side sold down to 185 while North side went down to 225. The people who have been constantly predicting a break in these securities, began to think that their predictions were about to be realized, and that the looked for reaction had come. There were no selling orders, however, to help scale the market down, and on Tuesday prices began to go up in the same manner in which they have been moving for weeks past. On Thursday a net advance of 5⅜ points in West side railroad stock was made against 3⅜ in North side, and prices got back near the high point. The theories which are advanced regarding the movements of these securities seem to be of no value whatever. Every one understands that neither of the securities are paying anything like a fair interest rate. Every one knows as well that both roads have been financiered to the utmost extent. Notwithstanding this, the owners of stock simply do not want to sell, and the people who are not fortunate or unfortunate enough not to own the stock want it. The natural course of the market under these conditions of supply and demand, results in the constantly increasing scale of prices.

Sales of Alley Elevated stock have been made at par which is 10 points lower than the high point reached some time ago. The road in its present condition is not a satisfactory income earner. When it was first opened people rode from Thirty-ninth street down town out of curiosity. Now that traffic has fallen off as the cable cars furnish a much more satisfactory transportation from points as near as Thirty-ninth street, as long as the Alley Elevated has its terminus at Congress street. Within twenty days the elevated road will be running to Forty-eighth street and this will change the conditions to a certain extent. It is thought however, that the Congress street terminus will never prove entirely satisfactory to the road except during the World's Fair season, when the traffic from that source alone will be enormous.

DEVELOPMENTS IN THE TOWN OF MAINE.

LONG LOOKED-FOR ESTABLISHMENT OF AN INDUSTRIAL TOWN ON THE SITE OF THE COLUMBIA CAR WORKS.

For nearly two years residents of the Town of Maine have lived in patient expectation of important industrial developments in the locality lying between DesPlaines and Park Ridge and known as the Columbia Steel Car Company's purchase. The property in question comprises some 600 or 700 acres and lies between the Chicago & Northwestern railroad on the east and the Wisconsin Central railroad on the west and is bisected by the DesPlaines river. It is high, rolling land with natural drainage and possesses many excellent advantages as a manufacturing site. A station on the Northwestern railroad adjoins the property on the east and a connecting track has been built through the property for facilitating the transfer of cars from the Wisconsin Central to the Northwestern and vice versa. This improvement, together with switch tracks and two manufacturing buildings comprised the extent of the improvements made by the Columbia Steel Car Company. This company has been figuring on the property for over a year, but thus far its calculations have come to naught. A few acres were bought, on which the buildings were placed, and options were secured on about 600 acres more, but these options are said to have expired recently and some litigation also has beset the company, so that the path to fame and fortune has been decidedly a thorny one for the Columbia Steel Car people.

At last a new company has appeared on the scene and the prospect for activity in the Town of Maine is now assured. The Brock Land Association is the name of the new company and their town is called Brock after the name of one of the principal promoters of the enterprise. Brock will be a manufacturing town like Harvey or Chicago Heights. Already contracts have been closed with a number of manufacturing concerns to locate at Brock. The projectors of the enterprise are pushing this portion of the work with energy, and the results will soon be seen in an industrial activity heretofore unknown in the Town of Maine.

The Brock Association has purchased nearly 700 acres of land in and about the Columbia Car Works tract. Transfers which appeared on record this week show purchases amounting to $243,000 which are held in the name of Attorney Isaac E. Adams as trustee for the company. Other transfers make the total purchases over $300,000. These are all actual purchases and in no instance were options. The company is already offering its property to investors and manufacturers. Important contracts have been let for the improvement of portions of the property with large manufacturing sites.

The subjoined map shows the location of the Brock Association property. The black line surrounding Revere Park, just south of DesPlaines, shows the property already acquired by this company. Other large tracts are under contract, but the property indicated on the map has been actually purchased. It comprises nearly all of the property formerly under contract to the Columbia Steel Car Company. The buildings of this company, shown in the diagram by the letters "C" and "R", are outside the Brock purchase but may come in eventually. It is understood that these buildings are heavily encumbered with liens so that it is not thought probable that they will ever be used by the Columbia Company. In fact, persons who claim to be informed express the belief that that enterprise is hopelessly at a stand-still.

We have also indicated on the map the route of the new electric railway which has secured its right of way through this territory and will soon be in active operation. The road is known as the Chicago and Edison Park Street Railway Company.

The promoters of this company are prominent men in railroad circles, and the difficulties which have hitherto beset the right of way of roads seeking to enter the city from this direction have been finally overcome. The route determined upon begins at the junction of the Northwestern railway and River road in the village of DesPlaines and runs thence south on River road to Revere Park avenue, thence southeasterly on Rand road (Park avenue) through Park Ridge, Edison Park and Norwood Park to Milwaukee avenue at Jefferson Park, thence on Milwaukee avenue to Elderkin avenue, thence on Pratt and Danforth streets to Lawrence avenue, thence to Elston avenue and into the city limits on Elston avenue. The motive power of this road will be electricity. The promoters say that the system used will not be the Trolley but that either some form of the storage or some other equally good system will be adopted.

The entire section adjacent to this new railway has long suffered for lack of capital for its proper development. The territory is now in the hands of such men as Brock and Harriman, the latter a prominent New York banker, and the funds necessary for the proper development of the property are practically unlimited. The future of this section will be watched with great interest by real estate men and the investing public generally.

LOCATION OF AN IMPORTANT MANUFACTURING INTEREST.

Just as we go to press the news of the location at Brock of the Jones Woolen Mills Company of Columbiaville, Michigan, is handed us. This company will employ several hundred hands in the manufacture of Melton goods exclusively. They have the contract for making the uniforms for the United States postal employes. This, however, though an immense contract is only a portion of their business, which will be of great benefit to the new manufacturing centre.

$500,000 PAID FOR CANAL RIGHT OF WAY.

1,000 ACRES TO BE CONDEMNED.

Owners of real estate along the route of the drainage canal are in a state of excitement concerning the values of their lands.

The drainage board on Thursday afternoon authorized the purchase of a tract of land from E. Spencer Sturges for $6,000 and one from Phillip Koch for $15,000. Trustee Cooley states that the board had up to Thursday acquired possession of about 1,700 acres along the canal right of way, and that about 1,484 acres more were required. This will leave 1,000 acres to be acquired by condemnation. About $300,000 is the price of what the Board now has possession of, and an expenditure of $200,000 will be required for the purchase of the balance, leaving an indefinite amount to be paid for the thousand acres to be condemned.

Thus it will be seen that the Drainage Board will have expended $500,0 0 in money for the right of way and acquired in all about 2,650 acres. Much of this land is valueless for residence and business purposes.

The canal will therefore be a source of profit to all concerned by creating a demand for much poor land and enhancing adjoining property. Public improvements and railway enterprises benefit the city, enhance everybody's real estate and enrich not a few, besides putting money in circulation. Numerous land owners and intending purchasers from the southwest district along the drainage canal and from the northwest section of the county have called at the office of the REAL ESTATE AND BUILDING JOURNAL for maps and transfer lists. Many good judges of the real estate market who are posted as to projected improvements in the sections referred to above predict great activity there in the near future.

THE WENTWORTH AVENUE SEWER.

The now celebrated Wentworth avenue special assessment sewer case was the means of stirring up the entire question of special assessments to a somewhat heated discussion in the public prints. This assessment was probably one of the largest ever levied in Cook county. It was contested July 19, in the County Court by about forty lawyers, representing twice as many property owners who object to the payment of the assessment. The objectors are said to represent about $225,000 of the entire amount of the assessment so that at least $625,000 will be confirmed without contest. The case having come up so near vacation, it was found impossible to give it a final hearing before next fall, when it will be again taken up and disposed of in short order. Meantime bids will be advertised for and the contract will in all probability be let, so that the work can proceed without delay.

Nearly a thousand ordinances for street improvements are now pending. The Street Department is working at its full capacity on the various assessments. Commissioner Sheahan is preparing the rolls of assessment for submission to the court. A big batch of them will go in to the County Court Aug. 1. It is expected that they will be confirmed within the first fifteen days of next month and that the contracts will be let between the 15th and 30th of August. In that case most of the work will be done before frost sets in. Commissioner Aldrich increased the working force in the street department on special assessments in the last week, and he is leaving nothing undone to co-operate with the Council in the work of improvement.

THE REAL ESTATE MARKET.

IMPORTANT DEVELOPMENTS IN THE TOWN OF MAINE.—NEW ELECTRIC LINE FROM DESPLAINES TO THE CITY LIMITS ASSURED.

(See two-page map in this issue.)

A dull real estate market in July is to be expected especially when the thermometer ranges up in the 90's and nearly every one who is not off on a vacation is either wishing that he was, or is planning where and when he will go. The records of the week have included but few notable transfers. In fact, for some days the records were unusually light. The retail lot business is fairly under way and the subdividers are beginning to run excursions. They report a fair success although on many of their excursions a good percentage of the people taken out to the subdivisions are picnickers and people who are out for a holiday and for a free railroad ride into the country. This is especially true with excursions made on Sunday and the fact is that a great many subdividers believe that Sunday excursions for this reason are not profitable.

NORTH SHORE OPERATIONS.

The syndicates which are operating in the submerged district east of the present north shore line which is to be reclaimed by the extension of the Lake Shore Drive are making some progress. The most interesting event of the week, in a real estate way, has been the announcement of the purchase in this section by prominent citizens of wealth who will at once build. The title to the property in the submerged district from Bellevue place down to Indiana street has been passed upon by the best-known lawyers in the city and is considered to be without flaw. The proposed drive is to skirt the shore at any distance of about 1,000 feet. The submerged land between the line of the proposed drive and the present shore line is being rapidly filled up. The dredges at work out in the lake may be seen at any time. Besides this dredging, the property is being filled from the shore with earth and building material from brick buildings which have been torn down. This week's sales have been made by what is known as the North Side Land Association. This Association is headed by Gen. Fitz-Simons and H. N. Cooper. The Association has a capital stock of $3,000,000 or 30,000 shares of $100 each. Its holdings include about 5,000 feet of frontage and one foot of frontage is considered equivalent to six shares of stock Some of the transfers to the Association have been made. The final transfers will be made to-day or early next week. The Association property is on Pearson and Chestnut streets just north of the water works park, which is to be extended out to the shore line. The Association has just disposed of 6,000 shares of stock to a syndicate including Slason Thompson, C. A. Street, Treat Campbell, W. F. Cobb, C. J. Coleman, J. H. Norton, H. A. De Wint, Ernest F. Smith and others. The arrangement with these parties is that they shall take stock which is to be exchanged at once in payment for land much as the stock of the Calumet Canal and Dock company is taken in payment for the lands of that corporation. These people will take frontages ranging from 50 to 100 feet east and will build residences at an outlay of from $15,000 to $40,000 each. The triangular tract bounded on the west by Pine street, north and east by Lake Michigan and south by Pearson street is to be developed as a gilt-edged residence section. The blocks are to be laid out with lots about 110 feet in depth without alleys. No residence will be allowed which does not represent an outlay of at least $15,000. No business houses of any kind or apartment houses will be allowed. Pine Grove avenue on the west will be widened to 100 feet and boulevarded and will effectually protect the property on that quarter. On the south will be the water works park. Along the shore which bounds the other two sides will be extended the Lake Shore Drive 208 feet wide, which is to be one of the finest boulevards ever constructed in the world. The other streets are to be macadamized and improved in a manner which will correspond with the boulevards. The owners of the property are simply working on the theory that residence property values are entirely sentimental when they get above certain figures. From a purely practical standpoint no strictly residence property at from $400 to $1,000 a foot will pay any fair income. The buyers of this property are to be men whom this feature will not appeal to. They are willing to spend money that can be absolutely protected. The difficulty on the South Side, and in fact in all parts of the city, so far has been that rich men have been afraid to build fine houses for fear of the encroachment of the ever-present flat building and apartment house. In some of the finest residence sections, the encroachment of such buildings has destroyed to a large extent, the sentimental value of property. Owners of property along the North Shore think they have guarded against any encroachment and for this reason have placed their property on the market at figures which seem high to dealers in residence property. The dealers who have property in the vicinity of the holdings of the North Side Land Association claim that they can offer property much cheaper. The fact remains that the class

of people who will buy in the district which is being filled in will not consider a matter of $100 or $200 a front foot in price.

AUCTIONS ON THE REAL ESTATE EXCHANGE.

A circular has been issued by the Real Estate Exchange announcing that auction sales will be resumed on the Exchange beginning at 11 o'clock A. M. August 9. The following rules are laid down as governing the sale of real estate by auction:

1. Property will not be accepted unless the price is fixed low enough to give a reasonable prospect of selling.

2. Owners must give exclusive agency for —— days.

3. Owners will have the option to pay $10 for advertising expenses or advertise the property to suit themselves.

4. The commission will be 2½ per cent on sums over $3,000, and 5 per cent on $3,000 or less, and in no case to net less than $10.

5. Contracts of sale will be arranged in the manner usual in private sales, and as desired by the parties interested.

6. By-bidding will be absolutely prohibited.

7. Property will be offered on more than one day until sold, without extra charge.

The auction sales will be conducted by T. C. Rivera, trustee.

APARTMENT HOUSES FOR WORLD'S FAIR HOTELS.

The Groveland apartment house, at the corner of Groveland avenue and Thirty-first street, is to be converted into a hotel during the World's Eair year. The Groveland Apartment Company is now furnishing the building in first-class style, and the house will be opened in about a month to the public. A very large dining-room is being fitted up on the main floor and a cafe is being established in the basement. The roof is to be converted into a garden. Dummy elevators will run to it and meals will be served there if desired. The building is so constructed that hardly any changes have been necessary to make it suitable for hotel purposes, as all the rooms had direct connections with hallways.

The Groveland is a seven-story structure containing about three hundred and seventy-five rooms. It was completed only a few months ago and is one of the largest apartment houses in the city. It has the distinction of being the only apartment building in Chicago constructed entirely of stone. The interior finish is of the very best, all of the halls having mosaic floors, marble wainscoting, and the rooms are furnished in hard woods. The building is supplied with several passenger and freight elevators, electric light, steam heat and superior plumbing. It cost about $350,000.

HANDSOME IMPROVEMENTS AT AUBURN PARK.

M. H. Williamson, manager for the well-known firm of Eggleston, Mallette & Brownell, has sold for D. D. Chidester to Frank J. Cross, 100 feet east front on Dickey street between Seventy-sixth and Seventy-seventh streets, Auburn Park, for $10,500, being at the rate of $105 per front foot. Mr. Cross has commenced the erection of two elegant double buildings 44x60 feet each to cost $30,000. These buildings will be first class in all respects and will have Bedford stone fronts. They will be the finest houses so far erected in Auburn Park. During the past two weeks there has been unusual activity in this beautiful subdivision which has been highly improved by this firm. THE JOURNAL in its next issue will contain a full account of an important sale in Auburn Park, in fact the largest sale ever made there.

ANOTHER TWELVE-STORY BUSINESS BUILDING.

It is said that the Campbell estate, which controls the property at the northeast corner of State and Van Buren streets, will erect a twelve-story iron, steel and terra cotta structure on the premises. The property has a frontage of 150 feet on Van Buren street by 80 feet on State street, and is now occupied by a building four stories in height, which in many cities would be considered of fine architecture. This building was erected immediately after the fire and its first occupants were the firm of Field, Leiter & Co. In 1877 that firm moved to the north, and since the building has been occupied by a number of substantial business houses. The leases of these occupants will be canceled and preparations will be at once made for the erection of the new building, which will cost $500,000. It is to be occupied by the Meriden Brittania Co., now at 147 State street, and they will take the premises under a 99-year lease.

A SYNDICATE TO BUILD HOTELS.

It is said that a syndicate headed by ex-Governor J. L. Beveridge is negotiating for a ten-acre tract at the northeast corner of Seventy-third street and Seipp avenue, on which it proposes to erect a number of World's Fair hotels. This syndicate has ample financial backing and, if it secures this site, will make one of the most extensive improvements around Jackson Park. The land in question is one of the largest unimproved tracts south of Jackson Park. It is on the direct line of the Baltimore & Ohio road and its right of way into the Fair grounds.

THE METROPOLITAN ELEVATED RAILROAD.

Rumors are rife regarding the consolidation of the Metropolitan elevated road with the Lake street "L" road. It is quite certain that negotiations are in progress which may result in the purchase of the Lake street line so far as completed by the Metropolitan. Surveyors for the Metropolitan have been busy of late selecting a route as far west as the Desplaines river. The road is also said to have bought the triangular lot between Ogden avenue, Van Buren and Honore streets, to be used as a station. A combination of these two enterprises, the Metropolitan and the Lake street "L," would put both roads on a substantial basis and ensure the completion of the work before the opening of the World's Fair.

SALE OF THE EQUITABLE BLOCK.

Yesterday's transfer list contained mention of the sale of the southwest corner of Dearborn and Washington streets, 40 2-12 by 90 feet, Andrew J. Cooper to Owen F. Aldis, for $450,000. The purchase by Mr. Aldis is said to be for a client who will probably sell again. This corner was bought by Mr. Cooper less than four months ago for $475,000 from M. Wineman. Inasmuch as the transaction was in the nature of a trade in which certain leasehold interests of indefinite value figure largely, it is impossible to tell the exact cash valuation of the consideration paid by Mr. Cooper. It is sufficient to say, however, that Mr. Cooper claims to have made $25,000 by purchasing the corner at $475,000 and selling it at $450,000, which is accounted for from the fact that the leasehold interests traded by Mr. Cooper represent a large profit to him. Were it not for the fact that the basement of the Equitable building is under a long lease to a tenant who considers his leasehold very valuable, the property could be disposed of at a much higher figure. The price, $450,000, represents a valuation of $124.50 a square foot.

NINETY-NINE YEAR LEASES.

One of the most notable long-term leases recently made is that of the estate of J. H. Lathrop to E. G. and H. B. Mason of the property on Randolph street, 60 feet east of Dearborn, south front, 40 by 70½ by 90 feet, for 198 years at a rental of $8,000 a year, payable in gold. The total rental foots up $1,584,000.

Charles H. Deere has leased to J. Ingram for 99 years the property on Michigan avenue, 150½ feet north of Twenty-second street, east front, 49½ by 119 feet, at a yearly rental of $6,000 gold. Mr. Deere recently purchased this property from Lobdell, Farwell & Co. for $80,000. The lessee, Mr. Ingram, will erect a seven-story apartment building on the premises at a cost of $125,000, as previously noted in these columns. Plans have been prepared for this building and work will be commenced at once. The structure will be ready for occupancy early next spring.

McFarland Bros., representing a syndicate of West Side capitalists, have negotiated the lease for 100 by 164 feet on Michigan avenue, north of Thirty-fifth street, for a term of ninety-nine years on a basis of $800 a front foot at 6 per cent per annum. An apartment house will be erected covering the entire ground. The first story front will be of Mexican onyx and the rest of Tennessee marble. It will be eight stories high. A novel feature will be a conservatory on the roof adjoining the cafe.

Negotiations are in progress for leasing the southeast corner of Drexel boulevard and Fifty-first street, for the purpose of erecting a fire-proof family hotel on the lot. The enterprise is said to be backed by substantial capitalists and will be a success. A ten-story building will be erected at a cost of $300,000. The building will be fireproof and first-class in every particular.

CHICAGO, LAKE COUNTY, INDIANA.

The 2,900 acres of Lake County, Indiana, property purchased last spring by a Minneapolis syndicate headed by Louis F. Menage, has been subdivided into five-acre blocks and is about to be put on the market. The syndicate is styled The Chicago Associates, and has an office at 301 Title and Trust building. The new town has been styled Chicago, Indiana. It lies wholly in Indiana and adjoins the Illinois state line, with Hammond three miles to the north and Chicago Heights five miles southwest. It has been divided into 600 five-acre blocks, but will be retailed by the lot at $100 per lot and upwards. The tract is intersected by four railroads—the Chicago and Grand Trunk, the Pittsburg, Cincinnati and St. Louis, the Louisville, New Albany and Chicago, and the Chicago, Michigan and Southern. This latter road was built by the syndicate itself from Dyer, Indiana, two miles southwest of their property, northeast to East Chicago harbor, a distance of eleven miles. It connects with the Joliet cut-off and the Elgin, Joliet and Eastern railroads at Dyer, and with the Michigan Central and Fort Wayne at East Chicago. It was built for the purpose of affording to the syndicate property a belt line connection.

A wide and deep drainage canal has been constructed across the entire property with an outlet in the Calumet river on the north. The fall to Lake Michigan is about 23 feet, so that a natural drainage is provided. It is the intention of the promoters of Chicago, Indiana, to make it a manufacturing town. The Standard Oil Company's main pipe line is only a short distance from the property, and fuel oil will be piped to manufacturers locating there.

TAXATION OF RAILROAD PROPERTY.

The following are extracts from the statement made by Ald. O'Neill in the Council last Monday evening relative to the taxation of railroad property in Chicago. The paragraphs given afford so much food for thought to the average taxpayer that they need no comment on the part of the JOURNAL. The statement is as follows:

The Michigan Central has four acres on South Water street, east of Michigan avenue, valued at $17,200 while you could not buy 9.4 feet for that sum.

The Chicago and Northern Pacific railway returns, its property east of the river, land, $109,800; improvements, $81,000; while the Real Estate Board places the value of the land at over $4,000,000 and claims the depot to have cost $1,250,000.

The Pennsylvania company returns the land between Madison, Adams, Canal and the river at $69,600, depot $111,000, while the Real Estate Board values the land at over $1,500,000.

The Chicago & Eastern Illinois railroad returns the block between Twelfth and Fourteenth streets, Custom House place and Clark street: Land $26,000, improvements, $6,000. The Real Estate Board values the same at over $1,300,000.

The Chicago, Rock Island and Pacific railroad, all property north of Twenty-second street, at $336,000, while the Valuation committee of the Chicago Real Estate Board places the valuation at over $14,000,000.

The Chicago, Burlington and Quincy railroad block between Polk, Taylor, Plymouth and Custom House places on which Dearborn station is situated, estimated by the company: Land $42,200; improvements, $43,750; while the next west, with poor improvements is assessed $160,000. All property north of Twenty-second street is returned at $350,000 including improvements, while the Valuation committee values the land at over $9,000,000.

HOTEL SYNDICATE AT WORK.

In previous issues of the JOURNAL and especially last week's issue it was stated that the unsatisfactory progress heretofore made by projectors of new hotels in the World's Fair district, had prompted a number of wealthy men to form a syndicate for the purpose of providing the necessary accommodation in this line. A syndicate headed by ex-Gov. J. L. Beverige is now negotiating for a ten-acre tract at the northeast corner of Seventy-third street and Seipp avenue. This site is south of the Fair grounds and on the line of the Baltimore & Ohio track to the grounds. The syndicate has ample financial backing, and it is proposed to erect a number of hotels on the tract. Should these negotiations prove successful the improvements made by this syndicate will be the most extensive yet undertaken by any individual or corporation in the vicinity of Jackson park. This is one of the largest tracts of unimproved property south of the Fair grounds and will afford ample room for such a scheme.

At Fifty-first street, a favorite locality for hotel sites, but scarcely a week passes by without the announcement of a new hotel in the neighborhood. This is an excellent location for hotels, especially east of and facing Washington park. It is reported that a syndicate is being formed for the purpose of securing the southeast corner of Drexel boulevard and Fifty-first street, for a very fine fireproof hotel. It will be a ten-story building, and will cost $300,000. The names of the promoters cannot be announced at this time.

RUSH OF SPECIAL ASSESSMENTS.

OVER EIGHT HUNDRED ORDINANCES FOR STREET AND ALLEY IMPROVEMENTS PASSED IN THE LAST FOUR WEEKS.

The article published in last week's JOURNAL relative to the proportion of special taxation to the general tax and showing that the ratio of special to general taxation has increased from 1 : 13.23 to 1 : 1.2 in the past 30 years, has attracted a great amount of attention and inquiry among real estate owners. Some other papers have taken up the subject and have bent all their energies to abusing the special assessment department and attempting to show that there is a vast amount of corruption or injustice in the conduct of the special assessment system. These efforts to throw the entire blame of increased special assessments on the department is like blaming the machine for the fault of the inventor. The fact is the responsibility for special assessments devolves almost entirely on individual aldermen. In view of the coming of the World's Fair a rivalry has sprung up between aldermen of different wards in the matter of street improvements. In the past four weeks over 800 ordinances for street improvements have passed the Council. More ordinaces are now passed in a week than heretofore have been passed in a month. In the 3d, 4th, 11th, 12th, 22d, 23d and 24th wards ordinances have been passed for paving all the unpaved alleys in these wards. It is said that these orders are imperative and that the aldermen of these wards will listen to no protests on the part of property owners. The opinion is that the work is necessary, to provide for cleanliness during the World's Fair. In the case of improvements to streets, however, it is probable that in many instances remonstrances will be filed by property-owners which will result in a stay of the assessments.

SOMETHING ABOUT SHARKS.

It would be well for all the real estate men, who as a class have been quite liberally denominated land sharks, to cut out the interview that the Evening News recently published relative to what a depositor said of Cashier Dann. The depositor aforesaid had $400 in the defunct National Savings bank and was about to draw it out when, he said, Mr. Dann told him to beware of investing it in real estate as the real estate sharks would be likely to do him out of it. He left his money in the National long enough to see which shark got it. It is all very well to be a conservative banker and to give interested advice, but it is pretty cheeky to speak against the character of real estate men in general by calling them sharks. Hereafter the people of Buffalo will look with suspicion on the banker who tells them to beware of the real estate sharks; for the chances are that such advisers are sharks themselves.—Buffalo Real Estate and Financial News.

PROGRESSIVE VALUES OF REALTY.

We overheard the story of one of the old timers, as they call themselves in this State, who gave his experience as follows:

"When I first came to California I settled in Santa Clara Valley, and selected what appeared to be as good a piece of land as could be found. Of course it was all grown up with mustard, and so large that, as described in the Bible, the fowls of the air might lodge in the branches. It looked like a rough deal even to clear away enough to put in a crop, and my neighbors were equally disconsolate. One of them had settled on the next quarter section nearer the hillside, and his claim had quite an abundance of timber, live-oak, etc. All of this appeared equally depressing and hopeless to him, and, in his depression at his selection, offered to sell out his claim and seek a home further up the valley. There was, of course, no money, and I offered to give him a second-hand stove for his claim. This he accepted, and the trade was closed. In order to hold the land I employed a wandering newcomer to live on my property. This man soon began to depredate by cutting my timber and selling the wood to the neighbors, and then with the money thus obtained he would get drunk and keep up a constant row and disturbance. An idea occurred to me to remove the nuisance by selling him the land, and a bargain was arranged that he should cut and deliver six cords of wood on my place adjoining; and I, for that consideration, gave him my claim to all of the land,—one-quarter section, 160 acres. This land to-day has on it one of the finest vine-yards and orchards in Santa Clara Valley, being about eight miles from the town, and the land is worth $500 an acre. I did not have sense enough to see that this land would ever be worth the grubbing. I moved on in my ever restless spirit, and still am hunting for a home in California. Have none."—Tevis & Fisher's Real Estate Journal, San Francisco.

NEW ENTERPRISES IN PROGRESS.

De Land Fla.—Dr. Fisher may build a brick block. Tallahassee, Fla.—The Methodist Episcopals lately mentioned are building a $15,000 church. Benjamin Price, of Philadelphia, Pa., is architect, and Gilmore & Davis, contractors. Atlanta, Ga.—Work is to commence shortly on the erection of a $35,000 building at Clark University to replace the main building destroyed by fire a few months ago. Dr. W. H. Hickman can be addressed. Augusta, Ga.—The members of Thankful Colored Baptist Church will build a church. Baxley, Ga.—J. A. Sedwick has contract for building an edifice for the Methodist Episcopal church. Brunswick, Ga.—W. F, Penniman, C. B. Lloyd and F. E. Cunningham will erect six warehouses. Carrollton, Ga.—Carroll county will build a new courthouse. Macon, Ga.—It is stated that a freight depot will be built for the Central railroad. Grayson, Ky.—The erection of a $25,000 college building is proposed. G. P. Simmons, Box 39, can be addressed. Henderson, Ky.—The Baptists will build a brick and stone edifice. Louisville, Ky.—The school board will receive bids until July 30 for erecting the first and fourth ward school buildings recently mentioned. Charles D. Meyer and Drach & Thomas are the architects. Alexandria, La.—The hotel lately noted as to be built will be a three-story brick structure 106½x213 feet, and have electric lights, heating apparatus, elevator, etc. The cost will be about $38,000. Correspondence is desired with architects and contractors. Address D. H. Mays. New Orleans, La.—Mrs. A. E. Jamison has permit to build a $12,000 cotton shed. New Orleans, La.—The Louisville & Nashville Railroad Co. (office, Louisville, Ky.) will erect a large warehouse in New Orleans. Baltimore, Md.—M. F. McCormick will build a five story brick warehouse, and George W. M. Crook, a four-story warehouse. Baltimore, Md.—Baldwin & Pennington have completed plans for a six-story passenger depot to be built near the mouth of its Belt Line tunnel. Two stories of the building will be underground and its dimensions are to be 100x200x200 feet. Elevators, electric lights, etc, will be put in; a 140-foot tower twenty-eight feet square is also provided for. Baltimore, Md.—Philip Walsh & Sons have been awarded contract to erect the McCoy Hall at the John Hopkins University. Baldwin & Pennington are the architects. Charlotte, N. C.—Henry Gillard and R. S. Hunter have awarded contract to J. C. Herring for the erection of a hotel in the northeastern part of Charlotte. Oxford, N C.—Hundley Bros. & Co, have been awarded contract for building a brick and granite church for the Baptists. It will cost about $12,000. Greensboro, N. C.—Epps & Hackett are preparing plans for a five story hotel 110x135 feet for B. J. Fisher. Elevators, hot water, electric lights, etc, will be put in. Morganton, N. C.—The members of Grace Episcopal church will build a new edifice. Columbia, S. C.—The Green Street Methodist church will build a new edifice. Columbia, S. C.—A building will probably be erected for the Columbia Hospital Association. Cleveland, Tenn.—S. W. Marshall has secured contract at $26,500 for building the court house previously reported. E. Lamm, of Chattanooga, prepared the plans. Knoxville, Tenn.—Plans have been prepared for a 100-room addition to the East Tennessee Sanitarium. Maryville, Tenn.—Joseph Bauman, of Knoxville, is preparing plans for a large addition to Maryville College. El Paso, Texas.—Architect Krause has prepared plans for a building for the Hotel Dine Hospital. Fort Worth, Texas.—A $27,000 building will, it is stated, be erected at the Polytechnic College. Fort Worth, Texas—John C. Ryan is said to be arranging for the erection of a college at Lexington Heights. Houston, Texas—The Knights of Pythias are considering the erection of a $50,000 or a $75,000 hall building. Houston Texas—A three story brick building 67x97 feet, with a 122 foot wing, will be erected for St. Joseph's Hospital. Lexington, Va—The colored Methodists will build a brick and stone edifice 48x60 feet, with an 85 foot tower. J. M. Bean can give particulars. Roanoke, Va—Wilson & Huggins are preparing plans for an edifice for the Second Presbyterian church. Roanoke, Va—Wilson & Huggins are preparing plans for a three story office building for A. Lewis and W. W. Berkley, to have hydraulic elevator and steam heat; also plans for a three-story brick and stone business building for C. W. Lind. Beverly, W. Va—F. J. Triplett, county clerk, will receive proposals until August 8 for the erection of a new courthouse in Beverly for Randolph county. Keyser, W. Va—A $6,000 brick edifice 40x60 feet will be built for the Presbyterian church. Moundsville, W. Va—The hotel to be built by John Henrietta will be a two story brick structure 49x148 feet, with hot air heating, hot and cold water, etc. M. F. Gelsey, of Wheeling, prepared the plans.

REAL ESTATE LAW.

RIGHTS OF AN UNLICENSED BROKER—THE SUPREME COURT OF MINNESOTA DECIDES THAT HE CANNOT RECOVER COMMISSIONS.

The following decision is of such importance to real estate brokers generally that we give it in full as reported by the Chicago Legal News:

In the Supreme Court of Minnesota, in the case of Buckley v. Humason, decided in June, 1892, it was recently held that where a statute or ordinance makes a particular business unlawful for unlicensed persons, any contract made in such business by one not licensed, is void. The court says:

"This action is brought by plaintiff to recover commissions for services as a real estate agent or broker, in procuring a purchaser for certain real estate in Chicago. The cause of action is stated as follows in the complaint: 'During the year 1890, the plaintiff, at the special instance and request of the defendants, performed services for said defendants in the city of Chicago, in the State of Illinois, in and about procuring a purchaser for certain property in the State of Illinois, which said services were then and there of the reasonable value of $4,375, and which said sum the defendants agreed and promised to pay plaintiff therefor.' The plaintiff testified that at the time of the alleged services, he resided in the city of Chicago. The transactions referred to occurred there, and the negotiations were there concluded, and the contract and purchase were consummated in that city, and the plaintiff claims to be entitled to the usual commissions charged and received in Chicago for such services. He also testified that he had been previously engaged in the real estate business in Chicago, as an agent, and sold and exchanged property for others on commission; and the transaction in question appears clearly enough to have been in the line of his regular business as a real estate agent or broker. In this connection we must observe that it is admitted in the pleadings that during the year 1890 and prior thereto, an ordinance of the city of Chicago, enacted in pursuance of a statute of that State, was in force, which provided that it should not be lawful for any person to exercise within that city the business of real estate broker, without a license therefor, and defined a 'real estate broker,' as a person who for commissions or other compensation, is engaged in the selling of or in negotiating sales of real estate belonging to others. A license fee of $25 per annum is required to be paid by such broker, and any person violating the provisions of the ordinance is subject to a penalty of not less than $25, and to the same penalty for every subsequent violation thereof.

"The testimony shows that the plaintiff was using and exercising the business of a real estate broker in the city of Chicago during the time in question, and in performing the services for which a recovery is sought in this action. It was made unlawful for him to do so by the terms of the ordinance referred to. It was not at all material that the parties for whom he negotiated a sale agreed to take property in St. Paul in payment or exchange for the Chicago property of which plaintiff negotiated a sale, and for which he found a purchaser. The ordinance, which is set out in full in the answer, was valid, and the case, as presented by the evidence, clearly falls within it: Braun v. Chicago, 110 Ill. 187. It has the force of law within the city of Chicago: Bo t v. Pratt, 33 Minn. 323; 23 N. W. Rep. 237. The particular transaction in question, was therefore, in violation of law, unless he was duly licensed, which was not shown. On the contrary, the answer alleges, and it stands admitted, for want of a reply, that the plaintiff was not duly licensed as a broker. The plaintiff can not, therefore, recover his commissions: Hustis v. Pickands, 27 Ill. App. 270; Joanson v Hnlings, 108 Pa. St. 501; Holt v. Green, 73 Pa. St. 198. Business transactions in violation of law, can not be made the foundation of a valid contract; and the general rule is that where a statute makes a particular business unlawful generally, or for unlicensed persons, any contract made in such business by one not authorized is void (Bish. Cont., Secs. 471, 547; 1 Pom., Eq. Jur., Sec. 402); and the contract being void where it was made and to be performed, will be so held here: Bish., Cont., Sec. 1383. The case was properly dismissed upon the evidence."

HUSBAND'S INTEREST IN WIFE'S INSURANCE.

In German Insurance Co. v. Hyman, Supreme Court of Nebraska, May, 1892, we give from the official syllabus and the opinion the following:

"Plaintiff, a married woman, has been engaged in mercantile business for four years in her own name, on capital in part given her by her husband and in part the proceeds of her own labor. Her store was destroyed by fire. In an action against an insurance company on a contract of insurance, in the absence of evidence of an intention to defraud the defendant. Held: That the motive of the husband in giving the property to plaintiff is immaterial."

The court said in part:

If the holder of an interest in property will suffer loss by its destruction, he may indemnify himself therefrom by a contract of insurance. If by the loss the holder of the interest is deprived of the possession, enjoyment or profit of the property, or a security or lien resting thereon, or other certain benefits growing out of or depending upon it, he has an insurable interest; Merrett v. Insurance Co, 42 Iowa, 11; Phil. Ins. Secs. 175, 342, 346; Bland Ins., p 342. And in Pethgrew's case, 28 U. C. C. P. 70, it is held that a purchaser has an insurable interest in property, although the sale was in fraud of the rights of creditors. It is not

necessary to set out the instructions asked by the plaintiff in error, as they merely stated the proposition in different forms that the plaintiff below could not recover on the ground that the gift of the money and property in question to her by her husband was in fraud of creditors."

EFFECT OF FORECLOSURE ON SECURITY.

According to the decision of the Supreme Court of Minnesota, in the case of the Pioneer Savings & Loan Company v. Farnham et al., upon a foreclosure of a mortgage of real estate, under the power of sale it ceases to be a security for a debt and the rights of the mortgagor and purchaser are to be measured by the statute and not by anything in the mortgage, so that though it pledge the rents the purchaser is not entitled to them during the year for redemption.

HUSBAND'S AGENCY FOR HIS WIFE.

The Supreme Court of Minnesota has decided in the case of Tilleny v Wolverton et al that where a husband is his wife's agent, not merely to employ an ther agent to sell, but in general charge of selling her real estate, his knowledge of who the purchasers are is her knowledge also.

NOTICE OF LOSS BY FIRE.

The New Yerk Court of Appeals held in the case of Quinlan v. Providence Washington Insurance Co., that a provision in a policy that if a fire occurs the assured shall give immediate notice in writing to the insurer of any loss thereby, is a condition precedent, and that unless it is waived the assured cannot recover on the policy where he does not give notice of loss until thirty-three days after the fire.

NOTICE OF VACANT PREMISES.

The New York Court of Appeals has recently held in the case of O'Brien v. Prescott Insurance Co. that the fact that an insurance agent, when notified by the assured that the premises had become vacant, said that it was all right as long as he notified the agent, was not a waiver of a provision in the policy that it should be void if the premises became vacant.

ENFORCEMENT OF MECHANICS LIEN.

The Supreme Court of Minnesota held in the case of Steinmetz v. St. Paul Trust Co. et al, that an action to enforce a mechanics' lien is properly dismissed for want of prosecution on the application of the defendants other than the owner, where the action it not commenced as against the owner within a year from the time the lien accrued, either by his appearance or by service of the summons on him, or by delivery thereof for service within that time, followed by service thereof or by the first publication thereof within sixty days.

PLANS BY ARCHITECTS.

Architect H. M. Hansen has drawn plans for a three-story flat building for Henry Jaeschke, at 1765 North Halsted street. It will be of pressed brick with stone front. The same architect has plans for a double three-story residence for Henry Rang, to be built on Dearborn avenue; stone front, gravel roof, etc.

Architect T. C. Goudie is drawing plans for nine two-story frame houses with brick basements, sanitary plumbing, furnaces, laundries, etc., to be erected for C. H. Moore at West Ravenswood. Also a two-story frame residence for J. H White at Rogers Park.

Architects Lamson & Newman have drawn plans for a four-story and basement flat building, 25x80 feet, stone front with copper bays, pressed brick, copper cornice, hardwood finish, steam heat. etc., to be built for H. Reoh, at the corner of Monroe and Honore streets; cost $23,000.

Architect W. R. Gibb is superintending the construction of a three-story and basement flat building for J. Nichols, at 71 Armour street; pressed brick with stone trimmings; galvanized iron bays, etc.; cost $8,000.

Architect Robert Rae is remodeling a building for C. Follansbee, at 23rd and State streets, into a modern three-story flat building, to have all sanitary and modern conveniences, steam heat, etc., and cost about $15,000. The same architect has plans for three two story frame residences for W. H. Cairnduff at Winnetka. For George A. Otis, at 4585 Oakenwald avenue, a three-story residence, 27 by 60 feet, of pressed brick and stone, slate mansard and gravel roof, quarter sawed oak finish, steam heating, electric light, best plumbing, etc.; cost $10,000. For L. Brinckerhoff, at Kenilworth, a two-story attic and frame residence, stone basement, hardwood finish, furnace, etc. For E. E. Foyerweather, at Hinsdale, a two story, cellar and attic frame residence, stone basement, hardwood interior, steam heat, electric light, etc.; cost $10,000.

Architect W. K. Johnston has plans for a two-story, basement and attic residence, 60x93 feet, for John Torrent, at Muskegon, Michigan, to cost $65,000. It will be constructed of blue Bedford stone, with red slate roof, elegant interior finish, electric lighting, etc. The same architect has completed drawings for a library building, 80x144 feet, to be erected at Holland, Mich., for Hope College. It will be of stone, with slate roof, steam heat, electric light, and cost $30,000.

Architects J. K. & A. B. Pond have drawn plans for J. A. Miller, on Woodlawn avenue and Fifty-fifth street, for a three-story and basement apartment building, 50 by 84 feet, to cost $26,000. It will be of buff and brown pressed brick with stone trimmings, slate and gravel roof; cost $20,000. For William M. Craig, on Forty-eighth and Kenwood avenue, two three-story and basement residences; to cost $22,000. Also two-story suburban villa, to be erected at Evanston, for James T. Hatfield. They are also getting out drawings for a three-story academy, two three-story and basement dormitories and several cottages for the Lake Forest University. The academy will contain a chapel with seats for four hundred. They are also working on plans for a four-story tenement, 50x80 feet, for E. B. Smith, to be erected on Lake avenue near 56th street. It will have all modern improvements and cost $20,000.

Architect Perley Hale has drawn plans for C. W. Lasher, corner of Fulton and Robey, a two-story flat building, 75 by 125 feet in size, of pressed brick and stone; cost $21,000.

Architects Beers, Clay & Dutton have just let contracts for the four-story and basement apartment house to be erected at 3450 Prairie avenue, for C. E. Adams. It will have a stone front of handsome design, with stone bays, hardwood interior finish, electric light, steam heat, hot water plant, etc.; the cost will be $30,000.

Architect L. G. Hallberg has drawn plans for W. A. Hansburg, on Stony Island avenue between Seventieth and Seventy-first streets, for a three-story flat building, 50 by 72 feet, to be of pressed brick and stone and cost about $15,000.

Architects Mayo & Curry are remodeling building corner of Ohio and Rush streets, "Granada flats"; they will put in marble wainscoting, mosaic floors, hardwood finish, steam heat, electric light, and all the modern conveniences; the cost will be about $35,000. For J. Clark, at Oak Park, a two-story frame residence, to have stone basement, hardwood finish, furnace, etc.

Architect Charles S. Frost has drawn plans for James Ingram, on Michigan avenue near Twenty-second street, a seven-story store and apartment house, 50 by 119 feet; to cost $125,000. The first two stories will be of stone and above of buff pressed brick and terra cotta. He is also preparing plans for a pretty station, to be erected at Rockford, Illinois, for the Chicago & North Western Railway Company. It will be of rock-faced stone and pressed brick with slate and copper roof; and cost about $25,000.

Architects Wilson & Marble have the following plans: For W. H. Pruyn, on Drexel boulevard, Nos. 247 and 249, two three-story residences, 50 by 80 feet in size; to cost $40,000. The fronts will be of very attractive design in Bedford and Portage brownstone. The interiors will be handsomely finished in hardwoods, with marble wainscoting, tile and mosaic floors, specially designed consols and mantels, hot-water heating, electric light, etc. For Thos. W. Phillips they are designing two fine three-story residences, to be erected on Wrightwood avenue, 150 feet east of Hampden court. They will have stone fronts, slate mansards, and gravel roof; hot-water heating, electric light, hardwood interiors and the finest sanitary arrangements; they will cost about $30,000. For W. H. Moore they designed a two story barn, 32 by 100 feet in size, to be built at 29 Wabash avenue. For Berriman Brothers, two three-story residences, to be erected at 1911 to 1913 Diversey street. They will have stone fronts, steam heating, electric light, and all improvements, and cost about $40,000. For John G. Wilden, on Prairie avenue near Forty-sixth street, a three-story residence, to have a stone front, hardwood interior, hot-water heating, electric light; cost $20,000. For Mrs. M. Wert, on the northwest corner of Kimball avenue and Jackson boulevard, a three-story and cellar flat building; to be of stone front with galvanized iron cornice; steam heating, electric light, all the sanitary improvements, and cost about $20,000. Have just completed plans for the Everett apartment house, to be erected on Washington avenue and Fifty-sixth street. It will be a handsome four-story structure covering a ground space of 150 by 100 feet. The basement will be of rock-faced stone and above this will be of pressed brick and stone; steam heating, electric light, marble and tile work, gas ranges and fireplaces and the best of plumbing and modern conveniences will be put in; cost about $150,000.

Architect W. D. Cowles has the following: For E. D. Murray, on South Chicago avenue near St. Lawrence avenue, a three-story store and flat building, 68 by 67 feet in size; to have pressed brick and stone front, hardwood finish, plumbing, electric wiring, etc.; cost about $20,000. For the same owner, on Cottage Grove avenue near South Chicago avenue, a four-story store and flat building, 63 feet front and 76 feet deep; to be of pressed brick and stone, with copper bays and corner tower of slate and copper; the cost will be about $30,000.

Architect C. M. Palmer has designed for Potter Palmer, on Huron street near the lake, a block of five four-story residences, 102 feet frontage by 77 deep; to be of blue Bedford and buff stone fronts. For Mrs. H. D. Piatt, at 4423 Prairie avenue, a three-story residence, 25 by 70 feet; to be of Bedford stone front.

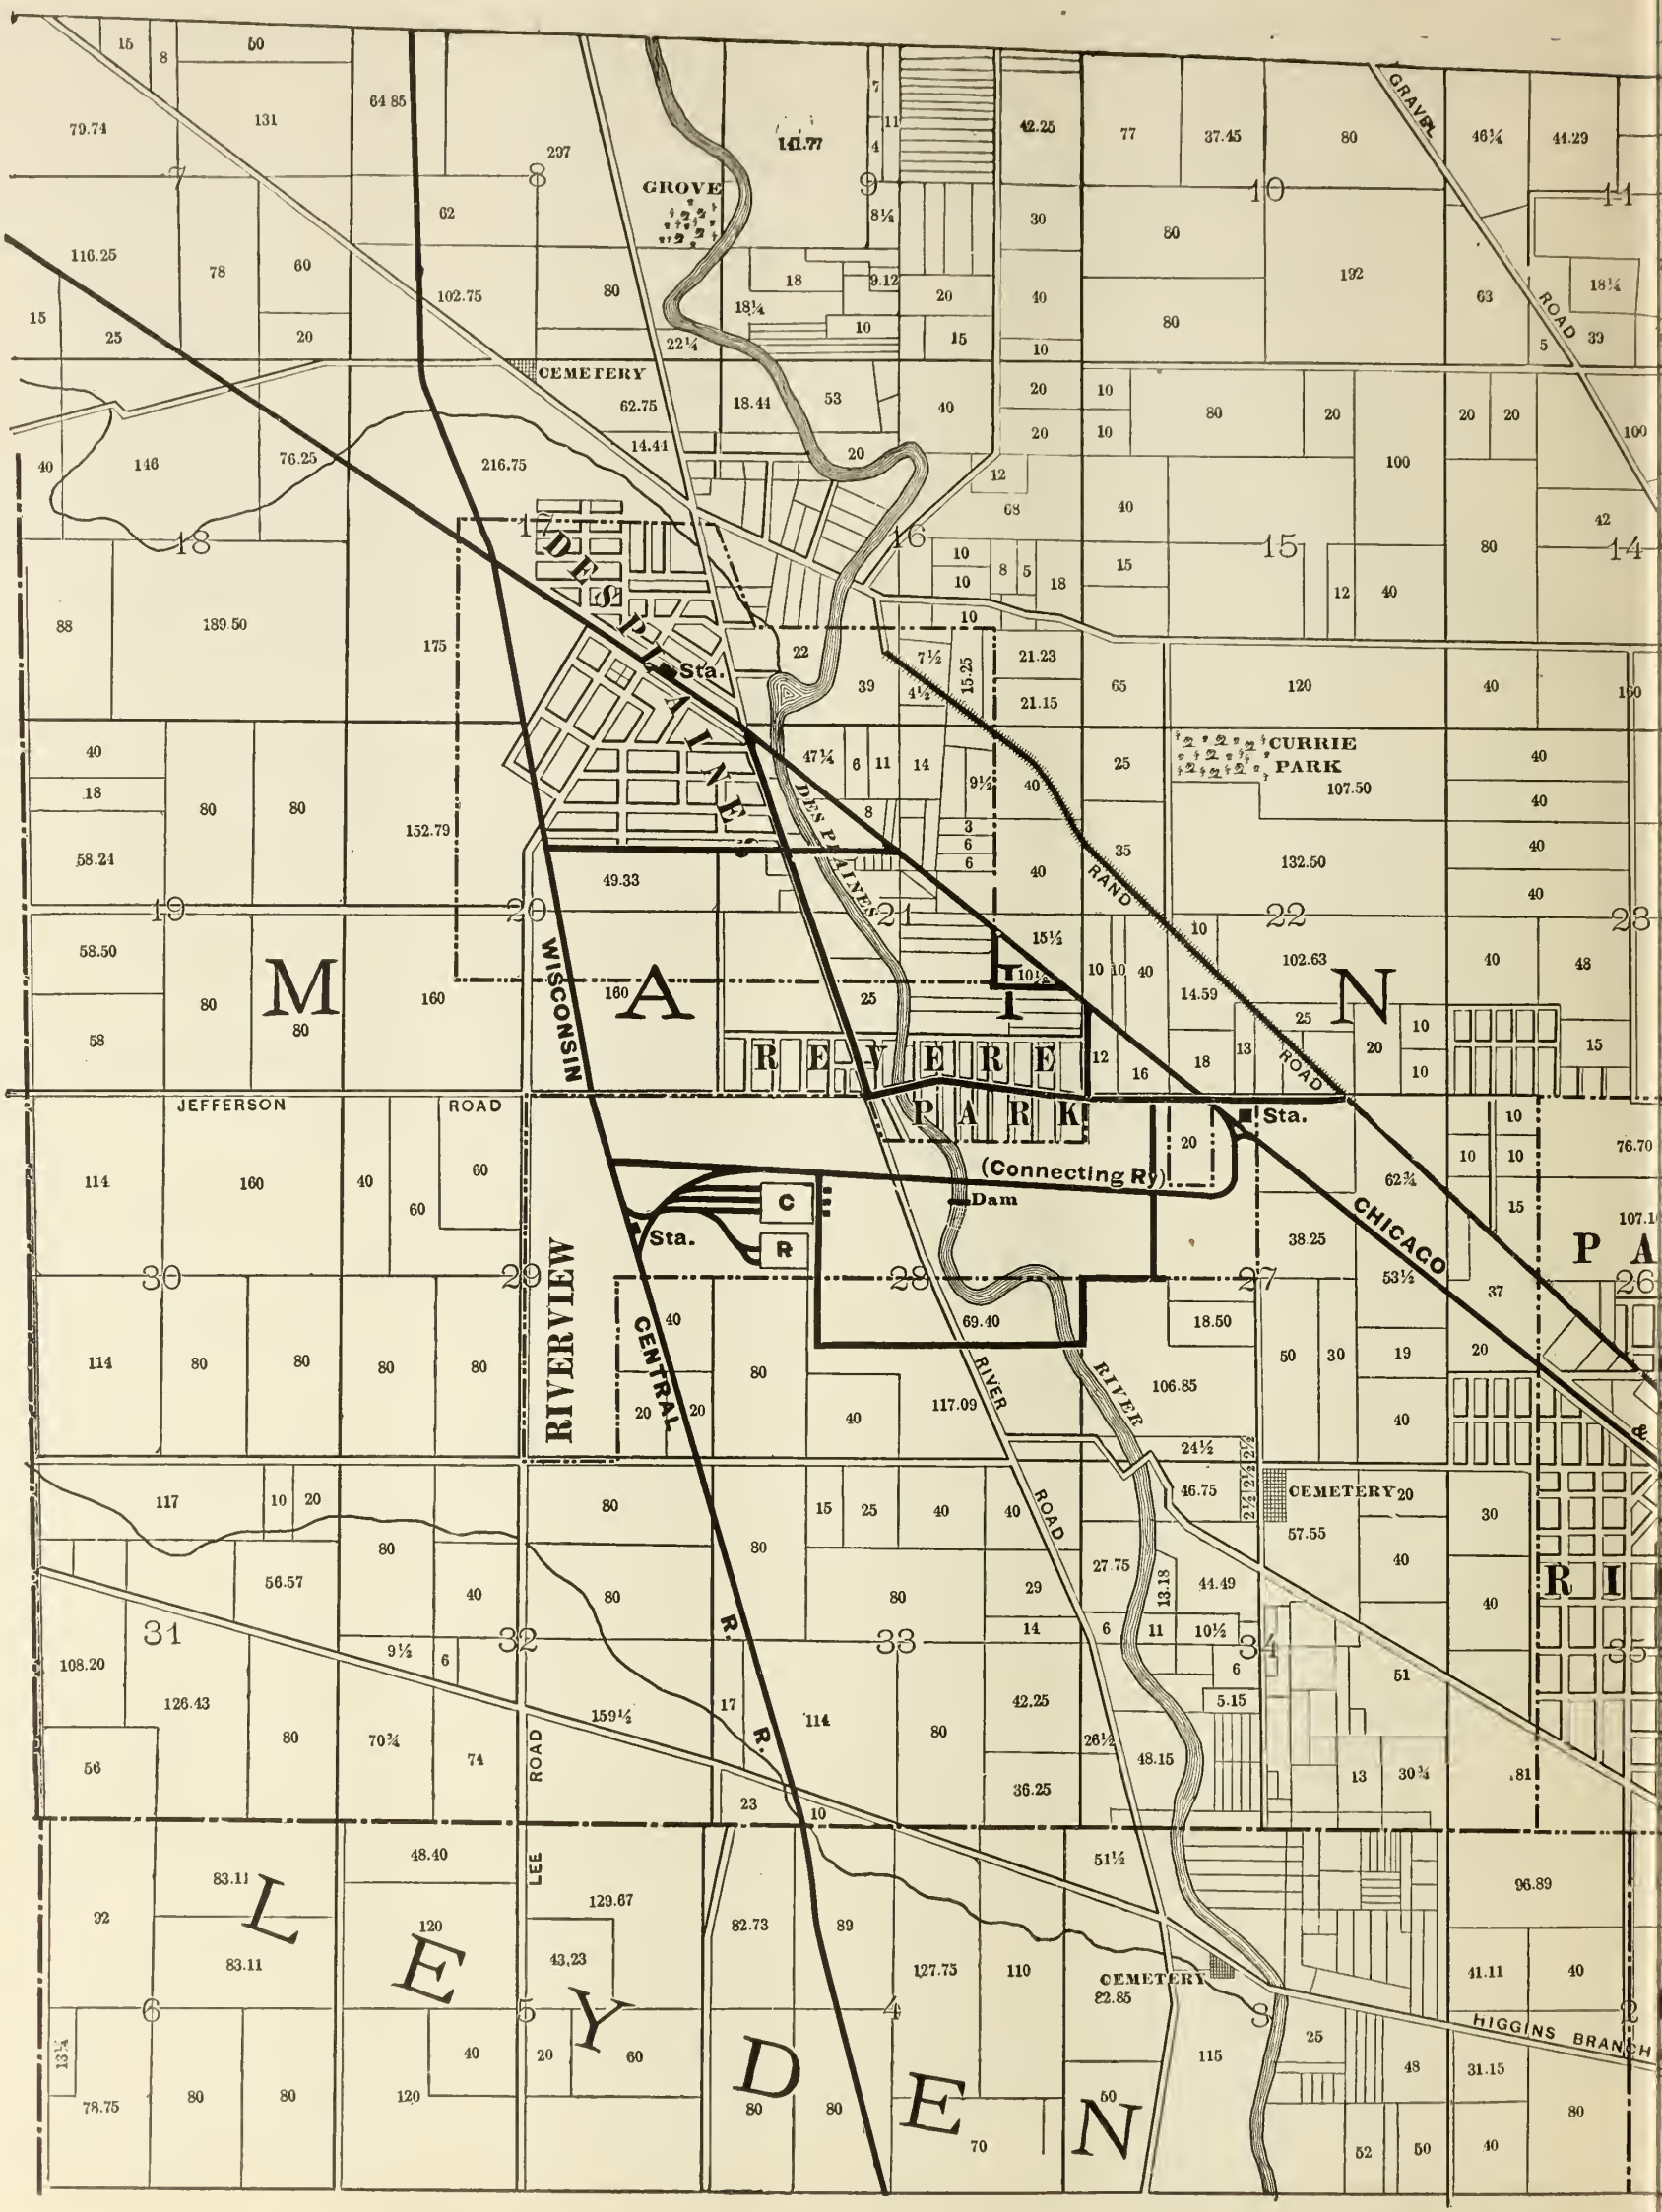
Architect Thomas Wing is making plans for a five-story addition to the plant of D. H. Fritts, on Smart street near Austin avenue. It will be of pressed brick and stone front, 50x125 feet; and cost $20,000.

Architect W. T. Lesher is making plans for a four-story and basement store and flat building, to be erected on Indiana street near Ada, for George Fairweather; to be of pressed brick and stone front, and cost $12,000. For Frank Murphy, on Fifty-fifth boulevard near Halsted street, a three-story flat building, of pressed brick and stone; to cost about $18,000. For Charles Urath, corner Elkhorn avenue and Lincoln street, a three-story store and flat building, of pressed brick and stone, 106 feet front by 75 deep; to cost $35,000. For John Morton, on Fremont street east of Belmont avenue, two three-story flat buildings, of pressed brick and stone fronts, copper bays, hardwood trim, etc.; to cost about $16,000. He is also finishing drawings for a five-story hospital, 135x160 feet in size, to be erected corner of Lincoln and Congress streets, for the Railway Brotherhood Association. For John N. Cooper, on Indiana street to Illinois street east of St Clair street, a two-story livery etable, 66 by 218 feet in size, to be of pressed brick and stone, and cost about $30,000.

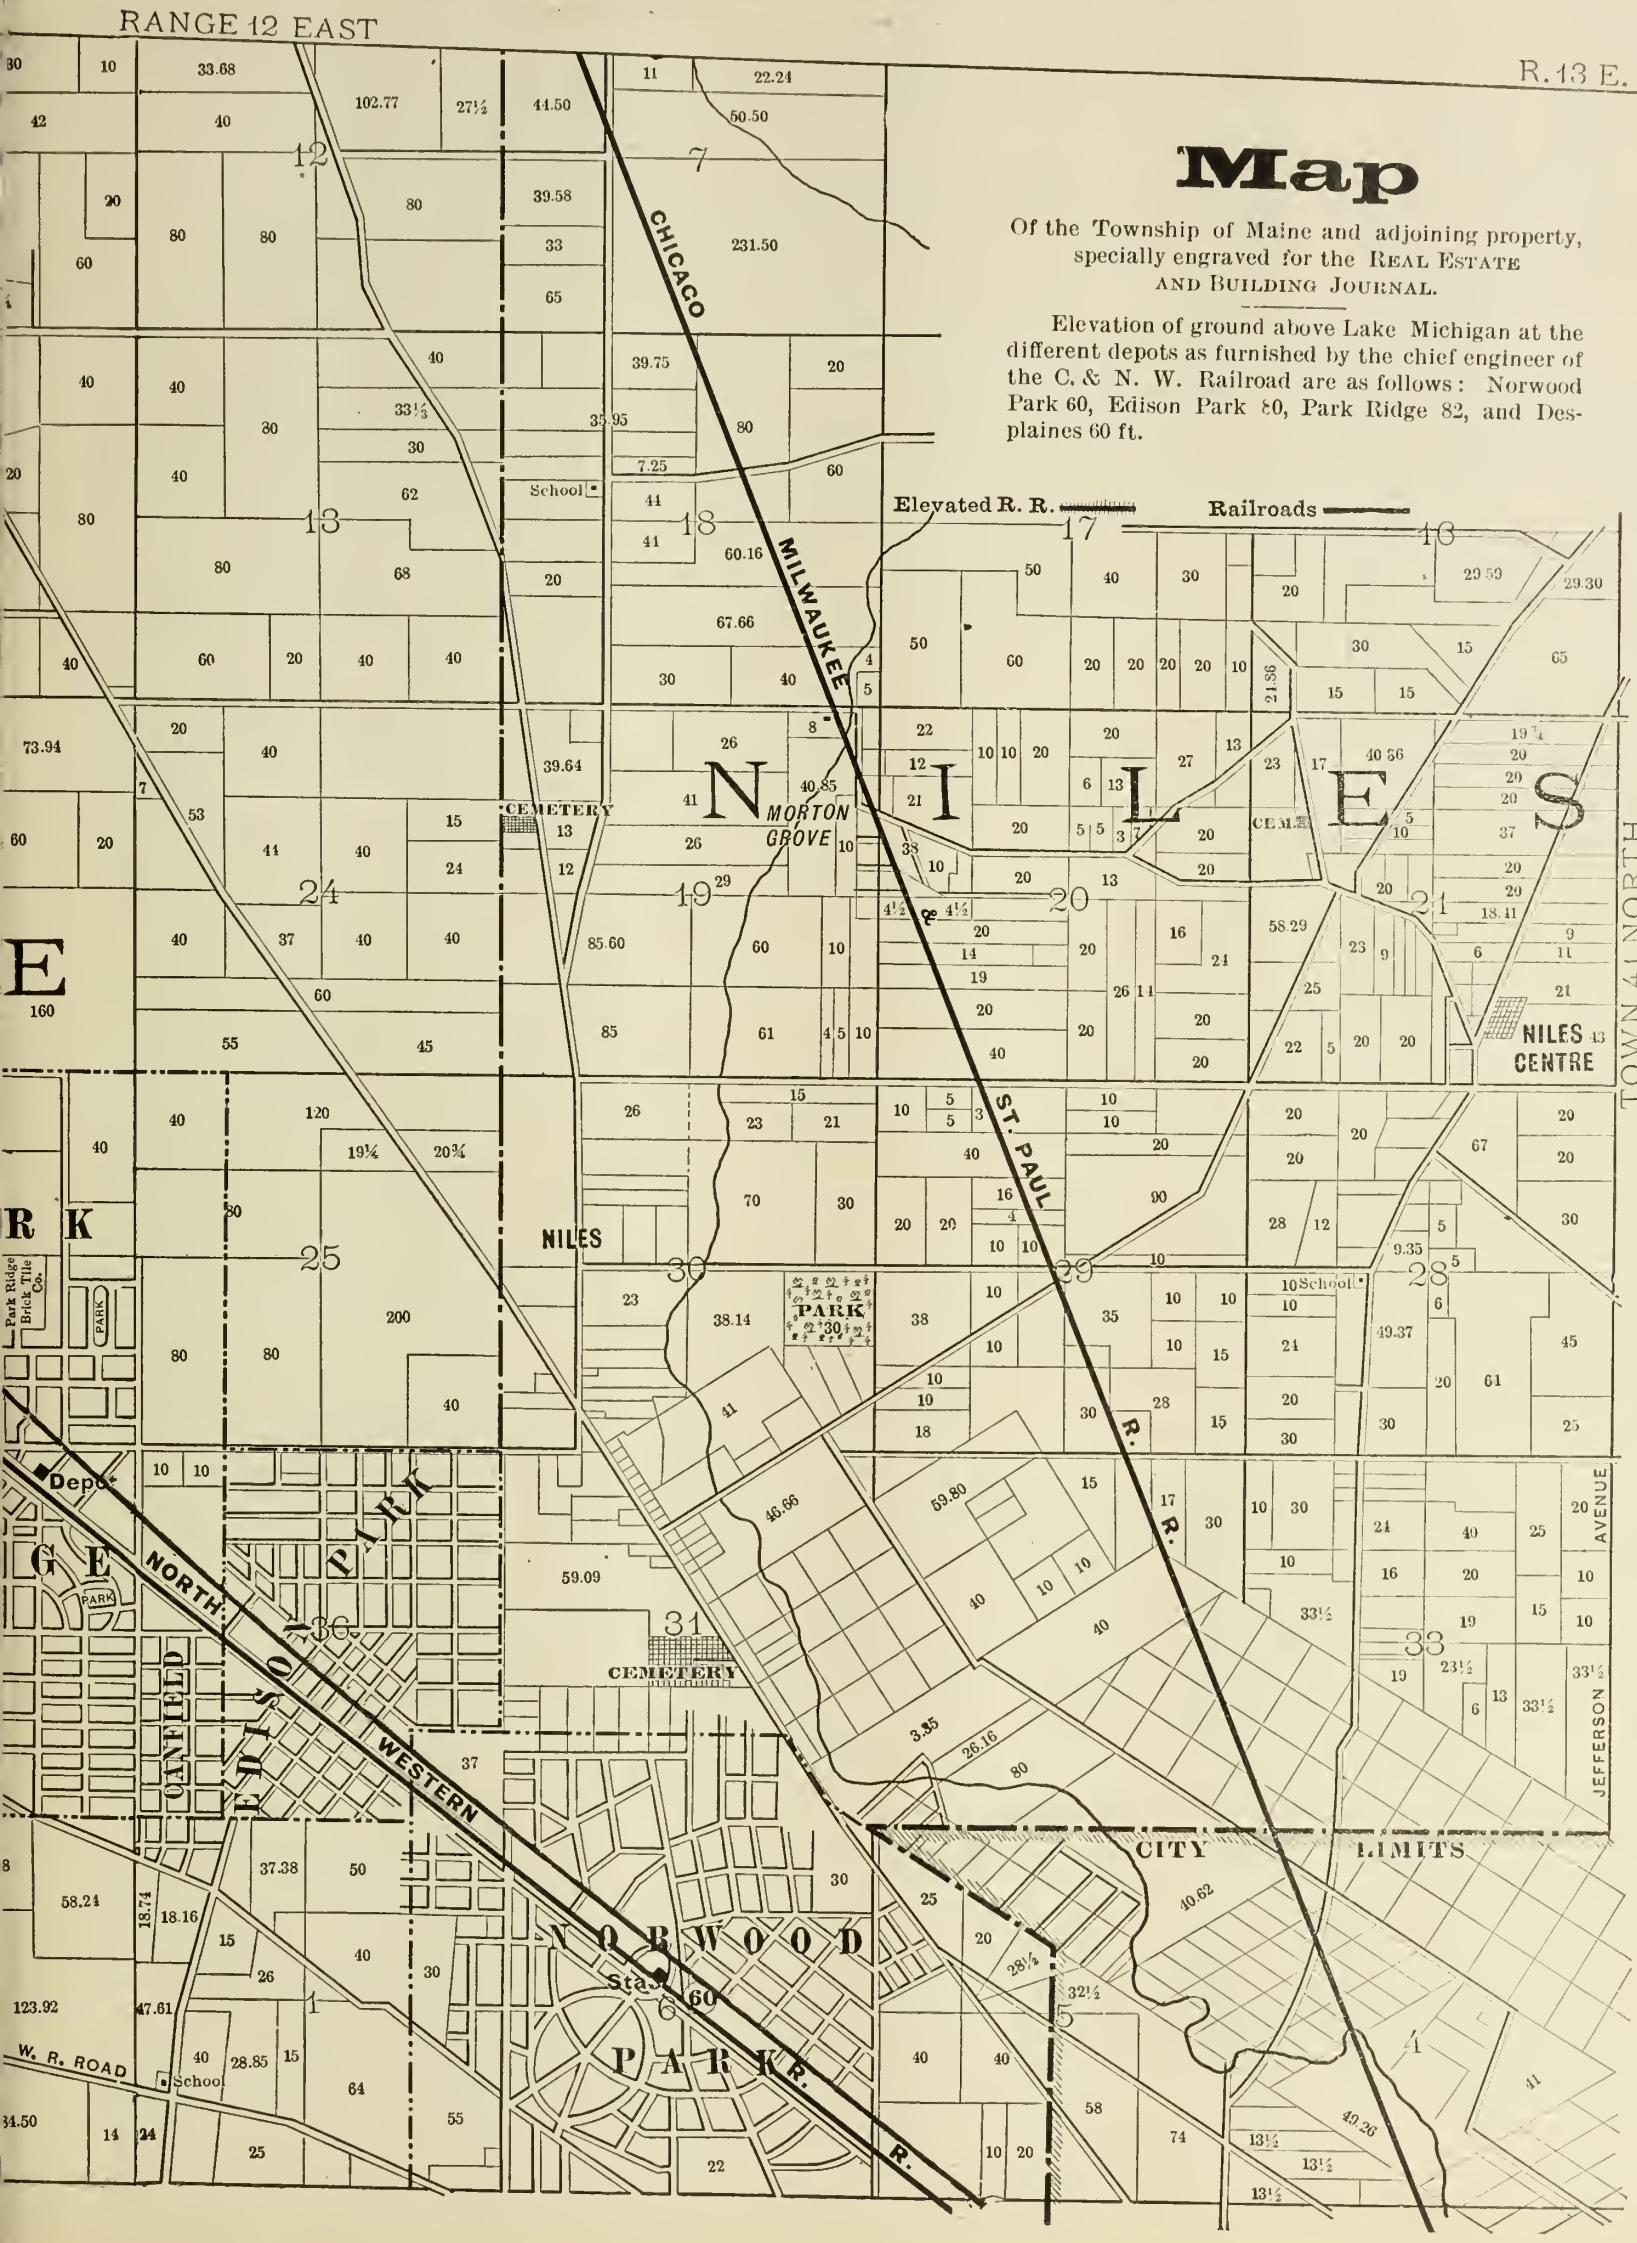
Architect A. L. Schellenger has made plans for remodeling the Central Church of Christ, on Thirty-seventh street and Indiana avenue. He will put on a new front seventy-three feet; will be all of stone; also raise up the old building eight feet and build underneath of stone. The interior will be thoroughly renovated and have added steam heating, electric light, stained glass windows, etc. The seating capacity will be increased 500, making the accommodation 1,100. He is also getting out drawings for a Methodist Episcopal church, 68 by 110 feet in size, to be erected on 55th street and Emerald avenue. It will have a handsome stone front, slate roof, steam heat, electric light, stained glass windows and all the improvements.

Architects Marston & Hotchkins have plans for a two-story frame residence for Elias Benzing, at Sheridan Park, to have stone basement, electric wiring, furnace, etc. For M. Schelgren, at Ravenswood, a two-story residence; to be of frame with brick basement, have all the sanitary improvements, furnace, etc. For La Grange Water Works Company, a two-story frame residence with brick basement, sanitary plumbing, furnace, etc. Also making plans for power house at Covington, Indiana, for the Covington Water Works Company; to be of brick with slate roof, electric light, etc.

Architect Ira C. Saxe: For Ed. Lundy, on Rhodes ave., near Sixty-first street, a two-story flat building, of pressed brick and stone. For W. E. Coman, at Ravenswood; a two-story flat building, to be of stone and pressed brick. Also for same owner, on Ellis avenue near Thirty-sixth street; a three-story flat building, of pressed brick and stone. For A. Shook, on California avenue near Ogden, a three-story flat building, 52 by 88 feet; to cost about $15,000.



Architect F. L. Fry: For Simon Straus, at 62 West Madison street; a three-story furniture store; 40 by 100 feet; to cost $15,000. Pressed brick and stone front, electric light and all improvements. For Mr. Falkner, on Drexel avenue and Fifty-ninth street; a two-story flat building of pressed brick and stone front. For Michael Graf, at Irving Park; a two-story frame residence. For T. M. Simmons, on Twelfth street near Lincoln; a three-story store and flat building; 50 by 75; to cost about $20,000. Pressed brick and stone front, with galvanized iron bays, all sanitary improvements, electric wiring, etc.



Architect W. H. Drake: For W. H. McDonald, on the northwest corner of Twenty-seventh and Dearborn streets; a four-story flat building and one store; to be of pressed brick and stone, galvanized iron bays and cornice; to cost about $15,000. For H. E. Bennett, on the northeast corner of Armour and Twenty-seventh streets; a four-story flat building; 48 by 100 feet; to be of pressed brick and stone front, with first story and basement of stone; cost $25,000.

A report has just been made by the special treasury agent regarding the tin and terne plate industry of this country for the year ending June 30. It shows that during this period 13,240,000 pounds of tin and terne plate were manufactured. Of this amount 8,000,000 lbs. were produced during the last three months and of this amount 5,000,000 lbs. were made of American black plates. In addition, 2,000,000 lbs. of manufactured articles not included in the above classification were tinned. A much larger production is predicted for the current year than for the year just closed.

At a recent meeting of the Mutual Fuel Gas Co. of Chicago it was decided that the control of the company under no circumstances would be sold. This is the only company which has successfully withstood the blandishments and threatenings of the Gas Trust. A resolution was adopted authorizing the President to call a meeting of the stockholders to vote on a proposition to increase the capital stock from $500,000 to $1,000,000 or $2,000,000. T. B. Leiter and A. E. Smythe resigned as directors and were succeeded by John J. Mitchell and J. C. Welling.

AGENTS' BUDGET.

Recent sales, however small, not yet recorded, will be reported in this column. All matter must apply to the real estate business and real estate men.

The real estate house of Andrew Dunning, 92 LaSalle street, is actively engaged in exhibiting plats of acre property and subdivisions located in the towns of Maine and Jefferson which are owned and controlled by Mr. Dunning. They have just sold some choice property in localities along the line of the Chicago, Milwaukee & St. Paul railway and the new electric line between Desplaines and the city limits. The firm has on its books some of the finest acre property in the market. The land is high, dry and beautiful and is sold at astonishingly low figures, considering its advantages.

Peter Van Vlissingen reports, among others, the following sales: Charles H. Wacker to Fred Kleene, northeast corner of Division and Wood streets, lot 24x100, vacant, price, $5,000. A. D. Schwartz to W. G. Keith, premises No. 896 West Madison street, lot 24x125, three story, stone front store and flat building. Price, $13,500. Robert H. Kern to Anton Carlson, 14 lots on Phinney avenue between Ohio and Huron streets, $5,000. Aaron N. Young to estate of John D. Jennings, southeast corner of West Madison and Lincoln sts; three story stone front store and flat building, lot 25x125 feet; $33,000. E. J. Delaney to E. F. Cullerton, Vincennes avenue, east front, 98 feet south of Seventieth street, 50x134 feet, $2,500.

Wm. A. Merigold & Co. report the following among other sales made during the past few days: The premises No. 3821 State street for $20,500. Twenty-three feet on West Madison street opposite Garfield Park race track, with frame improvements being No. 1973 for $5,500. Residences with 75 feet on West Twenty-fifth street just west of Crawford avenue for $3,200. Residence with 50 feet on West Forty-second street between Twenty-ninth and Thirtieth streets for $2,500. Twenty-five feet on West Twelfth street, 25 feet east of Forty-first street, north front, $1,200. Southwest corner Crawford avenue and West Twenty-fifth street, 33x115 feet for $1,150. One hundred feet on West 41st street between 13th and 14th streets for $2,400. Southwest corner Crawford av. and West Twenty-eighth st., 50x124 for $1,150. Seventy-five feet on Crawford avenue just north of Thirtieth, east front, $1,450. Fifty feet on West Forty-second street between Twenty-ninth and Thirtieth streets for $900. Twenty-five feet on Noble street 125 feet east of Wood street, south front, $700. Fifty feet on West Forty-first street near West Twenty-ninth street for $800. Fifty feet at South Oak Park for $700.

Messrs. Huck and Young have issued an attractive descriptive handbook about their new building at the southwest corner of Harrison street and Blue Island avenue, the New Era. The floor plans, as published, show that the first two stories will be arranged for stores, the floors from the third to the sixth inclusive will be divided into offices and the seventh floor will be divided to suit tenants. There will be 160 offices in the building. Construction is now under way and the work is to be completed by April 1.

Frank S. Betz has sold for F. R. Westlake to Duncan Beveridge 100 feet on Seventy third street, north front, near Jefferson avenue, for $4,500. The buyer has already received several offers to lease the property for hotel purposes, one of which he will probably accept.

Fessenden & High have sold for Fanny E. Carlton to E. R. Ely 100 by 151 feet on Michigan street, between Lincoln avenue and Lee street, Evanston, for $4,750. The purchaser intends to erect a fine residence on the lot.

Charles S. Smith, secretary of the Kenilworth company, reports the sale of 100 feet fronting on Irving avenue in Kenilworth to W. H. Sears, who will build an attractive house at once on the lot. Also a choice corner to Mrs. B. A. Stampapski, for immediate improvement.

Hall, Dresser & Co. report the sale of the northwest corner of Vincennes avenue and Forty-sixth street, by Mary S. Young to B. Newton.

J. E. Colvin & Co. have sold for J. R. Evans and J. Bayston the block of twelve flats, at Campbell avenue and Taylor street to W. F. Merle for $18,000 cash.

The Chicago National Stock Yards company has secured the removal of a cloud to their title to 474 acres of land in the southern portion of Cicero, created by 100 feet right of way which was granted to the Chicago Belt Line railroad company in 1880. The latter corporation was held to have forfeited its right of way because it never organized its corporate powers, having eventually abandoned its enterprise.

Rexford & Bellamy report the sale of fifty feet on Wabash avenue and Forty-ninth street for $5,500. The property is to be improved with fine 3-story buildings.

Benjamin Bissinger reports the sale in connection with W. A. Pridmore of the northeast corner of Forty-seventh street and Langley avenue, 54x153 feet, for $13,500 the purchaser assuming taxes and assessments for 1892.

STREET IMPROVEMENTS.

ORDERED AND APPROVED BY THE COUNCIL.

NOTE—Abbreviations signify: c, curbing; g, grading; m. macadamizing; p, paving; f, filling; w. s., water service; swk, sidewalk; lp, lamp-posts.

A CHOICE LIST OF SUMMER RESORTS..

In the Lake regions of Wisconsin, Northern Michigan, Minnesota, Iowa, and the two Dakotas, there are hundreds of charming localities pre-eminently fitted for summer homes. Among the following selected list are names familiar to many of our readers as the perfection of Northern summer resorts. Nearly all of the Wisconsin points of interest are within a short distance from Chicago or Milwaukee and none of them are so far away from the "busy marts of civilization" that they can not be reached in a few hours of travel by frequent trains over the finest roads in the northwest—the Chicago, Milwaukee & St. Paul Railway, and Milwaukee & Northern Railroad:

Oconomowoc, Wis,	Clear Lake, Ia.
Minocqua, Wis.	Lakes Okoboji, Ia.
Waukesha, Wis.	Spirit Lake, Ia.
Palmyra, Wis	Frontenac, Minn.
Tomahawk Lakes, Wis.	Lake Minnetonka Minn.
Lakeside, Wis.	Ortonville, Minn.
Kilbourn City, Wis. (Dells of the Wisconsin)	Prior Lake, Minn. White Bear Lake, Minn.
Beaver Dam, Wis.	Lake Madison, So Dakota.
Madison, Wis.	Big Stone Lake, So. Dakota.
Delavan, Wis.	Elhart Lake, Wis.
Sparta, Wis.	Ontonagon, Mich.
Pewaukee, Wis.	Mackinaw, Mich.
Wausaukee, Wis.	
Marquette, Mich.	

For detailed information apply to any coupon ticket agent, or send stamp for a free illustrated tourist folder to Geo. H. Heafford, General Passenger Agent, Chicago, Ill.

A CHOICE LIST OF SUMMER RESORTS.

In the Lake regions of Wisconsin, Northern Michigan, Minnesota, Iowa, and the two Dakotas, there are hundreds of charming localities pre-eminently fitted for summer homes. Among the following selected list are names familiar to many of our readers as the perfection of Northern summer resorts. Nearly all of the Wisconsin points of interest are within a short distance from Chicago or Milwaukee and none of them are so far away from the "busy marts of civilization" that they can not be reached in a few hours of travel by frequent trains over the finest roads in the northwest—the Chicago, Milwaukee & St. Paul Railway, and Milwaukee & Northern Railroad:

Oconomowoc, Wis,	Clear Lake, Ia.
Minocqua, Wis.	Lakes Okoboji, Ia.
Waukesha, Wis.	Spirit Lake, Ia.
Palmyra, Wis	Frontenac, Minn.
Tomahawk Lakes, Wis.	Lake Minnetonka Minn.
Lakeside, Wis.	Ortonville, Minn.
Kilbourn City, Wis. (Dells of the Wisconsin)	Prior Lake, Minn
	White Bear Lake, Minn.
Beaver Dam, Wis.	Lake Madison, So Dakota.
Madison, Wis.	
Delavan, Wis.	Big Stone Lake, So. Dakota.
Sparta, Wis.	
Pewaukee, Wis.	Elhart Lake, Wis.
Wausaukee, Wis.	Ontonagon, Mich.
Marquette, Mich.	Mackinaw, Mich.

For detailed information apply to any conpon ticket agent, or send stamp for a free illustrated tourist folder to Geo. H. Heafford, General Passenger Agent, Chicago, Ill.

Public Notice.

FOR COMPUTERS AND DRAFTSMAN.

The Civil Service Commission will hold examinations on the 28th of June, continuing through the 29th, to fill two vacancies in the position of computer in the Coast and Geodetic survey at $1,000 a year, and one in the position of Draftsman at $900. Arrangements may be made to hold the examinations in some of the large cities outside of Washington, if there should be applicants. The subjects of the Computer's examination will be orthography, penmanship, letter-writing, algebra, trigonometry, geometry, geodesy and practical astronomy and differential and integral calculus. The subjects of the drafting examinations will be letter-writing, geography, arithmetic, algebra, geometry, descriptive geometry, plane and spherical trigonometry, shades and shadows, and drawing. Application blanks may be had of the Civil Service Commission. Residents of the District of Columbia are ineligible. Applicants will be required to furnish the necessary implements for drawing. JOHN T. DOYLE
Sec'y U. S. C. S. C

CASINO.

Haverly's Mastodon Minstrels are, without question, the most complete organization that has ever appeared in Chicago, and their performances at the Casino (Eden Musee) have been endorsed in most thorough manner by all classes of amusement seekers. Particularly attractive are the entertainments to out-town visitors, who after an inspection of the various objects of interest in the Musee department, attend the minstrel concerts. The program of the past week has been very pleasing, but the coming week will be a gala week, commemorative of Ireland's patron saint, St. Patrick, the great and good, whose birthday is celebrated throughout the entire civilized world. The program will include all the members of the company, and Irish ballads will predominate. The theater will be decorated and draped with the national colors and flags, and our beautiful wax figure of Robert Emmett will be exhibited free. A new singer will be heard in the person of Mr. Albert Yale, well known to all Canadians as a vocalist of much merit. Banks Winter the celebrated tenor, will have a new song. The comedians Rice, Hall, Denton, Rudworth, Bogert, and O'Brien will have new specialties. Ellwood, the wonderful male soprano, will display new feminine toilets. Constantine, the dancer, will execute new solos, and Harry Budworth will repeat his new repertoire. The latter's song, "Come to Baltimore," has "caught the town" and is encored three and four times every perfo mance. Altogether, the week will be one long to be remembered, and all desirous of hearty, wholesome pleasure should not fail to attend. "Excelsior" is Mr. Haverly's motto. Much has been done by this gentleman "but more remains behind."

THE
CHICAGO,
MILWAUKEE
AND ST. PAUL
RAILWAY CO.

Owns and operates 5,650 miles of thoroughly equipped road in Illinois, Wisconsin, Iowa, Missouri, Minnesota and Dakota.

It is the Best Direct Route between all principal points in the Northwest, Southwest and Far West.

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory, rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,

Industrial Commissioner,

C, M.. & St. Paul R'y, 160 Adams St., Chicago, Ill.

FRANKLIN PARK 90 feet above Lake Michigan. "EXCELSIOR" Is Its Motto.

What a Word of Significance in these simple Figures for the safe Guidance of the prudent Man who, in locating a Home for his Family, would put high above all minor Considerations,

The Priceless Boon of Health.

FRANKLIN PARK is the Growth of less than two Years. It is the suburban Terminus of the Chicago & Northern Pacific R. R., and is situated at the Intersection of the Wisconsin Central R. R. with the Chicago, Milwaukee & St. Paul R. R. It is 90 feet above Lake Michigan, 11 miles from the City's centre, 2 1-2 miles west of the City limits and is accommodated by 54 passenger trains daily. It has the two finest suburban depots west of the City, costing over $5,000 each, a spacious hotel, a fine block of stores, scores of attractive residences, miles of side-walk, sewers and shade trees and an abundance of wholesome water.

On its western border is MANHEIM, the nucleus of extensive manufacturing concerns and destined to be a busy centre of diversified industries.

You areWelcome any Sunday or any Weekday, to a free Ticket for the Inspection of this,

The Highest Suburb of Chicago.

My Sunday Trains leave on { Chicago and Northern Pacific R. R.
Chicago, Milwaukee and St. Paul R. R.
At one o'clock P, M

Besides the Sanitary Excellence of this Richly-Favored Locality, FRANKLIN PARK Lacks not a single Element

OF A PERFECT SITE FOR A HOME.

FULL COMMISSION TO AGENTS.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

DOLESE & SHEPARD, 162 Washington Street, Chicago,

HAVE BEEN AWARDED A CONTRACT AMOUNTING TO

ONE HUNDRED AND SEVENTY THOUSAND DOLLARS

($170,000) for the purpose of macadamizing 17 miles of streets and building stone sidewalks.

NO ASSESSMENT will be made for the improvements, the Association assuming the entire expense. The wise and prudent people who invest a small amount of money in CHICAGO HEIGHTS property will in a comparatively short time reap large benefits. No sane person can question the wisdom of making an investment in Chicago property.

Four large factories are in full operation and contracts closed with several others. A large number of residences and business houses in course of construction, also an extensive factory building for Roth & Englehardt, Piano Manufacturers of New York.

STABILITY OF THE ENTERPRISE

The following well-known gentlemen are among the promoters of Chicago Heights:

GENERAL OFFICERS OF THE CHICAGO HEIGHTS LAND ASSOCIATION:

TRADE AND FINANCE.

All comparisons of the business of the current year with that of the year 1891 show a handsome increase for 1892. On the contrary nearly all comparisons with the year 1890 are unfavorable to the present year. This is true of the gold reserves as well as of the clearing-house totals. The clearings of the London banks for the first six months of the year were £3,282,000,000 against £3,594,000,000 for the corresponding six months of 1891, and £3,976,000,000 for the first half of 1890. This shows a steady contraction of general business in England since the financial stringency in the fall of 1890. On this side of the water the conditions are entirely different. Large crops have sustained and increased our prosperity instead of decreasing it. The volume of business has sensibly grown since 1891, though in many departments it has fallen off as compared with 1890. The prospects for the fall of 1892 are brighter than ever before. With good weather for harvesting, the present season will prove to be the most prosperous for many years.

The large amount of ready money required for gathering and marketing the crops throughout the west and northwest is destined to make Chicago the financial center of the interior. Heretofore there has usually been a lack of funds throughout the west during the fall months, and bankers have been compelled to send to the east for money to carry the crops. Now, these conditions have become slightly changed. We are told by prominent bankers that much of the money that was sent west to move the crop of 1891 remains in the western banks and that it will not be necessary this year to import from the east so much currency as heretofore. The tendency seems to be to keep the necessary money in the west, or, in other words, in the Chicago banks. The result is that Chicago is fast becoming in a larger and more important sense than heretofore the financial center of the interior. The supply of currency in the west is now said to be greater than ever before. The 5, 10, and 20-dollar bills are plentiful for this time of year. It is believed that the west is fast outgrowing its financial dependence on the east.

The abundance of money continues to have a depressing effect on interest rates, and bankers complain that the demand is not yet strong enough to restore the rates which obtained previous to the general reduction last spring. Yet the demand for loans for speculative and trade purposes is unusually good for this season of the year. Call loans are made at from 4 to 5 per cent, and it is doubtful if there will be any material increase in the rate later on.

Banking business in Chicago is said to be good, notwithstanding the contrary indications furnished by the failure of several private banking institutions within a year or two past. A number of local banks have suffered of late from the depredations of dishonest employes, but as the policy is to demand a bond from all clerks holding important positions, it is thought that no serious losses can result in this manner. During the current week the announcement has been made of the formation of a new national bank. The new institution is to be called the Market National, and will probably have offices in the Unity building. It will have a capital of $1,000,000. A. F. Seeberger is mentioned as president and Seymour Walton as cashier. Among the names proposed for the directory are those of Julius S. Grinnell, F. T. Wheeler John M. Lanehart, S. D. Kimbark, John B. Inderreiden, Charles E. Simmons, Charles H. Ferguson and C. W. Hillman.

The gold shipments which have caused such uneasiness in Wall street still continue, but it is difficult to see how they can be maintained at the present rate for many months. Previous purchases of gold by Europe have been made with American securities but the time is coming when this resource will be practically exhausted, and with the balance of trade so enormously in our favor the tendency of gold will then be in our direction. The fact that the United States is the only country on the globe that can stand such heavy drains on its gold resources without serious consequences is only another illustration of our unexampled prosperity.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of 69 leading cities for the week ending July 29, 1892, as compared with those of the corresponding week last year, with percentages of increase and decrease.

CITY.	WEEK ENDING JULY 29, 1892.	WEEK ENDING JULY 30, 1891.	PER-CENTAGES.

Totals, Can	$19,537,476	$10,093,095	

†Not included in totals.

Only nine cities show decreased returns this week as against forty-eight which show increases. The highest percentage of decrease is 39.2, while the highest percentage of increase is 60.5. San Francisco as usual shows a decrease. Buffalo, which has heretofore exhibited gains, now returns a decrease of 11.4 percent. Indianapolis is wrongly reported by the commercial agencies as losing 26.1 percent. Our returns show that she has gained 47.8 percent. Duluth and Nashville as usual are falling far behind. As regards Duluth, it is difficult to give a reason for this fact. The growth of this city has been so rapid and the predictions of her future greatness have been so generous that it is contrary to all expectations to find her falling behind, especially at this time of year when the wheat crop is just beginning to move. Perhaps some of our enterprising Duluth friends can give a rational explanation of this apparent falling-off in the business of their wonderful city. A few other decreases are shown by the table but all of moderate amounts.

The increased percentages are noticeable this week on account of their size quite as much as from their number. Memphis shows the remarkable increase of 60.5 percent. Tacoma returns 55.8 percent; Des Moines, 48.2; Sioux City, 47.5, and so on through the list. All of the percentages, however, are large. Chicago increased 23.4 percent. The percentage of increase of Chicago's returns is greater than that of any of the other leading cities of the Union. A glance at the recent school census reports will afford a clue to the reason for the rapid growth of the city as a financial centre.

The Canadian returns as usual show an increase for Montreal and a decrease for Halifax. Toronto now exhibits a comparison also which is nearly as favorable as that of Montreal. It would seem from these figures that the maritime provinces are not so prosperous as their inland sisters.

While the table shows an increase of 13.1 percent as compared with the corresponding week last year, it also shows a decrease of $60,591,000 as compared with the previous week this year. This no doubt is to be accounted for by the intense heat and the usual dullness at this season of the year. The real comparison, however, is between this week and the corresponding week last year, and in this view there is a great improvement. At all the large centres of trade the volume of business is considerably increased. Philadelphia and Chicago are notable examples. At Philadelphia there was unusual activity in iron and coal. Dry goods also were active in spite of the weather, and wool and woolen goods particularly were in demand. At Chicago retail trade was satisfactory though the weather was excessively hot. Trade was good for the season in almost every line and collections were reported easy.

Continuing our analysis for the same weeks, but by groups of states, we have.

	WEEK ENDING JULY 29, 1892.	WEEK ENDING JULY 30, 1891.	PERCENTAGE.
New Engl'd States.	$100,611,018	$ 92,380,776	Inc 9.0
Middle "	638,896,428	560,858,455	" 14.0
Southern "	30,755,774	30,011,186	" 2.4
Western "	38,930,916	33,311,109	" 16.9
Northwestern "	122,459,738	100,560,901	" 21.7
Southwestern "	35,659,696	32,580,178	" 9.4
Far Western "	24,411,709	26,041,717	Dec 6.6
Totals,	$ 991,725,279	$ 875,744,322	

Every group except the Far Western shows an increase. The cities comprising this group are San Francisco, Denver, Los Angeles, Tacoma, Portland, Seattle and Salt Lake City. Of these only San Francisco and Salt Lake City show decreases, but these are sufficient to make the total of the group decrease 6.6 percent below the returns of last year. If the bank clearings are any indication of the relative condition of business, this has been decidedly an off-year on the Pacific coast. Residents of San Francisco claim that their city was never more prosperous, but the figures tell a different story.

In the other groups, the largest percentage of increase is that of the Northwestern, which includes Chicago, St. Paul, Minneapolis, Milwaukee and Omaha. The statement by groups is therefore unusually satisfactory, showing that with the exception of the single city of San Francisco, prosperity is general.

LOCAL STOCK MARKET.

The feature of the market for the first time in many weeks was found outside of the street railways. To be sure, they moved along in their customary manner, tapping off more high points, but they by no means monopolized the entire interest in the market as heretofore. In fact, on Tuesday not one sale of either North or West side stock was made at the Local Exchange. This is something which possibly has not happened before in years. It was no indication, however of weakness in the street railway securities, as later in the week North side reached the extreme high point of 240. This is only ten points from the 250 mark which has been set for it by the more enthusiastic among the bulls. At the same time, West side opened for the account at 194⅜ and although the trading was quite general, prices did not advance in so marked a degree as in case of the North side stock. Early in the week, a rumor was floated evidently for stock jobbing purposes to the effect that certain complications had arisen regarding stock liability in the Street Stable Car company. This came in addition to the intimation that the July earnings are unsatisfactory. The rumor in regard to the stock was to the effect that in the issue of the common stock, certain formalities had been ommitted which made the stockholders liable for the difference between the price at which the stock was originally sold and par. The break in Street Stable Car stock and the following rally in prices when it was found that the rumors were rather exaggerated, formed the interesting feature of this week. The market opened with the stock quite heavy and quoted at a fraction better than 29. On Tuesday there was a sharp break but later on a partial recovery. On Wednesday, the speculators began to realize that there was less in the disquieting rumors than they anticipated and the price opened at nearly 31. From that on the market went up to thirty-four and a fraction, with shorts covering at the different intermediate stages. The activity in the stock continued but higher prices were not registered. The explanation is now made that the common stock was issued with all due formality. The entire common stock was turned over to Mr. Streets on account of his patents. He then transferred a portion of this stock into the treasury and this was then sold at considerably below par. Streets Stable Car stock has always been a favorite speculative stock for a number of reasons. In the first place, it is low-priced and is paying an exceedingly high rate of income, considering its standing. There has always been a large short interest in the stock and whenever it breaks it is apt to go far below the natural reaction. It is now claimed that one of the officers of the company has made a practice of lending his stock and that of other stockholders to short sellers at a consideration. This has unquestionably had a tendency to keep down the values of the stock by checkmating speculative operations, while on the other hand, it has possibly created a broader market.

The general market has included besides Streets Stable Car stock and the railway securities a number of the more active Industrials. Western Stone opened early in the week with great strength. The business of the company for July is reported to be the largest for any month since the company was organized. Sales amounting to $143,000 of stone were made or over $20,000 more than the sales for June. Western Stone at last reached a point above par, selling at 101½. Later in the week, the stock showed signs of becoming heavy and declined to par and later to 98½. No reason seems to be forthcoming for this decline except that the recent advances have brought out more stock than the market could comfortably absorb. The demand for Calumet Dock is dull and the prices show no change. The dull real estate market is being felt by the company in its inability to realize on its holdings.

One of the New York firms which purchased a large block of the bonds of the Chicago Metropolitan Elevated road has advanced the retailing price of the bonds to 95 with a 10 per cent bonus of stock. When the bonds were first underwritten, a clause was inserted in the underwriter's agreement to the effect that at the option of the construction company the stock might be deposited with a New York trust company and voted by trustees selected by the construction company until the road is completed and in operation. The construction company has availed itself of the provisions of the option. The Illinois Trust & Savings Bank, as trustee for the International Packing and Provision company will soon deliver the company's bonds which are now being signed.

The bond market during the week has been fairly active but not in the degree which might be expected considering the conditions of the money market. A few of the Alley elevated railroad bonds were sold at 97½, a slight decline. A sale of the new bonds of the National railway of St. Louis, Cass avenue 5's was made at 96½. West Chicago Debenture 6's were quoted at 101½, Packing & Provision 6's at 98, Gas 5's at 91½, and North Chicago 4½'s at 96¾.

HYDE PARK PROHIBITION DISTRICT.

MAP AND ORDINANCES SHOWING THE BOUNDARIES—A FULL STATEMENT OF THE LEGAL ASPECTS OF THE CASE.

THE JOURNAL presents this week the accompanying map showing the prohibition district of Hyde Park. The explanatory marks in the margin indicate the prohibition and non-prohibition territory, also the parks, which are not in the prohibited district. From the south end of Washington Park eastward to Jackson Park is a strip 400 feet wide and a mile long, known as Midway Plaisance. This is in the prohibited district, but it is a fact that the World's Fair board has given permission to a number of villages to locate on the Midway plaisance and to sell intoxicating beverages there. It goes without saying that there is likely to be a contest over this matter between the Hyde Park Protective Association and the World's Fair Directory. The ordinance governing this subject is contained in the municipal code of the village of Hyde Park, revision of 1887, Chapter XV, paragraph 150, and is as follows:

Hereafter no license shall be issued to keep a saloon or dramshop within the territory described and bounded as follows, to wit: Commencing at the northeast corner of the Village of Hyde Park, thence west along the north line of said village to a point two hundred (200) feet east of the east line of State street; thence south and parallel with State street to the center of Fiftieth street; thence east from a point in center of Fiftieth street two hundred (200) feet east of State street to center of Cottage Grove avenue; thence south along center line of Cottage Grove avenue to center of Sixty-seventh street: thence east along center line of Sixty-seventh to center line of Stony Island avenue; thence north along the center of Stony Island avenue to center line of Fifty-sixth sixth street; thence west on center line of Fifty-sixth street to a point one hundred and twenty-five (125) feet east of east line of Jefferson avenue; thence north, parallel to Jefferson avenue to the center of Fifty-fourth place; thence east to Lake Michigan; thence northwesterly along the shore of Lake Michigan to the point of beginning.

And also commencing at the intersection of Seventy-first street and South Chicago Avenue; thence southeasterly along the center line of South Chicago avenue to the center of Greenwood avenue; thence south along the center of Greenwood avenue to the center of Seventy-fifth street; thence west along the center of Seventy-fifth street to the center of Summit street; thence north along the center of Summit street to the center of Seventy-first street; thence east along the center of Seventy-first street to place of beginning.

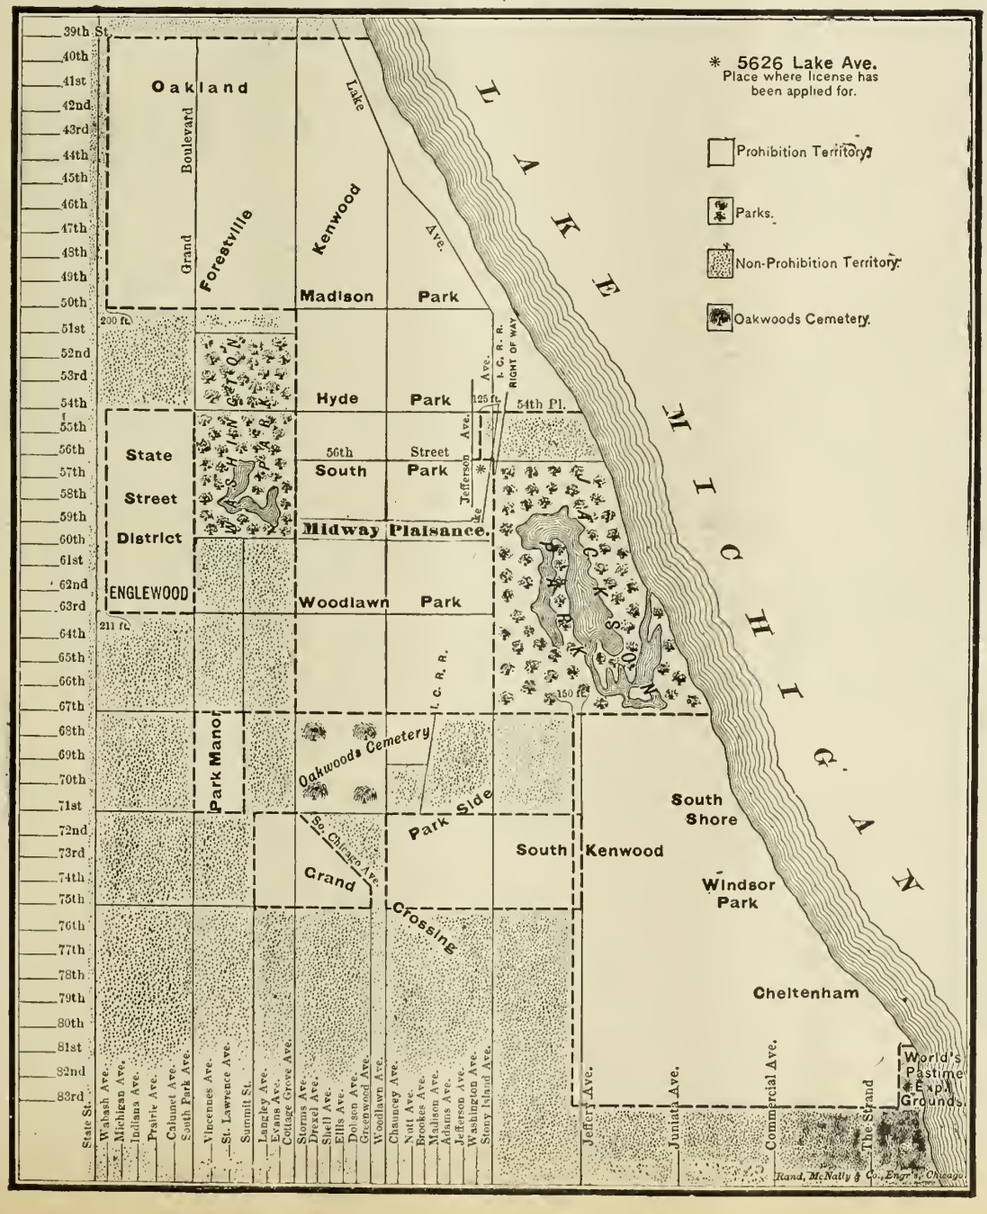
Also commencing at the intersection of Seventy-first street and St. Lawrence avenue, thence north along the center line of St. Lawrence avenue to the center of Sixty-seventh street; thence west along the center line of Sixty-seventh street to center of South Park avenue; thence south along the center line of South Park avenue to the center of Seventy-first street; thence east along the center line of Seventy-first street to the place of beginning.

Also the territory described and bounded as follows, to wit: Commencing at the center line of the intersection of Sixty-seventh street and Lake Michigan, thence west to a line one hundred and fifty (150) feet west of Jeffrey Avenue; thence along said line one hundred and fifty feet west of parallel with North Jeffrey avenue to center line of Eighty-third street; thence east on Eighty third to Lake Michigan; thence along said lake to the place of beginning, except that piece of land inclosed and known as the World's Pastime Exposition grounds.

Also the territory bounded on the north by Seventy-first street, on the south by Seventy-fifth street, on the west by Woodlawn avenue, and on the east by Jeffrey avenue. The said territory shall be known and treated as prohibited districts. within which it shall not be lawful for such license to be granted.

And the following district—passed June 5, 1888—beginning at a point in the center of Fifty-fourth street, two hundred and eleven (211) feet east of State street; thence south and parallel with State street to the center of Sixty-third street; thence east along the center of Sixty-third street to the center of South Park avenue; thence north along the center of South Park avenue to the center of Fifty-fourth street, thence west to place of beginning.

It will be seen by reference to the map that the territory described in the above ordinance includes Midway plaisance. It remains to be seen whether the supporters of the measure in Hyde Park will allow the World's Fair Board to permit the selling of intoxicating liquors on the Midway plaisance. To those who are familiar with the strong prohibitory sentiment in Hyde Park it is not thought likely that the World's Fair people will escape without a spirited contest on this point. That the anti-saloon sentiment is strong is evidenced by the fact that the ordinance quoted above has been upheld for years through many contests. Not satisfied with this, however, the promoters of temperance in the town secured in 1889 the passage of the following ordinance governing the establishmont of saloons in the non-prohibition territory.



Be it ordained by the President and Trustees of the village of Hyde Park:

SECTION 1. Any person who shall desire to obtain a license to keep a saloon or dramshop shall, in addition to the requirements now provided by ordinance, present his application in writing to the Village Controller for such license, in which shall be stated the name of the person or firm to whom the license is to be issued and the place where such saloon or dramshop is to be kept, which application shall be signed by a majority of the property owners, according to frontage on both sides of the street in the block in which such dramshop is to be kept, and shall also be signed by a majority of the bona-fide householders and persons or firms living or doing business on each side of the street in the block upon which such dramshop shall have its main entrance; provided, however, that any person or firm who shall have made application as aforesaid and received a license to keep a dramshop shall not be required to present an application as above in order to obtain a renewal of the license to himself or firm unless at least one-quarter (¼) of the property owners or bona-fide householders, persons and firms doing business upon both sides of the street in the block upon which the said dramshop has its main entrance shall file with the Village Controller, at least thirty days (30) prior to the time for the renewal of such license, a notice stating that the signers thereof object to the granting or renewing of the license to said person or firm. Upon receiving such notice the Village Controller shall notify the Captain of Police that such notice has been filed, and the Captain of Police shall at once notify or cause to be notified the holder of the license. But a failure to give such notification shall not be construed as a waiver of the necessity for filing the application as provided above.

Passed, approved and filed, April 4th, 1889.

The Hyde Park Protective Association is an organization of prominent residents of the town for the purpose of enforcing the provisions of the above ordinance. The association has recently been organized as a corporation under the law of Illinois, with thirty-one directors, as follows:

E. J. Galvin, 5728 Madison avenue,
W. J. Button, 5648 " "

W. A. Olmsted,5642 " "
T. A. Banning,5610 " "
B. F. Quimby, 5749 " "
Norman P. Willard, 5555 Woodlawn avenue,
W. E. Rogan, 348 Oakwood boulevard,
W. C. Kinney, 4026 Drexel boulevard,
Robert L. Hunt, 244 Oakwood boulevard,
James Wood, 4016 Michigan avenue,
Andrew Hamilton, 243 Forty-third st.
Henry Brown, 4808 Langley st.
C. A. V. Standish, 1113 Fifty-first st.
A. J. Toolen, 4434 Lake av.
E. B. Springer, 6331 Oglesby av.
Julius Stern, 6626 Sheridan av.
Milton George, 6209 Indiana av.
D. A. Pierce, 5464 Washington av.
R. W. Bridge, 5402 Cornell av.
Jno. M. Locke, Hyde Park Hotel.
A. R. Beck, South Chicago.
Fred Wilkinson, South Chicago.
Julisus Nieperske, " "
T. Laramie, " "
John J. Woods, Pullman.
H. J. Hetherington, 7300 Bond av.
John T. Chenoweth, 7730 "
J. H. Nichols Roseland.
W. H. Brintnall, 4621 Ellis av.
Arthur B. Farwell, 4516 Lake av.

The above gentlemen are supposed to represent the incorporated prohibition sentiment of the Town of Hyde Park, and it is to them that both the temperance and saloon interests are anxiously looking, to see what their next move will be.

THE GOLD AGE.

The most striking feature of the present financial situation is the eagerness with which both nations and individuals are seeking after gold and are demanding that metal as a common basis of all real monetary value. Notes are now drawn with principal and interest payable in gold. In all ninety-nine year leases provision is made for the payment of the rentals in gold. Contracts of every kind which contemplate the payment of money during a term of years will henceforth be drawn invariably on this gold basis. It is undeniable that the recent silver agitation has done much to bring about this result.

Foreign nations are piling up increased gold reserves. or this purpose they are making large demands on our own gold supply. Meanwhile, it has been found on careful computation that notwithstanding heavy shipments of gold from this country the gold reserves of our own government have been steadily increasing. During the year ending May 17, 1892, the gold reserves of our National banks increased from $153,000,000 to $200,000,000. It is fair to assume that a corresponding increase has taken place in the State banks During a single week recently the gold balance of the New York Sub-Treasury increased $849,694. Yet it is claimed by the Director of the Mint that the actual gold reserves of the country have fallen off $15,000,000 in the past two years.

The situation is peculiar. According to all the usual calculations our gold balance should be increasing rather than diminishing. The balance of trade has for some time been largely in our favor. The official figures show that the favorable balance for the last fiscal year was $216,296,800, against $112,258,809 in the year preceding. This large increase is due to our immense wheat exports, which have swelled the aggregate of the total exports of the fiscal year 1892 to the unprecedented sum of $1,113,341,512. Hence, in spite of the fact that our imports for the year were $897,000,000, the balance in our favor amounts, as stated, to nearly double that of the year previous. In fact, the favorable balance of the last two years amounts to $328,000,000. In the face of this fact and in view of the immense production of gold in this country, it is difficult to realize that the amount of gold coin and bullion in the country has decreased $15,000,000 during the same period. The explanation is not easy, but it is probably to be found largely in the existing conditions of our National finances. The United States Treasury labors under a legal obligation to pay gold on demand, and any refusal on its part to meet such payments promptly could not fail to result disastrously to the credit of the Government. European nations are quick to take advantage of this act. Many of them have of late contracted heavy debts and have secured extensions of credit to the farthest limit. They therefore find it necessary to increase their gold reserves to cover their increased indebtedness. The United States being a gold-producing country, they naturally turn to us for their gold supply, and by demanding of the United States Treasury gold in exchange for the notes and securities they hold, they are enabled to keep up a constant drain on our gold reserves.

With the increased demand for gold it is also noticeable that there has been a corresponding decline in the price of silver. Both these conditions doubtless have been brought about largely by the demonetization of silver in Europe. The tendency for years throughout Europe has been toward a gold standard. At the same time there has been a steady increase in the production of silver. The comparative scarcity of gold renders the situation all the more serious. Director of the Mint E. O. Leech declares that in his opinion there is but one remedy. He says: "Passing by the great question of the fall in the gold price of commodities, so far as such fall is due to monetary causes, I find that one of the most serious dangers which confront us is the insufficiency of the supply of gold as a basis of the present and prospective business of the commercial world and the consequent disturbances attending its accumulation and movement. To re-establish the link which formerly existed between gold and silver only requires the united action of nations of sufficient commercial influence to maintain it successfully. If the experience of the last nineteen years has proven anything it is that the value of gold and silver depends upon the monetary use which is made of them. The experience of the first seventy years of this century has demonstrated that both metals can be used as money with greater stability of values than one alone." He asserts that the interests of Europe in the restoration of bi-metallism are identical with those of this country, only greater in degree.

AUCTION SALES—A PROPHECY.

Both the Real Estate Board and the Exchange have determined to go into the business of selling real estate at auction. The rules governing sales at the Exchange were printed in the JOURNAL last week; those of the Board are printed in this issue. They are practically the same, the only difference being in the regulations for the payment of the commissions. It is to be hoped that the effort to sell real estate at auction will be successful. The rivalry between the Exchange and the Board will only serve to increase the auction business if it is found practicable. But the difficulties encountered are not likely to be effectually removed before the close of the World's Fair. In the first place, there are few good offers of property to be sold at auction. Owners are of the opinion, and rightly so, that property to be successfully sold at auction must be offered at less than the market price. The rapid rise in values in Chicago real estate leaves but little property on the market at bargain prices. Subdivision lots may be offered in that way, but inside and income property is not for sale at a sacrifice. On the other hand, there is little demand at present for real estate at prevailing prices. Investors are wary. The impression has gone abroad that property in Chicago is held too high, and the result is that there is very little movement in real estate of any kind. The prophecy is freely made that the present prices, which are wrongly imagined to be the result of a temporary stimulus caused by the World's Fair, will not be maintained after the Fair. Consequently investors are holding off until after the Fair. They expect to see the "bottom knocked out" of the real estate market when the Fair year closes, and confidently claim that they will then be able to "buy at their own figures."

THE JOURNAL has an entirely different prophecy, based on an old and trite saying. The saying is, "He who doubts is damned," and the prophecy is that real values in Chicago will be higher after the World's Fair than they are now. It is a truth as old as the universe that he who lacks faith and is continually doubting his own ability to succeed is defeated before he begins. This is especially true in real estate It is the sanguine investor who becomes rich. The doubter waits and sneers until the city grows up around him and leaves him behind penniless. The simple fact is that the World's Fair will bring to Chicago millions of dollars in currency, which will naturally seek investment in real estate, and this stimulus, together with the rush hither of investors from all parts of the country, will boom Chicago property as it has never been boomed before. A few shrewd investors, who have the faith to see this and the nerve to buy now and hold on, will find themselves rich then; but the great majority of doubters and croakers, who do not know a good thing when they see it, will be recounting what might have been if they had only known and taken advantage of just what we are prophesying now.

A BANNER SUBDIVISION SALE.

A TRIANGULAR CORNER TRANSFERRED AT A PHENOMENAL FIGURE—A STRIKING INSTANCE OF INCREASE IN PRICES.

The well-known firm of Eggleston, Mallette & Brownell, 207 Tacoma building, through Minor H. Williamson, manager of their real estate department, report having sold to S. L Baker for D. D. Chidester, the triangular subdivision lying between Vincennes avenue and Stewart boulevard, and extending from Seventy-seventh to Seventy-ninth streets, at the price of $79,000. This property is legally known as Chidester's Vincennes avenue, Stewart boulevard and Seventy-ninth street addition to Auburn Park, and is one of the most favorably located subdivisions on the South-west side, lying as it does between Vincennes avenue, a magnificent business thoroughfare one hundred feet wide, on one side and Stewart boulevard, the "swell" residence street, on the other side, and having practically a frontage on Seventy-ninth street, the frontage on which rivals Sixty-third street in price, the corner of Seventy-ninth street and Stewart boulevard being held at $250 per foot. This particular piece of real estate is one of those peculiarly shaped triangles the frontage of which has a much grea er proportionate value than the same area or frontage in the usual oblong blocks, and a brief history of it for the last three years may be interesting as illustrating the advance in price so frequently brought about by improving a hitherto neglected tract of land.

The seller purchased this tract about three years ago of the Judge Fuller estate, the price paid being $25 300 and by the expenditure of nearly $15,000 in improvements transformed it into high class business and residence property. The City Railway car line passes in front of it and it is within two blocks of two railway stations, the Rock Island and the Eastern Illinois, with a suburban service of nearly 100 trains per day, and it is simply a question of a short time when the elevated road will be extended down Vincennes avenue. The new Cross Town Electric road on Seventy-fifth street, giving direct transit to the World's Fair, passes within two blocks of this property, This line is promised for completion before the early autumn and will place this section in direct communication with the World's Fair, the running time being less than fifteen minutes.

Mr. Baker, the present owner, expects to still further improve the property, and already has offers for a considerable frontage by parties who wish to improve with business and residence buildings. A fine block of stone front buildings occupies a part of the Stewart boulevard frontage. We might add that this is the largest sale ever made of Auburn Park property since Messrs. Mallette & Brownell bought this subdivision of Pullman & Henderson, and with characteristic enterprise expended over a quarter of a million dollars in improvements of the highest class, making this section and their Eggleston subdivision among the finest residence property in Chicago. The wonderful increase in values in this section has surpassed the wildest dreams of the most sanguine enthusiasts. In 1886 this entire region was only a waste of prairie land with a few barns and dilapidated farm houses, and could be bought for $7 a front foot. To-day the corner of Seventy-ninth street and Stewart boulevard is held at $250 a foot. Yet some people with idle money continue to say now as they did in 1886 that Chicago property is held too high.

A SAFE PROPHECY.

Speaking of the new Protestant Episcopal Cathedral in New York, the Record and Guide of that city says: From what the newspapers say, and from what one hears in private conversation, it is very plain that the cathedral will be popularly regarded principally as a name. As one more big thing to be seen and admired, as an "architectural adornment to the metropolis," as a "rebuke to the prevailing worship of the almighty dollar," as anything but the expression of our religious faith, or the monumental realization of the Kingdom of God upon earth. Perhaps we can make clear what we mean by venturing a prophecy. Within ten years after the time when the cathedral is sufficiently erected to appeal to the imagination of men, Chicago, not to be outdone by New York, will be building a cathedral also. Chicago will then have had a pretty sizeable World's Fair, a university second to none, public parks of the finest, population galore, and so on; but unless we very much mistake the spirit of that city, it will want a cathedral also. That it will get a cathedral, and a good big cathedral too, who can doubt?

THE REAL ESTATE MARKET.

The Chicago real estate market is by no means as good at present as was anticipated early in the year. In fact its general range is confined to residence property of different grades with now and then a transaction in central business property to relieve the monotony. This week fairly illustrates the prevailing conditions and tendencies. With the exception of two transactions on Wabash avenue, one a sale and the other a long term lease, the only interesting features were developments in the line of high class residence property. The sale of the McNally property on Wabash avenue was clearly the star transaction of the week, and one of the most important of the year. For a number of reasons the sale was of more than ordinary interest. In the first place the amount involved, $300,000, is sufficient to give it some prominence. The developments which the sale indicates in a general way and the use to which the property will be put, add features of interest. Besides this the prominence of all parties to the sale and recent negotiations for the property will occasion some comment. The McNally property is on the west side of Wabash avenue, 144 feet south of Washington street. It is known as Nos. 109 and 111 Wabash avenue and is 48x150 feet. It extends back to a forty-foot alley and is improved with a five story brick building. The purchaser is C. Jevne, the grocer, and ultimately the building will be occupied by the firm of C. Jevne & Co. No change will be made for two years as the firm holds a lease for the premises on Madison street for that length of time. The location is considered eligible for retail grocery business as it is surrounded by a number of important retail business houses. The sale to Mr. Jevne was negotiated by E. A. Linn of E. S. Dreyer & Co. Without making any allowance for the building, which is considered worth $50,000, the sale determines a valuation of $6,250 a front foot, or $41.66 a square foot. It will be remembered that the sale of this same property for $275,000 for Andrew McNally to William Stewart was announced with much pomp and circumstance early in the year. It was claimed that the sale was one of the most rapidly negotiated of its size on record. The property was presented to Mr. Stewart, and as considered by the agent, accepted all within a few hours. The results proved that the old adage—"There's many a slip 'twixt the cup and the lip" is true in the real estate field The prospective purchaser discovered that the exact condition of the rent roll had not been shown to him and without making any further examination declared the deal off. Later on he purchased twenty-five feet on Wabash avenue near Jackson street from the Brachvogel estate at $4,700 a front foot.

A WABASH AVENUE LONG TERM LEASE.

A syndicate represented by Edwin C. Donaldson has just leased the property at Nos. 147 and 149 Wabash avenue from John P. Atwater of Poughkeepsie, N. Y., for a term of ninety-nine years. The lot is 40x172 feet and is improved with a five-story structure which is purchased by the lessees for $31,000. The annual rental is $8 000, taxes and assessments, The lease includes an option of renewal for a ninety-nine year term at an annual rental of $10.000. On a five percent basis the rent establishes a valuation of $4,000 a front foot for the land. This is in turn equivalent to a trifle over $23 a square foot. This building, like the McNally building, is leased to a number of tenants for comparatively short terms At the expiration of these leases the building will be improved and remodeled by the leasing syndicate.

SALE OF INDIANA AVENUE PROPERTY.

George Bass, the Master in Chancery, has purchased the north-west corner of Forty-third street and Indiana avenue, 161x141 feet, from Michael Clarkson, for $77,500. The property is improved with three three-story stores and flat buildings and a one-story store building, all of brick, and considered worth about $25,000. The corner portion will soon be improved with a fine business block.

NEW ELECTRIC ROAD AT SOUTH CHICAGO.

A twelve-mile, double track electric railway system will supplant the present horse car line now operated by the South Chicago City railway company. It is expected that the new road will be extended to the World's Fair grounds by October. The route will be as follows: From the power-house on Ewing avenue and the river north on Ewing avenue to Ninety-second street, to Buffalo avenue, to Eighty-seventh street, to Superior avenue, to Eighty-third street, to Ontario avenue, to Seventy-ninth street, to Coles avenue, to Seventy-first street, to Yates avenue and to the World's Fair grounds at Sixty-seventh street. The return route of the loop will be on Yates avenue to Seventy first street, to Coles avenue, to Seventy-ninth street, west on Seventy-ninth street, to Commercial avenue to Notre Dame avenue at One Hundredth street, on Notre Dame avenue to One Hundred and Fourth street to Torrence avenue, and thence east on One Hundred and Sixth street to Ewing avenue and back to the power-house.

The work of constructing the road-bed is now in progress. Twenty-five new cars have been contracted for. The overhead trolley system will be used, and the promoters of the road claim that it will be the best equipped road in the country. Trains will be run at intervals of five minutes and will attain to a speed of twenty miles an hour. At Sixty-third street a connection is to be made with the elevated road. The officers of the South Chicago City railway company are: Dwight F. Cameron, president; V. Shaw Kennedy, vice president and O. S. Gaither, secretary and treasurer.

ANOTHER STREET RAILWAY ENTERPRISE.

The village council of Blue Island will shortly be called upon to pass an ordinance granting right of way to an electric street railway through that village to connect with Harvey and Pullman. The proposed road will take in Washington Heights, Morgan Park, Wireton Park, Blue Island, Harvey, Pullman and South Chicago and may eventually be extended to Englewood, so as to run cars in the form of a loop in both directions. This would be an immense improvement over the present facilities for intercommunication between those places. There is now no direct route for reaching Harvey or Pullman from Blue Island and the growing interests of the latter town, together with Wireton Park and Morgan Park demand rapid transit facilities.

AUCTION SALES ON THE REAL ESTATE BOARD.

At the regular meeting of the Real Estate Board held Wednesday afternoon the report of the Call Board Committee on auction room rules and regulations was presented and adopted. The New York plan of sellingsreal estate at auction is to be attempted.

The following regulations regarding the leasing of stands have been adopted:

The choice of stands in the exchange shall be sold by auction. Only members of the Chicago Real Estate Board shall be allowed to compete. Any stands, the choice of which shall not be disposed of, or which may become vacant from time to time, may be leased by the Call Board Committee until the May following. The choice of such stands shall be submitted to competition in the month of April. One stand, to be called the President's stand, shall be reserved for sales to be made by brokers not renting stands. A lessee of a stand may permit another member to use the same for auction purposes, and to place his name on the stand for that day.

No stand shall be rented except to agent-members of the Chicago Real-Estate Board; no firm shall hold more than one stand.

Any broker intending to surrender his stand must give notice of such intention before April 1, otherwise he will be held responsible for the rent.

The Chicago Real-Estate Board reserves the right to change these rules as may hereafter be deemed necessary.

The Call Board committee reserves the right to reject any bid for stands if deemed in the interest of the board.

Provision has been made for the following scale of fees:

Knock-down on real estate where the amount is less than $5,000	$ 3
Between the sums of $5,000 and $ 0,000	5
Between the sums of $20,000 and $100,000	10
Between the sums of $100,000 and $200,000	25
Above $200,000	50

Brokers not renting stands to pay 10 per cent in addition to these fees.

Knock-down on stock and assets to brokers renting stands	$ 1
To brokers not renting stands	2
Knock-down on all sales of real estate by order of the court when sold by a member; fee to be paid by the member	2
Knock-down on all sales of assets by order of the court when sold by a member of the Chicago Real Estate Board; fee to be paid by the member	1

The Real Estate Board auction-room fees on property offered at upset prices and not sold shall be the same as if sold.

A number of prominent firms expressed their intention to rent auction booths, among them being Cremin & Brenan, J. H. Van Vlissingen & Bro., E. A. Cummings & Co., Dunlap Smith & Co., E. S. Dreyer & Co., Nelson Thomason, Barnes & Parish, Frank Riedle, J. R. Weddel, J. C. Magill & Co., William A. Merigold & Co., Turner & Bond, John L Manning, and Edwin F. Getchell.

SALE OF A VALUABLE NORTH SIDE RESIDENCE.

The Shufeldt house at the southeast corner of North avenue and Dearborn street has been sold to C. W. Fullerton for $75,000. The corner is 40x140 feet, improved with a handsome green stone residence and stable. The house is a three-story structure of striking appearance. Adjoining it are the two Egan houses of similar construction and material. John Root was the architect of all three buildings. On the opposite corner from the Shufeldt house is a residence owned by Attorney Wethercll of the Rock Island railroad. and adjoining this is the residence of William Stewart and a new house built by Jacob Rehm. Mr. Fullerton, it is said, will occupy the house at the corner of North avenue and Dearborn street as a residence. Only last year he purchased the Fargo place at Highland Park and he is about to build a residence there after plans by Architect Whitehouse, at a cost of something like $35,000. In part pay Mr. Shufeldt takes from Mr. Fullerton the income property at the southwest corner of State street and Walton place. The lot at that corner has a frontage of 100 feet on State street and fifty-three and a fraction feet on Walton place. On it are a three-story brick and stone flat building and a residence. The property will be transferred at a consideration of $65,000.

FURTHER DEVELOPMENTS AT BROCK.

Contracts have been signed for the location of a large woolen mill at the new manufacturing town of Brock. This new suburb promises to become quite an industrial center, several important industrial enterprises having already arranged to locate there. The woolen mill in question is said to be a large concern and it is to give employment to a large number of hands. The drift of eastern enterprises to this city is becoming quite marked and is one of the circumstances that give tone to the real estate market. It is expected that after the Fair this tendency on the part of manufacturers to locate near Chicago will be even greater than it is at present, as they will then have seen the advantages offered by this city.

THE NEW Y. M. C A. BUILDING.

The revised plans of the new building for the Young Men's Christian Association have just been completed by the architects, Jenney & Mundie. The site is a lot 54 feet square on the east side of LaSalle street just south of Madison street and a further area of 81x116 feet east of this lot running back to the north and south court in the rear. The two lots are connected by a narrow strip 18 feet long fronting on Arcade court.

The design, which has only lately been agreed upon while not ornate is one of the most strikingly beautiful in the city. The onl part that is fairly visible is the La Salle street end, which is treated as a fifty four foot square tower, virtually thirteen stories high, and terminating in a stunted quadrangular spire, with a smaller spire at each of its four corners.

The arrangement of the interior will be of even greater interest than the beauty of the exterior. The south half of the LaSalle street front, on the ground floor will be fitted up as a banking-house. In the rear, in the old Farwell Hall part, will be a splendid natatorium, 22x71 feet in size, in which the ground floor and basement will be thrown together. Around the natatorium, in the basement, will be the bowling alley, the electric plant, the engines and machinery. Around the natatorium, on the ground floor, will be the bath-rooms, the bicycle rooms and the lavatories.

The entire second floor will be devoted to the work of the association. On the LaSalle street front will be the reading-room. In the rear of it will be the reception rooms, and in the rear of that the offices of the Madison street department. On this floor also will be the noon-day prayer-meeting room with a capacity of 250, and in the extreme rear the main auditorium, with a gallery and a total capacity of 1,000, which, it will be observed, is intentionally much less than that of the old Farwell Hall. The entrance to the auditorium for members will be from the second story hallway, but the public will enter by spacious doorways on the ground floor in Arcade court.

The association work will also occupy the whole of the third floor, the back part of which, of course will be taken up by the balcony of the auditorium. The rest of the floor will be divided between the parlors, the library, the correspondence room, the recreation room and the student's room for the accommodation of college students. Above the third floor the tower will be rented out for offices. With this exception, the fourth floor will be used for dressing rooms, thirty-five bathing rooms and 2,000 locker rooms.

The fifth and sixth stories will be devoted to the great two storied gymnasium, which will be one of the finest in North America. In it will be a race course twenty laps to the mile, a visitor's gallery, and offices for the physical directors. The seventh story will be devoted to educational class-rooms and to the offices of the general board. The whole of all the

floors above the seventh will be rented out, except that on the roof there will be built a great hand ball room.

As to the cost of the new home of the association, it is hard to estimate the value of the site of the old Farwell Hall. But the Andrews property cost the association $265,000, and the estimated cost of the building will be $800,000. It is to be fire-proof throughout, and its interior finish will compare favorably with that of any office building in the city. It is confidently expected to be ready for occupancy by May 1.

DEVELOPMENTS AT BLUE ISLAND.

It is understood that the 2,100 acre deal two miles south of Blue Island, which has been for some time in process of negotiation by a prominent local real estate firm, has at last been declared off and the farmers thereabouts are $30,000 richer. Some twenty-five or thirty farmers gave options on their farms, for which they received an average of about $1,000 each. The syndicate is not discouraged, however, but have new plans on foot which will shortly develop into a more practicable scheme for an industrial town on a large scale. The plans are not sufficiently definite at present to admit of publication.

WHAT BAD ROADS COST.

IT IS ESTIMATED THAT THE STATE OF TENNESSEE PAYS SEVEN MILLION DOLLARS ANNUALLY.

The board of trade in a Tennessee town, in a recent memorial to the legislature, demonstrated, according to the Engineering Magazine that bad roads were costing the people of that commonwealth more than $7,000,000 annually. Professor W W. Carson, of the University of Tennessee, after careful investigation, found the average cost of hauling to the Knoxville market by wagon to be $7.50 per ton—aggregating $1,250,000 a year on the total tonage hauled. He maintained that this hauling could have been done for half the sum over good dirt roads and for one-sixth of it over good macadam roads, saving $1,000,000 annually. Professor Richard T. Ely, of the Johns Hopkins university and secretary of the American Economic association, affirmed that poor roads cost this country over $20 a horse, and Professor Jenks of Knox college, Illinois thinks $15 a horse a low estimate for this loss. Mr. Hord, a former commissioner of agriculture for the State of Tennessee, estimated the number of horses, mules and asses in that State, in 1889, at 476,000. The number has increased since his estimate, but taking this number and the lowest estimated loss per horse, say $15, and an aggregate loss of $7,140,000 a year for one State is shown. From tables calculated by Professor Carson for an agricultural experiment station, it was shown that on gravel a horse will draw nearly one and-a-half times the load and on macadam, over three times the load he can draw on a dirt road. Of course there is great economy of drawing power in the proper grading of roads, and disregard of this fact has wasted large quantities of money in the road building of the past. The greater speed attained on scientifically graded and patent race tracks illustrate the advantages of grade.

FARM MORTGAGES IN THE STATE OF MAINE.

The Census Office bulletin gives statistics of farms, homes and mortgages of the State of Maine as follows: Of the 150,355 families in the State, 62,122 occupy farms, 92.38 per cent of the farm families own, and 7.62 per cent hire the farms they occupy; 77.91 per cent of the farm-owning families own free of encumbrance, and 22.09 per cent own subject to encumbrances; 71.97 per cent of the total number of farm-owning and hiring families own free of encumbrance, and 20.41 per cent own subject to encumbrance. The debt that encumbers farms occupied by owners is $6,741,922, or 36.68 per cent of the value of the encumbered farms. This debt bears an average rate of interest of 6.26 per cent, which makes an average annual interest charge of $33 to each farm family. The average encumbered farm occupied by an owning family is worth $1,449, and is subject, on the average to a debt of $532. It has been discovered that 79.71 per cent of the farm families incurred 82.18 per cent of the farm debt to secure purchase money to pay for improvements, to invest in business, and to buy various articles of personal property.—Ex.

RANGE OF THE STOCK MARKET FOR ONE YEAR.

The following table compiled by the Daily Indicator shows the average closing prices weekly and the total number of shares of stock sold on the New York Stock Exchange for the year ending July 30, 1892.

THE DRAINAGE CANAL.

THE ROUTE CHOSEN AND THE PROGRESS OF THE WORK—PLANS FOR PRESENT SEWAGE RELIEF.

So much has been written in a desultory way about the drainage canal that the average reader of the daily papers does not know anything about it. The various factions who have been continually at war over the work ever since it was projected have done their best to "queer the job," as one of the officials very forcibly expressed it, and the result has been a flood of misleading information put forth for partisan purposes and not for the instruction of the public. THE JOURNAL has taken the pains this week to investigate the subject with the hope of presenting to our readers a correct and intelligible account of this great work.

The work of the drainage canal is to provide an outlet for the waters of the Chicago river into the Illinois river and thence by the Mississippi into the Gulf of Mexico instead of through Lake Michigan into the Atlantic Ocean as at present. This will afford a great drainage channel for the sewage of Chicago into the Illinois river instead of into Lake Michigan, the source of our water supply. To accomplish this it is found necessary to construct a wide and deep canal from a point on the Chicago river near its intersection with South Ashland avenue, along the course of the old Illinois and Michigan canal and the Des Plaines river to Joliet, where the waters of the canal will be turned into the DesPlaines river.

The peculiarity of the watershed is that it divides at Summit, three miles west of the city limits at Fifty-fifth street, and the surface drainage east of Summit is carried by the Chicago river into the lake, while west of Summit the drainage flows west into the DesPlaines river. So low is this Summit, however, that the DesPlaines river and the west fork of the south branch of the Chicago river practically unite at this point, so that during a freshet on the DesPlaines the overflow of that river finds its way into the south branch and is thus carried with great force into Lake Michigan. This phenomenon was witnessed last spring, when the flood waters from the DesPlaines poured into the Chicago river so rapidly as to give the latter stream a current of six or eight miles an hour. The object of the drainage canal is to open such an outlet for the DesPlaines and Chicago rivers to the south as to give them at all times a positive flow in that direction.

The route chosen by the drainage trustees will be the bed of the old Illinois and Michigan canal from its intersection with the river at Ashland avenue to Willow Springs, a point about four miles southwest from Summit. Thence the route lies between the canal and the DesPlaines river to Lockport. The exact route from Lockport to Joliet has not yet been determined upon. Contracts have been already let and excavation will be begun next week on the section of the canal between Willow Springs and Lockport. This portion of the work can be finished in a short time, but the entire work will require four years.

The canal is to be 160 feet wide and from fifteen to twenty feet deep, so that the sewage will be perfectly diluted and a waterway for the largest lake vessels will be provided. The slope is gradual, so that no locks will be required until Lockport is reached. From that point to Joliet there is a fall of about forty feet To enable vessels to pass through this section it will be necessary for the Government to provide suitable locks, inasmuch as the drainage law does not contemplate any such provision.

The right of way of the drainage canal extends over thirty miles and is 1,000 feet wide. It comprises 3,200 acres, of which 1,740 acres have been purchased at a cost of from $25 to $75 an acre. It is expected that the remaining 1,500 acres will be secured in a short time.

A demand has been made on the drainage board to provide some outlet immediately so as to relieve the city from the present filthy condition of the river. This cannot be done by establishing pumping works, as has been proposed by some newspapers, because the drainage law does not provide for such works. But a plan is now contemplated whereby the trustees expect to cut off about 700 of the 900 square miles of water shed comprised in the DesPlaines river district, which will effectually bar out the waters of that river from overflowing into the south branch except in extremely high freshets. This work will be accomplished by changing the bed of the DesPlaines and the trustees expect soon to accomplish this much-desired result.

CURRENT COMMENT.

Major Brock, Chief of the Bureau of Statistics of the Treasury Department has recently issued a report on the industries and commerce of the Mississippi river and its tributaries. The present population of the States which use the river and its branches as their means of communication with each other and the ocean, he estimates at about 29,000,000. The total value of their agricultural products for the year 1891 is given as $3,265,833,487. Added to this is $163,103,406 for mineral products and $2,500,000,000 for manufactured products, making the entire product $5 927,936,993. Of this product it is found that the waterways carried 29,505,046 tons. The report further says: "It is a striking fact that a great portion of the 29,505,046 tons of the river traffic in the Mississippi valley was carried on three to five feet of water. It is a very reasonable conclusion, and one which has been very satisfactorily demonstrated in the history of the improvements of the channels of the great lakes, that could a safe and proper channel be insured all the year round in the Mississippi and its main tributaries by the removal of the present impediments to traffic, the commerce of the western rivers would not only be greatly increased, but at the same time very materially cheapened and rendered more rapid and satisfactory."

***

The Torrens system of land transfer has been under serious consideration in Massachusetts. The governor, in his message to the Legislature of 1891, recommended the appointment of a commission to consider and take action upon the question. The Legislature provided such a committee and during the summer of 1891 hearings were held at the State House by this committee, at which important evidence was given as to the need of some radical reform in land transfer. The special committee, in their report to the Legislature of 1892, recommended the appointment of a commission, as the governor had originally done, and the joint Committee on the judiciary of the Legislature of 1892, to which their report was referred, reported to the Legislature an act authorizing the appointment of a commission to draft an act embodying the principles of the Torrens system of land transfer." This bill was promptly passed by the Senate, but when it came to the House

it was rejected by a vote of 51 to 84. Such is the present status of the agitation in favor of the Torrens system in Massachusetts. The feeling there among real estate men is said to be strongly in favor of the adoption of the measure, and it is thought some such move will be made in the near future.

***

The statistics of the building departments of New York and Chicago are an interesting study as indicating the relative amount of building activity in the two cities and the character of the buildings erected. The New York report for the first six months of 1892 shows a total number of 1,814 buildings projected, to cost $39,252 583. The figures from the Chicago records for the same period give 6,715 buildings projected, at a cost of $28,840,400. It seems almost incredible that there should be such a difference in the cost as compared with the number of buildings erected. The explanation, however, is to be found in the fact that Chicago is preeminently a city of homes, while New York is a city of flats. No one who has seen the immense blocks of New York flat buildings north of Central Park, into which are sardined thousands of families of all classes, can wonder that the projected buildings of that city though less in number exceed in cost those of Chicago projected during the same period. The contrast is as much in favor of Chicago in another direction just in proportion as it is pleasanter and more healthful to live in one's own house of one or two stories than it is to exist in a six-story New York tenement building.

***

The Second Avenue railroad of New York is about to try the experiment of an electric car run by storage batteries. This is not a new plan, but this trial is likely to end in important results. Heretofore the service of storage batteries has been found to be too expensive to be maintained for steady use. It is claimed now that the system has been so improved as to admit of its being applied economically. Sooner or later some such system as this must be adopted. The trolley system is manifestly too cumbersome even for the rural districts, to say nothing of its impracticability in city streets. It is destined to be superseded by some simpler system. He would be a bold prophet indeed who would attempt to foretell the future of railway construction in this country as likely to be affected by electricity. But we venture to say that the time is not far distant when electric power will supersede all light motors and perhaps even the heaviest of our modern locomotives.

***

The total of the fire loss last week is estimated at $3,557,000. The Bay City loss, placed at $1,200,000, is chiefly responsible for the big total. There was a $200,000 fire at St. Louis and another at Iron River, Minn. The average weekly loss so far this year has been $2,380,000, so that last week's total was considerably ahead of the average.

"I should like to give your Mayor a tip on street cleaning," said J. Ward Green, a Mexican. "Many Chicagoans have been to the City of Mexico and they will bear testimony to my statement when I say that the streets are always as clean as a newly swept floor. Yet the cleaning costs the government nothing. The plan adopted is this: Every resident is compelled to clean half of the street in front of his property. Then a cart comes along and gathers up the refuse. To do what would cost us $250,000, if we followed your plan here, costs us nothing. After the cleaning, which is performed by porters early in the morning, the streets are sprinkled, and so they always present a fresh appearance. A fine of $5 for the breaking of the law is effective in having it carried out."

REAL ESTATE LAW.

DAMAGES ARISING FROM NEGLIGENCE BY A CONTRACTOR.

The Supreme Court of Massachusetts. Pye v. Faxon. This was an action of tort. The plaintiff was a tenant at will of a house in Boston used by her as a home and as a lodging house, and the defendant was the owner of an adjoining lot of land. The action was brought to recover for various trespasses alleged to have been committed upon the plaintiff's estate, while the defendant was engaged in putting up a large building for business purposes on his land. The declaration alleges that the defendant unlawfully threw or dropped upon the plaintiff's premises mortar, bricks and debris, interfered with the free and unobstructed use by plaintiff of her back yard, caused much dust to be deposited in sundry rooms of the plaintiff's house, thereby interfering with the comfort and enjoyment of the plaintiff's house, and that the defendant interfered with and prevented the plaintiff's letting many of her rooms to lodgers. The jury returned a verdict for the plaintiff, and the case went to the Supreme Court on exception. The exceptions were overruled. In course of the opinion the court stated that where the plaintiff sustains injury in consequence of the erection of a building next to her house, if such damage was not a necessary result of the building but caused by the negligence of the contractor or his servants, no cause of action arises against the owner of the land on which the building was erected.

AUTHORITY OF WIFE AS AGENT TO SELL REAL ESTATE.

In the case of Edwards v. Tyler, the Supreme Court of Illinois has recently affirmed the decision of the lower court to the effect that letters and telegrams of the wife of the owner of land to his agents to collect rents only, desiring such agents to sell at a stated price, can be relied on as authority to sell only when it can be shown that the husband has given his wife authority in writing to thus authorize the agents. In such case, where the wife's letters were not submitted to the owner before being sent, and he had no knowledge of their contents, nor that of the telegram, he will not be bound by them; but if the letters and telegram had been submitted to him before they were sent off, and received his approval, it might be that he would be bound by the statements therein, on the ground that they were his acts and not that of his wife.

WHAT CONSTITUTES A SPECIAL DEPOSIT.

Mutual Accident Association v. B. F. Jacobs. Illinois Supreme Court. When money of any description is deposited in a bank, and the identical gold or silver or bank bills deposited are to be returned to the depositor, and not the equivalent, the deposit will be special, and the bank will have no authority to use the money in its business, and it will be its duty to safely keep and return the identical money.

But when there is a general deposit of money in a bank, the understanding being that a like sum of lawful money shall be returned, the bank is permitted to use the money in its general business and the relation of debtor and creditor is created by the transaction.

A party, to indemnify the sureties on his appeal bond, deposited with a bank $6,000, which was paid by a check upon another bank, and the bank issued a certificate of the deposit, which after reciting the appeal and the giving of the appeal bond, stated that when the sureties were discharged, the recovery was to be returned. The money was not in a package and was mingled with other moneys of the bank, so that its identity was lost. The bank failed, and made an assignment of its assets for the benefit of its creditors: Held, that the deposit was a general one, creating the relation of debtor and creditor, and that the depositor was not entitled to a prior lien, and preference over the other creditors.

DIFFERENCE BETWEEN THE SECURITY OF A DEED AND A MORTGAGE.

Chicago and Calumet Rolling Mill company v. D. B. Scully. A deed made by a corporation to its president to secure him in a sum of money advanced, and a further advance to be made, and to secure a conveyance of a tract of land to the company, if its execution is not procured by fraud, will be binding on the corporation, and will not be set aside for a want of consideration, until the moneys so advanced are repaid with interest.

On a bill to redeem from a mortgage, as a general rule, the court should decree that complainant be allowed to redeem upon payment of the sum found due, within a reasonable time to be fixed, together with costs, and in default of such payment the bill be dismissed.

But on bill to set aside a deed on the ground that it was obtained by fraud and without consideration, the complainant will not be entitled to a decree allowing redemption. In such case, a decree finding that the deed was given to secure the payment of money and the amount due, and requiring the payment thereof within six months, and on default of payment that such deed shall become absolute, is more favorable to the complainant than it is entitled to under such a bill.

FACTS NECESSARY TO CONSTITUTE A PARTNERSHIP.

Morton v. Nelson. Supreme Court of Illinois. A verbal agreement was entered into by A, B and C that they would purchase a single tract of land, and erect a building thereon, the three to share equally in the net profits, B and C were not required to make advances, nor were they to be liable for losses The land was bought in the name of A, a deed made to him, and a building was erected thereon by A, but neither of the others advanced a single dollar in payment of the purchase money, or the cost of the building, A paying all the money for the land and the cost and expenses of the building. Held, that the transaction failed to show any partnership.

REDEMPTION FROM TRUST DEED—TAXES.

Ryan v. Newcomb. On bill to redeem from sale under a trust deed, the Supreme Court on appeal reversed the decree below and directed the Circuit Court to enter a decree, allowing the complainant to redeem on payment of the note secured by the trust deed and the interest thereon. Thereupon the Circuit Court added to the amount due on the note, the taxes paid by the holder under the trust deed, and required payment of both sums as a condition to redeem. On a second appeal this court reversed the decree of the Circuit Court holding that the appellant was entitled to redeem according to the terms of its judgment without the payment of the taxes, and remanded the cause. On the return of the case, the Circuit Court found the sum due under the mortgage and entered a decree of redemption on its payment: Held, that this last decree was in strict accordance with the judgment of this court.

MEASURE OF BENEFITS UNDER SPECIAL ASSESSMENTS.

In the case of the Illinois Central Railroad Company v. City of Chicago, the following principles have been laid down by the Illinois Supreme Court:

When land is held by an individual the benefits to accrue to it by a local public improvement, are not to be determined alone by the market value of the property for the use for which it is devoted at the time by the owner; but the market value may be shown for any use for which the property may properly be used, as the owner may change the use at any time he may see proper to do so. But when the law has devoted the property permanently to a particular use, it can only properly be benefitted to the extent that its fitness to that particular use is increased and enlarged.

In a proceeding to condemn lands for public purposes when the lands are restricted by statute, or the instrument under which the owner holds title, the measure of compensation to the owner for the property taken, will be their value to him for the special use to which the lands are restricted.

On a special assessment proceeding when land is restricted by statute to a particular use and cannot be applied to any other, the measure of the benefit, which an improvement will confer on the land, is its increased value for the special use to which it may by statute be restricted.

A special assessment to pay for a local public improvement must not in any case exceed the benefit which will be conferred on the property assessed by the construction of the improvement and the benefit must be real and actual, not one resting in conjecture.

The jury on an application for the confirmation of a special assessment should not, in case they find the benefits to the land to be less than the assessment therein render a general verdict for the defendant, but they should be required to report by their verdict the amount of said benefits as found by them.

LOCAL INSURANCE CUSTOM NOT BINDING.

The Supreme Court of Alabama held, in the recent case of The German-American Insurance Company v. Commercial Fire Insurance Company, that a custom among underwriters in New York City to class certain stores as distinct buildings for purposes of insurance, and to insure them severally as separate risks, was not binding on an insurance company domiciled in Alabama, without proof that the latter had knowledge of such custom when a contract was made with another company for re-insurance in that city.

A DECISION AS TO COMMISSIONS.

In the case of Terry v. Estate of Wilson, the Supreme Court of Minnesota held that where a land owner agrees with his agent, employed to take charge of and sell his lands upon commission, that he will allow the latter certain commissions on sales made by himself, he is only liable in case actual sales are made; that a transfer of the lands by the owner to secure his debts will not entitle the agent to commissions, and that under a denial of an alleged sale he may show that a conveyance absolute in form was made for security only, and is in fact a mortgage.

JUDGMENT IN EJECTMENT, WHEN DORMANT.

The Illinois Supreme Court has decided, in the case of Wilson v. Trustees of Schools that a judgment in ejectment, by analogy to other judgments, becomes dormant after the lapse of seven years, and can only be executed after that time by being revived by scire facias. After the lapse of seven years the court has no power to issue a writ of possession without a revival of the judgment.

DOWER RIGHTS UNDER WILL—ILLINOIS SUPREME COURT—COX VS. LYNN.

Where a widow fails to renounce under her husband's will, which contains bequests and devises in her favor, her dower will be barred under the statute, although the will may be subsequently set aside by a decree entered by consent, in respect to a part of the lands devised. (Cox vs. Lynn, Ill. Sup. Ct., June 10, '91. 138 Ill., 195.)

Plans have been prepared by Irving W. Kelly and adopted by the Exposition Depot Hotel company for the erection of a depot and hotel building at the entrance to the World's Fair grounds. This is the first depot outside the grounds, and by its erection the roads which have been debarred from an entrance to the Exposition by the Illinois Central railway company will get the accommodations they are after. The Baltimore & Ohio railway has solved the problem and has made arrangements to lease its right of way and depot to other railway companies, among them being the Chicago, Rock Island & Pacific and the Michigan Central companies.

The building being temporary, will be of frame, known technically as the mill construction, and when completed will cost $60,000. It will be situated at the northeast corner of Seventy-first street and Avenue B on a site 300x135 feet. It will contain three entrances, the principal one being at the corner of Seventy-first street and Avenue B. The building will be three stories in height and will combine both depot and hotel. The basement or ground floor will be used for depot purposes and the railway offices, in addition to which there will be a large restaurant, capable of accommodating 300 persons, with the entrance on Avenue B. The upper floors of the building will be utilized for hotel purposes solely, and will contain 320 rooms, exclusive of the office and parlors. The entire building will be lighted by electricity and heated by steam. Ground has already been broken for the building, and the contractors are confident that it will be completed and ready for occupancy, when the dedicatory exercises are held in October.

SPECIAL ASSESSMENT REBATE LIST

REBATES NOT YET FULLY PAID, SPECIALLY REPORTED FOR THE REAL ESTATE AND BUILDING JOURNAL.

The following is a list of special assessment warrants on which rebates are now due. Owners will find in many cases that rebates have been paid them on these assessments, and if on examination of their receipts this is found to be the case, they will save themselves disappointment and the department annoyance by not calling a second time. Owners who have received no rebate on the warrants listed below can obtain the same by calling at Room 50, City Hall. Take along your receipts.

PLANS BY ARCHITECTS.

Marshall & Ryder are letting contracts for a residence at Kenilworth for R. T. Gordon to cost $8,500.

The Chicago Dock company has a permit to build a one story warehouse at Nos. 114-120 Beach street to cost $120,000.

The Chicago Beach Hotel Co. has secured a permit for a six-story hotel on Fifty-first street and the lake shore; estimated to cost $400,000.

C. S. Corwith is engaged upon plans for an apartment building for Miller & White, to be built at Twenth-third street and Forrestville avenue.

Architect W. H. Drake has planned three two-story frame houses, 21x60, to be built at State and Fifty-fifth streets by Jacob Weil, at a cost of $9,000.

Robert S. Smith is letting contracts for a three-story store and flat building to be erected on Forty-seventh street, near State, for W. Nagle to cost $7,500.

Wm. Deering has taken out a permit for a three-story addition to the Deering harvesting machinery works, at Fullerton avenue and the Northwestern railroad tracks, to cost $35,000,

The National Malleable Castings company has secured a building permit to erect ten one-story shops and boiler house at Twenty-fourth, Twenty-fifth and Rockwell streets and Pittsburg, Chicago and St. Louis railroad, to cost $120,000.

Architect Simeon B. Eisendrath has let contract for construction of a three-story store and flat building, 74x70, for Charles Stein on North Clark street near Garfield avenue. It will be of pressed brick and stone construction and will cost $8,000.

Frederick Alschlager has plans under way for a three-story and basement apartment house. 85x65 feet, at Sixty-first and Princeton avenue, at a cost of $25,000. The front will be of stone, and the interior finished in hardwood and heated by steam.

Architect James J. Egan has planned for P. F. Gillespie a twelve-story office building, 50x67, to be built at 331, 333 Dearborn street at a cost of $150,000. It will be constructed of pressed brick and terra-cotta. It will be provided with two passenger elevators, and will be heated by steam.

Architect S. S. Beman is making plans for an electric power-house for the South Chicago Street railway company, to be located at Ewing and Nineteenth streets. It will cost $40,000. The same architect is making plans for an electric power-house to be built at Pullman at a cost of $25,000.

Architects Shepley, Rutan & Coolidge are completing a beautiful music room in the residence of Franklin MacVeagh on the Lake Shore Drive. When Mr. Richardson built the house this was left unfinished. It will occupy the whole top floor of the house, being 22x45 feet wide. The cost is placed at $10,000.

A permit has been issued for the construction of the Sydney apartment house, at Michigan avenue and Forty-eighth street, at an estimated cost of $200,000. Another apartment house was provided for by a $150,000 building permit, issued to Chapman Bros. for an eight-story structure, at the corner of Oglesby avenue and Sixty-second street.

Architect L. G. Hallberg has completed plans and is now receiving bids for the construction of two two-story, basement and attic residences, 20x54, on Forty-fifth street near Grand boulevard for H. F. Talbot. The fronts will be of stone with galvanized bay windows, the interior being finished in hardwood and warmed by furnaces; cost, $12,000.

Architects Thomas & Rapp have completed plans for an apartment house which L. L. Smith will build on Lake avenue near Thirty-eighth street at a cost of $40,000. It will be four stories high and will front 50 feet with a depth of 86. The lower story will be of cut stone, and above this buff Roman brick will be used. It will be heated by steam.

Architects Kleinpell & Brost have completed plans for a six-story hotel, 80x82 feet, on Woodlawn terrace, near Stony Island avenue, for Maher & Green, with a tower 210 feet high, 50x50 feet at the base, and 30x30 feet at the top. The front will be of pressed brick, with stone trimmings and copper bays. The first story will contain the office and a large room to be used either as a restaurant or a store and 150 rooms above. There will be a summer garden on the roof. It will cost $100,000.

Architects Lamson & Newman have designed nine three-story residences to be built at the northwest corner of Forty-ninth street and Ellis avenue by J. Y. Stevens. They will front 183½ feet and will be 75 feet deep. They will be of stone construction, finished in hardwood, heated by steam and lighted by electricity; cost, $108,000. The same architects have planned for David Eichendreen a three story flat building, 25x85, to be built on West Congress street. The front will be of stone and the interior will be finished in hardwood and heated by steam; cost, $12,000.

Architects Adler & Sullivan are receiving bids for an addition to the Standard Club at Michigan avenue and Twenty-fourth street. The club owns the two two-story houses at the south of the club house and these will be cut out and made into card rooms, connecting with the club house. This will be beautifully finished and will have a passage way communicating with a three-story addition which will be built in the rear. This will be about 40 feet square. The first story will contain the servants' dining room, store and coat room, and the third story will be used for a kitchen and cold storage. The cost is $50,000.

Franklin P. Burnham is letting contracts for a residence for G. F. Swift, to be built at Emerald avenue and Forty-fifth street. It will be of colonial style of architecture, three stories and basement, contain all modern improvements and cost $50,000. The same architect is making plans for the following improvements: A handsone residence at Kenilworth for J. A. Culbertson to cost $30,000; also a residence at Kenilworth for W. H. Sears, to cost $7000; a granite barn at street and Michigan avenue for J. A. Shepard, to cost $6000; a barn for H. Waters, corner of Leavitt and Monroe streets to cost $5,000.

Architect Wm. Strippelman has completed plans for two hotels in the World's Fair district. Wm. Richardson will erect one at southwest corner of Sixty-fourth street and Madison avenue, at a cost of $35,000, three stories high, 95x165 feet, of frame, containing 160 rooms, in addition to the lobby, parlors, kitchen and dining room seating 200 persons. John Hess will build the other, at southeast corner of Lexington avenue and Sixty-fourth street, on the triangular lot there. The building will be three-stories high and contain 100 rooms, exclusive of the parlors, lobby dining, and other necessary rooms. It will be of frame, and cost $25,000. Both buildings will be heated by steam.

The most important permit issued by the Building Department last week was to the Lodington estate. It provides for a fine building at the southwest corner of Wabash avenue and Harmon court, at an estimated cost of $40,000; frontage of 120 feet on Wabash avenue by 165 on Harmon court. It will be of pressed brick, with stone trimmings, and be eight stories in height. The first floor will be fitted up for a carriage repository, and the basement serve as an adjunct to such business. The seventh, eighth, and half of the sixth floor will be prepared for the American Book Co., and the rest of the building be fitted up for the use of light manufacturing concerns. It will be lighted with electricity and heated by steam. There will be four passenger and two freight elevators, with a fifth reserved for the exclusive use of the American Book Co. The main entrance on Wabash avenue will be finished in marble. The building was planned by Jenney & Mundie.

AGENTS' BUDGET.

Recent sales, however small, not yet recorded, will be reported in this column. All matter must apply to the real estate business and real estate men.

George A. Fuller has purchased the northeast corner of Drexel boulevard and Forty-fourth street, 60 by 180 feet, from the estate of J. H. Lathrop, for $30,000.

E. S. Dreyer & Co. report the sale of 20x120 feet, at No. 342 Fifth avenue, for Joseph Goetler to Edward Pieper for $36,000. The lot is improved with a three-story brick building.

T. D. Snyder is now in the east endeavoring to close a deal, said to be connected with the Stickney enterprise. It has been known for some time that important developments are brewing near the Stickney tract but their nature is carefully withheld from the public at present.

T. B. Boyd, of 128 LaSalle street reports the sale of 357 lots in City Heights inside the Chicago city limits for $213,000; also an 820 acre farm near Oswego, Kendall county, Ill., 42 miles from Chicago and ten miles from Aurora, to N. Martin of Chicago for $40,000 cash.

Walter H. Wilson has purchased the property at the northeast corner of Indiana avenue and Twenty-fourth street, being 77x60 feet, improved with three frame houses, for $25,000. The seller, Charles P. Mitchell, takes as part payment the residence No. 2718 Michigan avenue at a consideration of $17,500.

L. D. Kneeland, for a long time manager and secretary of Street's Stable Car line, has severed his connection with that company in order to become vice president of the West Pullman Land association, in which he and his friends are largely interested, and in the affairs of which he will hereafter take an active part.

The lease has gone to the records of the property on the southeast corner of Lake avenue and Fifty-fourth street. The lot has a frontage of fifty feet extending back to the railroad and the annual rental to be paid is $1,080 in gold. On a 6 per cent basis this establishes a valuation of $18,000 or $360 per front foot. The lease was made by Chas. M. Anderson to William D Washburn.

James. E. McElroy & Co. are erecting a number of attractive residences at Sheldon Heights for which permits were issued Thursday. Contracts have been let for ten of these houses, to cost on an average about $3,500 each. They will be erected on Butler, Hanover and Parnell avenues, near One Hundred and Twelfth street. It is understood that a number of others are to be built as soon as these are completed.

Work on the plant of the Nichols Chemical Company at South Waukegan has been commenced and activity in that region promises to be revived. E. S. Dreyer & Co. have put their property at this place on the market to be sold in lots and it is understood that several other acre tracts are to be subdivided and retailed. The Nichols Chemical Company's plant will be second in size only to that of Washburn-Moen and will give employment to about five hundred men. The buildings will all be of brick and the cost of the plant will exceed $100,000.

A CHOICE LIST OF SUMMER RESORTS.

In the Lake regions of Wisconsin, Northern Michigan, Minnesota, Iowa, and the two Dakotas, there are hundreds of charming localities pre-eminently fitted for summer homes. Among the following selected list are names familiar to many of our readers as the perfection of Northern summer resorts. Nearly all of the Wisconsin points of interest are within a short distance from Chicago or Milwaukee and none of them are so far away from the "busy marts of civilization" that they can not be reached in a few hours of travel by frequent trains over the finest roads in the northwest—the Chicago, Milwaukee & St. Paul Railway, and Milwaukee & Northern Railroad:

Oconomowoc, Wis,	Clear Lake, Ia.
Minocqua, Wis.	Lakes Okoboji, Ia.
Wankesha, Wis.	Spirit Lake, Ia.
Palmyra, Wis	Frontenac, Minn.
Tomahawk Lakes, Wis.	Lake Minnetonka Minn.
Lakeside, Wis.	Ortonville, Minn.
Kilbonrn City, Wis. (Dells of the Wisconsin)	Prior Lake, Minn White Bear Lake, Minn.
Beaver Dam, Wis.	Lake Madison, So Dakota.
Madison, Wis.	
Delavan, Wis.	Big Stone Lake, So. Dakota.
Sparta, Wis.	
Pewankee, Wis.	Elhart Lake, Wis.
Wansaukee, Wis.	Ontonagon, Mich.
Marquette, Mich.	Mackinaw, Mich.

For detailed information apply to any conpon ticket agent, or send stamp for a free illustrated tourist folder to Geo. H. Heafford, General Passenger Agent, Chicago, Ill.

Public Notice.

FOR COMPUTERS AND DRAFTSMAN.

The Civil Service Commission will hold examinations on the 28th of June, continuing through the 29th, to fill two vacancies in the position of computer in the Coast and Geodetic survey at $1,000 a year, and one in the position of Draftsman at $900. Arrangements may be made to hold the examinations in some of the large cities outside of Washington, if there should be applicants. The subjects of the Computer's examination will be orthography, penmanship, letter-writing, algebra, trigonometry, geometry, geodesy and practical astronomy and differential and integral calculus. The subjects of the drafting examinations will be letter-writing, geography, arithmetic, algebra, geometry, descriptive geometry, plane and spherical trigonometry, shades and shadows, and drawing. Application blanks may be had of the Civil Service Commission. Residents of the District of Columbia are ineligible. Applicants will be required to furnish the necessary implements for drawing. JOHN T. DOYLE
Sec'y U. S. C. S. C

CASINO.

Haverly's Mastodon Minstrels are, without question, the most complete organization that has ever appeared in Chicago, and their performances at the Casino (Eden Musee) have been endorsed in most thorough manner by all classes of amusement seekers. Particularly attractive are the entertainments to out-town visitors, who after an inspection of the various objects of interest in the Musee department, attend the minstrel concerts. The program of the past week has been very pleasing, but the coming week will be a gala week, commemorative of Ireland's patron saint, St. Patrick, the great and good, whose birthday is celebrated throughout the entire civilized world. The program will include all the members of the company, and Irish ballads will predominate. The theater will be decorated and draped with the national colors and flags, and our beautiful wax figure of Robert Emmett will be exhibited free. A new singer will be heard in the person of Mr. Albert Yale, well known to all Canadians as a vocalist of much merit. Banks Winter the celebrated tenor, will have a new song. The comedians Rice, Hall, Denton, Rudworth, Bogert, and O'Brien will have new specialties. Ellwood, the wonderful male soprano, will display new feminine toilets. Constantine, the dancer, will execute new solos, and Harry Budworth will repeat his new repertoire. The latter's song, "Come to Baltimore," has "caught the town" and is encored three and four times every perfo mance. Altogether, the week will be one long to be remembered, and all desirous of hearty, wholesome pleasure should not fail to attend. "Excelsior" is Mr. Haverly's motto. Much has been done by this gentleman "but more remains behind."

THE
CHICAGO,
MILWAUKEE
AND ST. PAUL
RAILWAY CO.

Owns and operates 5,650 miles of thoroughly equipped road in Illinois, Wisconsin, Iowa, Missouri, Minnesota and Dakota.

It is the Best Direct Route between all principal points in the Northwest, Southwest and Far West.

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory, rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,
Industrial Commissioner,
C., M., & St. Paul R'y, 160 Adams St., Chicago, Ill.

FRANKLIN PARK 90 feet above Lake Michigan. "EXCELSIOR" Is Its Motto.

What a Word of Significance in these simple Figures for the safe Guidance of the prudent Man who, in locating a Home for his Family, would put high above all minor Considerations,

The Priceless Boon of Health.

FRANKLIN PARK is the Growth of less than two Years. It is the suburban Terminus of the Chicago & Northern Pacific R. R., and is situated at the Intersection of the Wisconsin Central R. R. with the Chicago, Milwaukee & St. Paul R. R. It is 90 feet above Lake Michigan, 11 miles from the City's centre, 2 1-2 miles west of the City limits and is accommodated by 54 passenger trains daily. It has the two finest suburban depots west of the City, costing over $5,000 each, a spacious hotel, a fine block of stores, scores of attractive residences, miles of side-walk, sewers and shade trees and an abundance of wholesome water.

On its western border is MANHEIM, the nucleus of extensive manufacturing concerns and destined to be a busy centre of diversified industries.

You areWelcome any Sunday or any Weekday, to a free Ticket for the Inspection of this,

The Highest Suburb of Chicago.

My Sunday Trains leave on { Chicago and Northern Pacific R. R.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

DOLESE & SHEPARD, 162 Washington Street, Chicago,

HAVE BEEN AWARDED A CONTRACT AMOUNTING TO

ONE HUNDRED AND SEVENTY THOUSAND DOLLARS

($170,000) for the purpose of macadamizing 17 miles of streets and building stone sidewalks.

NO ASSESSMENT will be made for the improvements, the Association assuming the entire expense. The wise and prudent people who invest a small amount of money in CHICAGO HEIGHTS property will in a comparatively short time reap large benefits. No sane person can question the wisdom of making an investment in Chicago property.

Four large factories are in full operation and contracts closed with several others. A large number of residences and business houses in course of construction, also an extensive factory building for Roth & Englehardt, Piano Manufacturers of New York.

STABILITY OF THE ENTERPRISE

The following well-known gentlemen are among the promoters of Chicago Heights:

TRADE AND FINANCE.

Every indication on this side the Atlantic points to favorable conditions of trade and general prosperity. On the other hand, a wail of discouragement and distress is wafted from the European side of the water such as has not been heard in twenty years. Strangely enough, adversity there means increased prosperity here, so that for the immediate future we may expect a continuation of the present prosperous outlook. A season of short crops in Europe, with an abundant supply here, assures heavy exports of bread stuffs from this country. This puts the balance of trade largely in our favor and tends to strengthen the foreign demand for American securities. Eventually, a few years of such conditions will check the export of gold and result in gold imports. This was strikingly illustrated in the years 1878, 1879, 1880 and 1881. During those four years our exports of bread stuffs steadily increased from $181,000,000 in 1878 to $288,000,000 in 1880 and $270,000,000 in 1881. Note how the gold imports increased during the same period. In 1878 we imported $4,125,760 net gold; in 1881 we imported $97,000,000 net. Europe could not continue to hold the gold against such a tremendous balanceof trade in our favor extending over a period of three or four years. For a year or two she unloaded American securities as an offset, but the time came at last when these were no longer available and the gold itself must be forthcoming. Then the reaction set in in good earnest, gold shipments to this country became enormous, and American securities came into brisk demand in Europe. This is likely to be repeated within another year. The balance of trade has now been strongly in our favor for three years. With a continuance of the same conditions for another year we may expect a repetition of the gold imports of 1880 and 1881 in 1892 and 1893.

In contrast to the feeling of encouragement on this side of the water is the general uneasiness and depression in London and other European banking circles. The chairman of one of the leading joint-stock banks at a recent meeting declared that they would have to go back to 1848 in order to find any parallel to the present stagnation on the stock exchange. The evidences of depression are manifest and widespread. Nearly all the leading banks have declared decreased dividends for the first six months of the year; and the same is true of nearly all the principal railroad companies. Practically the same story comes from Berlin as from London—a tale of depression and dullness, all the chief industries of the countries suffering from low prices and lack of trade. It is a noteworthy fact that one mainstay of the German banks is investment in real estate. Bank shares in Berlin have in some cases recently risen through fortunate investments of this nature. In France business is apparently somewhat better than in England. The receipts of the six leading banking companies for the first six months of the year show a small decrease.

The monetary situation continues about the same. The per capita circulation has slightly decreased and is now $24.41. The net gold balance in the treasury has also decreased about $4,000,000, owing to the continued shipments of gold to Europe. The general opinion is that the currency supply of the country is now more evenly distributed than at any previous time. Shipments of money to move crops with have ceased to be as common as heretofore and it is thought that the west can now take care of her own needs in this direction. That Chicago is becoming more of a banking center is evidenced by the fact that, in addition to the organization of a new bank, as reported by the JOURNAL last week, the Bank of Nova Scotia will open a branch here at once and the Bankers' National bank opened its doors for business Thursday morning in its new quarters in the Masonic Temple. E. S. Lacy, formerly comptroller of the currency, is president of this institution. The promising field afforded by Chicago for loaning surplus funds will result in the establishment here of other new banks or branches of foreign banking houses.

The abundance of money seeking investment has at length reached the stock exchanges and caused sharp competition for the street railway and industrial securities. This week has witnessed a sharp advance in some of the stocks which were heretofore considered among the weaker ones. The probability is that these securities will never sell for less than they are bringing now. That a similar condition surrounds the real estate market can not be doubted by any candid observer. The present disposition of investors to hold aloof from real estate investments will simply make prices all the higher when the rush of idle capital into real estate comes later on, as it must surely come at no very distant date.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of 69 leading cities for the week ending Aug. 4, 1892, as compared with those of the corresponding week last year, with percentages of increase and decrease.

CITY.	WEEK ENDING AUG. 4, 1892.	WEEK ENDING AUG. 6, 1891.	PERCENTAGES.

Totals, Can.	$19,170,916	$10,041,873	

†Not included in totals.

The total of the bank clearings for the week, as given above, is an increase over the week preceding of $87,267,000. The result from that point of view, therefore, is encouraging. About $28,000,000 of this increase is outside of New York City, showing that the wave of financial prosperity is quite generally diffused. The total of New York's clearings for the week was over 56 millions more than last week. This is a wonderful increase, and cannot be accounted for by any reference to a change in weather conditions. The explanation must rather be sought in the generally prosperous condition of the country and the feeling of confidence among business men in the coming fall season The probable large crops and consequent demand for commodities of all kinds among agricultural classes, is doubtless giving a stimulus to trade even at this early date Advices from all parts of the country indicate a good demand for manufactured goods of every description. Retailers are said to be buying larger stocks than usual at this time of year. It remains to be seen whether their expections will be justified.

The total of the clearings for this week, as compared with those for the corresponding week last year, shows a handsome increase, viz 8 per cent. About the same percentage of increase is shown for the total outside of New York City. This is in keeping with the steady gains which have characterized the bank clearings' report for months past. Continued at this rate for a course of years, the result will be marvelous. The possibilities of the commercial growth of the country appear to be practically boundless

We note from the table that business is apparently exceptionally good at Chicago and Philadelphia, but has fallen off at Baltimore. Trustworthy reports are to the effect that much of the wholesale business which formerly found its way to Baltimore has of late been diverted to other points. So noticeable has this defection become that the wholesale houses of Baltimore have begun seriously to consider means for recovering their lost ground and restoring to the city its former prestige as a jobbing centre. It is doubtful if any ordinary efforts can prevent the westward march of trade. Baltimore is only one of a number of Eastern cities that are suffering from inevitable Western competition.

The table is strongly illustrative of the fact that trade naturally seeks the great centres. Not only is there a marked falling off in business at Eastern cities, but the same thing is noticeable in the South and Far-west. San Francisco returns a decrease as usual; and so do Portland, (Oregon) Seattle and Los Angeles. The same is true of Galveston and Birmingham, though New Orleans, on the contrary, shows a gain. But it is noticeable that the great railroad centers of the continent all show handsome gains. This is strikingly illustrated in Canada, where the seaport city of Halifax returns a decreasing percentage and the inland city of Montreal shows a gain of 20 per cent.

Stock speculation is apparently at a standstill, so that the clearing-house returns practically represent commercial activity only. Foreigners are selling American securities so largely as to seriously depress the market. A conservative estimate of the clearings for July of this year gives them a probable gain of 15 per cent over those of July 1891. This is the more remarkable as prices are fully 5 per cent lower this year than last. Every indication points to an exceptionally prosperous season.

Continuing our analysis for the same weeks, but by groups of states, we have.

	WEEK ENDING AUG. 4, 1892.	WEEK ENDING AUG 6, 1891.	PERCENTAGE.
New Engl'd States.	$106,822,835	$106,313,294	
Middle "	700,483,361	642,611,563	Inc 9.0
Southern "	33,933,113	33,735,877	
Western "	42,037,701	34,954,896	" 20.6
Northwestern "	128,813,220	111,934,364	" 15.3
Southwestern "	40,112,126	35,488,106	" 11.4
Far Western "	26,790,586	28,228,522	Dec 5.0
Totals,	$1,078,992,942	$ 993,266,622	

The analysis by groups of States shows gains in all except the Farwestern. This is in keeping with previous reports, which have shown this group to be somewhat lagging. The gain of 20 6 per cent in the Western and of 15.3 in the Northwestern groups is the most striking feature of the summary.

LOCAL STOCK MARKET.

The advance in the street railway securities was broken this week, not by reaction but by still sharper advances. On the opening of the Exchange Monday morning the stock of the North Chicago city railway was marked up to 240¼ with nothing offered on the general market below 241. West Side started out with an advance to 195. On Tuesday North Side scored a net advance of 10 points and the market reached the pitch predicted by the more optimistic brokers with West Side at 200 and North Side at 250. The predictions made by the supporters of the two Yerkes' securities have been carried out almost to the letter and prove that much of the stock is in the strongest kind of hands. The usual rules regarding the course of a market, under such circumstances, are not to be depended on. The daily advances indicate rather a reluctance on the part of holders to sell than any great demand. The stock has gotten entirely out of the reach of speculators and under the existing conditions is not a speculative property. In the first place, the income cuts no figure as compared with the selling price of the stock. At the present quotations, the North and West Side railway stock cannot earn more than bond rates of income. Brokers are not satisfied to handle the railway securities at present rates for the general run of customers at anything like ordinary margins and speculators cannot operate on a 50 point margin. To be a satisfactorily speculative security there must be two sides to the market, and for the past six weeks there has been only one side represented in the street railway market. The supporters of the stock, or the bulls, have had it all their own way while the bears have been run to cover whenever they made their appearance. The even figures of 200 and 250 do not seem to be the limit of possibilities in the illogical advance in prices On both days following the tenth point advance, prices were marked up to 251 and 252 for account sales, and predictions are as freely made that the stock will continue up the scale, as that the reaction which has been expected by the few brokers who have the courage of their convictions in being bears, will be felt.

Street's Stable Car stock was one of the active securities on the list this week and larger sales have been made than have been noted for some months. The movement in this stock, although generally tending upward, is in sharp contrast to the street railway movement. The stock of the Street Stable Car Co. seems to be destined to be a favorite speculative property. Just the opposite conditions from those found regarding the railway securities are discovered in regard to this stock. It is low in price and still can be carried to advantage as it earns a fair rate of interest. It has always been a favorite among speculators and both sides of the market are generally well represented. It is a fact, however, that there is almost invariably a large amount of short stock out. Some of this is being covered in the present advances which have been made up to nearly 36. During the entire week, the tendency has been upward by slow stages, while a great amount of the stock has changed hands. On Wednesday alone, the sales of the stock amounted to 4,687 shares or over double those of the day before. If it were not for the continual disturbance of the beer war, the brewery stocks would be favorites among speculators at this time. The approach of the World's Fair season is equally as much a bull point in the brewery stock as in the railway securities. The good points, however, are more than counteracted by the beer war trouble. Two or three of the breweries persist in their determination to stay out of the combination and occasionally a new brewery is started to add complications to the situation. New theories are being advanced looking toward the ultimate settlement of the brewery question but none of them seem entirely feasible. One theme suggested is for the brewery company to lease or own a large number of retail liquor houses which are to be sublet to saloon keepers who will buy nothing but beer manufactured by the Trust.

There is talk of a consolidation of the Packing and Provision company with the new International Packing and Provision company and it is claimed that representatives from here are now abroad in the interest of such a combination. On the strength of this rumor, Packing and Provision stock is rather stronger than usual and was sold up to 55. It is expected that the stock of the International company will be listed on the Stock Exchange before long, but possibly not until after details of consolidation are fully adjusted. The other industrial stocks were rather irregular in their movement without any decided change in quotations. The sales of Strawboard have scarcely been sufficient to determine just what the market is but the tendency during the week has been toward a decline. The decline is explained on the ground that a sale of a fair sized block of stock was forced on the market and caused the slight fluctuation.

Alley elevated stock continues about par and scarcely on good demand. The bonds of the road are off to 97. It is probable that the securities of the road will not be in good demand until some arrangement has been made for a down town terminal nearer the business center than Congress street.

THE COAL CONSPIRACY.

When the great coal combine was effected and it became evident that the anthracite coal supply had passed into the hands of a single corporation, THE JOURNAL pointed out the fact that if the efforts of the company were, as they alleged, in the direction of cheapening the cost of production and transportation, well and good; but if it was merely a combination to raise prices, then the movement was simply organized robbery and must be put down. Several months have passed since the new organization went into effect, and up to present writing there is every indication that the company has no higher aim than to corner the anthracite coal market and put up the price of hard coal to the very topmost notch. That such an outrage is possible in this country casts a serious reflection on our form of government. We believe that the scheme will not last. The people of the east are already aroused against it. The publication of the official price list for Philadelphia tells the story. It is as follows:

	JANUARY.	JULY.	INC.
Stove	$3.45	$4.50	$1.05
Chestnut	3 10	4.40	1 30
Egg	3 30	4.20	90
Grate	3 25	3 90	65

The truth is that Philadelphia fell into the same trap which was set for New Jersey. The smart legislators of that State voted to legalize the combination "upon distinct assurances from the railroads that the prices of coal shall not be advanced in New Jersey." Fortunately, Gov. Abbett was wise enough to place an actual value upon the so-called pledge and the conspiracy did not receive the sanction of the law. The result of Philadelphia's selfish attempt to save money by means of extortion to be practiced upon New York and New England should indicate to that city the folly of trying to profit by evil association and the wisdom of conserving common interests.

THE IRON HALL.

The association known as the Iron Hall, which is now in process of investigation at Philadelphia, has been known for some time as a benevolent order of great size and apparently very successful. The concern proposed to pay to its members a certain sum of money at the expiration of seven years, or on the maturity of their bonds, in return for the moneys paid in by the members in installments. It was calculated that the number of members whose payments would be forfeited by lapsing would be sufficient to prove of great profit to the persistent ones who should remain. The extravagant promises made by this and other similar associations led to no little comment by the press, and at last this has resulted in the demand for an investigation on the part of some of the stockholders.

The agitation against the Iron Hall was most active in Indianapolis. A dispatch from that city states the case as follows: "Several members of the order of the Iron Hall have applied for a receiver The concern has been doing an immense business, and has a large membership in New York, Pennsylvania, and New England. The complaint charges recklessness and extravagant payment of salaries and the expenditure of large sums of money for trading expenses and pretended claims, amounting in one year to over $50,000, which, it is charged, was appropriated and used by Vice-President Somerby of Philadelphia, in the pretended payment of expenses. At different times all the general fund has been exhausted, and large sums of money have been taken from the reserve fund and placed in the general fund instead of allowing them to remain to pay the benefits and claims of the members. The complaint charges that Somerby, in order to keep this matter secret, has made alterations in the books. The complaint charges also that the corporation is indebted for benefits maturing in 1892 over $1,000,000, and for 1893 over $4,000,000.

This is represented as untrue as regards pecuniary matters, but the applications have to be answered in court.

It appears that Supreme Cashier Davis is somewhat in sympathy with the effort to have a receiver appointed for the Order of the Iron Hall, and that Chief Justice Somerby and his executive committee will endeavor to depose Davis from office. Davis when asked about the probable investigation of his accounts, said: "I am perfectly willing to have experts go through my books. If there should be something wrong or an omission I am able to make it good. I know there has been a disposition to put the blame of this thing on me. Suppose I did say to some one that there was something wrong with the order. I had a right to do that."

The Guarantee Investment company, a Missouri product, is a good example of these endowment concerns. The investor in this company pays $10 for a $1,000 bond and agrees to pay $1.25 a month until the bond matures, when the company is to pay him $1,000. The $1 goes into the redemption fund and the 25 cents into the expense fund. As soon as there is $1,000 in the redemption fund a bond is called in and paid. The promoters compute that 77 percent of the bonds will lapse through non-payment of installments. If this is the case, the persevering bond holders will receive their $1,000 in return for a comparatively small sum.

The bonds are not paid off in regular order, but go by jumps to multiples of five and back. For instance, the first bond due is No. 1, then No. 5, then No. 2, then No. 10, then No. 3, then No 15, then No. 4, then No. 20, then No. 6, then No. 25, and so on to the end.

The success of these schemes apparently depends on the liability of a large proportion of the bondholders to allow their bonds to lapse, and incidentally on the very uncertain contingency of the honesty of the officers.

AN IMPORTANT SOUTH SIDE ENTERPRISE.

TURN SOCIETIES OF THE SOUTH SIDE TO BE PROVIDED WITH AN ELEGANT AND COMMODIOUS HOME.

The exceptional building activity of the season preceding the World's Fair year has stimulated many improvements which have no direct reference to the Fair but are intended to be solidly permanent and of such character as to keep pace with the substantial growth of the city. Such are many of the apartment buildings which are being erected, as well as many of the more substantial hotel buildings This class includes also a large number of business structures, but especially buildings devoted to club purposes. The need of such buildings, for the accommodation of the many clubs and social organizations, which are increasing in numbers and importance in Chicago every year, is becoming more and more apparent. That such structures are a valuable feature of the city's architecture is evidenced by the number and importanee of the buildings already devoted to such purposes throughout the city, as well as by the readiness with which such structures are rented by societies already organized or about to be organized. A conspicuous example is the German club building on North Clark street; also the new Turnhall now in process of erection on Wells street. We are informed that the south side also, not to be outdone by other portions of the city, is to have a commodious and elegant home for the Turners and song societies of that section.

Mr. Bernhard Baum, well known in Chicago as the proprietor of Baum's Pavillion, will shortly begin the erection on property owned by him on State street near Thirty first street of an elegant brown stone and pressed brick structure covering an area of 75x125 feet, and designed to be the most commodious and perfect building for Turners and other social organizations yet erected in this city. Mr. Baum has long had this project in view and has secured the property at this convenient location with the idea of erecting a home for south-side German societies which shall be a permanent feature of the city and an architectural ornament to the locality. With this view he has secured the services of the well-known firm of Flanders & Zimmerman who have just completed plans for the building in their usual thorough and artistic style. The elevations as shown to a JOURNAL reporter reflect great credit on both architects and owner. The front will be of brown stone, and shows an artistic and harmonious design typical of the public character of the structure. The main entrance will be twenty feet wide and is supported by a noble arch which gives emphasis and dignity to the entire front. Numerous balconies and arcades give expression and diversity to the otherwise massive looking front and at the same time suggest and outline the interior arrangement. The two lower stories will be of brownstone and the work above of Roman pressed brick with colored terra cotta trimmings. A striking feature of the front will be the rich carving and ornamental work with which it will be adorned. Over the main entrance will be seen busts of Beethoven and Mozart, and above, in the center of the arcade, a heroic bust of Father Jahn, founder of the Turngemeinde.

The floor plans of the building are of equal interest with the external architectural features. The first story will contain a restaurant, bowling alley and gymnasium, with dressing rooms, lockers, shower baths and toilet rooms. These features have purposely been placed within easy reach of the spacious entrance hall which opens on State street. From this hall a grand marble staircase will lead to a series of lodge rooms, assembly halls and banquet and ball rooms. The second floor will be taken up by two lodge rooms fronting on State street 24x41 feet in size, with the usual ante rooms and toilet arrangements. On this floor also will be a library and a unique dancing hall, 58 feet long and 47 feet wide. Connected with the dancing hall will be a kitchen, dressing room etc., the entire floor being so arranged that the dancing hall can be used in connection with the lodge rooms as an assembly hall, the library being used as a dining room.

But the grand feature of the building will be the immense assembly room, 75x125 feet, which will take up the greater part of the upper floor. In connection with this hall, also, there will be spacious dressing and retiring rooms, the entire front being occupied by a large cafe and restaurant. It is the intention of the owner and architects to make this the best assembly hall in the city, with all possible conveniences of ingress and egress. To this end no expense will be spared.

The entire building will be heated by steam and lighted by gas and electricity. The adjoining lot has been purchased for the purpose of putting the heating and power plant outside the premises. Especial attention will be paid to ventilation. Powerful fans have been arranged to force air into the rooms by ducts and to exhaust the foul air in the same manner. The building will be thoroughly fire-proof and will be as substantially built as is possible in this age of steel.

THE RESULTS OF IRRIGATION.

It is to irrigation that Southern California owes its present population. A correspondent writing of the development of that section says that within ten years Southern California has seen cities of 60,000 people, with all the adventitious aids of water, sewerage and street railway systems and magnificent public buildings, rise from the plain or carved from the mountain sides. Immense engineering works in the way of reservoirs, railways, and harbors have been constructed, calling for the outlay of enormous wealth and remarkable faith in the future of a country where the visible resources were so small.

The one trunk railroad of this pastoral region is the Southern California. The capitalists of Boston and San Francisco had, years ago, looked favorably upon the lower Colorado and Yuma territory, but it remained for the projectors of the Southern California "spider-web" system of railroads to conquer that hitherto vast and inaccessible waste. In 1892 the conditions in what are now the five principal cities of the Southern counties were: Los Angeles was a distributing point for supplies for grazers, San Bernandino was a small village, Passadena was a winter resort known as "the Indiana colony," consisting of a few dozen houses, San Diego was a Pacific port with great expectations on account of its fine harbor, and a population of less than 4,000, but was the terminus of the Southern California, then building northward to a connection with C. P. Huntington's Southern Pacific at Colton; Riverside was a small colony trying to introduce a little mountain water on the desert plain. Thoughtful men, interested in the new railroad, came and looked at the results of irrigation on a small scale at Riverside and reasoned that the same or better results were possible at other points. The railroad was built and irrigation became its handmaid. See the Los Angeles of to-day with its wholesale trade, its miles of magnificent streets, sewerage, street railways, public schools, and 60,000 happy, contented people; San Diego with 20,000 people and her harbor floating the vessels of Pacific and Central American ports; San Bernardino with 7,000; Pasadena with an equal population, its rose-embowered homes and its gardens and fields of oranges and lemons and deciduous fruits; Riverside with its miles of great irrigating canals and pipes.

The Agricultural College Land Grant Board has decided to place the 150,000 acres of college lands recently restored to market on sale at the office of the Commissioner of the Land Office in Lansing, Sept 29, at 10 o'clock in the morning.

THE REAL ESTATE MARKET.

FAVORABLE AS WELL AS UNFAVORABLE FEATURES.

In regard to the general real estate market, much might be said both pro and con. The records from week to week show that an amount of property of no mean proportions is changing ownership, and that the transfers include some important down town holdings. It is true that the mass of transfers dispose of the ownership of residence property and the occasional down town sales are of the most satisfactory nature, and reflect the easy money conditions of the city. The transfer of the southwest corner of Dearborn and Randolph streets which appeared on the records this week is one of a number of instances of purely investment transactions. This corner was sold by J. D. Quinlan to E. A. Lyon for $190,000. It is 20x100 feet in dimensions and the price paid is consequently not far from $100 a square foot, in case the improvements are not taken into consideration The purchase was made by Mr. Lyon as an investment and is one of a class of transactions which naturally makes its appearance as a sequence of the plethora of investment capital. The building will be left as it is with slight interior alterations and improvements, as the purchaser is satisfied to realize a moderate rate of income. The price paid for the property and the character of the improvements would preclude the possibility of a high income rate being secured, and for this reason the property would not attract a speculative buyer. Some time ago an effort was made to combine the corner property with the Randolph street frontage adjoining on the west, but the project was abandoned as unfeasible. Two years ago the sale of this corner would have involved the supplementing it with adjoining holdings and the somewhat problematical project of replacing the present building with a skyscraper. It is certainly no unfavorable sign of the times when investment purchases replace speculative transactions, and property goes into the hands of capitalists of good financial standing rather than to promoters of uncertain corporations. The fact that no sales of central business property are being made at less than full market value, and that in the face of this the demand is far in advance of the supply is evidence that the situation in the down town district needs no apology.

In regard to acres the existing conditions are by no means so flattering. No one has the temerity to assert that there is anything like an active market for this class of realty. Subdivisions operation were carried on at an unprecedented rate in 1890-91 and an extensive belt of outlying country was for the first time brought into market. Much of this is in the hands of the first purchasers and is practically on the market. It is unfair to assume that all the acre property is being held ready to be dropped on purchasers who will make any sort of an offer. Although acres in general are considered speculative property and are favored by speculative operators, the investment element has been liberally represented in acre purchases in and around Chicago. Statistics and figures are against the carrying of acres. but notwithstanding the logic of these figures fortunes have been amassed by capitalists and estates holding large tracts for gradual development. The condition of the acre market for the last two years is the best evidence that something may be expected of it in the future. During the inactivity which followed the acre flurry of 1889 and 1890 buyers have gone on quietly in this faith in the growth of Chicago, and have met their second and third payments and are now owners rather than holders of equities of doubtful value. The chuckling of constitutional bears and people who are opposed to any kind of real estate investments is heard above the complaints of holders of acres bought a year or two ago. The manner in which buyers of acres have stood by their purchases has been a cause of surprise in real estate circles and the Stickney situation is cited as an illustration of the strength and perseverance of owners of outside property.

The fortunes of the subdivision market are linked with those of the market in acres or rather the acre market depends on the subdivision lot situation. For various reasons this has not been a satisfactory year for subdividers The business has perhaps been overdone of late and in addition to this the physical conditions have not been such as would encourage the retailing of property. While thousands of lots have been marketed recently, a fair proportion of these have been taken for small investments and are practically taken out of the market. The wisdom of purchasing vacant lots to be held for an indefinite length of time by people of small means may well be questioned by the man who applies the strict rule of income percentage. The man, however, who buys property in the long run is ahead of the man who figures out that he is living more cheaply as a renter than as an owner. It goes without saying as well that the first man is a better all around citizen than his neighbor who is not a property owner.

THE METROPOLITAN ELEVATED RAILROAD.

Now that the success of the Metropolitan Elevated road seem to be assured increased interest in the project is manifested. No change in the route as originally laid down has been made public. This is along the alley between Van Buren and Congress streets west from the river to Forty-second street or beyond; east and west, between Paulina and Wood streets, from the main line to Blue Island and Milwaukee avenues, with extensions on these streets. The main line, between Congress and Van Buren streets, will undoubtedly be constructed first, the others following later. Surveyors for the Metropolitan have selected a route as far west as the Desplaines river. The road is said to have bought the triangular lot between Ogden avenue, Van Buren and Honore streets, to be used as a station.

Mr. Herman Benze, in charge of the company's real estate, says the Metropolitan is to be an alley road, but as there are no alleys on the West Side which are available until Sangamon street is reached a way must be cut through the middle of many blocks. Thus damage suits will be avoided. It is desirable that the road be as free from curves as possible, for mechanical reasons. This consideration will be a large one in the selection of a route. There will be a branch line running north and south, probably between Paulina street and Ashland boulevard. East of the junction of this branch we will have four tracks. That will be necessary to accommodate the business of the branch, lines more of which will be built when the main lines are well under headway. It is expected that the main line will be in operation within a year and a half and the branches soon after.

LATEST WORLD'S FAIR HOTEL PROJECTS.

The South Park Hotel company, an organization with a capital stock of $600,000, has been formed for the purpose of building a first-class hotel in Hyde Park. The hotel will cover the entire north frontage on Fifty-seventh street, between Washington and Madison avenues, The site has a frontage of 300 feet and a depth of 144 feet. It is now the property of the hotel company, but was formerly owned by A. L. Smith. The land is considered worth $400 a front foot. or a total of $120,000. The hotel is not being constructed for World's Fair occupancy. It is being built strictly fireproof, of iron, stone and brick. The representatives of the company claim that no pains will be spared to make the building in construction and equipment one of the finest apartment hotels in the country. Plans have been drawn by Wilson & Marble.

The directors of the South Park Hotel company are A. L. Smith, ex-Senator Lawrence. Horatio Wilson, Fred Smith, Mr. White a wholesale dealer; Mr. Freeman of Freeman & Walker, and M. S Denslow. Mr. Denslow, with Merigold & Co., carried on the negotiations for the construction of the building. A bond issue has been made, based on the land and building, as the site will be held by the hotel company, not as a leasehold, but in fee simple.

The hotel will be just two blocks west of the South Park station on the Illinois Central railroad and one block west of the cable loop. It will not be far from the new university, and the hotel people expect a certain amount of patronage from that source. The location with reference to World's Fair use next year is excellent, as it is within three blocks of the Exposition entrance.

Still another hotel is reported for the World's Fair district. John H. Brady has leased the northeast corner of Fifty-fifth street and Jefferson avenue from Patrick Chambers for a term of ninety-nine years The lot is 150x103 feet and the annual rental $1,500. On a 6 per cent basis of capitalization the lease determines a land valuation of $75,000, or $50 a front foot. The lessee will build a four-story apartment house, covering the entire lot and representing an outlay of $100,000. The building will be of pressed brick, trimmed with stone.

A lease for ninety-nine years of the property at the northwest corner of Washington avenue and Fifty-ninth street from A. T. Ewing to Barry Bros at $5,500 per year was filed for record Monday. The land fronts east 290x150 feet, with 100x150 feet adjoining on the northeast corner of Madison avenue and Fifty-ninth street. This gives the ground a frontage of 300 feet on Midway plaisance, 200 feet on Washington avenue, and 100 feet on Madison avenue. The rate per foot of plaisance frontage established by the lease is $33 1/3. On this ground, covering it all, the lessees will erect a fine five story hotel, which, from the plans, promises to be one of the best of World's Fair improvements. Ground has been broken The hotel has been leased to an Eastern syndicate.

SALE OF STATE LINE LANDS BY THE COURT.

The Title Guarantee and Trust company as receiver in the case of Colehour versus Roby has advertised for bids for a tract of 130 acres on the Illinois-Indiana State line between One Hundred and Sixth and One Hundred and Twelfth streets. In a certain sense this land has been sold so far as the power of the receiver extends. Some time ago an offer of $700 an acre was made for the land and substantiated by the deposit of $5,000 earnest money. The persons interested in the property raised a hue and cry to the effect that the price was altogether too low, and Judge Tuley gave them six days to file objections to the sale. Before the six days expired another offer of $725 an acre was received, backed by a deposit of $5 000. The court finally decided that bids be advertised for, and if no higher bid is secured the land will be sold to the man offering $700 an acre, who has agreed to let his bid stand.

The man offering $725 has taken steps to withdraw his bid The tract of land is unsubdivided, and is three-quarters of a mile long A manufacturing company is negotiating for a part of the Colehour lands lying along the lake shore.

ANOTHER INDUSTRY FOR CHICAGO HEIGHTS.

The Western Cut and Die company's plant is to be removed to Chicago Heights. The new plant will be located adjoining that of the Canedy Manufacturing company, and one power plant will supply both factories. The wonderful activity in manufacturing and subdivision property at Chicago Heights still continues unabated and great things are prophesied for the future of this young manufacturing city.

SALES OF REAL ESTATE AT AUCTION.

It is said that sales of real estate at auction on the Real Estate Board in addition to the judicial sales now being held will be begun as soon as the necessary arrangements can be made. Several prominent firms are ready to begin at once.

The first auction under the new rules of the Real Estate Exchange was held last Tuesday. Three pieces of property were offered and the bidding was spirited for a time, but did not result in a sale. A lot on West Madison street, south front, 80 feet east of Washtenaw avenue, 25 by 125 feet, was bid up to $115 per foot, but the owner would not part with it at that figure, claiming that it is worth $175. The report on the exchange is that buyers are making inquiry for property constantly and that the auction feature is sure to be a success if persevered in.

ACTIVITY AT EDISON PARK.

Mr. C. F. Thayer of this city has purchased 92 lots at Edison Park from Butler & McCabe for $20,000. This is considered a very fair price, as there is a building restriction of $2,500 and a 25-foot building line specified. Those who knew Edison Park a year ago would be surprised to see what energy, experience and capital have accomplished in the way of improvement. Mr. Thayer expects to have a handsome home erected before the close of the season and his brother will erect a house to cost $5,000 on adjoining lots. Mr. A. P. Smith has commenced the erection of a large hotel to be known as "The Edison." October 15 is the date named for its completion. Contractors are busy laying the street curb and as soon as finished the macadamizing will be rushed forward.

The new M. E. Church will be ready for dedication at an early date. It is a little gem in church architecture. Butler & McCabe have fourteen handsome houses under contract to be built this fall. Half of them are under way. We have always maintained that the way to enhance the value of property is to spend money on substantial improvements and the success attending the efforts of Messrs. Butler & McCabe demonstrates that the rule is just as good today as during the greatest activity.

TAX SALES AT THE COUNTY BOARD ROOMS.

Sales for taxes are now being held in the County Board rooms. Several of the outside towns have been sold and the town of Worth will be sold to-day. The tax buyers secure title to the property bought by them in two years. The property can be redeemed by the owner at any time previous by the payment of 25 per cent of the taxes for every six months of lapse as penalty to the buyer. This practically amounts to 100 per cent in two years, but as a matter of fact where a tax title is set aside by decree of court only 6 per cent per annum is allowed to the buyer. The difference usually goes to the owner's attorney. It is very seldom that a tax buyer acquires a permanent title to valuable property by purchasing at tax sale. Either the property is worthless or the owner comes to the surface of his own accord or through the efforts of some enterprising attorney.

WORK BEGUN AT CHICAGO UNIVERSITY.

At a meeting of the Board of Trustees of the Chicago University held Monday afternoon excavating contracts were let for eight buildings. Grale & Hyde were the successful bidders.

Dr. Goodspeed positively declined to give the figures, but said: "The contract calls for the completion of the work by Sept. 1. It will be finished at that time. The following buildings will be for women: Kelly hall, woman's hall and Mary Beecher hall. The ground will also be broken for the Walker museum, Snell hall, a dormitory for men and the commons.

"Letting the contaact as we have gives us three weeks to examine bids for the buildings and prepare to rush the work to a finish. I feel great satisfaction at the manner in which the ladies have paid their pledges. I received a check from Mrs. Mary Beecher for $50,000. Both Mrs. Kelly and Mrs. Foster have paid their subscriptions and the money is in the bank drawing interest.

IMPORTANT NEWS PENDING.

News of great interest will appear in next week's JOURNAL relative to the sale of property at Cicero. The map printed in this week's issue shows territory which of late has been coming prominently to the front, and in which a deal of great magnitude is being consummated. Full particulars will be given in the next issue of the JOURNAL.

SALE OF 100,000 ACRES.

A special telegraphic dispatch says: The North American Loan and Trust company of Huron, in the Circuit Court at Miller, S. D., took execution paper on 100,000 acres of land belonging to the Colonial and United States Mortgage compan at Hull, England, and will sell the same to satisfy a $45,000 judgment The land is situated in Hand, Beadle, Spink, Kingsbury, and Brookings counties. The 20,000 acres in Hand county will be sold Sept. 13.

TABLE OF REAL ESTATE VALUES.

The following table shows the real estate valuation for purposes of taxation placed by the local assessors on each town in Cook county for 1891 and 1892.

TOWNS.	1892.	1891.
Barrington	$ 297,997	$ 299,443
Bloom	438,817	343,427
Bremen	253,515	249 9 7
Calumet	1,054,807	1,004.935
Cicero	3,498,760	3,169,667
Elk Grove	227 949	261,519
Evanston	3,352,658	2,889.810
Hanover	292,748	287,410
Hyde Park	16,140,886	15,568,309
Jefferson	1,630,243	1,573,305
Lake	12,464,226	12,302,033
Lake View	4,161,545	4,076 705
Leyden	351,443	317,109
Lemont	224,141	230,463
Lyons	1,009,618	906,790
Maine	383,383	353,637

West Chicago	42,048,458	42,579,840
South Chicago	62,647,130	58,818,260
Totals	$171,326,539	$165,675,514
Increase		$6,251,025

ASK PERMISSION TO SELL.

The trustees of Mary V. McCormick are asking authority of the Circuit Court to sell a piece of property on Rush street, near Huron street, to the St. James church. A short time ago Mrs. E. S. Stickney gave the church $30,000 for a new structure, and the church trustees have offered the McCormicks $22,000 in promissory notes, secured by mortgage, and also a lot on Ontario street near the lake, said to be worth $15,000. The McCormick trustees are willing to make the trade, but it requires an order from court. Judge Tuley referred the matter to Master Boyesen to make a report.

IS THERE A REAL ESTATE MARKET?

As long as there is a demand for real estate and sales consummated sufficient to supply that demand there is in the strict sense of the term a real estate market. But if the question is asked if there is an active real estate market it must be answered in the negative. There is nothing like activity in the market when there are five to ten sellers or would-be-sellers to one buyer of cheap lots. The status of the market as to central holdings is very different to the state of the subdivision market, the former exhibiting a demand without a supply, and the latter a supply with a very limited demand. But this is wholly due to the very limited area of the one and the almost boundless scope of the other. The element of doubt no longer exists as to central business property, but with rare exceptions outside locations involve keen foresight and careful calculation. As shown elsewhere in this issue the demand for all kinds of property was active in 1889 and 1890, but today only favorite localities supported by money and judicious management win the favor of home seekers and investors.

The area of residence property widens and will continue to expand as long as the population of the city continues to increase, and this tendency will be augmented by the confusion and dirt of the city. Clean streets and a pure water supply will. when secured, serve to enhance city residence property and stay the tide that now flows to the suburbs. Necessity no longer compels the mechanic and the wage-worker to live in crowded tenements on crowded thoroughfares. The cable and the electric street car lines now in operation and projected will carry him ten miles for less than the difference in the cost of the rent, which he will gain by living in the suburbs. The market, therefore, in suburban property is simply gaining strength through rest.

A RETURN TO REASON.

The Alien Land Law, passed recently by the Legislature of the State of Texas, repeals all the objectionable features of the previous law that, from its passage until now, cast a deep slur on the stated intelligence of the members of the legislature who voted for it, alike in the opinion of the people of Texas, and of the United States generally, and in Europe also. The law is now as liberal toward the citizens of other nations as it can well be if any alien law to prevent monopoly of land by aliens is to be passed at all, and it certainly would not be good policy for Texas or any other State in the Union to put aliens, and non-resident aliens especially, on the same footing as citizens of this country. It would be folly for any citizens of another country to think of such a thing. But Texas has now covered the principle of her rights and proper home policy in this matter as mildly and liberally as any reasonable foreign citizen could expect, and it only remains to congratulate Texans on the return to common sense and the well-known magnanimity of the Texan people, and that foreign capital may flow to Texas and be employed there in legitimate enterprises with as much freedom by a London capitalist or combination of capitalists as in any other country on the globe.

TOO MUCH FINANCIERING.

Richmond Terminal is said to be suffering severely from the recent ineffectual attempts at financiering. The directors are engaged in a vain attempt to get order out of chaos. Every day sees a rising tide of opposition to the multiplying of committees that make suggestions and go no further through want of power, push, or personal interest John Bloodgood has issued a call for holders of the 5 per cent Richmond Terminal bonds to report at his office for concerted action. He says of the situation of their bonds:

"The default on the 6 per cent collateral trust bonds on Aug. 1 demonstrates that there will also be a default in the interest on the 5 per cent collateral trust bonds maturing Sept 1. There seems to be little hope for a reorganization.

"Unless its affairs are speedily placed in the hands of men who are bonafide owners of the securities," continued Mr. Bloodgood, "and who have no other interests to serve, disaster must follow. The Terminal is suffering from a very sad disorder—viz., too much financiering in the past."

AGENTS' BUDGET.

Recent sales, however small, not yet recorded, will be reported in this column. All matter must apply to the real estate business and real estate men.

Thomas Morehouse has sold the northwest corner of Dearborn and Sixty-first streets, 125 by 100 feet, with a three-story flat building for $45,000.

J. V. Howell buys of Franklin Landis for investment Fifty-four feet on Harrison street, south front, directly opposite the new pumping works, for $20,000. This is at the rate of about $370 per front foot.

The General Electric company, a combination of the Thompson-Houston and General Edison companies, has leased the Batchen warehouse, 144 by 100 feet and six stories high, located west of Halsted street on the Northern Pacific's tracks, for twelve years.

The Pennsylvania Railroad company will expend $50,000 on improvements to the Union Depot on Canal street.

B. A. Ulrich & Sons have sold the premises No. 4619 Lake avenue, a three story stone front residence with 20 by 125 feet of ground to Henry W. Harmon for $15,000; also fifty feet on Madison avenue between Forty-ninth and Fiftieth streets to C. M. Coffin for $10,000.

George & Wanner have sold twenty eight and one-half acres in the northeast quarter of section 26, township 39, range 13, to C Brougham for $110,000. This tract is near Brighton Park and the Illinois and Michigan Canal. They have also sold to Albert P. Stevens, of Joliet, the residence 77 Oak avenue for $14,000; and 900 feet at the southeast corner of Oakley avenue and Columbia terrace to J. Wixom for $10,000. The same firm has also leased twenty-apartments in the new Arlington apartment building at the corner of Grand boulevard and Forty-first street at a rental aggregating $11,000 a year. This property was bought by the firm about two months ago.

The Jenkins tract in the town of Jefferson has been sold to A. Dixon for $900 an acre. The sale includes all but about three acres of the 100 acres comprising the property. The land is located in section four and the north branch of the river runs diagonally through it. It is heavily wooded and is a very picturesque piece of ground. It forms part of what is known as Caldwell's Reserves.

AGAINST THE DEADLY TROLLEY.

The war against the trolley system of electric street railway propulsion is on in good earnest. The proposition to use this system in New York city has stirred up a hornet's nest of opposition to the plan. The Railroad Gazette, in speaking of the matter calls attention to the fact that an electric conduit has been laid in Fulton street which has never been used But one of the same sort is in successful use in Allegheny City. Another is running so successfully in Chicago that it has caused the veto of grants for trolley systems in Philadelphia, and in Chicago it will be extended to replace one of the cable systems. Another conduit system was tried in Boston and removed to make room for the trolley. In Europe there are several conduit systems in operation with good reports of success. All of the advantages of the electric system of street car propulsion are to be had in the conduit system, with not a single one of the disadvantages that we have named for the trolley.

One naturally asks then, why the conduit has not been pushed ahead, and why it is not more used. The answer is simple. It cost three or four times as much, and its use would hamper the formation of street car companies and choke the flow of capital for street transit work. A conduit system used extensively enough to remove all doubt of its entire practicability, and in any place where there is enough traffic to prove its value, would decrease in a considerable degree the number of miles of new street railroad laid per year. Grants for trolley lines would be made even more reluctantly than now if the conduit stood out as a competitor. For all these reasons the conduit has no champion, and will not be used until the public insist upon it.

EXCURSION TO HARVEY.

Fifty thousand circulars accompanied with excursion tickets to Harvey on the Illinois Central R. R., have been distributed among the business houses of the city. A special train will leave the Illinois Central depot at the foot of Randolph street at 2:10 o'clock p. m., and will stop at Van Buren, Twenty-second Thirty-ninth, Hyde Park and Grand Crossing. Harvey is so well and favorably known that it is only necessary to announce an excursion there from the city to secure a good attendance. A man who buys a lot of the Harvey Land Association gets something more than a fee simple title to a small portion of the earth, he gets an undivided moiety in the great industries planted there and the right to enjoy the benefits they give; an undivided and indefeasible interest in the pure water, good government and moral atmosphere which abound there.

CURRENT COMMENT.

The proposition of the Alabama Alliance to refuse to pay taxes because they believe that they were cheated out of the governship of the State, is the nearest approach to organized anarchy that has ever been seen in this country. It is practically an act of defiance against the government which amounts to rebellion. The payment of taxes is irksome at best, and becomes doubly so when those in power are apparently placed there by a fraudulent election; but the remedy under our American institutions does not lie in rebellion or a refusal to pay taxes. The collection of taxes is none the less necessary for the welfare of the people of a State when the officers in power are usurpers than when they are rightly elected. If they are usurpers they may be deposed by resorting to legal proceedings, or by an appeal to the ballot box. The refusal to pay taxes is a weapon which cuts both ways, and would be as dangerous in the hand of the friends as the enemies of any party which should espouse it.

***

The annual sale of property for taxes is now in progress in the County building. To the uninitiated it is surprising that thousands of pieces of real estate are sold each year for the non-payment of a small sum for taxes. In many cases the property is redeemed later on by paying a penalty which goes to the tax buyer. This represents the price the owner has to pay for his neglect or inability to pay the taxes when due. It is probable that a large number of sales are the result of the poverty of owners. Many a lot owner is unable to pay his taxes because unfortunate business investments have made him almost penniless. He finds that the demands for the bare necessities of life and the expenses of maintaining his business through a dull season require more money than he can muster and he is forced to default in the pay ment of his taxes at least temporarily. This ought to be less often the case in Chicago than elsewhere, but the enormous number of subdivision lots sold here helps to keep up the total of tax sales to a surprising figure.

***

The final action of Congress in granting outright an appropriation of $2,500,000 in souvenir silver half dollars to the World's Fair is a substantial victory for the Fair people. The names of the staunch supporters of the appropriation should be perpetuated by some memorial that will last as long as the memory of the Fair itself. As for the filibusterers and sore-heads who opposed the Fair, it is to be hoped that they will receive the just reward of their treachery in the form of speedy retirement to private life. They were beaten despite their success in reducing the appropriation by half. The bill as it now stands is likely to be of far greater benefit to the Fair corporation than would have been a conditional loan of twice the amount. Even now these silver halves are in demand. and it is safe to say that by the time they are issued they can be sold at a high premium—possibly for $1 each. The private subscription to World's Fair stock will aggregate nearly $11,000,000. If $4,000,000 or $5,000,000 can be realized from the souvenir coins, the success of the Exposition from a financial point of view is assured.

***

The historic Dismal Swamp Canal has been sold to Baltimore capitalists for $10,100. This canal connects Elizabeth river, Va., with Pasquotank river, N. C., and is twenty-three miles long. It was projected by the Virginia legislature in 1787 and cost to build nearly $1,500,000 The canal is of great importance to Norfolk, both in affording transportation and for the city's drinking water supply. It is surprising that it should have been sold at such a low figure and to outside capitalists, but it merely illustrates what advantages ready capital can sometimes secure.

***

The investigations now being conducted in the Philadelphia courts into the affairs of the endowment association known as the Iron Hall, bid fair to be of widespread interest. An outline of the plan of these associations is given in another column. The scheme in general may be said to be a speculation on the probable lapses in payments made on the installment plan, the persevering investors reaping the benefit where those who lapse lose what they have paid in. In this way it is proposed to mature bonds or pay other similar benefits to those who hold out to the end. The scheme is a taking one, on paper; but the chief difficulty in its practical operation seems to be that the expenses are out of proportion to the receipts and that the managers have developed an unhappy faculty of diverting large sums into their own pockets. Fortunately, it is possible for legal proceedings to be instituted against these associations, which will compel them to make a clean and thorough showing of their financial standing in a court of law.

***

The construction of a ship canal through Ireland is suggested by Sir Edward Watkin, chairman of the Southeastern Railway, and recently elected to the British Parliament, in order to shorten the passage between England and America. The surveys have been made, and the estimates are that the great work could be completed for $20,000,000, and the distance saved about 500 miles.

WORLD'S FAIR HOTELS.

A SUMMARY OF THE PRINCIPAL ENTERPRISES AS FAR AS REPORTED.

A partial list of World's Fair hotels as projected has been made up and the result shows a total of less than 15,000 rooms Allowing two guests to each room, this would give a capacity of less than 30,000 guests per day provided all these projected enterprises are completed. It is probable, however, that not half of them will be finished. Inasmuch as the attendance at the Fair is estimated at over ten times the number of guests named, it will be seen that the proposed hotel accommodations will be grossly inadequate.

The difficulty with the average hotel scheme is that capitalists can not be induced to invest in a temporary project. They ask in all seriousness, what will become of the hotels after the Fair? They point to the example of Philadelphia, where the drop after the Centennial was perceptibly audible. They shake their heads dubiously and say "No."

The result is that probably half of the projected hotels will never be built. And the remainder will be overcrowded during the Fair. The promoters are wisely planning to turn their buildings into apartment houses as soon as the great Exposition is over. This plan and the fact that doubtless fewer hotels than are needed will be built, will save the completed hotels from disaster both during and after the Fair.

Early in the present year it was announced that 2,500 cottages would be built just south of the World's Fair grounds.

Later, it was reported that a 1,000-room hotel would be built at Seventy-first street and Stony Island avenue by the Jackson Park Hotel company, in which J. L. Jones, M. A. Ives and Frank R. Greene were said to be interested.

At the same time the Jackson Park European Hotel company was reported; capital stock $100,000; incorporators, John H. Earl, F. B. Wyckoff and H. P. Lindsay. They were said to have acquired the property at the southeast corner of Sheridan avenue and Sixty-third street, 100 by 114 feet, on which they contemplated building a five-story hotel at a cost of $60,000.

Louis F. Leland was said to be interested in a proposed hotel at the northwest corner of Grand boulevard and Fifty-first street. The structure was to cover 298 by 150 feet.

Camp Columbia was the reported name of a project for colonizing a 160-acre tract south of Grand Crossing. Here, it was said, 400 to 500 cottages were to be erected

Two hotels were slated for Englewood. One in charge of the officials of the Lake Shore railroad was to be built on State street just south of the Sixty-first street viaduct; another was to be located on the block bounded by Wentworth avenue, La Salle, Sixtieth and Maple streets. The State street structure was to have a frontage of 450 feet and would be a temporary building three stories high,

At South Englewood it was said that S. L. Moser had leased a five-acre block on which he would build a hotel structure for World's Fair purposes. It was also reported that a large portion of the village of Brookline had been leased with buildings complete.

The Imperial Hotel company, under August C. Mills, was announced, who would build a seven-story apartment building on the northwest corner of Fifty-sixth street and Cornell avenue.

Next came the announcement of the Hotel Endeavor, in which T. B. Nisbett is interested. This is a scheme to cater to the national society of Christian Endeavor, and judging from the crowd in attendance at the recent Endeavor meetings in New York, it is likely to be a success. The design is to furnish accommodation for 2,000 guests daily.

The Vesta apartment house, southwest corner of Lake avenue and Thirty-seventh street, was also spoken of in connection with the Fair.

Architect C. L. Stiles was said to be preparing plans for six four-story flats to be erected at the corner of Sixty-fifth street and Hope avenue for T. Benton Leiter. Later, it was said that George K. Jones would build a hotel at Hope avenue and Sixty-fifth street, 70 by 125 feet, three stories high and containing 300 rooms. Also a similar structure at Sixty-sixth place near Stony Island avenue, each of the hotels to cost about $75,000.

About May 25th last Thomas L. Fulton leased to a local syndicate a three-acre block at the northeast corner of Fifty-seventh street and Indiana avenue, 800 by 266 feet, as the site for a hotel and apartment house.

About the same time the Michigan Club House company was incorporated with a capital stock of $350,000 for the purpose of erecting an eight-story hotel in Kenwood. C. S. Holmes and L. A. Haseltine were interested. Their announcement was simultaneous with that of the United States Hotel company, capital $250,000, to build a 1,250-room hotel according to plans by architect S. S. Beman.

Early in June the Standard Hotel company secured a lease of the Mecca apartment house for use as a World's Fair hotel.

Recently, J. B. Frick furnished 188 feet on Woodlawn avenue at the intersection of Midway plaisance for the Cambridge Hotel company as a site for a $200,000 hotel to contain 300 rooms.

The Groveland apartment house, corner of Groveland avenue and Thirty-first street, containing 375 rooms, is to be turned into a World's Fair hotel

Finally, we are told that ex-Governor Beveridge is at the head of a syndicate to build a number of World's Fair hotels on a ten-acre tract at the northeast corner of Seventy-third street and Seipp avenue. And that a company with a capital of $600,000 has been formed to build a hotel in Hyde Park which shall be second to none in the country.

The above is an outline of World's Fair projects as announced through the press. It does not give all or nearly all of the hotels projected, but is sufficient to afford a general idea of the situation. The facts seem to be that not more than half of the hotels proposed will ever be completed, and that even if all of them were built they would still afford but inadequate accommodaaions for the throng of visitors who are sure to be here. The result must be a great crowding of guests into small boarding houses and private dwellings.

REAL ESTATE LAW.

In the case of Woolwine's administrator v. Chesapeake & Ohio railroad, the Supreme Courts of Appeals of West Virginia has decided that the owner of property is not liable for negligence to a mere licensee coming upon the premises.

If one without invitation visits a telegraph office merely for the purpose of paying a friendly call to the operator, which office is owned and occupied by a railroad company for its own purposes and convenience, and which is located on its land and near its track, from which occasional messages are sent and received for outside parties for pay, no duty is imposed upon the owner or occupant to keep its premises in safe and suitable condition for such visitor, and he is only liable for wilful or wanton injury by the gross negligence of its agents or employes. In Sweeney v. Railroad Co., 10 Allen. 368, Bigelow, C J. said: "In order to maintain an action for an injury to person or property by reason of negligence or want of due care there must be shown to exist some obligation or duty toward the plaintiff which the defendant has left undischarged or unfulfilled. This is the basis on which the cause of action rests. There can be no fault or negligence or breach of duty where there is no act or service or contract which a party is bound to perform or fulfill. All the cases in the books in which a party is sought to be discharged on the ground that he has caused a way or other place to be incumbered, or suffered it to be in dangerous condition, whereby accident and injury have been occasioned to another, turn on the principle that negligence consists in doing or omitting to do an act by which a legal duty has been violated. Thus a trespasser who comes on the land of another without right can not maintain an action if he runs against a barrier or falls into an excavation there situated. The owner of land is not bound to protect or provide safeguards for wrong-doers. So, a licensee who enters on premises by permission only, without any enticement, allurement or inducement being held out to him by the owner or occupant, can not recover damages for injuries caused by obstructions or pitfalls. He goes there at his own risk and enjoys the license subject to its concomitant perils. No duty is imposed by law on the owner or occupant to keep his premises in a suitable condition for those who come there solely for their own convenience or pleasure."

LIBERALITY IN THE CONSTRUCTION OF WILLS.

There is no better example of the manner in which the courts have, in modern times, sought to set aside all technical difficulties in the way of making law keep pace with the changing conditions of litigants, than the principles which now prevail with respect to the construction of wills. The reports of ancient cases upon this subject frequently bristle with precedents cited as authorities governing the questions for decision. Now, however, the originality surrounding testators, their respective intentions, properties and circumstances, is fully recognized; previous decisions, unless actually in point, are disregarded, and that construction which appears most in accordance with the intention of the testator is adopted as far as is consistent with the words of the will. In this way technicalities are avoided, broad views prevail, and full justice is done. Thus for example, it was held in Mannon v. Greener, 27 L. T. Rep N. S. 408; L Rep 14 Eq 456, that a device of the income of the testator's real property passed the fee. And in the recent case of Re Martin (deceased); Martin v. Martin (noted post, p. 223). before Mr. Justice North, a further step was made in the right direction when it was decided by his lordship, that a device and bequest by a testator, a grocer by trade, of the rents and profits derived from his business of whatever nature or kind, passed the business with the freehold grocer's shop mentioned in the will where the business was carried on. But let not such excellent decisions encourage unqualified persons to attempt to make

their own wills, since in this very case the testator, besides bringing on his family the costs of a chancery action, failed to dispose by will of the rest of his freehold estate.

AN IMPORTANT DECISION AS TO THE VALIDITY OF A CHATTEL MORTGAGE.

In Silvis v. Anltman & Co., the Supreme Court of Illinois has held that a chattel mortgage securing a note or other debt which did not mature until after the expiration of two years from the time of recovering the same, was void and illegal. Under the revised statutes of 1845, a chattel mortgage securing a note or other debt which did not mature until after the expiration of two years from the time of recording the same, was good and valid for two years, though it authorized the mortgagor to retain possession of the mortgaged property until defanlt in payment. But the mortgage act of 1874 as amended in 1887 provides that a chattel mortgage shall be valid from the time it is filed for record until the maturity of the entire debt or obligation, "provided such time shall not exceed two years." The words "such time" refer to the period between the time of filing the mortgage for record and the maturity of the entire debt, or all the notes secured by the mortgage; and the proviso qualifies the statement that the mortgage shall be valid for the period aforesaid, and restrains or limits the generality of such statement to cases where such period shall not exceed two years. The length of time, during which the mortgage shall be valid, is the period that may elapse between the filing of it for record and the maturity of the whole debt, if such period shall not exceed two years. If some of the notes secured do not mature until after two years from the recovery of the mortgage, it will be invalid as against creditors and purchasers of the mortgagor even as to those falling due within the period of two years. In the case under consideration, a chattel mortgage was given on August 1, 1887 to secure a debt of $1,941.25 from the mortgagor to the mortgagee, evidenced by five notes all of the same date with the mortgage, the first for $250, payable Dec. 1, 1887; one for $425, payable Dec. 1, 1888; one for $428, payable Dec. 1. 1890, and one for $416 25. Dec. 1, 1891. The mortgage gave the mortgagee the right to retain possession until default of payment, but the mortgagor might take possession if he should feel insecure, etc. The mortgage was recorded Oct. 3, 1887, and the two first notes were paid on Aug 1, 1889, an execution against the mortgagor was levied upon the mortgaged chattels. Held, that the mortgage was invalid and fraudulent in law as against the execution creditors making the levy.

ADVERSE POSSESSION OF LAND FOR TWENTY YEARS A BAR UNDER THE STATUTE OF LIMITATION.

Adverse possession of land for the period of twenty years, even without any deed or other muniment of title, will bar an action by the owner for its recovery.

The open, visible and adverse possession of land by one tenant in common, under claim of ownership, for over twenty years, is a bar to a bill by another tenant in common for partition, when such possession was so hostile in its character as to put the Statute of Limitations in motion against the complainant. (Littlejohn v. Barnes. Ill Sup Ct, Nov 2, '91. 138 Ill, 478.)

WHAT CONSTITUTES A WAIVER OF A MECHANIC'S LIEN.

The taking of other security, either on property or that of individuals not parties to the transaction, will discharge or waive a mechanic's lien. So the debtor's note with a guaranty of its payment by a third person, the lien will be waived.

RIGHTS OF MUNICIPALITY AS TO SPECIAL ASSESSMENTS.

Under the statute, the city councils in cities and the boards of trustees in villages, and they alone, are clothed with power to determine what the nature and character of the improvement of streets shall be. On an application for the confirmation of a special assessment for paving a street, evidence that the street might be better improved by the use of other materials, and at less cost and expense, is inadmissible. On such application, if the proper steps have been taken, the only question to be determined is, whether the premises of the objector are assessed more or less than they will be benefited, or more than their proportionate share of the cost of improvement. (Cram v City of Chicago. Ill Sup Ct, Oct 31, 91. 138 Ill, 506.)

PLANS BY ARCHITECTS.

Architects J. E. Scheller & Co. have planned for M. C. Scott and James Derrig a three-story stone front flat building, 50x70, to be built at 999 Warren avenue; cost, $20,000. Also for Mrs. Cady a three-story flat building to be erected on Park avenue, near Oakley street. Pressed brick construction; cost, $8,000. For W. B. Wall a two-story frame residence at Oak Park; cost, $4,000. Also two frame residences for E. S. Geary at Wheaton, to cost $4,000 each. For J. Arthur Young a three-story flat building to be built on Woodlawn avenue, between Sixty-first and Sixty-second streets. Pressed brick and stone construction; cost, $20,000. For himself he has planned a two-story stone front flat building to be erected on Adams street, between Homan and Kedzie avenues; cost, $8,000.

Architects Reeves, Davis & Co. have planned a two-story basement and attic residence, 35x50, to be built at Riverside by E. R. Swift; cost, $6,000.

Architect C. A. Weary has designed for George E. Jones a three-story and cellar brick stable, 35x45, to be erected in the rear of his residence at Prairie avenue and Twenty-second street; cost, $6,000.

Architects Ostling Bros. have completed plans for a three-story stone front store and flat building, 25x84, to be erected on Halsted street, between Fifty-sixth and Fifty-seventh streets, by P. Wilson; cost, $17,000. For Mrs. Hilda Lilja they have planned a four-story and basement flat building, 30x50, to be erected at 475 Belden avenue; cost, $10,000.

Architects Flanders & Zimmermann have planned for E. K. Boyd a six story apartment house, 63x37, to be erected at the southwest corner of Fifty-seventh street and Madison avenue; cost, $25,000. For W. G. Press they have designed a four-story flat building, 63x100, to be built on Sixty-third street, near Oglesby avenue. Pressed brick and stone construction; cost, $50,000.

Architect H. B. Wheelock has planned a transfer elevator to be built at Auburn by the Wabash Railroad. It will be 40x150, and will have a capacity of 125,000 bushels; cost, $45,000. For F. J. Schmidt he has planned a two-story residence, 30x60, to be erected on Ovington avenue in Evanston. It will be of frame; cost, $6,000. He is also planning a four-story store, 150x150, to be built at Evansville; cost, $85,000.

Architects Kleinpell & Borst have planned for W. C. Foley a three-story and basement residence, to be built at the southeast corner of Grand boulevard and Boulevard place. The first story will be of stone, and above this Roman brick will be used. The interior will be finished in hardwood and heated by steam or hot water.

C. M. Palmer has planned for Charles J. Wenderoth a three-story stone front residence to be built at 554 Dearborn avenue at a cost of $20,000.

Architect J. E. O. Pridmore has planned for L. E. Martin & Co. three two-story and basement residences, 50x70, to be erected on Kenwood place, near Grand boulevard. The fronts will be of stone, while the interiors will be finished in hardwood and heated by furnaces; cost, $15,000.

The new building now in process of construction by L. Z. Leiter on Van Buren street between State street and Wabash avenue, will be ten stories high and cost $200,000. It will be completed and ready for occupancy by May 1, 1893.

Philpot & Co. will erect a seven story hotel at Nos. 38 to 42 Thirteenth street at a cost of $70,000.

Frank I. Bennett & Co., who have recently built a number of houses at South Kenwood, have had plans prepared for twenty-one others to be erected in the same vicinity. They will be built on Jeffrey and Ellington avenues and Kenwood terrace. The houses will be two stories high and will have frontages of twenty feet and a depth of from forty to fifty feet. The exteriors will be of attractive designs, some being of frame and others of brick. They will contain nine and ten rooms and will be finished in oak, Georgia pine and cypress. The cost is estimated at $65,000.

It is reported that an annual rental of $8,500 has been offered for a corner store 14 by 20 feet in the new Hartford building now in course of construction at the southwest corner of Dearborn and Madison streets. This is at the rate of over $30 a square foot, and if the report is correct is the highest offer ever made for store property in Chicago. It will be remembered that the entire ground floor of this building was leased to one firm at a rental of over $40,000 a year, which is at the rate of over $10 a square foot, which was considered a phenomenally high rental.

EPITOME OF NEW INDUSTRIES.

ARKANSAS.

Little Rock. C. M. Butler will build a warehouse 40x200 feet.

KENTUCKY.

An iron foundry will be built at Bardwell by R. J. Biggs. —It is reported that a creamery will be erected at Carrollton.—Glasgow. The Catholics will build a church.—The Glasgow Handle Factory will be operated by C. E. Carpenter.—Lexington. A company has been organized with W. L. Threkeld, president, to erect a three or four-story college building 67x247 feet. The capital stock is $55,000. —The Kirker-Bender Fire Escape Company has been incorporated at Louisville. Capital stock $100,000.—A pearl button company has been incorporated at Newport. Capital stock $25,000. Incorporators: Wm. H. McKenny, Edward H. Lovell and others.—A saw mill will be started at Pineville by John Falkner, of Campbellsville.—A foundry and machine shop may be established at Princeton by the Mason & Ford Company, of Eddyville.

LOUISIANA.

A party of New York capitalists have interested themselves in the project of establishing a large hotel at New Orleans, and have sent their agent, Mr. J. S. Gonzalez, a prominent New York architect, to that city for the purpose of selecting a suitable site and securing options on the property thereon. No definite arrangements have been completed as yet, but there is little doubt that very shortly New Orleans will be able to boast of having one of the finest and most costly hotels in the country.

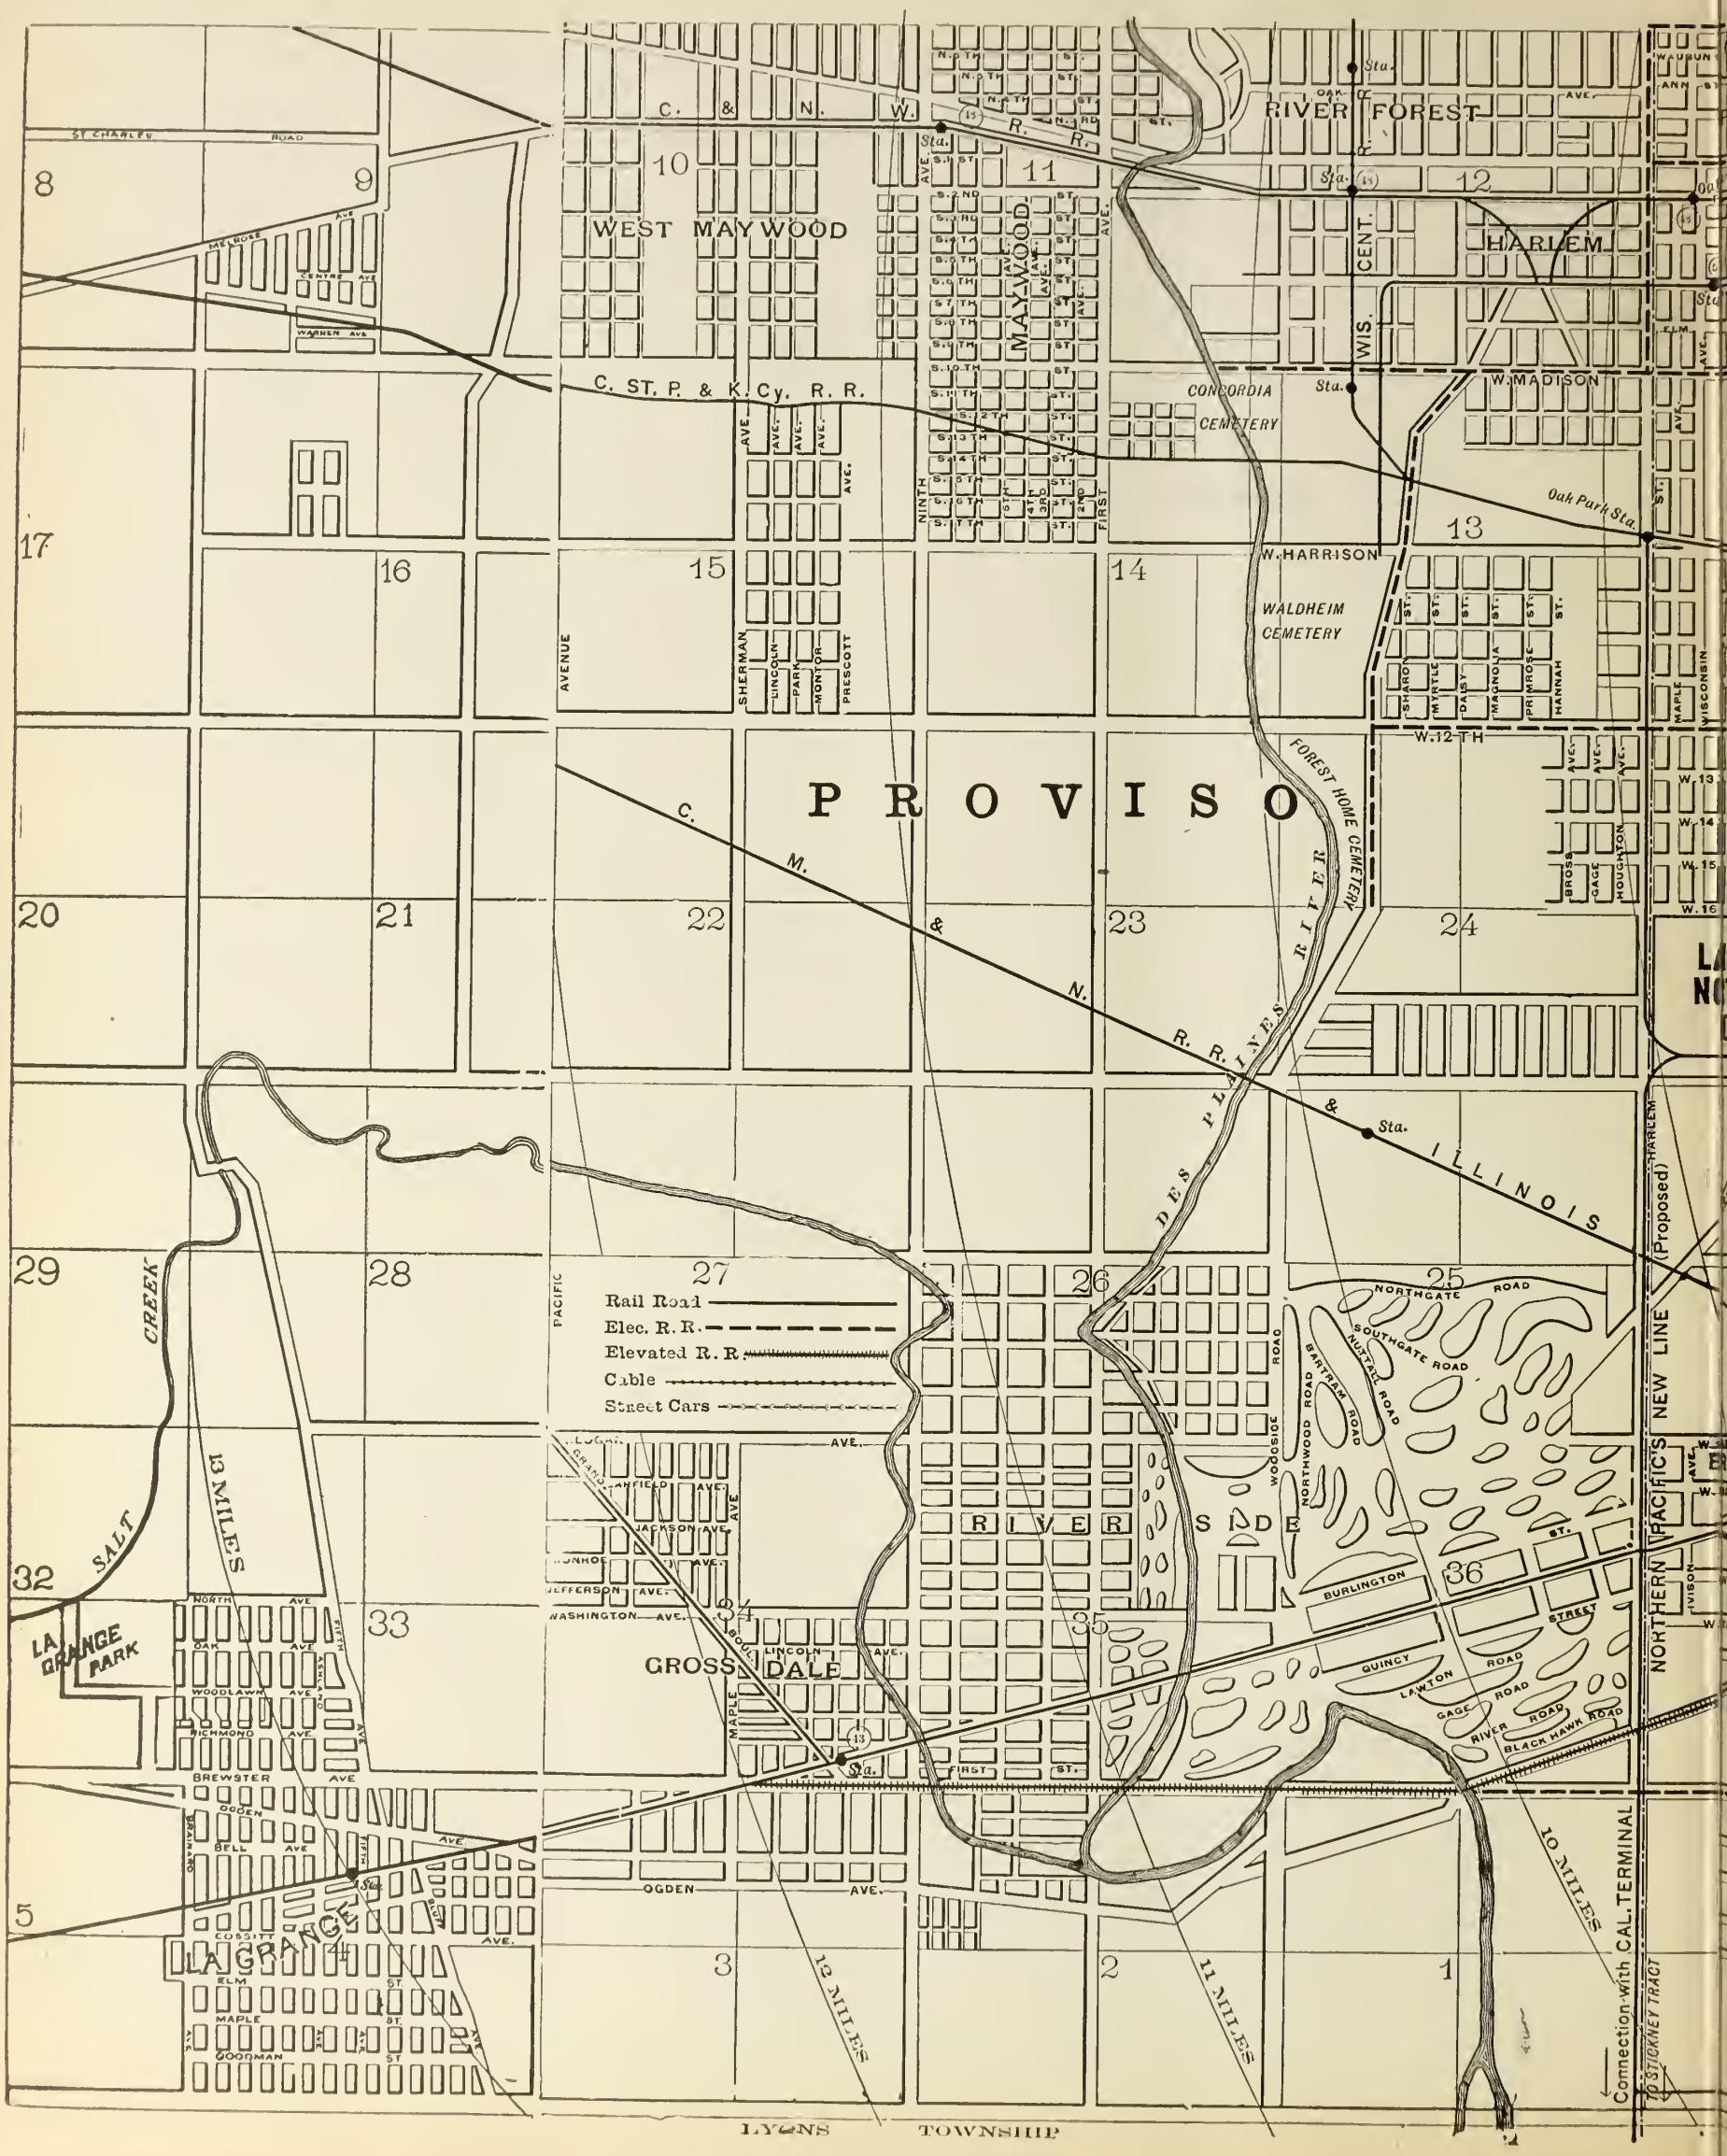
MARYLAND.

Baltimore. Martine & Co., Glenn building, are promoting a project to build a $1,000,000 hotel.—Baltimore. M. Cox will erect a four-story brick warehouse.—Baltimore. J. C. Riley, Sr., has contract for the seven-story building 78x150 feet for Sharp & Dohme. J. C. Riley, Jr., prepared the plans.—Baltimore. The Frohsinn Singing Society will erect a $10,000 hall building.—Baltimore. The city has awarded contract to C. Sheehan at $30,445 for erecting a public building in Patterson Park.—Baltimore. The Drovers and Mechanics' Bank has accepted the plans of Joseph E. Sperry for its new building. The structure will be six stories 57x91 feet, with an annex, and the probable cost is $150,000.—Cambridge. A new hotel will probably be built. J. T. George can give information.—Hagerstown. Contract has been let for an Episcopal rectory to be three stories high and cost about $8,000. T. B. Chigure, of Baltimore, prepared plans.—Mountain Lake Park. A stock company will be formed to build a $30,000 hotel.

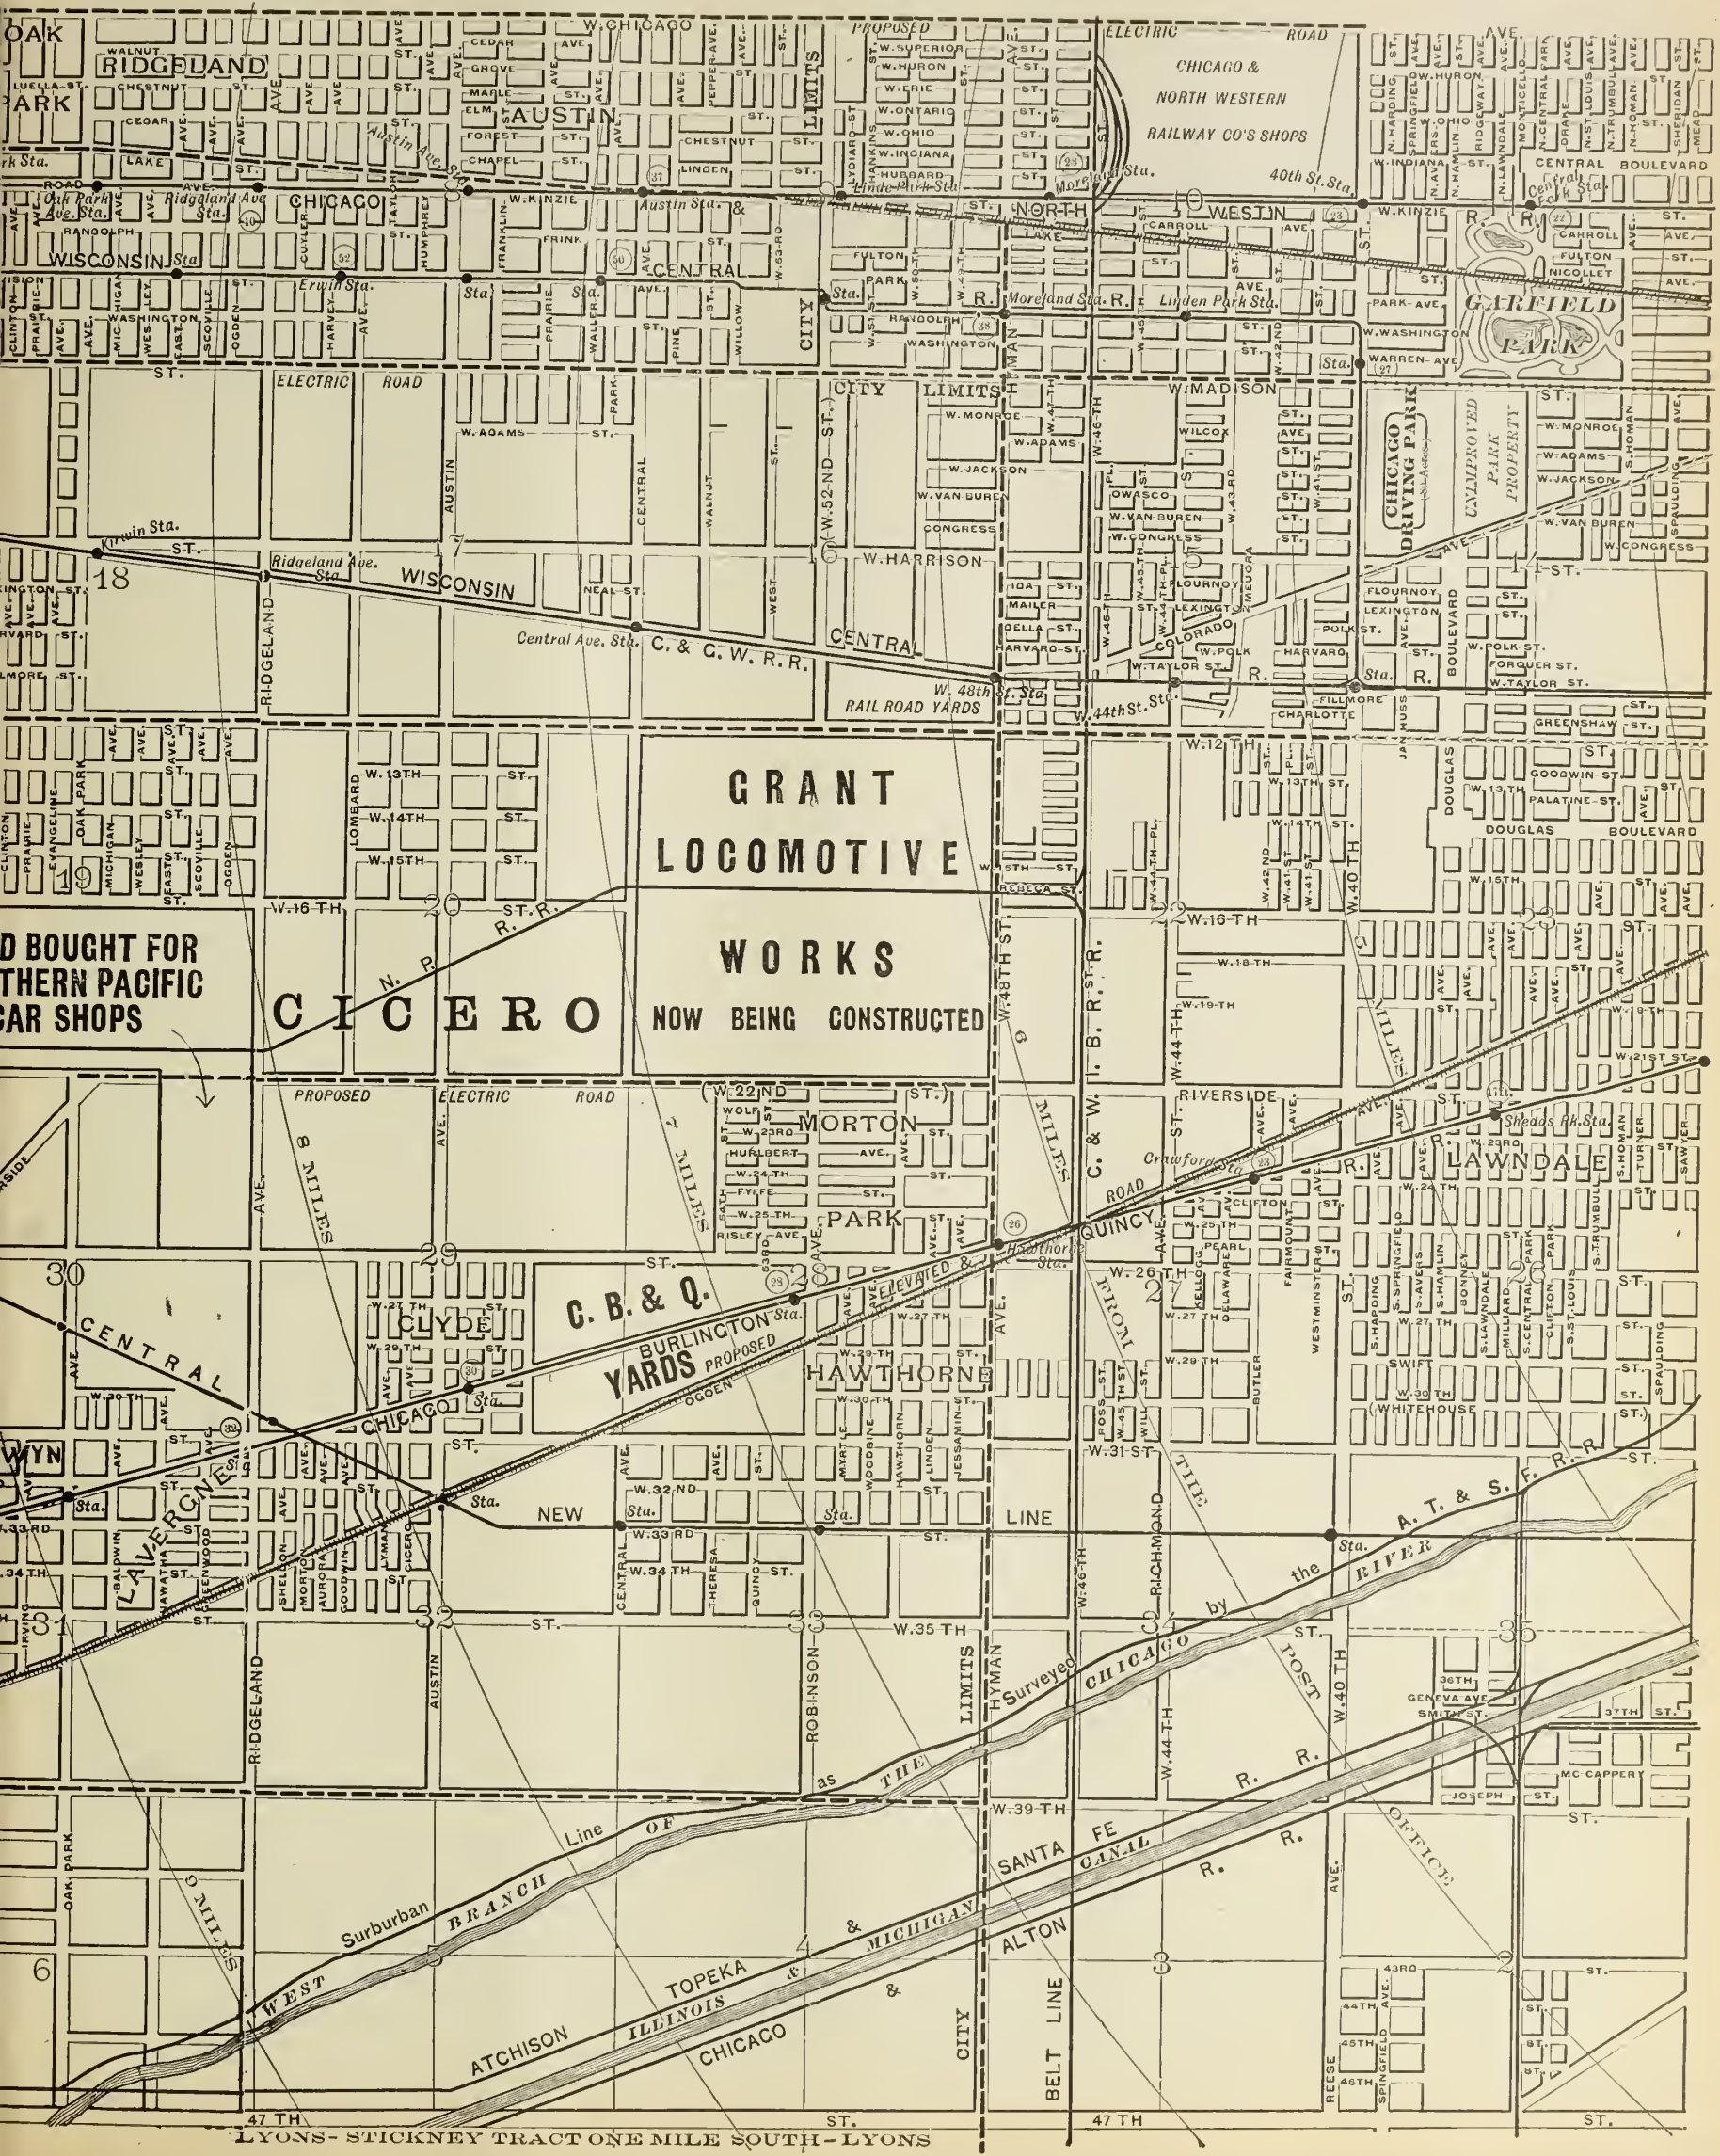
NORTH CAROLINA.

A $10,000 spindle cotton mill will be erected at Charlotte. Address D. A. Tompkins.—A company will be organized at Concord to establish a $15,000 roller flour mill. For further information apply to Giles T. Crowell.—Morehead City. The Ocean View Hotel Co. has been chartered by William Dunn, W. S. Chadwick, Dr. F. Duffy and others to build a large hotel on the surf side of Bogue Banks opposite Morehead City. The apital stock is $150,000.—J. C. Ross, of Roxboro will change his flouring mill to the roller system, and put in new water wheels.—A tobacco factory will be erected at Winston by Thomas Farrow.—Winston. The Lutherans will build a $7,000 church.

TENNESSEE.



A rolling mill may be built at Chattanooga. James McCoy, of Harriman, can give the necessary information.—Brick works may be started at Dryton. Address P. L. Lambert.—New machinery will be put in the Hassler mill at Harriman. Apply to Daniel Denny.—It is reported that new waterworks will be constructed at Knoxville.—Knoxville. The Circle Park Land Co. has, it is stated, arranged for the erection of a $100,000 college in West Knoxville.—T. J. Pyron will erect a 30-barrel flour mill at Monse Creek.—It is reported that a canning factory will be established at Sharon. For information apply to Russell Dent & Co.—Sweetwater. Altison & Co., of Knoxville, have contract for the addition to the Sweetwater Seminary. Heating apparatus, etc., will be put in, and the cost will be from $12,000 to $15,000.—The Tennessee Spoke Factory at Union City will be enlarged. W. H. Gardner can give information.



VIRGINIA.

Clifton Forge intends providing that place with a sewerage system. Councilman Parker can give the necessary information.—Clifton Forge. The Baptists have secured a site on which to build a church to cost from $10,000 to $15,000. Rev. J. R. Fizer can give particulars.—An electric light plant will be erected by the town of Front Royal. —A saw mill will be built at Hill Grove by W. W. Moses.—Lawrenceville. R. H. Sims will receive bids until August 16 for the erection of a two-story fire proof brick office building 22x54 feet for Brunswick county.—Newport News. Eastman & Son have been awarded contract at $16,000 for the erection of a three-story brick and stone business building for Dr. A. C. Jones.—Newport News. E. T. Ivy, referred to in last issue, will erect a three-story brick and stone hotel 75x60 feet. Teagne & Marye are the architects and the cost will be $15,000.—The grain elevator will be rebuilt at Richmond by the Chesapeake & Ohio Railroad Company.—Roanoke. Noland & de Sansoure are preparing plans for a three-story office and business building to be erected on Campbell street.—A company has been formed to establish a canning factory at Winchester. Capital stock $10,000. For information write to F. K. Cartmell.

WEST VIRGINIA.

Bluefield. The erection of a building for municipal purposes is contemplated. J. M. Sanders, mayor, can be addressed.—The handle factory at Central City will be enlarged. Address Hartzell, Caldwell & Marr.—Huntington. Benjamin Frieberg. of Cincinnati, Ohio, will probably erect several business buildings in Huntington.—A gas plant will be located at Mannington. Capital stock $100,000. Address Wm. Burt.—Marlinton. The Pocahontas Development Co. is preparing to erect a two-story court house 40x60 feet.—Morgantown. Contract has been let to Higgs & Calderwood, of Charleston, at $30,349, for the large three-story building for the scientific department of the University of West Virginia, lately noted. Joseph E. Sperry, of Baltimore, is architect.—A plant will be erected for manufacturing tool works. Apply to the Warwood Tool Company, Wheeling.

SPECIAL ASSESSMENT REBATE LIST

REBATES NOT YET FULLY PAID, SPECIALLY REPORTED FOR THE REAL ESTATE AND BUILDING JOURNAL.

The following is a list of special assessment warrants on which rebates are now due. Owners will find in many cases that rebates have been paid them on these assessments, and if on examination of their receipts this is found to be the case, they will save themselves disappointment and the department an noyance by not calling a second time. Owners who have received no rebate on the warrants listed below can obtain the same by calling at Room 50, City Hall. Take along your receipts.

A CHOICE LIST OF SUMMER RESORTS.

In the Lake regions of Wisconsin, Northern Michigan, Minnesota, Iowa, and the two Dakotas, there are hundreds of charming localities pre-eminently fitted for summer homes. Among the following selected list are names familiar to many of our readersas the perfection of Northern summer resorts. Nearly all of the Wisconsin points of interest are within a short distance from Chicago or Milwaukee and none of them are so far away from the "busy marts of civilization" that they can not be reached in a few hours of travel by frequent trains over the finest roads in the northwest—the Chicago, Milwaukee & St. Paul Railway, and Milwaukee & Northern Railroad:

Oconomowoc, Wis,	Clear Lake, Ia.
Minocqua, Wis.	Lakes Okoboji, Ia.
Waukesha, Wis.	Spirit Lake, Ia.
Palmyra, Wis	Frontenac, Minn.
Tomahawk Lakes, Wis.	Lake Minnetonka Minn.
Lakeside, Wis.	Ortonville, Minn.
Kilbourn City, Wis. (Dells of the Wisconsin)	Prior Lake Minn
	White Bear Lake, Minn.
Beaver Dam, Wis.	Lake Madison, So Dakota.
Madison, Wis.	
Delavan, Wis.	Big Stone Lake, So. Dakota.
Sparta, Wis.	
Pewaukee, Wis.	Elhart Lake, Wis.
Wausaukee, Wis.	Ontonagon, Mich.
Marquette, Mich.	Muckinaw, Mich.

For detailed information apply to any coupon ticket agent, or send stamp for a free illustrated tourist folder to Geo. H. Heafford, General Passenger Agent, Chicago, Ill.
